City Plans New Bridge Over Cedar

The city of East Lansing is now considering a proposal to discuss a bridge across the Cedar River in the city. The proposal was announced by Mayor John Smith at the city council meeting Monday night.

The city council will meet again this evening to discuss the proposal further. The meeting will begin at 8 p.m. at City Hall.
Africans Hurry To Bridge Gap

Africa is in a quandary in its problems. It is faced with two major problems: the need to gain independence and development, and the need to maintain cultural identity and tradition.

"If the African is to survive, he must develop a language and a system of education that is both independent and modern," said the ambassador. "We must learn to speak our own language and to use it in our daily lives.

"We must also learn to read and write in our own language, so that we can express our thoughts and ideas. We cannot continue to use the language of the colonizers.

"We must also develop our own system of education, so that we can train our own people to lead us to independence. We cannot continue to rely on the colonizers to educate us.

"We must also develop our own economy, so that we can produce our own goods and services. We cannot continue to rely on the colonizers to provide us with everything.

"We must also develop our own culture, so that we can preserve our traditions and heritage. We cannot continue to rely on the colonizers to dictate our culture.

"We must also develop our own political system, so that we can govern ourselves. We cannot continue to rely on the colonizers to govern us.

"We must also develop our own military, so that we can defend ourselves. We cannot continue to rely on the colonizers to defend us.

"We must also develop our own health care, so that we can take care of our own people. We cannot continue to rely on the colonizers to take care of us.

"We must also develop our own education, so that we can educate our own children. We cannot continue to rely on the colonizers to educate our children.

"We must also develop our own science, so that we can make our own discoveries. We cannot continue to rely on the colonizers to make our discoveries.

"We must also develop our own technology, so that we can develop our own industries. We cannot continue to rely on the colonizers to develop our industries.

"We must also develop our own agriculture, so that we can feed our own people. We cannot continue to rely on the colonizers to feed our people.

"We must also develop our own art, so that we can express our own emotions. We cannot continue to rely on the colonizers to express our emotions.

"We must also develop our own music, so that we can express our own feelings. We cannot continue to rely on the colonizers to express our feelings.

"We must also develop our own religion, so that we can worship our own gods. We cannot continue to rely on the colonizers to worship our gods.

"We must also develop our own language, so that we can express our own thoughts. We cannot continue to rely on the colonizers to express our thoughts.

"We must also develop our own literature, so that we can express our own ideas. We cannot continue to rely on the colonizers to express our ideas.

"We must also develop our own cinema, so that we can express our own stories. We cannot continue to rely on the colonizers to express our stories.

"We must also develop our own television, so that we can express our own ideas. We cannot continue to rely on the colonizers to express our ideas.

"We must also develop our own radio, so that we can express our own ideas. We cannot continue to rely on the colonizers to express our ideas.

"We must also develop our own newspapers, so that we can express our own ideas. We cannot continue to rely on the colonizers to express our ideas.

"We must also develop our own magazines, so that we can express our own ideas. We cannot continue to rely on the colonizers to express our ideas.

"We must also develop our own books, so that we can express our own ideas. We cannot continue to rely on the colonizers to express our ideas.

"We must also develop our own museums, so that we can express our own history. We cannot continue to rely on the colonizers to express our history.

"We must also develop our own libraries, so that we can express our own knowledge. We cannot continue to rely on the colonizers to express our knowledge.

"We must also develop our own schools, so that we can educate our own children. We cannot continue to rely on the colonizers to educate our children.

"We must also develop our own hospitals, so that we can care for our own patients. We cannot continue to rely on the colonizers to care for our patients.

"We must also develop our own universities, so that we can conduct our own research. We cannot continue to rely on the colonizers to conduct our research.

"We must also develop our own colleges, so that we can train our own teachers. We cannot continue to rely on the colonizers to train our teachers.

"We must also develop our own technical schools, so that we can train our own technicians. We cannot continue to rely on the colonizers to train our technicians.

"We must also develop our own vocational schools, so that we can train our own workers. We cannot continue to rely on the colonizers to train our workers.

"We must also develop our own trade unions, so that we can organize our workers. We cannot continue to rely on the colonizers to organize our workers.

"We must also develop our own political parties, so that we can lead our own people. We cannot continue to rely on the colonizers to lead our people.

"We must also develop our own associations, so that we can work together. We cannot continue to rely on the colonizers to work together.

"We must also develop our own organizations, so that we can work together. We cannot continue to rely on the colonizers to work together.

"We must also develop our own businesses, so that we can work together. We cannot continue to rely on the colonizers to work together.

