Six Educators Named ‘Distinguished Faculty’

Monteith Hannah’s Sixth ‘Distin­guished Faculty’ named Friday night by President John A. Hannah at the Faculty Convocation held in the Auditorium.

Hannah was Edward C. Cantino, professor of history and director of the State of Fraternity, Watsontown, Pa. A motion to change evening dress regulations and those of women was adopted by the college student body. The submitted proposal was that men would be allowed to wear sport suits and sport coats except blazers, with or without ties. The new regulations were to take place immediately. After the meeting, men were grouped to a south campus complex.

President said.

to stay in the thick of problems evaluated the University w ith pus in evergrowing numbers for to retire from the competition, to the next decade. A Land Grant institution.
tions , federal agencies and tax- advancements it has made since its founding as the first Land Grant institution.

Dr. Hannah pointed out. many people and resting on past achievements. The University must be able to reward these faculty members—with early recognition, incentives, responsibilities, promotions and salary advances. The faculty also must have time free from non-professional side-tracks and mechanics to spend more time with students in academic pursuits. The University must also improve the undergraduate program, keeping in mind that it is the basis of education. Undergraduate studies must not be minimized. The University must be free to devote as much time as possible with students in academic work. The more difficult decision is to stay in the thick of problems—challenges registered to keep the physical and student enrollment growth, slowing the University's ability to improve as it has.

The University would yield to the temptations to pause, to hesitate, it will find itself trying to solve tomorrow's problems with yesterday's solutions. Dr. Hannah compared the University with a man who has succeeded in winning recognition and approval from his peers after years of effort. This man—this University—is often tempted to retire from the competition, to take the easy way out.

The more difficult decision is to stay in the thick of problems—challenges registered to keep the physical and student enrollment growth, slowing the University's ability to improve as it has.

Action Combats Discrimination

Students often complain about the same dif ferences in self-campus housing and criticize the University for functioning dis- crimination by ignoring. The halls remain on the approved list. The flaw in their argument is that the University did not act on the legislation that followed. The legislation was not passed, and the University acted on the discrimination.

The University investigated the case and found sufficient reason to believe that the woman in question was guilty of the charge. Her name was immediately dropped from the list.

The responsibility of weeding out those who discriminate, therefore, lies with the students. They are the only ones in the position to know of the biases and prejudices of the people from whom they are accused. Students must take the responsibility to truly believe that discrimination is wrong. They must report such incidents to the University.

Importance Of Conscience

If the time we live, proves anything at all, it proves the importance of conscience. One may reasonably say that the same importance exists always, but the need for decision and action is surely greatest in periods of upheaval, social change. The resolution of profound moral issues.

Questions Governmental Stability

Latin Lands Lack Maturity

The role of Latin American hemispheres have never been entirely the same in the independent: The cause of internal political and socioeconomic changes continues and almost the same side of events readily formable. Those are a few of the many critical issues that faculty, as well as administrators and students, have been discussing at the University.

Dr. Hannah expressed confidence in the University's future, as well as the quality of the students. The university can be true and great achievements among the great universities of the world. "No one will do this for us. We must do it ourselves."

Editor's Note: This is the last "Series of Articles on the role and duties of faculty members in the University."

Views On Memorials, Admissions

Seldom will you find a person brazen enough to import a F.M. radio station. You might stumble into the bathroom and discover a student at Michigan State. Even married housing.

A survey now underway may give this station nearly half the listener audience. When that's done, all stations will be required to play F.M. radio for 10 hours a day. This decision was made after a study of the listener audience. When that's done, all stations will be required to play F.M. radio for 10 hours a day.

Today's the moment, tomorrow's the moment. If it never arrives the time to make something happen, then it never will. That's why today's the moment, tomorrow's the moment.

Michigan Economic Outlook Optimistic

S. JANE KNAUL

The Michigan Economic Growth Office announced on Wednesday that the state's economy is in a recovery phase and that it is expected to continue to improve in the coming months.

"The Michigan economy is showing signs of strength as we move into 2023," said Economic Growth Director Jane Knaul. "We expect the state's economy to continue growing at a moderate pace, with unemployment rates decreasing and consumer spending increasing."
**Ice Carvings Top Dinner-Dance**

The Water Carnival in Milwaukee will be announced. The carnival will be held on the east side of Lake Michigan, according to the Milwaukee Park Commission. The carnival will be open to the public.

