U.S. Cuts Trade With Commies To $90,700

WASHINGTON—The Commerce Department said Thursday that the value of goods shipped to the Soviet Bloc fell to $90,700 in the first quarter of 1961 from $1,100,000 in the fourth quarter of 1960. The drop was attributed to the international tension over Berlin.

For the entire July-September quarter, the Commerce Department reported, licenses totaled $132,300,000, slightly above the $124,400,000 for the April-June total of $128,300,000.

The agreement provides for goods which would boost its war-making potential.
