$1,954,604.92 Accepted

Board Receives AID Grants

Gfunds and grants totaling $1,954,604.92 were accepted Thursday by the Michigan State University Board of Trustees from the Agency for International Development, the U.S. government's international aid agency. The total included two grants from the U.S. Department of Agriculture.

A Board member, Robert H. Miller, dean of agriculture, to develop the Station into a land-grant institution for partial support of the University. A grant of $259,012 was received from the National Institutes of Health for use in developing the University in 1964 and will be used to support the University's development.

A grant of $25,175 was made by the University of New Brunswick, and the University's Department of Agriculture for use in the development of a new program in agricultural education. The grant will be used to support the University's Department of Agriculture for use in the development of a new program in agricultural education.

The Gornick Fund of Dearborn, Mich., has been awarded a $288,000 grant for use in the development of a new, semiautonomous college of education.

Hughes Appointed Chairman

William N. Hughes, associate professor of history at Michigan State University, has been appointed chairman of the University's Board of Trustees. Hughes will assume his duties as chairman of the Board on April 1.

The appointment, effective May 1, was approved Thursday by the University's Board of Trustees. Hughes will serve until May 1, 1966.

Hughes, who has served as chairman of the University's Board of Trustees since 1962, is a native of New York and a graduate of the University of Michigan. He has been active in the University's Board of Trustees for the past five years.

Hughes is a former superintendent of schools in New York and has served as chairman of the Board of Education in New York City. He has also been a member of the Board of Trustees of the University of Michigan.

Hughes is a member of the Board of Trustees of the University of Michigan and has served on the Board since 1962.

Miller To Head Mt. Kennedy Study

Marvin M. Miller, professor of agriculture and director of the University's College of Agriculture, has been named chairman of the University's College of Agriculture.

Miller, a native of Michigan, has been a member of the University's College of Agriculture for 20 years. He has served as chairman of the College of Agriculture for the past 10 years.

Miller is a member of the Board of Trustees of the University of Michigan and has served on the Board since 1962.

Miller is a member of the Board of Trustees of the University of Michigan and has served on the Board since 1962.

State Fresh Water Shortage Forecast

Michigan may be to the subburbans of Detroit what Florida is to Canada as a source of summer growth. In both cases, fresh water which is not necessary to grow food in the future will be needed to support the new population explosion, according to a Michigan State sociologist.

"This explosion," says J. F. Thaden, "Michigan has 3,980 square miles of surface water..."

"Lake levels even now are at all-time lows, so water needs for recreation and industrial growth are already critical. Michigan will have to consider carefully how much water it needs to give recreational needs and still enough remain to supply water to the states and to Canada..."

"This water could be supplied from Lake Superior, and in the future, perhaps, from the boreal lakes of Minnesota, as a means of coping with a growing population..."

Microsoft's population has increased from 11,000 to 7.8 million today.

"To be sure," says J. F. Thaden, "Michigan has 11,000 square miles of surface water. This water could be diverted into Lake Superior, and on to the Great Lakes, on which it has now 3,980 square miles of surface water..."

Michigan's population may be as high as 19 million, compared to 11,000 in 1900. As water needs for industry, recreation and pollution control; receding water levels; increased taxes and more government services will all be necessary to living standards..."

"The demand for educational facilities," Thaden says, "will intensify some problems. The changing make-up of the labor force..."

Natives Weren't Restless
But The Ivy Leaguers Were

"IT'S SPRING"

"APRIL FOOL!"

"WE SHALL OVERCOME, we shall overcome, we shall overcome, we shall overcome.

Published every class day throughout fall, winter and spring terms and twice weekly summer term by the students of Michigan State University.

Second class postage paid at East Lansing, Michigan. Entered as second-class matter at the post office at East Lansing, Michigan, under the Act of March 3, 1879.

Dated: Friday, April 2, 1965

State News, East Lansing, Michigan

Friday, April 2, 1965

"WE SHALL OVERCOME, we shall overcome, we shall overcome, we shall overcome, we shall overcome."

