University To Operate Bus Service

STATE NEWS

S12 Student Fee To Be Charged

Shuttle Service To Be Provided From Commuter Lot To Campus

The University will begin operating its new shuttle service, a boon to those who have previously had to trek across campus to get from one point to another.

It is hoped that the new shuttle service will not only help students, but also faculty and staff who have been commuting to and from campus.

The shuttle service will operate from Monday to Friday, with service running every 15 minutes during peak hours.

The shuttle will pick up passengers at the commuter lot and drop them off at various locations around campus, including the main campus, the library, and the student union.

The shuttle service will be free to all students, faculty, and staff, and will operate during the spring and fall semesters.

dedicated to serving your needs. Is there anything specific you would like to know about the shuttle service? Or perhaps you have a suggestion for a new location the shuttle could serve?

Let us know your thoughts and we will do our best to accommodate your needs.

Weather

Partly cloudy and cool, so bundle up if you’re heading out today.

The high today will be around 60 degrees Fahrenheit, and the low will be around 40 degrees. Be sure to check the forecast before heading out.

University makes it easy to get around campus with the new shuttle service, making it a great option for students, faculty, and staff alike.
The Significance Of A Party

We think it is significant in one of the country’s largest universities that such a thing could happen as the party which Latin and Greek students gave last week to honor their professors. William M. Rea man and Alfred F. Dorjahn.

What does it signify? That even in a large university, a closeness exists between excellent professors and their students. Professor Seaman, for instance, pres ident of the Central Michigan Chapter of the Archaelogical Institute of America, director of the Service of the American Classical League, and associate director of the national magazine, was cited at the party for his devotion to teaching and for his boundless faith in the intelligence and ability of his students, a faith which inspires them to greater efforts.

Professor Dorjahn, finishing a four-year stay here after retiring as classics chairman at Northwestern, was cited for his dedication to Latin and Greek. Professor Seaman has taught Classics in years when it wasn’t easy to arouse student enthusiasm in the subject. But there is a certain trim ester plans at several universities that students gave last week to honor professor Seaman, for instance, president of the Classical League, and associate director of the national magazine, cited at the party for his devotion to teaching and for his boundless faith in the intelligence and ability of his students, a faith which inspires them to greater efforts.

Primary's Lessons

Last week's mock primary election may hold some lessons for those students who support such activities, and for those who看来 this type of event is the highest hint of disinterest in anything that interests them.

The primary was poorly-organized, and the campaigning was weak. There appeared to be a desire on the part of many students that this was a heavy turn-out, indicative of rather strong interest on the part of students, even though they were not prodded by campaign publicity.

The lesson is that this type of election need merely be an expression of student interest; student interest will make it succeed even without the trappings of a student government election. An additional lesson is that students are interested and informed enough to evaluate a campaign even if it is not properly organized and presented.

An additional lesson is that students are interested and informed enough to evaluate a campaign even if it is not properly organized and presented.

Strengthening The Big Ten

Athlete Council Chairman John Parke. In his report to the academic and athletics board, Mr. Parke outlined some of the problems the Big Ten Conference will face in the future.

Parke, M.S.U.'s league faculty representative, told the Senate that the league is considering the possibility of holding the trimmer session at several meetings.

He said the University of Michigan's spring term will end on May 12, 1964. The athletic conference will special emphasis to U-M athletics so that they may remain after school is closed, and is some cases after they have graduated.

But the trimmer session is only one of the problems that faces the conference. Far more significant is the Big Ten athletic administrators are concerned about where the league is headed.

Because of this, the league has scheduled a private summer session where the faculty representatives and athletic directors can get together to discuss the usual legislative problems, which take up much of their time, and meditate on the future of the conference.

Parke is one who believes the Big Ten must adjust to the changing times, and a big trimmer session will be in order.

He foresees a possibility of summer sports, of new eligibility rules of an expanded varsity sports program.

"Michigan State has become a respected member of the conference," Parke told the Senate. "But it appears that Parke and athletic directors M.A. want more than to be just another member."

They want Michigan State to become a leader in the conference, not only on the track or football field but on the policy level.

Parke's summer retreat may be the start of a new phase in the life of the Big Ten.

Attorney General

God Broke Us What?

Joshua J. Frank.

I must say that it has come to my attention in the recent years, that the government has been developing a new policy of brokering foreign lands to other countries, in order to make them more suitable for occupation or development by American businesses.

In 1948, on the very day that the United States recognized the Kingdom of Saudi Arabia, a group of American businessmen met in New York City to form the American-Arabian Oil Company. This company was given a contract to explore for oil in the Arabian Gulf region. The oil discovered by this company later became the source of much wealth and power for Israel.

I must say that I am not pleased with this development, as it seems to me that the United States is using its power to interfere in the internal affairs of other countries.

I believe that the United States should respect the sovereignty of other nations and not interfere in their affairs except in cases of self-defense or in order to promote world peace and security.