A "hint sheet" will also be distributed to each participating living unit. The area directly east of the carnival will be announced.

---

**FINISHING TOUCHES**

Franco Pajella, Rome, Italy, senior, puts the finishing touches on a swan which he carved as part of the water carnival. Pajella, a student in the "garden manager" class at MSU, is a registered breed. He said that the swan is a very good horse, preferably one that is well and can be used for racing in the future.

Miss Bowerman has also held second and third place awards in the same event. She has queried whether the cease-fire would be effective.

---

**Queen of Niles**

At 1:30 p.m., Queen of Niles will be announced. The queen will be announced at the closing ceremony.

---

**CORNUCOPIA CAPERS**

Wood carving tools used for the ice carvings were designed by Roger Stouder, Baltimore, Ohio. The queen, wearing the theme of the cornucopia, drapes material for a backdrop.

---

**LUNAR THEME**

A rocket, designed by Roger Stouder, is a centerpiece for the buffet line. The rocket is taking place. A constant bending in the ice house is maintained in the ice carvings.

---

**Horses' Popularity Grows; Estimated 10,000 In State**

The Quarter Horse is popular because in a variety of ways it is a great horse. For instance, it is a registered breed. The Quarter Horse is popular because it is a versatile, a hardy, and a great horse. It is a registered breed.

Dependable and punctual, with a good work ethic. Please apply in person or submit your resume via email. Salary negotiable. Contact Bob at 555-1234."
Meet Buckson Tonight

There's no rest for the Spartan cagers. After coming out on the short end of a decision (85-82) pending the University of Michigan recently, after a four-game winning streak, the Spartans are back on the court tonight against Ohio State (12-4) in Johnson Fieldhouse.

The Buckeye lineup is led by George Ricketts, whom many believe to be the best offensive player in the conference. Ricketts has a 90.9 scoring average and is the loop's leading field goal shooter, having scored 483 baskets.

The Ohio State unit tops the Big Ten in scoring with 80.1 points per game, and it has a 5-2 league record, losing only to Michigan, University of Minnesota, and Purdue.

The Buckeyes are led by Pete Gent, with nine, and Marcus Sanders, with 14 points, for a 12-12 tie, to push their win total to 10 on the season. Gent and Sanders are both 6'10" centers and are the backbone of the Buckeyes' defense.

The Ohio State unit tops the Big Ten in scoring with 80.1 points per game, and it has a 5-2 league record, losing only to Michigan, University of Minnesota, and Purdue.

In order to win tonight, the Spartans must play tight defense and keep the Buckeyes off the court. If the Spartans can do this, they have a good chance of winning.

The game is scheduled for 9 p.m. and will be televised on ABC. The Spartans will be wearing their navy uniforms with red borders, while the Buckeyes will be wearing their white uniforms.

Wrestling Team Wins, Draws

The morning came after another tremendous battle. The Michigan Wolverines (19-1) faced off against the Ohio State Buckeyes (12-4) in a packed Johnson Fieldhouse. The Wolverines emerged victorious with a 77-62 win, setting up a showdown with the Minnesota Golden Gophers (11-5) for the Big Ten title.

Wolverines Loop Hold Begins To Tighten Up

Just one week ago, the Big Ten basketball title was up for grabs. Today, it's all but wrapped up. Michigan, with a commanding 35-24 lead, has been able to run away from the rest of the conference. The Wolverines have won their last five games, including a 77-62 victory over Ohio State. The Gophers, on the other hand, have struggled, losing their last three games and falling to 11-5 in the conference.

The Wolverines are currently leading the conference with a 13-2 record, while the Buckeyes are in second place with a 12-4 record. The Golden Gophers are in third place with a 11-5 record.

The Wolverine's success has been due to their strong defense and ability to score consistently. Coach Bill Bevans has done a great job of keeping his team focused and energized.

The game was a back-and-forth battle, with both teams putting up a good fight. In the end, the Wolverines were able to pull away and secure the win.
