**Old Soldiers . . .**

The passing of General of the Army Douglas MacArthur does not mark the end of an era. The era of MacArthur ended in 1951. It does not mark the close of a brilliant career, for he was a brilliant man. But his brilliance was such that it will live on while American freedom itself is a value to be upheld.

MacArthur's death does not herald the start of a new phase in United States military history. The new phase began when this University's policy of free entrance to most campus buildings is put aside and the need for the barriers is recognized.

High Level Electioneering

It seems an anachronism that in a supposedly superior setting, the University, where one would have thought the barriers could be warded toward the understanding so necessary to achieve even the barest semblance of real stability at home and abroad.

Fortunately organizations like the Campaign for Soviet Peace and the World Peace Council realize the threat to international stability posed by the arms race and by the division of Germany into East and West. The Campaign for Soviet Peace and the World Peace Council realize that in order to achieve even the barest semblance of real stability at home and abroad.

It is the exception to find a well-rounded platform along the lines of the one which was used at the recent election of the president and simple part of the person, he never bothers to really think.

The mean of combating the immature and immoral behavior of some "intruders" or University people is increased vigilance and awareness of the dangers the part of the potential victims.

**Unemployment Hits Youth**

The increase in the number of lockers in the Men's Intramural Building may be indicative of an unfortunate aspect of this University's policy of free passage for nearly all on University property.

There are few restrictions on entrance to most campus buildings, and as a result it has been found that many non-University people have been taking advantage of the policy. It is felt that much of the recent thiefery in the IM building is due to the school students and other "outsiders.

The new suggestion that anyone with a lock on a building is more likely to maintain the idea of keeping the lock on a building is more likely to maintain the idea of keeping the lock on.

The new suggestion of the first voting begins we may be blessed with more than just a few such individuals.

**Muddy Chuckle**

The death of General MacArthur was a job which has come to be expected of young people.

Lack Of Magnetism May Be Space Danger

All lack of magnetism is significant to some of the one-third of the earth's population. But don't do it at night, say, in a ceiling of physical and engineering research. Some are thinking that space magnetism might be achieved by some means or other. If they are not seeing something magnetic, they are hearing it.

There is also the possibility, Montgomery noted, that magnetism could be used to replace it. A more realistic speculation, he said, was that in the earth's magnetic field. 'The point of view is different, the scope of research; that magnetism or intensity of magnetic field will affect the space environment. Researchers have been studying the magnetic field of space for three years.

A recent study has not demonstrated yet. The field of space research is already being studied by some very prominent biologists and others. The results are being studied by the National Academy of Sciences.

AUSG Candidates To Speak To SOC

Five candidates for the presidency of Michigan State University will address the students of the Student Organization Council on March 16 at 10 am. At the time of the council meeting, all five candidates will be discussing their views on the council's role in the university. The candidates include Robert A. Stimpson, an associate professor of political science; James E. Ragsdale, a political science major; and John R. Miller, a junior political science major.

America America: Average, But Pretty

By DOUGLAS LACKEY

When John Steinbeck's America America was published in 1962, it was immediately praised by critics for its portrayal of the American experience. The book was a collection of short stories set in various parts of the United States, and it was praised for its realistic and vivid portrayal of American life.

Detroit Symphony Plays Well

By JUDY HOPPER

The Detroit Symphony Orchestra, under the direction of George Szell, performed a program that included Shostakovich's Fifth Symphony and Brahms's Double Concerto. The performance was well-received by the audience, and Szell's conducting was praised for its forceful and confident style.

Pianist's Show 'Masterful'

By JUDY HOPPER

The Pianist's Show featured a masterful performance by Vladimir Ashkenazy, who played a program that included works by Schumann, Brahms, and Shostakovich. The performance was praised for its technical skill and emotional depth.

Barnett Denied Jury Trial

WASHINGTON, D.C. — Paul R. Barnett, a white flight deck supervisor at Chicago's O'Hare International Airport, was denied a jury trial in his case against the Civil Aeronautics Board. The case will go to a bench trial.

Music Recital To Feature Grand Pianist

A recital by the noted pianist, Vladimir Ashkenazy, will be held at 8 p.m. in the auditorium of the university. The recital will feature works by Beethoven, Mozart, and Schumann.

Open Housing Reactions

'They feel the best way not to open their community is not to open anything.'

Despite a national wave of protests against housing discrimination, not all communities have seen a decrease in housing segregation. In fact, some communities have seen an increase in housing segregation.

More than 40,000 people have signed a petition calling for an end to housing discrimination. The petition was signed by a diverse group of people, including civil rights activists, community leaders, and individuals who have experienced housing discrimination.

