Good News From NDEA

Good news for students in school "from a shoestring" came this week in the form of an in-
crease in National Defense Education Act (NDEA) loan funds. A bill was
passed by Congress raising the loan ceiling for individual col-
leges from $250,000 to $400,000 annually.

Henry J. Dykema, director of financial aids, said NDEA probably will be approved for the full maxi-
mum because of the current large enrollment. He said this increase "would probably give
more money than we could use."

Depending on the size of indi-
vidual loans, Dykema said, the number of recipients will probably be cut down to between 500 and
1,500 next year.

NDEA lendes are considered
among the best sources of financi-
al aid for students looking for assis-
tance. Interest rates are held to 3 per cent, and interest is only added on after the student has been out of college a year.

Loan recipients who go into teaching have the amount they must return reduced by 10 per cent for the first five years, as long as they are working as teachers.

Dykema said, "I don't know of any loans that are any better, particularly for someone who is going into teaching."

The increase in the number of
NDEA loans available is a re-
flection of a sensible and prac-
tical attitude toward education.

The federal government has taken it upon itself to subsidize the education of a large number of students as one of the best means of preserving the nation's standard of living.

Iowa Chosen as Gym Site

Selection of the University of Iowa site of the 1972 annual United States Gymnastics Federation National Championships April 17 and 18 has been announced by Frank S. Baer, U. S. Olympic Committee director of the organization.

The University of Missouri won the regional competition held last weekend in the city of Kansas City, Mo.

Correction

In picking basketball winners for the Michigan State-Michigan game last weekend, Bob Mack Allen of the Detroit News should have been named instead of James W. Martin. The News regrets the error.