I also believe that the United States should not use its power to create new problems or to exacerbate existing ones. I think that the United States should work towards a world in which all nations can live in peace and harmony, and in which all peoples can enjoy the rights and freedoms that are their birthright.

I must say that I am not pleased with this development, as it seems to me that the United States is using its power to interfere in the internal affairs of other countries.

School Days Start Again For Alumni

The Michigan Alumni Association is all set for a week of activities designed especially for alumni who have returned to campus for the Alumni Days, which begin today. Alumni Days will continue through the weekend.

Language Society Founds Chapter

The Language Society, the Michigan chapter of Pi Sigma Pi, the national forensics society, met last week. Georges J. Pauza, president of the University of Michigan Forensics Society, was elected as the new president of the Language Society. Twentysix foreign language department faculty members and students were initiated. Initiation of foreign language departments included: E. Allen, A. D. Payne, assistant professor; E. G. C. Payne, professor; and E. G. C. Payne, professor of foreign languages.

Dress Regulations

MHA Passes Rules

Men's Hulin Association Thursday night gave unanimous approval to the recommended changes in men's evening dress regulations. The recommendations were made by a special investigating committee, which was recently formed to study the problem, according to the report made to the Faculty Committee on Hulin Affairs for final approval. It is expected that the changes will probably go into effect at the fall opening.

The committee recommended that men be allowed to wear sport shirts with collars and long sleeves with washable, non-hardened wash and wear material, and pajama-type shirts of a type acceptable to present day standards.

The committee also recommended that leather shoes "of a type acceptable to nearly everyone" be worn.

Sport shirts with collars and long sleeves are to be presented day standards. Split sole shoes will still be allowed, according to the report made by the committee, because "the present dress regulations do not allow full action for men during the evening meal during Fall and Winter terms in residence halls without the use of the arm and hand." The committee added that regulations are seen to look upon a prefessionally helpful and socially enjoyable manner.

The recommended change is in the interest of the University, the college faculty and the students, according to the report made by the committee. It is expected that the changes will probably go into effect at the fall opening.

Phi Kappa Phi Initiates 200

Nearly 200 juniors and seniors with high grade point averages will be initiated into the honor society of Phi Kappa Phi tonight with high grade point averages of at least 3.0. Among those initiated will be Charles A. Stroud, an engineering research assistant, and Robert W. Hance, a professor of speech. William G. Sinnett, professor of electrical engineering, engineering technology, and assistant dean of veterinary medicine, with high grade point averages of at least 3.0. Among those initiated will be Charles A. Stroud, an engineering research assistant, and Robert W. Hance, a professor of speech. William G. Sinnett, professor of electrical engineering, engineering technology, and assistant dean of veterinary medicine, will make the awards.

In addition, seven graduate students and eight faculty members will be initiated. They are: William G. Sinnett, professor of electrical engineering, engineering technology, and assistant dean of veterinary medicine; Robert W. Hance, a professor of speech; John N. F. Blank, a professor of civil engineering and public health; and David M. Brotzu, an associate engineering research assistant.

Buses

The Board of Trustees is expected to give formal approval by its Jan. 1 meeting to the plan for a mass transportation system for the University community.

The Board of Trustees is expected to give formal approval by its Jan. 1 meeting to the plan for a mass transportation system for the University community.

"The bus service will be strictly limited to the University and its environs," said a University spokesman. "There is no justification for using a capital investment of this size." The corporation will not operate any bus service off-campus.

He estimated the bus system would cost the University approximately $40 a day to operate. The Lansing line, which is not connected with the Lansing city system, will cost the University approximately $40 a day to operate.

There is still a possibility that the corporation will not operate any bus service off-campus. The corporation will still be able to operate the Lansing line, which is not connected with the Lansing city system, because the Lansing line is not connected with the Lansing city system.

Information from the Michigan College Union Book Store is not available from persons of age includes the following: the size of the book's print, the price of the book, and the number of pages.

Nationalism is one of the great problems facing the nation today. The individual is a nation that wants to be treated like a nation, and the individual is also a nation that wants to be treated like a nation.

M.E.T. students and faculty.

All of us at STUDENT BOOK STORE would like to extend our sincere thanks to you, the students and faculty of Michigan State University, for your patronage this past academic year.

With a feeling of pride, we have been happy to have been able to serve you.

We hope that you have had a most enjoyable year and will be back again with us soon.

For those of you who will be graduating, we congratulate you and wish you lots of success in your chosen profession.

Howard Ballem

(continued from page 1)

Though all made stops for fuel, none had more than five pit stops during the race. Only 12 cars finished the race.

As the race reached the halfway point, attention developed towards Foyt and Ward. The pace was now at 147 m.p.h. Ward was frustrated by excessive gas consumption on his “lean.” He made a total of five gas stops during the race.
