Also Displays Versatility

Institutes Provide Experience

Berkeley students are being trained in how to operate cameras, radio and television. The first contract for training state universities was awarded to Donald Pash, associate professor of radio-TV and director of the Continuing Education Service. 

Pliastro Concert Tonight

The first contract was awarded to Piastro, Inc. in Chicago. The company is going to work on a project for the University of Michigan, said Mr. Piastro. "We are preparing a large-scale symphony orchestra which is going to home readers."

Campus Awaits Arrival Of 500 Music Students

More than 500 high-school music majors will arrive in campus facilities for the MSU branch school of music. The program lasts nine weeks and is aimed at instrumental and chamber work.

Students To Get 'Clipped'

Starting Sept. 13, it is going to cost you 25 cents more to get your hair cut. The increases for barbers, beauticians and nail artists are large.

Superbowl

Circle’s ‘Cat Sold Out

The circle at the MSU Federal Credit union is empty. The president of the credit union said the demand for the money has been overwhelming.

Weather

Sunny and quite warm. High of about 90 degrees.

DAYTIME DRESSES - KNAPP'S EAST LANSING SECOND LEVEL
Repair Big Summer Job

Maintenance Takes 7 Full-Time Workers

Many summer hours are spent by the maintenance groups repairing and refinishing furniture for the dormitories and other buildings on campus. In the sequence of pictures, furniture for the dormitories and other buildings is seen, including upholstering furniture. The group covers everything from chairs in the Presidential Suite in Kellogg Center to the davenport to be used in the new dorms, such as McDonell and Wonder Hall.

The shop is located in Troddy and has been for the last few years. However, it is now in its fifth year of operation of recovering the furnishing damaged or worn out by the many people who use them on campus.

Bob Wrook was the only one who worked at the House -- President John Hannah's residence from the conception 10 years ago, but as the University has grown, so has the department. There are now seven full-time employees, plus summer help from students to help handle the heavy influx that occurs in the warmer months.

Over 6,000 yards of material -- more than enough to cover the turf in Spartan Stadium -- is being used to cover chairs and davenport. An additional 560 yards is needed to repair the davenport chairs in the Mason and Abbott dorms.

Wrook said that girls are easier on furniture than the boys, however, dormitory furnishings are not their only job. They get things from all over campus to cover and repair, some pieces come from the Cowles House -- President John Hannah's residence -- and from Jenison Fieldhouse and the weightlifting rooms.

Ed Church, East Lansing, using a stapler in repairing furniture.

Dorms See 5-Week Drop

The number of dormitory residents attending summer school during the second five weeks is expected to decrease.

"The number of overnight students in Case Hall for the second five weeks of the quarter," said Tom Dore, manager of Case, "is expected to be about 800.

"The events that have been held for the past weeks are located in Case, Macomb Hall and Van Hoosen Hall.

Graduate students living in Owen Graduate Center and Phelan Hall on 6th street.

For the first two weeks, the number of students attending in Case was 1,000. However, in the past weeks, the number has decreased to 900 students.

The number of overnight students in Case for the past two weeks is expected to decrease to about 800 students."
Fisheries Budget To Be Cut

A 220,000 cut has been proposed in the Great Lakes Fish and Wildlife Conservation Act aimed at the Michigan Department of Natural Resources.

Senator Philip Hart, Democrat of Michigan, has asked that the cut be restored because elimination of the Michigan money cut by the House had been earmarked for launching a full-scale internal program in Lake Ontario.

Peter H. Hart, chairman of the Senate Appropriations Committee and Michigan Democrat, in an interview said: "It is certain that several thousand Michigan families in the pastries can spoil in the heat.

People buy other less expensive food. The person has three alternatives: a crisp french fries, a tasty hamburger, and cool drinks, low prices at the five convenient locations of McDonald's.

Pasteries Can Spoil In Heat

The main cause of pastries going bad is the warm environment, they become deadly after 24 hours. The germ when eaten could make the sufferer very sick for at least 24 or more hours. To spoil in a warm environment, they become deadly after 24 hours.

County Fair Opens Monday

The Highbury County Fair opens Monday. Mosquito-mustrum, announce an attendance this year of over 30,000 people.

"The fair is expected to bring business higher," according to Henry A. Smolik, Fair president.

"It is expected that many of 30,000 cattlemen would come this year," he said.

The program already has received much publicity, according to Smolik and has assured last year and more is expected to begin again next year.

There are features of the fair. A popular feature is the horse show, which the future of any horse show is always and will never again be the same. The fair is one of the few that have been served two weeks. The Fair Board was due to open on the 2nd of May.

Seeks Gifted Students

Talent Real Aristocracy: Idzlerda

As director of the Honors College, Stanley Idzerda strives to bring gifted students and faculty members together. To do so, he needs to identify and encourage qualified students to make the most of their intellectual and cultural opportunities the college has to offer," he said.

Idzerda indicated that nearly one-third of the entering freshmen are enrolled. Among them is his hometown of Fort Worth, Tex. He said he was a dollar contract awarded last November to General Dynamics

"equipment and furniture have been assumed by the state."

The state's railroads are trying to get them to postpone a showdown with the Unions. Herter's mission was to sound out preparations for next weeks ago. The Buddhists charge that President Diem's regime is discriminates against them. Kennedy today or tomorrow.

De Gaulle is expected to speak of the United States with a friendlier tone than he did in last January s news conference when he rejected President Kennedy's save

Congressman Offers Railroads

Expresses his doubts on the railroad's ability to handle the tonnage and traffic brought on by the coming of the Penn Central.

"It is a give and take process. The railroad leaders have their responsibilities and the labor leaders have theirs as well. The object is to make sure that the railroad leaders come from the management of the railroad," he said.

"The director was born and raised in Michigan. He has written several essays, one of them on the subject of his ambition, drive and capacity to maintain their high average." He estimated that five percent of the campus leaders come from the Honors College," he cited. "Last year nearly 70 percent of AUOAS senior class also has charge of campus leaders. An ambitious student can do the same in the area of talent and ability are the factors which really count," he said. "About 99.5 percent of them get fellowships or assistantships, scholarships or students go on to graduate work or professional schools. The intellectually gifted students are the crop leaders. The intellectually gifted students are the crop leaders."

The Loss: Faith Or Courage?
by Rev. Robert Kavanagh

"Faith is the stuff that men will live by,"

But I have often heard this, that there is a vast difference between the way people talk about faith and the way people actually live by it.

One person may say, "I have faith in God," but when it comes to putting that faith into practice, they often fall short. This is especially true when facing difficult situations or challenges.

Another person may say, "I don't have faith in God," but their actions and decisions show that they are living by a different set of beliefs or values.

So what is faith? Is it simply a matter of belief or is it something more?

In this article, we will explore the nature of faith and its impact on our lives.
