Ohio Big Ten Champ
State Stomps Illinois, 34-7
Spartans Finish Third
In Conference Race
By PAUL SCHMITT
The Daily Michigan State

Spartans defeated Illinois, 34-7, Saturday while the Michigan State football team finished third in the Big Ten, according to the final conference standings.

The game was held in front of a sparse crowd, with only 36,000 spectators attending. The Spartans dominated the game, scoring four touchdowns and two field goals in a dominating performance.

Senators Bridge Falls Dead at 63
Concord, N.H. — Senator Styles Bridges, 63, the Republican of New Hampshire, died in his sleep Monday at his Concord home.

Bridges was a seasoned politician, serving as a U.S. senator for 18 years. He was known for his strong opposition to the Vietnam War and his support for civil rights.

Admit Grads to AUSG?
Vote on Graduate Rights Schedules

Students will vote during the next session on whether or not to extend student government privileges to graduate students.

The vote will take place on Monday, and the results will be announced on Tuesday. The student government is expected to vote in favor of extending these privileges.

Directory Supplement Available

A supplement to the information sheet for Indian and former students of Indian background, which will be distributed to those who attend the Campus United Nations Congress.

The Campus United Nations Congress is a major event on campus, and the supplement will provide additional information about the conference.
Dormitory Taxation System Needs Change

A letter to the editor has raised a sore point among most students who live in residence halls.

Why must they pay dues?

The traditional answer has been that the students are paying for their part in the social activities of the dorm. The dues are assessed by the student governing body and the money can be changed from year to year.

In essence, these "dues" are taxes since they are assessed on every student in the living unit. They are not done in that the individual is not free to pay them or ignore them.

There are a good many points which could dramatically against dorm taxes and we feel they more than outweigh the "salutary benefits" the revenue provides.

In the first place, the student is unprepared to pay this money when he first comes to college. The only mention of the assessment in an official University publication is a small sentence hidden in the catalog saying that residence halls may assess a slight fee.

Students should be warned before they arrive on campus as to how many "dues" they are going to have to pay. Many students do not have any idea of the tax situation in residence halls, they are going to have to pay. Many students do not have any idea of the tax situation in residence halls, yet they are going to have to pay. Many students do not have any idea of the tax situation in residence halls, yet they are going to have to pay.

SECONDLY, dorm dues violate the individual's right to choose his own activities. In other words, a student pays his personal taxes. In residence halls, you pay whether you want to participate in the dorm's activities or not.

Many students simply do not have any interest in dorm activities, in the dorm and scholarship dinners. They have found a social life outside the dorm and are not dependent on organized fun for their entertainment. They shouldn't be forced into paying for activities in which they never participate.

The third, and most important, reason against dorm taxes is that they are formal upon students, and a student has no alternative. He must pay.

Freshmen are forced to live in the dorm by housing rules, which administratively believe there is of Dues. If they are forced to pay for dorm privileges in a college, they must pay.

If a student does not pay his fees, he is threatened with fines and various other forms of punishment. He is not simply expelled from the organization as in other clubs but is treated as a liar who cheats on his income tax.

It is simply impossible or ethical to force a person to live within a given boundary and then tax him for his right to live there.

The answer lies in letting these taxes become truly dues—payable by those who want to belong to the organization.

If these taxes are voluntary, only those who "belong" would be entitled to attend scholarship dinners, homecoming and so forth. Those who are not interested would not have to pay.

If the hawks want to buy television sets, film and other key services, let the residents vote on general house meetings. Majority rule would determine if the men or women wanted to be assessed for a service.

Items such as these are not the main expenditures in most budgets. However, a system of this type might do more toward developing more group unity among dorm halls. No one has any affection for an organization they must be forced to support, but students will be more willing to work for a group when they have spontaneously contributed to their organization.

Letters to the Editor

To the Editor:

After reading Miss De Long's letter regarding her views on mandatory residence halls, I must report that it is not surprising that she should feel this way. Many students are forced to live in the dorms by housing rules, which administratively believe there is of Dues. If they are forced to pay for dorm privileges in a college, they must pay.

If a student does not pay his fees, he is threatened with fines and various other forms of punishment. He is not simply expelled from the organization as in other clubs but is treated as a liar who cheats on his income tax.

It is simply impossible or ethical to force a person to live within a given boundary and then tax him for his right to live there.

No one has any affection for an organization they must be forced to support, but students will be more willing to work for a group when they have spontaneously contributed to their organization.

The mean at the mean is no longer a student. The traditional answer has been that the students are paying for their part in the social activities of the dorm. The dues are assessed by the student governing body and the money can be changed from year to year.

Single House Seen In Michigan's Future

"The single house movement will be part of Michigan's future," said Democrat Harold Norris, of Detroit, Tuesday. Norris, a candidate for the Michigan House of Representatives District 21 seat, added that the single house lifestyle has become more prevalent and less controversial as the decades pass.

"The houses rather than the people are the controversial part," Norris said. "In the past, the single house would have been the oddball, but now it's the norm."

"I think the single house movement is more accepted today," Norris said. "People are more willing to accept the idea of living alone or with another person rather than in a couple or a family."