Wilde's Life Discussed

BY JACKIE KORONA

Of the State News Staff

Blood, baton, and band were all mixed into a two and a half hour, seventeen show Friday night at Michigan Memorial Union's Tamarack Room, featuring Irish actor and author, Patrick MacLiammoir, noted Irish author, producer, and director. MacLiammoir presented the gory details of his own life and career in a one-hour biography lecture with the author's infallible acting and memory work. Among the many highlights of wild life and work stories was the time MacLiammoir's manager had given permission for photographers to work backstage during the performance as she effectively portrayed the part of a concubine and mother figure in a long movie that could keep the audience throughout the whole performance.

 movie Review

'Spartacus,' Action Packed

BY CURT RUNDALL

State News Feature Editor

For those who enjoy action packed movies with fine acting and a suspense filled plot, "Spartacus," is a must. The story of a slave rising in Rome, led by gladiatorial school, gained popularity among the movie-goers by its brilliant concept and superior quality from its simplicity. The story line is played throughout the entire film by Kirk Douglas. Kirk Douglas has emerged as a popular actor in his role in "Spartacus," and though there were no pictures during the show, the producer was happy with the audience, even though an occasional word escaped them. Adding wit and humor to the suspense filled plot was the actor who was to become the director of Rome. He coming and going during the film and instilled fear amongst the slave army of "Spartacus." During the film, Stewards of the gladiatorial school, the first impression he gained was that of a vicious character who was to be a poor man for a plot. As the show progressed, however, he became the leader of the slave army, proving to be a wise leader for the people in the showing of the film. Kirk Douglas also portrayed the part of a slave in a suspense filled plot.

Nat Sci Tries New Program

The entire natural sciences program at Michigan State University is being

revised to meet student demands for a more interesting approach to

learning. The new approach is being tested in a class of 50 students,

who are members of the College of Science and Letters.

The main feature of the new approach is the use of television for

reinforcement. A student reads a question and then is given a

choice of three answers from which he must select the correct one.

If the answer is wrong the student is told to turn back to the

question. If he picks the right answer the student is given another question and

the process is repeated. The test allows the student to work at his own pace

and short courses will also be available for individual

pacing, he said.

The classroom pattern of reading and questions will still

continue to be used. In addition, the television will be

used to show slides and short films.

At the end of the first week of testing, the

methods were changed to allow students to

revise the methods. The new method was found to be

more successful.

For More Food, Clothing
Soviet Hopes High

MOSCOW—By the time the 1963 crops are harvested, the Soviet Union probably will have moved toward self-sufficiency in food. This has been the declared aim of farm reform, and this year soybeans, corn, grain, potatoes, sugar beets, flax and cotton are expected to reach new highs.

"The weather has been favorable for the harvest and we expect that yields will be good," a government spokesman said.

"With such a harvest, the Soviet Union will be able to continue the policies of the past few years, which have been aimed at increasing the country's agricultural output," he said.

The spokesman said that the government was planning to increase the number of farms and the number of farmers, and to improve the efficiency of farming.

Hoffa Files Lawsuit Against AFL-CIO

DETROIT—A million dollar libel and slander suit was brought by James J. Hoffa against the AFL-CIO and its president, David Dubinsky.

The suit, filed in the U.S. District Court here, charges that the AFL-CIO and Dubinsky defamed Hoffa in a speech made in December 1962.

The suit seeks $1 million in damages.

Hoffa, a member of the Teamsters Union, claimed that the AFL-CIO and Dubinsky had defamed him in a speech.

Hoffa said he had been defamed because he had refused to support the AFL-CIO's candidate for president of the American Federation of Labor.

Dubinsky had accused Hoffa of being a "traitor" and a "disloyal" union leader.

4,000 Now Study Over TV Circuit

For some 4,000 students this fall, the classroom is the studio and the teacher, the television camera. The medium has taken part in the Campus Research and Development Department's experiment in closed-circuit television in the Education Building this fall.

Closed-circuit television installed in the fall includes the Education Building, Bessey Hall, Abbott Hall, and a new studio being installed in the auditorium. When the six studios to provide 63 viewing rooms which can accommodate 4,700 students at any one time.

As of today, new studio recently completed in the Education Building provides much-needed studio space for the stepped-up program. In addition, the study is equipped with an educational TV camera and studio equipment which has been provided for observing and testing of the new techniques and methods of operating.

Greatly increasing and broadening the instructional resources of closed-circuit television are the films and tape recordings, said Davis. "Closed-circuit TV is already a part of some instructional courses and will soon be in others through the use of films and tapes.

"The television stations, as we have already been studying, have been established in several classrooms. The studio is a part of the classroom in some courses and will continue in others.

"How else could one expect, for example, the actual living conditions which exist in other parts of the world," he said.

"The television stations are being used to show some of the places where the students take an active part in shaping their own educational problems," reported J. Davis, manager of closed-circuit television.

"Buildings to act as actual closed-circuit television use include the Education Building, Bessey Hall, Abbott Hall, and a new studio in the auditorium. The studio in the auditorium is designed to permit close observation of the students in the viewing rooms which can accommodate 4,700 students at any one time.

"A modern studio recently completed in the Education Building includes the Education Building, Bessey Hall, Abbott Hall, and a new studio in the auditorium. The studio in the auditorium is designed to permit close observation of the students in the viewing rooms which can accommodate 4,700 students at any one time.

"A modern studio recently completed in the Education Building includes the Education Building, Bessey Hall, Abbott Hall, and a new studio in the auditorium. The studio in the auditorium is designed to permit close observation of the students in the viewing rooms which can accommodate 4,700 students at any one time.

"The television station is already a part of some instructional courses and will soon be in others through the use of films and tapes.

"The television stations are being used to show some of the places where the students take an active part in shaping their own educational problems," reported J. Davis, manager of closed-circuit television.

"Buildings to act as actual closed-circuit television use include the Education Building, Bessey Hall, Abbott Hall, and a new studio in the auditorium. The studio in the auditorium is designed to permit close observation of the students in the viewing rooms which can accommodate 4,700 students at any one time.
