SPEAKING OF "THAT REFRESHING NE FELING,"—Eric Finley, assistant City Editor of the State News, seems to have struck it rich as he takes a break from his office work. Good Teachers Deserve
Same Rewards As Researchers

By Jack Shee

Our schools are not going to get any better if we continue to be overburdened with mediocre teachers. The best teachers are the ones who are willing to do whatever it takes to improve the quality of education in this area. We should reward these teachers with the same level of compensation that they deserve.

Feeling Blue? Well, You're Not Alone

By Derricke

On the eve of our most important exam, I found myself feeling more and more blue. I knew I had to study, but I just couldn't seem to get started. Finally, I decided to go for a walk to clear my head. The fresh air and exercise did wonders for me, and I felt much better when I returned to my study materials.

Politics Less Intense
In Non-Urban Society

There is less competition for political offices and less formal organization in politics in a folk society than in an urban society. The Social Analysis

Favoring freedom and simplicity, non-urban people are less interested in political office. "We're interested in the office," one person said, "but only if we're going to have a good time."

Auburn Avenue, a well-known trio, took part in the program and was well received by the large audience present.

The program included a variety of songs, ranging from classical to popular tunes.

磷rox the record, the Lakers have been on top of the league in terms of scoring, but their defense has been inconsistent. The Lakers have scored an average of 111 points per game, but they have also allowed an average of 105 points per game. The Lakers' defense has been particularly weak against the fast-breaking teams, and they have struggled to contain the high-scoring teams. The Lakers' defense has been improved in recent games, but they still need to work on it to be competitive in the league.