Norris was expected to testify before the House Committee on Legislative Organization. Norris said that he had been studying the issue of the single house for several years and had talked to a number of people who live in single houses.

"I've talked to people who have been living in single houses for a long time," Norris said. "They seem to be more satisfied with their lives than people who live in families or couples."

Norris added that the single house movement was gaining more acceptance in the community.

"It's not as controversial as it used to be," Norris said. "I think people are more accepting of the idea of the single house today than they were in the past."

Hazard Talks At Army Meet

Dr. John L. Hazard, professor of transportation, graduated from Bowling Green University, attended a meeting of the Board of Advisors of the United States Army at Fort Eustis, Va., Thursday and Friday.

The executive committee of the Board of Advisors called for the appointment of Dr. Hazard as professor of transportation.

"Dr. Hazard is a leading authority on the U.S. transportation system," the board said. "His knowledge of the subject is known by the world."

Prof. Gets Hondas Tax Post

Dr. Milton C. Taylor, professor of economics, has been appointed tax advisor to the Republic of Brazil. Taylor is currently teaching at the University of Michigan.

"Dr. Taylor is an expert in the field of taxation," said the appointment. "His knowledge of the subject will be invaluable to the Republic of Brazil."

Taylor will take up his duties at the end of the month.

Bridges

(continued from page 1)

Bridges' widow might possibly get a new home. Bridges' daughter, Mary, said that they had been interviewing early and later members of the Bridges family for a possible new home.

"We are concentrating on the Bridges family house," Mary said. "We will try to find a home for the Bridges family."

Taylor will be interviewing early and later members of the Bridges family. He will be interviewing early and later members of the Bridges family for a possible new home.

"We have contacts with ski resorts and hotels," Taylor said. "We will try to find a home for the Bridges family."

Dancers Learn German Polka

Polish Dancers Group

And another meeting of the Polish Dancers Group will be held in Adrian. Bob Schuhplatter, from Dr. Kilchenmann, and his partner will be teaching the group.

"The folk dance group was formed this fall when members of the German club expressed an interest in learning Polish folk dances," Schuhplatter said. "We will also learn other German folk dances, in addition to dancing."

Schuhplatter is a member of the Polish Dancers Group, and was taught in Poland. He was an instructor at the University of Warsaw in 1927.

"We are concentrating on the Polish folk dances," Schuhplatter said. "We will try to find a home for the dancers."

"We have contacts with ski resorts and hotels," Schuhplatter said. "We will try to find a home for the dancers."

U.S. Precision Cheerleaders On Tour

Spirit is most important to a cheerleader, and Sandy Wachs, a possible Olympic gymnast candidate from Custer High School in Milwaukee, gets the Illinois cheerleaders in a yelling mood as the U.S. precision team open their Chicago clinic.

CLINIC RESULTS are obvious as these Illinois cheerleaders show girls from 50 other schools what precision really means. Actually there are six cheerleaders in this line as they move through one of their school cheers.

SUGGESTION: "The New York Times Cook Book"
Edited by Craig Claiborne
This big, 708-page treasury is bursting with old and new favorites from more than 20 different countries---for every occasion from small, intimate luncheons and suppers through large informal parties to the formal dinner party. Every one of the 1559 recipes is clearly presented, giving ingredients and procedures in a series of numbered steps (often step-by-step photographs)—all carefully edited, checked and tested by Craig Claiborne and The New York Times food staff and kitchens.

WINSTON TASTES GOOD like a cigarette should!
Spartans Stomp

(Continued from Page 1)

Michigan State Coach Jack Breslin was not about to let the fact that his team was running out of gas by the time it reached the second half stop it. "That's the way it is for some of the junior players. They play a little more freely. But the seniors have a wonderful, wonderful opportunity to see the game from a velvet padded seat. They're very aggressive," admitted the young coach.

Dr. John Rabenstein, a student at Oklahoma A and M, majoring in marine biology, said he didn't see the game at all. "I didn't see the game. I was working this past weekend, and I couldn't catch up with the game." But he said he had heard about the Michigan State player who scored two touchdowns.

"HAPPINESS CAN'T BUY MONEY"

I have read the material on happiness and how it is linked to money. Money can buy happiness, but it can also destroy it. When people have money, they tend to be less unhappy. However, money is not the only way to achieve happiness. People can also find happiness through relationships, family, and friends. Money can also be a source of unhappiness, as people can become consumed by their desire for material possessions.

Emerson Pocket Radio

Emerson 911 ELDORADO

9-TRANSISTOR POCKET RADIO

It is a pocket radio that can be carried around easily. The radio is very compact and lightweight, making it perfect for on-the-go listening. It has a 9-transistor design, which provides good sound quality and battery life. The radio has a built-in earphone jack, allowing you to listen to music or podcasts anywhere you go. It is a great option for anyone who values portability and sound quality.

Soc Plan Term Party

Soc Plan Term Party will be held Monday night in connection with the passing of final grades. It will be held at the Lansing YWCA, from 7:00 p.m. to 1:00 a.m. The party will feature food, music, and games. It is a great opportunity to relax and have fun after a long semester of studying.
