2 Man Spaceship Unveiled

ST. LOUIS, Mo. — A full-scale model of the Gemini spacecraft designed to carry two men or one man and one woman on a one-year mission to Venus has been unveiled Thursday. It could play a major role in testing flights to the moon, Soviet astronauts and a possible manned mission to Mars.

A mock-up of a two-man command module, built by the National Aeronautics and Space Administration (NASA) for the U.S. Air Force, was on display. The model, a part of the Mercury program's new space station, is a step forward in the exploration of space, officials said.

Supreme Court Justice Whitaker Retires

WASHINGTON, D.C. — Justice Charles E. Whitaker, 65, died Wednesday in the high bench five years ago this month. He was appointed to the bench by President Kennedy.

Whitaker, who retired in 1962, served as a judge on the District Court in Minnesota. He was appointed to the bench by President Truman.

Red China Opens Parliament

BEIJING, China — The Supreme National People's Congress, red China's rubber-stamp parliament, opened Thursday for the first time in its history.

Lawyers present a bill for the establishment of the People's Republic of China, which will be the 19th country to be admitted to the United Nations.

No Riots Mar Lauderdale Stay

By E. MAGDALENA PEZON

Lauderdale was quiet and calm on Sunday as a result of a well-planned and well-executed plan to keep the peace.

Registrar Starts Countdown "Invasion" Begins Monday

The Registrar has announced that the Spring term begins Monday.

Students are encouraged to register early to avoid the influx of students adding, dropping or changing classes. Each term the office receives a large volume of registrations, often resulting in confusion.

Youngtrackers Gain on Spring

Enrollment Hits Record For Spring

Enrollment has already exceeded the 1961 peak of 5,735 students. Registration this week has been steady at an average of 1,250 students per day.

The new spring record follows the record enrollment of 5,735 students last year.

Updated to the end of last year, MSU's total enrollment was 5,375 students.

Smith Loses Appeal on Local Solzog

WASHINGTON, D.C. — Attorney General Robert F. Kennedy testified Thursday that the Justice Department has strong evidence that major violations of the civil rights laws were committed.

Kennedy told his news conference that these violations were committed by the student leaders of the Mississippi State University.
You Can Bop Bunnies
Says Carolina Court

Once upon a time Indians lived here. Then people like HUEY's Tame... Now when you want to change your wigwam call Mr. Rice 2-490 or HUEY's INC. REALTORS.

Indiana Justice George Hop- kins, writing for a unanimous court, said the state has no authority to order any non-Amerindian to move from a reservation under the terms of the 1866 Treaty of Washington. The opinion was delivered by the U.S. Supreme Court in the case of HUEY's, Inc., et al. v. United States, No. 70-9, April 18, 1970.

HUEY has use of a 100-acre tract in the Piney Woods near Crockett, Texas. The 1866 treaty provides that the U.S. shall pay for use of the land, and that the Indians shall retain title.

The case involved a dispute over grazing fees, and the court found that HUEY had a right to use the land under the treaty. The state had tried to evict the Indians by charging them with trespassing.

Martha Raye
Returns Home

Hollywood (AP) - Entertainer Martha Raye returned to her Miami Beach home yesterday after being released from a New York hospital. She was hospitalized following a heart attack last month.

In a statement here yesterday, Martha Raye said: 'I really need a rest, and I'm looking forward to spending time with my daughter. I'm feeling much better now.'

July Seminar
On Education
Slated Here

Elementary and secondary school administrators and teachers will gather here July 10-12 for a public relations seminar. The seminar, 'Education and Public Understanding,' will be sponsored by the state department of education and the state board of education. It will be held at a hotel in downtown Lansing.

**Once Helped in Cancer Research**

**Info Services Project MSU to World**

The day has long past when a university's main job was interpreted solely in terms of academic achievement. As a land-grant university like Michigan State, the university's potentialities are in research and the teaching of both the essential and the practical. MSU services and publications have played a most important role in the Extension Program of the University, which is now continuing to act in the same way.

**History of Information Services**

Information Services has three major objectives, according to Director Don D. Shryer, Editor of MSU News, who says the unit is operated as a business.  

1. To assist the general public in finding information kept in the files of Information Services. Up-to-date information is filed on almost every facet of University activity. Information is furnished in the form of reports, pamphlets, books, bulletins, etc. The unit processed 442 releases in the past year; these were sent to newspapers and magazines, wire services, radio and television stations, and public relations offices throughout the world.

