**NAACP? To Charge Bias By University Agencies**

Report charging some campus groups with discrimination activities will be given by the National Association for the Advancement of Colored People (NAACP) today on the campus of Michigan State University.

The meeting of the campus chapter of the NAACP is scheduled for 4 p.m. in 31 Union, and will be open to the public.

A resolution of the state legislature designates NAACP programs as non-profit organizations.

The state's laws on housing and employment do not always apply to those in the campus community, and NAACP President Charles E. Martin said the NAACP believes that discrimination occurs.

The news agency is concerned about housing and employment standards in the community.

**AUSG Votes Against New Years Day Travel**

**By DALLAS HERSHBERG**

The state government has passed a bill urging the University of Iowa to delay the beginning of winter term registration until Wednesday, Jan. 3, 1952.

The state's present state plan for registration prevents a transportation vacuum during the holiday vacation period, and mandates that a one-day delay will not negatively affect the academic program of the university.

Democratic party legislation would delay registration by one day to avoid a transportation vacuum and to give students more time to purchase their textbooks.

The bill was passed by the state legislature on a unanimous vote.

**Aid Iran Students**

A bill sponsored by the university to aid students in Iran was passed by the state legislature.

The bill would provide financial assistance to students who are 15 years old and older and are enrolled in Iranian universities.

The bill was passed by the state legislature on a unanimous vote.

Date a Duck?

By PAT JACOBS

While ducks are sure to be found in the pond at Michigan State University, as they are at many other institutions, you'll have to do some work to find one who will date you.

Men who wish to date a duck must first find a duck. This is usually not too difficult, as there are ducks in abundance around the area. However, it's a bit more difficult to find a duck who is willing to date a man.

Once you have found a duck who is interested, you must then convince him to date you. This can be done by offering him various gifts or promises. Ducks are known to be attracted to gifts such as flowers, chocolates, and jewelry. They may also be attracted to promises such as taking them on a date, or helping them with their studies.

It's important to remember that ducks are very particular when it comes to their dates. They may have certain preferences, such as a specific kind of flower or type of chocolate. It's important to be respectful of these preferences and not to force the duck into anything they don't want to do.

Overall, dating a duck can be a fun and unique experience. Just remember to be patient and respectful, and you may just find the perfect duck for you.

Turnstiles ‘Remind’ Forgetful Students

By SUE ENGLE

The Iowa State Staff

Turnstiles in the library have been well publicized recently to Dr. Richard E. Chapin, director of libraries.

"Although it's too early to tell if the number of thefts have been reduced, false alarms are being turned off. We have to keep in mind that the system has not been installed," he said.

"We will not be using the number of complaints in circulation of periodicals. This year, Chapin said, would be a difficult problem for the library.

Recently, 1,000 books a week are circulating in both libraries, and Chapin said that the system is installed. The installation of the turnstiles has not been affected by the system, an attempt would be made.

"The attitude of the student can be important to the system. It involves more equipment and an increase of turnover. It requires subscription services which each family is used to including.

"We have to think of the turnstiles as a necessity. The number of thefts has been reduced. We are not going to use the system to keep track of the number of thefts, since a complete system will not have been installed," he added.

"We are not going to tell students to think of the turnstiles as a necessity. We are also not going to cut the number of thefts. This is one of the most difficult problems for the library."
