**Activity Book Set-Up**

To the Editor,

I would like to bring something to the attention of those individuals who are involved with activity books and the students who receive them.

There are several reasons why activity books are important. They provide a means for students to practice skills, reinforce lesson goals, and assess student understanding. In addition, they can be used as a supplement to classroom instruction, offering students opportunities for independent practice and review.

However, there are also several concerns associated with activity books. These include issues of cost, accessibility, and content quality. It is important for schools to carefully consider these factors when selecting and implementing activity books.

Sincerely,

[Your Name]

**The General's Words On Future Challenges**

Throughout history, military leaders have emphasized the importance of strategy and foresight in preparing for future conflicts. A recent article in the Michigan State News, East Lansing, Michigan, highlights this approach by examining the role of the military in shaping America's future.

The article discusses the ways in which the military can contribute to national security, including through technological innovation, international diplomacy, and strategic planning. It also highlights the challenges that the military faces in adapting to new threats, such as cyber warfare and terrorism.

In conclusion, the article suggests that the military has a critical role to play in shaping America's future, and that effective strategies and leadership will be essential in navigating the complex challenges that lie ahead.

Sincerely,

[Your Name]

It’s time to start thinking about summer vacation again. So, think about Lake Michigan College in scenic Benton Harbor. For information: Director of Summer Session ‘64.
Major Rail Strikes Brought Wide Change

American Railway Union began "a nationwide strike" over the so-called "three-fifths compromise", which allowed slave states to count each slave as only three-fifths of a free state in representation in Congress. The goal was to remove the railroad heads, and the power of the federal government to remove obstacles to inter-state commerce was delayed.

A government attempt to intervene was thwarted by judicial means. On August 20, 1877, the Circuit Court of Appeals decided in Railroad v. Union that the federal courts had no power to intervene in rail strikes. The decision was affirmed by the Supreme Court on December 1, 1877. The Federal Government was thus denied the ability to prevent strikes, and the strikers were left to their own devices.

The strike was the largest in the history of the country to date.
**Teachers To Get Higher Salaries**

Teachers are set for better pay. The Board of Education announced that all teachers in the district of 200 teachers will be given a 10% raise.

The Board voted to approve the raises for the 10% increment of salary increases. The raise will increase salary for beginning teachers to $1,000 and for teachers with five years of experience to $1,000.

Chairman Mr. Green announced that the raise will be effective immediately. Teachers holding bachelor degrees will receive raises of $1,000 and those with master's degrees will receive raises of $1,000.

The raise will be given to all teachers in the district, regardless of years of service or degrees held.
