Red Split May Be Closing

Red Split may be closing. Despite the differences in ideology, the two countries have been able to maintain diplomatic relations. A possible thaw in relations could lead to increased cooperation and trade between the nations.

Yugoslav Urges Nuclear Test Ban

By JACKIE KORINA
Of The State News

Yugoslav Premier Pavicevic has called for a nuclear test ban treaty. He believes that such a treaty would help to prevent further nuclear proliferation and reduce the risk of nuclear conflict.

Loch Ness Monster Does Exist Says MP

LONDON — A Conservative member of Parliament has published a report claiming that he has evidence of the existence of the Loch Ness monster. However, scientists have yet to confirm these claims. There are many who remain skeptical of the existence of this supposed creature.

- Cloudy and cold today with some chances of ice and snow ending by early evening. High near 20.
Not Much Hope For Discount Service

AUSG is again studying a student discount on merchandise provided by merchants in the area. The merchants are getting plenty of business without a discount service. Why should they need one? The merchants don't need the service, so it is essentially a dead issue before the congressmen even start their investigations.

It might be a better idea for the congressmen to study more practical ventures that have a better chance of success.

This is not to say that the efforts of the congressmen in this area aren't going to accomplish anything; it's just that you can't legislate how an East Lansing merchant shall run his business.

Appointments At Olin Would Present Problems

AUSG is currently considering a proposal calling for an appointment system at Olin Health Center.

We think it's a good idea, according to James K. Furgi, director of Olin, but he points out that the plan has been considered before.

Under the appointment system, when a student feels ill, he can talk to a student, but can't get an appointment.

The appointment system can schedule a limited number of times to meet with a patient. It's working fine now with the present system, says Furgi, but Olin can't turn away any student who wants the appointment.

There are also budget problems. Olin operates a fixed budget, and the appointment system costs more because of increased personnel and bookwork.

And then there's that landlord philosophy again. If Michigan State were a private school, Furgi said, Olin could turn people away and tell them to find a local doctor. Michigan State, a supported school, can't do this.

Furgi admits the present system is adequate, but says it is "a way to skirt the problems."

Let's hope AUSG can come up with some solutions.

Brill Fall

We always wanted why Uncle Sam was really into the student protest thing.

Ted Huse (West) Independent

Future Education, Segregation

To the Editor:

— The Educational Development Unit is needed and should be expanded. It is the only project of the type that is currently functioning in the MSU Educational Development Project.

We feel that in order to have educational development at the proper level, a student must be given the opportunity to learn how to learn. This is a concept that is not new, but has been expanded in recent years.

The Educational Development Unit is currently working on a project that will help to identify students who are at risk for educational failure. This project will help to identify students who are at risk for educational failure.

We feel that the project is important and that it is needed. We feel that the project is important and that it is needed.

The project is currently in the planning stages and we hope that it will be implemented as soon as possible.

Elwood E. Miller

Negroes In Brody Grill

In the Brody Grill, a Negro student was refused service.

This is a problem that we need to address.

Letters To The Editor

Small student government

In reply to Wm. C. Lemmer's letter to the News regarding the difference between Negroes and whites, I would like to say that Mr. Lemmer is right.

Mr. Lemmer must also realize that there is a difference between Negroes and whites.

A new AUSG

In the News, we read that AUSG is planning to form a new group.

I believe that this is a good idea.

Students should be able to form their own groups and have their own goals.

A new AUSG could work wonders.

Marike Kratz

Science Complex Rising

This is how the southwest corner of the campus will look in 1964. All the buildings will be devoted to science education and research, except for the $1.4 million, 1,000-student capacity parking ramp (1), to be completed this fall. The "parking" building (2) will be completed by summer at a cost of $250,000. The 10-million-cubic-foot cyclotron (3) will be operating in 1964. The building is costing $14 million and the cyclotron itself another $14 million. The $13 million veterinary medicine building (4) is under construction and will be completed by late 1964.

The chemistry building (5), now under construction, is to be ready by the fall of 1964 at a cost of $8 million. Completion of construction of the $12 million biology building (6) are to be awarded soon. It will be completed by late 1964. The Biology Research Center (7) was completed in 1960 at a cost of $626,000.

Rayl Rewrites Record

By JOHN VANCISQCN

There was a change in the complexion of the Big Ten Conference today, as the Michigan State University Spartans qualified for the tournament, leaving two teams fighting for the last spot in the tourney.

The Spartans, who had been looking strong in recent games, were defeated by the Illinois Fighting Illini, 113-94, in a 21-point victory. The Spartans, who were able to hold the Illinois offense to just 54 points, were held to just 38 points.

"This is a great win for us," said Coach Rayl. "We really wanted to win this game and we were able to do it. The defense was great and the offense was just as good."

Swimmers Sweep #2 Season Set

By MARK KRAM
The State Journal

The Northwestern swim team, led by a pair of national meet records, swept the Illinois swimming team Friday to clinch the Big Ten title for the third straight year. The Wildcats broke the 200-yard medley relay and the 400-yard freestyle records and won all three relays to clinch the title.

In the 200-yard medley relay, the Wildcats completed the race in 1:38.38, besting the old record of 1:38.68. The winning time was set by John Floyd, Jack Ritter, Bill Glass and Bob Kegel.

In the 400-yard freestyle relay, the Wildcats posted a time of 3:29.90, bettering the old record of 3:29.19. The winning team included Floyd, Ritter, Kegel and Bob West.

The Wildcat sweep continued as the team swept the 300 yard yard medley, 200-yard freestyle, 200-yard breaststroke and 400-yard medley relay.

The Illini, who were swept by the Wildcats, were unable to catch up and finished in second place.

The Wildcats' impressive showing came as a result of a strong performance in each of the nine events.

The Wildcats were led by Floyd, who set a national record in the 50-yard freestyle with a time of 21.98, besting the old record of 22.00.

In addition to Floyd's record-breaking performance, the Wildcats also broke the 200-yard medley relay and 400-yard freestyle records.

The Wildcats' victory clinched the Big Ten title for the third straight year, a feat that had not been accomplished since 1978.

Dietrich Recommends More Culture Here

By BOB FARKAS
Of The State News

"The modern must be not only a maker, but also a consumer. "

Dr. Dietrich, professor of English, has recently recommended more culture in the form of plays, movies, and music for the students of Michigan State University. Dietrich's enthusiasm is contagious, and the university community is invited to explore the arts with him.

Hatcher Is Rebuffed For Inconsistencies

President Hatcher of the University, who is known for his strict adherence to rules, has been reprimanded for inconsistencies in his actions. An investigation revealed that he has been inconsistent in his application of policies, raising concerns about his leadership.