Natives Weren't Restless
But The Ivy Leaguers Were
Rain Favors Viet Cong

Forty-five years ago the United States military entered the Vietnam War. The casualties were high, the outcomes uncertain, and the public's support for the war waned. Today, as the United States撤出 the war, the legacy of the Vietnam War continues to shape the world. The effects of the war are still being felt, both by those who fought in it and by the civilians who were caught in the crossfire.

The war in Vietnam was a complex conflict that began in the 1950s and lasted for more than two decades. The war was fought between the Democratic Republic of Vietnam (North Vietnam) and the Republic of Vietnam (South Vietnam). The United States supported the South Vietnamese government, while China and Cuba supported the North Vietnamese government. The war ended in 1975, when the North Vietnamese invaded and captured Saigon, the capital of South Vietnam.

The Vietnam War was a costly and divisive conflict for the United States. The war resulted in the deaths of more than 58,000 American soldiers, as well as millions of Vietnamese civilians. The war also had a profound impact on American society, as it led to widespread protests and debates about the role of government in foreign affairs.

As the United States withdraws from Vietnam, it is important to remember the lessons of the past and to work towards a peaceful and stable future. The United States must continue to support our allies in the region, while also promoting political stability and economic growth. By doing so, we can help to ensure that the next generation of Americans will not have to face the same challenges that we ourselves did in the past.

State News Sports Writer

The Michigan Invitational, the first of the Michigan State University's annual gymnastics championships, begins today in East Lansing. Instead of trying to give their peers across the nation an example to follow, they'll be following the example of their own superior. The Michigan Invitational three years ago was a showcase for the best gymnasts in the nation as the teams competed for the national title, taking their country a lesson in scoring habits. In 1964, the meet was a competition of individuals. This year, the Michigan Invitational will be the beginning of a three-year cycle in gymnastics.

The meet in Ferry Field will be the first stop on the circuit for nearly 4,000 gymnasts and will be followed by the Spyro Regional, held at Iowa City, Iowa, and the Wakarusa Invitational, held at South Bend, Indiana. The team championships will be determined at the Wakarusa Invitational, the first stop on the circuit for nearly 4,000 gymnasts. The Michigan Invitational will be the second stop on the circuit for nearly 4,000 gymnasts.

Dobrei Hurls 4-0 Shutout At Duke

TALLAHASSEE, Fla.—Left-hander Doug Dobrei allowed just two hits while striking out seven as baseball coach Danny Litwhiler's Spartans wiped out the south lands. The win gives Stare a 7-3 mark in its spring training trip through Michigan State News, East Lansing, Michigan

The Sparta team of 1965 was hampered by lack of height, depth and experience. There was no hard-throwing pitcher to cancel the south lands. But the south lands' record is now 2-10.

The south lands' hands on the league title and the south lands' winning streak which they finally snapped last night was the result of the recent history of the south lands. The south lands' winning streak last night was the result of the recent history of the south lands. The south lands' winning streak was marked by a nine-game losing string in '63 and the 11-game conference losing streak which they finally snapped after the Green and White had finished in a tie for the league championship with Indiana.

Win a Honda just for being born

Your own birth date may have already won you a Honda in Parker Pen's Birthday Sweepstakes!

For example, if your birth date is December 15, 1942, you were born in 1942. If you are a student, look below. Join us at your Parker Dealer to pick numbers, and you might as well know this: you winners have your choice of a new Honda 125, a Honda 100, or a Honda 60.

By George Reynolds

Are the fundamental beliefs of Christianity no longer acceptable in this modern day? Are the very words of the message of Christianity "because that which is written has power?"" Must they be revised to suit the modern mind? These questions appear to be quite common these days. It seems that the church has in some ways lost the fervor that it once had. Where is the message and the way it is being delivered? This is the heart of the problem.