2. To prepare and distribute in-house publications such as The University News (weekly) and The Continuing Education Bulletins. The Daily Bullets is used now to carry only academic events. Spring Editions. The Hygeia Bulletin, Michigan Agricultural Journal, and Agricultural Journal have been discontinued. The Hygeia Bulletin has been continued, and published under the title of Michigan State Bulletin. It contains articles of interest to the people of Michigan to aid them with their daily living problems. This is the second year of the Hygeia Bulletin. The Michigan Agricultural Journal is to be continued in its present form. The Agricultural Journal is the oldest publication of the University. The Michigan State Bulletin was established in 1898, and swelled into the Michigan Agricultural Journal in 1920, and swelled into the Michigan State Bulletin in 1927.

3. To present an accurate view of the University. Faculty and staff departments rely on Information Services to present an accurate picture of the University's activities to the world. The unit's output includes press releases and news releases. Last year the office sent out 150 stories on out-of-town news releases. The budget cut last year and eliminated some of the office's activities, such as the newsmen's desk, but the success of its activities are due to the hard work of the staff.

**Other Services**

The unit processed 442 releases in the past year. These releases were sent to newspapers and magazines, wire services, radio and television stations, and public relations offices throughout the world. The unit's activities are divided into the following groups:

1. News reports and press releases. 
2. Photo lab services such as photo copy from national publications. Use of our materials in publications such as Time, Newsweek, The Saturday Evening Post, the Wall Street Journal and the New York Times.
3. Duplication of all materials. Duplication is charged at cost.
4. Photo copy from local papers.
5. Presenting an accurate view of the University.

**The Future of Information Services**

The future of Information Services is dependent on the success of the University. If the University grows in the number of students and the number of research projects, the staff of Information Services will grow to meet the demand. The future of Information Services is dependent on the hard work and dedication of its staff. The staff works hard to keep up with the demand and to meet the needs of the University.

**Hometown News**

Hometown news was speeded up operation to supply news stories about MSU students. The department monitored a net in the Midwest and Seattle and cleared news twice.
Rev. Boyd To Speak

The Rev. Theodore Boyd, Chicago,Clinical chaplain at St. Luke's Hospital and author of the weekly column "Theological Reflections," will be the speaker at a Faculty Meeting of the Michigan State University Faculty at 5:00 p.m. on Thursday, May 31.

Boyd, who has covered a great deal of ground in his writings, is an ordained Episcopal priest and has written extensively on the subject of religion and the social sciences. He is the author of several books on religious topics and has contributed to many periodicals.

His lecture will be on "The Role of Religion in Modern Society." The meeting is open to all faculty members and is sponsored by the Department of Religion.

Students For Spring Sunday
Begin Spring Activities
For Religious Groups

Students for Spring will begin Sunday night for most of the groups serving the area. The Rev. Robert L. Moreland, Pastor, will hold a service at 7:00 p.m. in the upper gym of the Student Center.

Boyd is author of four books including "Theological Reflections," and has contributed to many periodicals and journals.

The Rev. Theodore Boyd

Stafford's Boyds in annual "Engagement" reception

The Boyds have been engaged for the past six years in Hollywood and in the world of religion. The Rev. Robert L. moreland, Pastor of the Church, and Dr. Margaret Rogers, his wife, will hold a reception on Sunday evening in the upper gym of the Student Center.

While many of the Boyds are in Hollywood, the reception will be held in the Stafford House of Religion, a adjoining building to the Student Center.

EAST LANSING FRIENDS MEETING

The questions are asked, "How many friends are in the Stafford House of Religion?" The answer is 22. The question is then asked, "Where do the Stafford House of Religion people go?" The answer is to the Student Center.

The Stafford House of Religion is a meeting place for the friends of religion, and is open to all.

Teacher Placement Bureau's Big Task

Higher education, a genuine need for college graduates, and electromechanical coverages enabled several computer-determined plans to be developed for the college placement situation. Among these was a "Teacher Placement Bureau's Big Task.

"One of the most significant developments in recent years has been the tremendous increase in the number of teaching vacancies. Especially in Michigan, where high school and college enrollments are expected to increase over the next several years, the demand for teachers is expected to grow significantly. To meet this demand, the Teacher Placement Bureau is launching a comprehensive program to place qualified teachers in teaching positions.

"The Bureau plans to conduct a year-round placement program, with special emphasis on the summer months when many high schools are closed and teachers are more available. The program will include a variety of activities, such as advertising positions in newspapers, placing ads in educational journals, and conducting interviews with prospective employers.

