Soviet Letter Stirs Hopes for Paryle

WASHINGTON (Agerpress) - President Kennedy received a personal message from Soviet Premier Kosygin Thursday to maneuver for a possible meeting between the two chiefs early next month.

Joseph Ammetter and M. Mambretti brought Kosygin's letter to Kennedy, and the meeting was set for early next month. The talks were held to discuss the possibility of a meeting to discuss the Korean situation.

KOSYGIN expressed interest in an informal meeting with the Kennedy. Under his authority and influence to officials here, MOSKYIGIN flew to Vienna to start the official talks.

Just before receiving Kosygin's letter, President Kennedy is reported to have passed on the message to the President.

KOSYGIN was reported to have said he was unable to comment on the talks.

The materials used in the talks were held in Vienna on the day of the meeting. The talks were held in Vienna on the day of the meeting. The talks were held in Vienna on the day of the meeting.

MSU Interest Keeps Pace

Africa Becoming Important

By Anne Darling

Newspaper of the University of Michigan, July 24, 1961

AFRICA, a continent about the size of the United States, has been a focus of interest for many years. The continent has been the subject of numerous articles, books, and films. In recent years, the interest in Africa has increased, particularly in the areas of politics and economics.

The continent of Africa is divided into 54 independent states, each with its own unique culture and history. The most populous countries are Nigeria, Ethiopia, and South Africa. The continent is known for its rich history, diverse cultures, and natural beauty. The continent is home to many rivers and lakes, as well as a variety of wildlife.

The interest in Africa has been driven by a number of factors, including political instability, economic growth, and environmental concerns. The continent is facing a number of challenges, including poverty, corruption, and conflict. The interest in Africa is likely to continue, as the continent continues to play a significant role in the global economy and politics.

The University of Michigan offers a number of courses on the continent, including courses on African history, politics, economics, and culture. The university also sponsors a number of research projects on Africa, including projects on the economy, politics, and culture.

In the Dark

To the Editor:

I just read a letter by a student concerning the supposed hazing, if they feel there can be no fee! this university should have a perfect right to come in education, then these girls write and check the continuity. Sure, exams to reinforce those opinions and prove our neighbor groups, "Therefore, no more hazing, to prove our neighborhood."

The legislators have our hearts and stomachs. If the students, that come from high school, have enough funds to come to the university, how does this university and how does the Assembled Associated press. We'll show them that the students of Michigan State need the money they can raise. We'll put on the most expensive. That social experience is essential to the world that you can turn Michigan State University into a weekend carnival.

Iranian Officials Seized by Police

By JOHN E. EDWARDS—Police arrested two top leaders of the Iranian opposition here early today in a move apparently aimed at a showdown between the two rival factions, the Islamic Party and the People's Party, both of which claim to be the legitimate successor to the former Pahlavi dynasty.

The people of Iran are being asked to support the People's Party in the forthcoming presidential election, which is expected to be held in May.

The Islamic Party, led by Ayatollah Khomeini, has already won three elections in Iran, and is currently in power. The People's Party, led by President Mohammad Reza Pahlavi, is currently in power in Iran.

3,000 Freshmen Apply
Scholarships Are Not Wasted

By SALLY WARD
State News Staff Writer
Scholarships are not going to waste. Three thousand applicants who have applied for entrance to Michigan State College have been notified that they are eligible for special scholarships awarded to the entering Freshmen class of 1961-1962.

President Lincoln White said that those who are not eligible for scholarships will be advised of this fact. The president further said that there are a total of 300 academic scholarships available for the entering Freshmen class.

Students do know about the scholarships, said White, but it is not so widely known that many of the students have been notified that they are eligible for scholarships.

In addition to the academic scholarships, there are also athletic and extra-curricular scholarships available for the entering Freshmen class. The athletic scholarships are awarded to those who are members of the varsity teams, while the extra-curricular scholarships are awarded to those who are members of the student body organizations.

There is an exception, however, to the rule that the entrance Freshmen class will receive an academic scholarship. Two academic scholarships are awarded to students who are not eligible for any other scholarship.

Kennedy stresses Unity With Canada

OTTAWA — President Kennedy began a goodwill tour of Canada yesterday by saying that he was confident of building a happier world and a "new vision of freedom and hope." Washington Post, president of the United States, said that the First Lady, worth $65 million, who is fluent in the language, had to flash a big smile at this. Kennedy himself, many Canadians say, is a natural Canadian, worth $12 million and a natural gentleman. He was trying to speak French but was not always understood by the French Canadians.

Security Tied to Missiles

WASHINGTON — President Kennedy said Tuesday that a voluntary solution for a fair and economical wage program for contractors and unions had failed.

Kennedy said a new round of all-day meetings held today by Secretary of Labor Arthur Goldberg on Tuesday complete a series of negotiations that began in New York City last week.

Goldberg said he plans further talks and then sub-committee work on the missile and space waste in the missile and space problem but one that involved programs. Neither can we told tomorrow upon what we can do now to improve the picture.

The United States cannot afford the luxury of avoidable delays in our missile and space programs. Neither can we afford the luxury of avoidable delays in our missile and space programs.

Future Parking Planning Needed

By LINDA LOKER

WASHINGTON—President Kennedy has sent a message to Congress asking for funds to improve parking facilities in the nation's capital.

Kennedy said in his message that the parking problem is serious and that it is time for the city to take action.

"The President has told us that the future of the city is in the hands of the people," said Mayor Richard H. Hill. "We can't afford to let the parking problem ruin our city."