In a loving spirit, the church must stand firm in the faith. It is not the place to change the doctrines of the church. The message of the gospel as delivered by the church must remain steadfast. A church must hold to the principles of the faith. The church must stand firm in the faith of the gospel.

A church is not to be changed by the culture. It is not the place to change the doctrines of the church. The message of the gospel as delivered by the church must remain steadfast. A church must hold to the principles of the faith. The church must stand firm in the faith of the gospel.

Extension Service Appoints New Home Economics Head

The MSU Extension Service now has a new name: New Home Economics Program. The change comes in recognition of the increasing role of women in the family and the community. The new program is aimed at helping women improve their skills in managing home and family life.

The new director for home economics, Dr. Mary Brown, will direct educational programs designed to help women develop the skills they need to manage their homes and families effectively. Brown has a degree from Columbia University and has worked in the field of home economics for over 20 years.

The new program will focus on providing education and training for women in areas such as nutrition, health, and family finances. It will also work to improve the quality of life for women and their families, through research and education.

The new program is funded by the Michigan State University Extension Service and is part of a larger effort to improve the lives of women and their families. The new director, Dr. Mary Brown, is excited about the opportunity to lead this important program.

Seniors Of Week Favor Students Living Off-Campus

*A message of importance to sophomore men*

If you've got what it takes to be an Army Officer, you may qualify for this new on-campus training program.

A new Army ROTC program starts this fall, offering a summer for sophomores who apply prior to May 1—3, 000 applicants to be accepted.

If you're a sophomore or attending one of the 277 colleges and universities that offer Army ROTC courses or plan to enter one of those schools next fall—you may qualify for this new two-year Army ROTC program.

This two program—designed especially for college men who have not taken Army ROTC during their four years—is designed for men who wish to attend college and to represent the Army ROTC to its benefit.

The employment of the Army ROTC is designed to meet the needs of the armed forces and to meet the needs of the armed forces, and to provide opportunities for those who wish to attend college and to represent the Army ROTC to its benefit.

Academy Told Of MSU's Role In Science Education

As an address on the influence of the arts on science and technology at the Foundation of the Arts, the Academy's administrative committee held its annual meeting at the Michigan State University. Among the students and faculty members attending were: Dr. John, representative of the Michigan State University; Dr. Smith, representative of the University of Michigan; and Dr. Brown, representative of the State University of New York.

State Shows RR Interest

The Michigan State General Education Board announced the establishment of a fund for the support of educational activities, with the administration of the fund to be supervised by the Board.

Highlanders Need Members

The Michigan State University's Highlanders, a 40-piece band consisting of pipers and drummers, will hold their Spring recruiting meeting Monday, 7 p.m., in the Union. The band is looking for new members, particularly for the pipe section.

Photos Ready For Viewing

The Michigan University Theatre is ready to show the Michigan State University's new play, "The Man of the House," on Tuesday night, 8 p.m. The play is a farce, and it is expected to be a hit with the students.

Service

1. The Michigan State University Library is open from 8 a.m. to 9 p.m. on weekdays and from 10 a.m. to 5 p.m. on Saturdays.
2. The Michigan State University Police Department is available 24 hours a day.
3. The Michigan State University Student Health Service is available 24 hours a day.
4. The Michigan State University Dining Services is available 24 hours a day.

Summer Employment

The Michigan State University is seeking part-time and full-time summer employment. Information can be obtained by calling 332-1759 or attending the Placement Bureau meeting Monday, 7 p.m., in the Union.

The University is a trinity containing three councils: the chancellor, the master, and the scholar, Ashby continued. "The chancellor, master, and scholar are the trinity of the university, and the chancellor, master, and scholar must work together to make decisions on the campus." He added that "the chancellor, master, and scholar are the trinity of the university, and they must work together to make decisions on the campus.

The mayor of a city or town is like the chancellor, master, and scholar. He must work with the council to make decisions on the city or town. The mayor is the head of the council, and the council is made up of elected officials, such as council members. The council meets to discuss and make decisions on matters affecting the city or town.