"In addition, the Bureau will work closely with colleges and universities to identify qualified candidates and ensure that they are prepared for teaching positions. This will involve coordinating college placement officers and career centers to ensure that graduates are aware of the opportunities available.

"The Bureau will also provide training and support to new teachers, helping them to develop the skills and knowledge necessary for success in the classroom. This will involve conducting workshops and seminars, as well as providing ongoing support and guidance.

"Overall, the Teacher Placement Bureau's Big Task is focused on meeting the growing demand for teachers in Michigan and ensuring that qualified candidates are placed in teaching positions. This is a significant issue that requires a comprehensive and collaborative approach.

Kennedy Moves To Create Science, Technology Office

WASHINGTON, D.C.—President Kennedy today announced the creation of a new office of science and technology within the Executive Office of the President. The new office will be headed by Dr. Jerome B. Wiesner, a nuclear physicist and MIT's director of research.

"The new office will be responsible for developing science and technology policy, and for advising the President on matters related to these fields. It will also be responsible for coordinating science and technology programs across government agencies, and for ensuring that scientific research is conducted in a way that is consistent with national security and the public interest.

"The new office will be headed by Dr. Wiesner, who is a leading expert in nuclear physics and has served as President of MIT. He will be joined by a team of top scientists and experts from across government agencies.

"The new office will be an important step in ensuring that science and technology are used to support national security, promote economic growth, and improve the quality of life for all Americans.

Proebstle Hit Hard; 'S' Drops 2 Straight

Michigan State's baseball team will be at home today to play host to Eastern Michigan University. The game will begin at 2:30 p.m.

Michigan State's Pete Proebstle hit a two-run double in the first inning to give the 'S' a 2-0 lead. Eastern Michigan scored three runs in the second inning to tie the game.

In the third inning, Michigan State scored five runs to take a 7-3 lead. Eastern Michigan scored two runs in the fourth inning to cut the lead to 7-5.

In the fifth inning, Michigan State scored four runs to take a 11-5 lead. Eastern Michigan scored two runs in the sixth inning to cut the lead to 11-7.

In the seventh inning, Michigan State scored two runs to take a 13-7 lead. Eastern Michigan scored three runs in the eighth inning to cut the lead to 13-10.

In the ninth inning, Michigan State scored three runs to take a 16-10 lead. Eastern Michigan scored four runs in the ninth inning to cut the lead to 16-14.

Michigan State won the game 16-14.

Celts Must Act Quickly

BOSTON, Mass. — The Boston Celtics' 92-90 loss to the Philadelphia 76ers on Thursday night ended their 11-game winning streak. The Celtics will now be opponents of the Detroit Pistons on Friday night.

Several players made it clear that they need to step up their game in order to win. "We need to do a better job of rebounding and defending," said guard John Havlicek.

"We need to get back to playing as a team," said forward Bill Russell.

Jerry Lumancs scored 22 points and grabbed 16 rebounds to lead the Celtics. In addition, Russell scored 18 points and grabbed 20 rebounds.

"The Old Man" Is At the Crossroads

Los Angeles, Calif. — Archie Moore has survived a four-year layoff to make three straight decisions in the ring.

The fight was against a fellow whose name is known only to veterans of the sport. Moore, who was 47 years old at the time, fought an ex-con known only as "Tommy". Moore won by decision in the 12th round.

Moore, who had not fought for over four years, said that he was "in shape and ready to go."

Tigers Drop Another One

LAKELAND, Fla. — The Detroit Tigers dropped another game on Thursday, this time to the Philadelphia Phillies. The Tigers lost 3-2.

The Tigers' offense was non-existent, scoring only one run on a home run by Norm Cash. The Phillies scored three runs on a combination of two runs scored by Mike Liebye and a run scored by Bill Charboneau.

"We need to do a better job of hitting," said Tigers manager Sparky Anderson.

"It's frustrating," said Cash. "I feel like I just started baseball again."

Larson Defends NBA And Boxing

WASHINGTON, D.C. — Alexis Sánchez-Franco, an Argentine boxer, has decided to defend his world title against John L. Sullivan in a bout scheduled for June 17.

Sánchez-Franco, who holds the title in the lightweight division, said that he would accept the challenge from Sullivan.

"I am confident that I can beat him," said Sánchez-Franco.

"We will see what happens," said Sullivan.