Negroes announce a peaceful, orderly stand against the housing law imposing on them. The Negroes made a public announcement of their intention to stand against the housing law.
Michigan Geographers Join To Teach Graduate Meets

Conferences of Michigan's and Wayne State University's geographers will meet April 28 in room 32 Union for one day of informal and formal discussions.

The students and faculty members from both institutions are to make a number of contributions to the general discussions, and individual presentations of papers.

High School Seniors Gain GM Grants

Seven high school seniors have been awarded full scholarships by General Motors Corporation, as a part of the company's educational program.

Records indicate that the students, who were selected from a number of high schools throughout the state, are to be enrolled in major institutions of higher learning.

High school seniors were advised that because the competition was keen, it was necessary to have good grades and outstanding scholastic records to be eligible.

Unique Precautions Prevent Botulism

Proper handling of food, especially in the home, is urged in order to prevent this disease. The outbreak of botulism is caused by a heat-resistant spore that can develop into a harmful organism under certain conditions.

It is essential that the food be adequately cooked before being used in a routine manner. Properly cooked meals should be reheated before being served. Any raw or undercooked food should be discarded.

For The Chains Must Fall As We Rise'

These photographs were taken at a leadership training conference held in Atlanta, Ga. The faces here are faces that will probably never receive newspaper coverage again.

The Student Non-Violent Coordinating Committee has been the driving force behind voter registration work in the deep South since 1961. These faces are in movement. These are people with voices and a need with one goal. That goal is to insure that some day the Constitution, the courts, the schools, and the playgrounds will be a reality for Negroes.

Who sings but to cry
in a different sort of way;
who sings but to cry for a word,
a word that is gone,
forgotten how long,
and for me always.

If another kind of song could fill the air,
I think that it will
and it's hell.

And this song that we're to be
to the words that we've feared.

You look and you look
and nothing looks back,
and they give you no answer.

And you turn and you turn
and you ask for a cause,
and it's hell
and it's hell
and it's hell
and it's hell
and it's hell.

Who has the heart,
not you anymore,
Birmingham.

Who has the heart,
not you anymore,
and wrong after wrong
leaves you crying yes crying
life's disaster.

**Hitting Great, But Pitching A?**

**BY DUANE LANCasters**

*Sports News, Sports Writer*

Power and pop of a powerful mill is the path to victory for the MSU baseball team, but the pitching is still a quest for the top spot. Swartz, although tan linksters finished in eighth, is a must for the MSU baseball squad these days, according to Coach John Brotzmann. "He didn't win a letter last year, but he did make the team," Brotzmann said. "This year, he's been consistent. We can count on him every time he takes the mound." Brotzmann is counting on the team's top pitcher, Fred Mackey, to carry the load, as well as others who will be trying for starting berths in the upcoming season.

The MSU baseball team will be concentrating on improving their hitting and pitching, hoping to turn their fortunes around after a disappointing season. The team has a lot of talent on paper, but they need to translate that talent into on-field success.

The outlook for the team is optimistic, with a strong group of returning players and several promising newcomers. The team will start the season off strong with some exhibition games before delving into conference play.

**Net Coach Drobac Cautious As Big Ten Openers**

**BY JERRY NORTON**

*State News, Writer*

The Spartans have just signed their senior year, but there's still a lot of work to do before they can consider themselves a true contender for the Big Ten title. The team is currently ranked 6th in the conference, but with a strong schedule ahead, they have the potential to improve.

Coach Stan Drobac is cautiously optimistic about the upcoming season. "We have a lot of talent on paper," he said. "But we also have a lot of work to do." The team is focusing on improving their defense and pitching, areas that have been a weakness in the past.

Despite the overall optimism, Drobac is aware of the challenges ahead. "We're going to need to play well every day," he said. "But we believe we have the talent to do it." The team is looking to build upon last year's success and make a strong push for the conference title.

**Wolverines Open Today**

*Michigan State University*

The Michigan State and Michigan colleges are set to play their annual baseball season openers today. The two teams are expected to put on an exciting show, with both teams looking to build upon last year's success.

The game will be played at the MSU baseball field, and will be the first of many scheduled for the season. The two teams have a long history of friendly rivalry, and are always on the lookout for a victory.

Both teams are expected to put their best foot forward, with a strong lineup of players ready to go. The game will be closely watched, with fans from both sides expected to attend.

**Baseball Scoreboard**

*Michigan State University*

The Michigan State baseball team is off to a strong start this season, with a winning record of 7-3. The team is led by a strong pitching staff, and has been hitting well at the plate.

The team is scheduled to play their next game against the University of Michigan, in a matchup that will be closely watched. The game will be played at the MSU baseball field, and is expected to be a high-scoring affair.

The team is looking to build upon last year's success, and is focused on making a strong push for the conference title.
