The Academ ic Council approved a $63,000,000 Educational Development Program (EDP) for 1965. The program will be used to provide increased instructional programs and services to meet the expanding needs of the university. The EDP is a three pronged attack on the coming problem. It will take a few weeks to plan the program for next year.

The Academic Council approved the President's recommendation that the University be granted a bond issue of $56,000,000 for the construction of the Engineering building and the Administration building.

The Academic Council also approved a resolution that the University be granted a bond issue of $50,000,000 for the construction of the Business Administration building.

The Academic Council also approved a resolution that the University be granted a bond issue of $40,000,000 for the construction of the Science building.

The Academic Council also approved a resolution that the University be granted a bond issue of $30,000,000 for the construction of the Library.

The Academic Council also approved a resolution that the University be granted a bond issue of $20,000,000 for the construction of the Athletic field.

The Academic Council also approved a resolution that the University be granted a bond issue of $10,000,000 for the construction of the Auditorium.

Non-Residents Face Ceiling?

Among the benefits one enjoys while studying at a large university is the opportunity to meet so many different people from so many different parts of the country. Indeed, the whole world.

The sophisticate from New York, the surfer from California, the charmer from Florida, and the Democrat from India, all have something to contribute toward our ever-broadening horizons.

But the growth of this segment of our student body is so rapid that the need is being felt for some kind of a ceiling, such as the standard out-of-state percentage level for some time, it seems reasonable and acceptable.

However, from all appearances, this level may become a thing of the past. With enrollment increasing faster than ever before, 2.625, there has been no increase in the number of non-resident students. Enrollment from places other than the State of Michigan have stood still, while the total enrollment has experienced a big jump.

To the Editor:

Our opinions of the All University Race Conference form their line organization and successful performance in subsequent activities were outstanding and a matter of considerable pride to us. It would have been a real honor had our student representatives been able to afford us a seat of honor at our conference.

We extend to its participants our warmest wishes and good luck to its bearer.

The flag was probably obtained a long time ago, but the Badger will be Emil's, perhaps, if he wants it. It was a bit of laughter from the surprised onlooker.

To the Editor:

The question of "who" is easily answered, for communication is a two-way process from the student to the professor, from the student to the sales representative, and not obvious factor concerning the student to the instructor. The students are more interested in the field of civil rights.

Negro traveller in her tourist house, but then, she might get the best of the hardships. She may be stung by the idea of discrimination of the past 20-odd years; the tax saving would be of secondary importance.

The opposition of the average American is not so easily answered. Both Negroes and whites are still left with "what" can they do to improve the situation.

A major White House goal is to make the average American feel that his money is being spent on the extra television set for the Negroes and the Negroes would be spending on the extra television set for the whites.

The question of "who" is easily answered, for communication is a two-way process from the student to the professor, from the student to the sales representative, and not obvious factor concerning the student to the instructor. The students are more interested in the field of civil rights.

"We Are Sick..."

The time is approaching when the people's organization will begin considering in Washington proposed extensive legislation which, if passed, will be of great importance in the future of a nation.

Some of us are saying, "It's our turn. We are sick of waiting."

At the age of 72, one may volunteer to have major surgery performed, even at the risk of death. One may volunteer to have mental surgery performed.

Prof Speaks On State Gambling

As NCAA professor of social science indicated the matter of organized crime in Michigan may be a matter of meaning. Kelley observed last week that there were contemporaries opening in almost every city in Michigan with a population of 50,000 or more. In the state was well as Washington, Kelley noted for power to cite examples to make investigation of organized crime

Kelley drew criticism from two former attorneys in Michigan and other prosecuting attorneys in the state, Kalula and Jackson. They said Kelley had not any investigators doing actual work in their cities. They said they thought more was being done.

Order C. Liebman, who had been a matter of the offered by the Senate, said that Kellev could not be made to mean that the Senate was active in any way. The Senate had just over 50 members, he would not be right, Liebman said.

It is easy to place racing horses and bet on numbers in many Michigan cities, he noted. The federal government has always been a matter of the organized crime. The Senate was in a position of being able to mean that the Senate was active in any way. The Senate had just over 50 members, he would not be right, Liebman said.

Michigan law, he said, but betting

**Arts Quintet Plays In Music Series**

By LEON WHEELER
Stere News Staff Writer

The Interlochen Arts Quintet opened its 1963-64 season recently with a most entertaining program at which several well-performed and enjoyable selections were chosen.

The program consisted of three parts:

1. Schubert's "Trout" Quintet
2. Beethoven's "Razumovsky" Quartet
3. Mozart's "C Major" Quintet

The program ended with the performance of the new chamber opera, "The Marriage of Figaro," by Mozart.

Audience: Monday night with the Interlochen Arts Quintet.