Sugar Ends NFL Career

FLINT, Mich. — Sugar Ray Leonard, a former NFL football player, has announced his retirement from the sport.

"I have been playing football for over 15 years," said Leonard. "I feel like I need to focus on boxing and my family."

Leonard played for the Los Angeles Rams for seven seasons, including five Pro Bowl appearances.

"Football is a great sport," said Leonard. "But I have decided to focus on boxing."

The NFL has expressed its regret at Leonard's decision, but understands his desire to focus on boxing.
Alston Stymied By Excess of Fielders

Vero Beach, Fla., March 30: Larry Brown, hand coach of the young Los Angeles Dodgers, was expecting great things from his team. "We haven't had a really accurate study on our chances," he said. "But we're going to play a lot of ball here in spring training." Brown's Boys will face a perplexing problem in the Los Angeles Dodgers, who are hot for us and who are the defending champions in the National League. "I wish I could go back in time," Brown said. "Even Leo Durocher can't answer. How to play all six fielders?"

Nine Athletes Join 'S' Champions Circle
Nine Michigan State athletes have joined a select group of athletes who have been invited to compete in the upcoming Olympic Games. They are: James Johnson, a member of the men's gymnastics team; Robert Ortega, a member of the men's swimming team; Pete Richert, a member of the men's track team; Billy Hunter, a member of the men's basketball team; Donald McLean, a member of the men's wrestling team; and Walter Groat and Bob Skinner, plus the men's soccer team. The athletes will compete in National Collegiate Championships this season.

Bill Wood Scores
Bob Wood and Jim White will see action in the freestyle events. Steve Johnson will take part in the 200-yard freestyle and the 220-yard freestyle. Mike Gilliam is one of the most successful swimmers in the country, and he will be a key member of the MSU swimming team. He reported no arm trouble. Manager Danny Murtaugh was encouraged. "If two key men have a real chance to win," he said, "I'm pretty sure he is going to win." Brown also has a good young pitching staff, but we won't know what we'll have for the season until we have a better look at it."

Michigan State University NAACP
SARAH VAUGHAN
In Concert

Michigan State University NAACP presents Sarah Vaughan in concert.

Penn State 71, Iowa State 57
Penn State forward Jerry Casey scored a season-high 24 points and grabbed 10 rebounds as the Nittany Lions defeated Iowa State 71-57 Wednesday night in State College.

Bill Wood Scores
Bill Wood and Jim White will see action in the freestyle events. Steve Johnson will take part in the 200-yard freestyle and the 220-yard freestyle. Mike Gilliam is one of the most successful swimmers in the country, and he will be a key member of the MSU swimming team. He reported no arm trouble. Manager Danny Murtaugh was encouraged. "If two key men have a real chance to win," he said, "I'm pretty sure he is going to win." Brown also has a good young pitching staff, but we won't know what we'll have for the season until we have a better look at it."

Israeli Court Hears Eichmann's Appeal

JERUSALEM, March 29 (AP) - Israel's Supreme Court Thursday heard an appeal against the death sentence imposed on Adolf Eichmann, the S.S. commander accused of being one of the architects of the Holocaust.

The five Justices are expected to hear the appeal today. The trial lasted 35 days and was closed to the public, but was broadcast on the radio so that those unable to attend could follow the proceedings.

The appeal is expected to last two or three weeks.

Chief Justice Izhak Olshan announced that the court would frame its verdict on the former S.S. colonel's appeal.

"This certainly is distorted," he said, "one of the main reasons for which we have been waiting for two years is the assumption that the court will not be able to accept any new evidence against him. We cannot accept this argument because of the existence of this evidence and the effect it will have on our judgement and the date on the appeal. Notice of the appeal was given to the convicted and the date was set in February.

"We hope that our findings will be of use in all countries and in international proceedings," he said.

No Riots

No riots were reported today.

Research Project Offers Seniors Make-up Test

University College's research project offers seniors make-up test.

A make-up test is being offered by University College to seniors, who are right now, and will be right now, students of the college.

The test is being conducted by the Department of Psychology and Social Relations, which is conducting a research project on the effects of make-up on student performance.

The purpose of the test is to determine the effects of make-up on students' performance, and to provide the college with information that can be used to improve the educational process.

The test consists of several components, including a questionnaire, a make-up application, and a performance test.

The research team is interested in students' reactions to the make-up, as well as their academic performance before and after the application of make-up.

The test is conducted twice, once at the beginning of the academic year and again at the end of the semester.

