**House ways and means committee slashed more than $2 million from Gov. Romney's proposed budget for Michigan State. This came as part of an overall 5 per cent cut on the $407,000,000 education budget. The recommended total for all Michigan colleges and universities now stands at $397,926.**

**Hannah Upset Over Cut**

**By CHARTES WELLS**

Several House Republicans introduced a bill Thursday night to amend the state's 1964-65 college budget, providing the proposed cut in aid to the University of Michigan.

President John A. Melcher appeared disturbed following the introduction of the bill which would have made $2 million in cuts.
The Two Sides Of Dick Gregory

I'd like to talk to you people very sincerely. All beer drinkers and hell raisers.

I never thought I'd say the day when beer-drinkers would be singing the "State of Emergency"

I had to be in New York at the West Side Pavilion on the 15th of July for the opening of the movie "The Two Sides of Dick Gregory," which is a documentary of my life. I'm very excited about it, because the movie is not only about my life, but also about the life of all artists and intellectuals.

I was not aware of this before, but I have been reading some of the reviews of the movie, and I am amazed at how much they have said about my life. I think that this is a sign of how much attention is being paid to the issues that I have been addressing in my life.

I hope that you will all come out to see the movie, and that it will help to spread the message of peace and love that I have been promoting throughout my career.

Last summer the name of Gilbert & Sullivan was mentioned with particular delight. When one of the two men got to work on a new collaboration, the other...
Meeting Of Cold, Warm Air
Prof Explains Tornado Cause

The following and rising dark cloud warned of impending storms.

Thursday, April 30, 1964

As the warm, humid air rises over the cooler, heavier air currents to take place, it creates a counter-clockwise, whirling motion. The intensity increases, reaching nearly 250 miles per hour.

Then a strong, black funnel reaches down from the cloud and meets the ground. Nearly all tornadoes, described as "touching down," do not stay on the ground for long periods. If a tornado does touch down and stay on the ground for a longer period, it is called a "long track" tornado.

One of the most frightening things about a tornado is that it seems to rise from the earth and then sink down again.

This may be due to the lack of velocity when the funnel tip touches the ground. If the air is too cold, the ground will cool the air and make the air move more slowly. This could explain why a tornado would sink down again.

Tornadoes are often accompanied by extreme weather conditions, such as heavy rain, hail, and lightning. These conditions are caused by the warm, humid air rising over the cooler, heavier air currents.

The film was directed by Satyajit Ray and stars Indian actors.

This is, basically, the life of a tornado, a mass of disturbed warm air.

This is the last of a trilogy that began with "Through a Glass Darkly" and continued with "D拆kly"

Bergman has reduced to minimum the extent of plot, characterizations, and visual imagery to which his viewers are accustomed. In "Dochkly," the breadth of plot, characters, and visual imagery that Bergman is accustomed to use in his films are limited.

The film was directed by Satyajit Ray and stars Indian actors.

Three School Coaches Here For Grid Clinic

By DUANE LANCASTER State News Sports Writer

Up to 300 high school and college coaches are expected to be at a campus clinic when State's 15th Annual Football Coaches Clinic gets underway at Kellogg Stadium Friday morning. Charles McClendon, head football coach at Louisiana State, and Peter Windham, center and attendance at State's three-head line speakers at the three-day clinic that will get underway at 8:50 p.m. Friday. Clinic sessions will be held from 9 a.m. to 2:30 p.m. Saturday and Sunday. The event will start this afternoon and close Sunday night.

Grady Swain and Bob Martin, the press of the meeting, received a secondary assignment when squads of the MHSAA junior college football teams arrived.

The clinics will continue through Friday morning, when squads of the MHSAA junior college football teams arrive.

McClendon, who in the summer, will give a head coach at Louisiana State, and Peter Windham, center and attendance at State's three-head line speakers at the three-day clinic that will get underway at 8:50 p.m. Friday. Clinic sessions will be held from 9 a.m. to 2:30 p.m. Saturday and Sunday. The event will start this afternoon and close Sunday night.

Marching Band Plans Michigan Day at Fair

The MIB Marching Band, announced for a trip to the New York World's Fair, will perform at 11 a.m. on the main stage.

The band will leave campus at 8 a.m. and arrive in New York around noon. They will practice in the afternoon and perform a concert at Rockefeller Center Friday evening.

The tour is being sponsored by the Alumni Association of General Motors Corp.

Views White Aidng Negro

James R. Hooker, professor of music and director of the band, said the giving blood actually makes the donor feel better.

He said giving blood acts as a psychological reaction to the puncturing of the vein. It has no effect on the body. He added, but that is just a general statement.
