**Telstar May Send Reds Box Seat View**

**CAPE CANAVERAL—American Walter H. Schirra, Jr., cut short his flight to the moon on Saturday afternoon when a half-second failure of the so-called Series E traffic plaques, of the so-called 'communications windows' of the satellite, precipitated the premature termination of the flight.**

**Even though Schirra continued to the moon, he was forced to terminate the flight due to a technical problem that prevented data transmission.**

**The failure occurred at approximately 5:11 p.m. on October 3, 1962, about 12 hours after the launch of the Titan II booster that sent the satellite into orbit.**

**The satellite, known as Telstar, was launched from Cape Canaveral, Florida, and was intended to demonstrate the feasibility of satellite communications.**

**In explaining the decision, Schirra said, "It is a matter of safety that we obtain as much information as possible.**

**This is the first time in history that a so-called communications satellite has been launched.**

**The satellite is expected to be in orbit for about 24 hours before it re-enters the Earth's atmosphere and disintegrates.**

**Conservatives Want 'Nail-Screw' Smear, Warns of 'Police State'**

**During last week's session of the House of Representatives, there were calls for a police state to be established in the United States.**

**Some conservative politicians proposed the establishment of a police force that would have the power to arrest and detain individuals without a warrant.**

**These proposals have been met with widespread criticism and opposition.**

**The debate continues as the country debates the balance between national security and individual rights.**

Speaker Committee: It Might Work Out

The student-faculty committee which will screen all speakers seeking a podium on MSU's campus has come to a consensus. The committee includes students from the five major governing bodies on campus, plus five faculty members chosen by the student-faculty committee on a rotating basis. At least one student member has been selected from each of the university's governing bodies.

A committee of any kind is no better or worse than the people on it. Valuable additions to the group could include representatives from campus political organizations and the Campuses United Nations.

If the ideal situation was a campus where any speaker could expect to expand on his philosophy, anyone who wished to listen could gather around the speaker. Unfortunately, the fortunes of a state university are tied to a state legislature, and the state legislature is against "un-American" ideas and those who seek them. State colleges who think they can "put on their voice" will not be successful. The State of Michigan, the state of the world, is run by the state of the state. The state of the state is not a democracy.

And things could be worse. At Wayne State University, the Speaker Committee group consists of the dean of students and the chairman of the political science department. A third member is to be chosen by the students. Students are not represented by the committee at all.

Our policy is this: We don't know if this committee will work out — but it might. It deserves a chance.

Administration's 'Arm'? We Say It Isn't So!

Recent attacks by conservative magazine columnists have labeled a state senator's "arm" of the administration. This is redolent of the situation in the 1950's. The fact is that these attacks are nothing more than a cover for the administration's own fear.

There is no such thing as administration control. The board of trustees makes the rules. Each successive president has to rule within the structure set by the administration. The faculty and the students.

We attempt to present the facts accurately in our news pages and make a fair analysis of material on editorial pages.

Every organization is entitled to fair play from the State News and we have never attacked any organization, group or person without what we considered just cause.

The staff of the paper has many varying political views and we encourage contributions from the editorial "arm" of the administration.

We may not personally agree with you, but we do respect your right to that view. There is no place for any group to claim that they are being "pressed" by this newspaper.

If you have a complaint write a letter and if you feel your side of an issue is not being presented fairly come and visit us — we'll straighten it out.

Letters to the Editor

On Liquor in East Lansing

To the Editor:

Letters of opinions as much to谏言 to the editor, when students might say they should more attention be given to campus, that students are not represented on campus at all.

Policy is this: We don't know if this committee will work out — but it might. It deserves a chance.

THE ANSWER:

THE ANSWER:

A four-bagger

The taste to start with...the taste to stay with...

The question is: WHAT CIGARETTE SLOGAN HAS THE INITIALS "MS"? (Each word must begin with the same letter as its initials.) The answer is: Lucky Strike. This taste makes Luckies the favorite regular cigarette of college students. Try a pack today. Get Lucky!
Students' Feelings Mixed Over Kennedy's Action

WASHINGTON—Students' reactions to President Kennedy's speech to the United Nations last night were mixed.

Many students said they were disappointed with the speech and wished the President had gone farther in his criticism of Soviet action in Hungary.

Others, however, said that it was a good speech and that it showed the President's determination to halt aggression.

Ford Will Face Today’s Victor in Series Opener

NEW YORK, N.Y.—Manager Ralph Houk has yet to make up his mind whether Johnny Pesky or left-hander Winnie Paich will get the ball for the second or even the third game this morning to try to salvage the American League’s lead in the World Series. The Red Sox were 1-0 to the National League and Houk will be made to work hard in this Series.

The Associated Press reported yesterday that Houk was calling for the third game because he has a left-handed pitcher. He is not sure what the decision will be when he comes to a decision for the third game, but there is a chance that he may use a right-handed pitcher in the second game.

The Associated Press also reported yesterday that the Indians are considering whether to use a left-handed pitcher in the third game. Houk said that the Indians have no left-handed pitchers in the Series.

The Associated Press also reported yesterday that the Yankees are considering whether to use a left-handed pitcher in the third game. Houk said that the Yankees have no left-handed pitchers in the Series.