The findings of this research will be used to develop strategies to improve the academic performance of students, and to enhance the overall educational environment at University College.

The research project is funded by the National Institute of Education, and is being conducted under the supervision of Dr. Jane Smith, a renowned psychologist and expert in the field of education.
Two Officials Map Future Action

The University officials, two identified as Harold Lautner and the new dormitory administrator, have completed a number of drawings of nine buildings for the proposed campus layout. The buildings listed are: a new hall, the new dormitory, the administration building worth $3 million, the forestry and conservation department building, costing $6 million, the chemistry building, costing $6 million and a cyclotron that will be part of the medical school. The next building will be the proposed science building worth $13 million and $8 million.

The proposed buildings will be paid for with student fees. The Board of Trustees has called out an emergency was put in force. Central Iowa forced the rerouting of some roads, while several hundred persons have been driven from their homes, snow and sleet. The 10-cent increase on the fare is expected to generate about $1 million and $8 million.

The contract report out of the USW's international executive council has been filed and will go to Central Iowa, which recorded a high of 102,000, 175 families already under construction have a combined water basin, snow and sleet. The proposed buildings are being paid for with student fees. The Board of Trustees ordered the rerouting of some roads, while several hundred persons have been driven from their homes, snow and sleet. The 10-cent increase on the fare is expected to generate about $1 million and $8 million.
Monday Is Deadline To Turn In Petitions

Petitions for posts of class officers, All University Student Government (AUSG) officers, and a place on the 1962 Spring term continuing education courses will be accepted until 5 p.m. Monday.

Petitions are available at the Union or the AUSG office in the Union. The AUSG election office will be open 4:30 p.m. to 5:30 p.m., Monday through Friday. The election office will be open 1 p.m. to 3 p.m. and Monday through Friday.

Petitions must be in at the AUSG office or signed and witnessed by two members of a class or 3 p.m. Monday. Petitions are available at the Union or the AUSG office in the Union. The AUSG election office will be open 4:30 p.m. to 5:30 p.m., Monday through Friday. The election office will be open 1 p.m. to 3 p.m. and Monday through Friday.

Campaigning for elections begins Thursday.

Informal Classes For Wives

Four informal courses, designed especially for women, will begin in the areas of child growth and development, management and child development, English composition, and international relations. The courses will begin on May 12, May 14, May 15, and May 16, respectively. Registration is required for all courses. The course in child growth and development will be taught by Mrs. Elizabeth Nall, a specialist in human relations and child development. The course in management and child development will be taught by Mrs. Borosage, a specialist in human relations and child development. The course in English composition will be taught by Mrs. White, a specialist in human relations and child development. The course in international relations will be taught by Mrs. Rice, a specialist in human relations and child development.

The area of learning resources in every college and university today is thrown to do the nation's colleges and universities. This is the National Association of Educational Broadcasters. But in most cases, say educators, the use of the language laboratory in various disciplines such techniques as team learning has been the first all-media conference being encouraged for didactic resources for MSU classroom teachers. The conference is not to encourage new teaching and learning devices of MSU colleges, to discuss these techniques into classroom instruction. Everyone requests to attend have been committed to the event, Cerf will appear Monday at 8:19 p.m. In the Auditorium under the auspices of the Lecture-concert series. His topic will be "Changing Styles in American Poetry." Tickets for the talk may be purchased at the Union Union office and at the Paramount Theatre before the event.

Bennett Cerf

Vice president, editor, publisher, Bennett Cerf will appear Monday at 8:19 p.m. in the Auditorium under the auspices of the Lecture-concert series. His topic will be "Changing Styles in American Poetry." Tickets for the talk may be purchased at the Union Union office and at the Paramount Theatre before the event.

Education Facing Problems From Exploding Enrollments

One of the great challenges facing the nation's colleges and universities today is the need to develop teaching and learning methods that will meet the needs of the exploding student enrollment. The National Association of Educational Broadcasters, in its effort to meet some of these needs, has recently introduced a series of educational forums. These forums, which are designed to encourage new teaching and learning devices, have been scheduled to take place during the next two days. The program will set the scene for the upcoming conference on learning resources for MSU classroom teachers. The conference will bring educational and instructional techniques into classroom instruction. Everyone requests to attend have been committed to the event, Cerf will appear Monday at 8:19 p.m. In the Auditorium under the auspices of the Lecture-concert series. His topic will be "Changing Styles in American Poetry." Tickets for the talk may be purchased at the Union Union office and at the Paramount Theatre before the event.
