Committee Favors Faculty Raises

**Committee Recommended That**

Monday night.

**There was a definite need to**

There was a definite need to increase faculty salaries at all of Michigan's supported institutions.

A total of $5 million was recommended.

The University of Michigan's total was at least $5 million, which was approved for the current single year.

**Extension Service Funds Cut**

The budget passed for the Extension Service was $4 million, which is $2 million less than the previous year.

A cut of $234,199 in funds was approved.

**Teach-In on Viet Nam, Opposing Political Science**

Speaking will be Wesley Fishel and Guy H. Fox, professors of political science, L. H. Battistini, and Guy H. Fox, professors of associated Students of MSU.

**Sen. Guy Vander Jagt, R-Cadet's degrees and more than 300 bachelor's degrees.**

President Vander Jagt said that the project will receive the support of the University of Michigan. The project will be funded through a combination of state and federal funds if passed as recommended.

**Total 512 Years Service**

Scheduled to retire this year are Walter L. Mailman, professor of economics, 15 years; G. Malcolm Trout, professor of mathematics, 15 years; Robert W. Tapley Bennett Jr. and Nelson B. Baker, professors of chemistry, 15 years; and Mrs. Irene M. Baird, Cooper Advisory Commission, 15 years.

**U.S., Viet Pilots Smash Dozen North Bridges**

The Vietnamese Air Force sent four Navy planes to hit targets north of the North Vietnamese capital, Hanoi; demolished one span of the Ha Tinh Bridge, which run 512 years service.

**Wessin Quits Dominican Army**

Lt. General William Wessin's resignation came after the Dominican Republic's government ordered him to resign. The Dominican Republic is a country in the Caribbean.

**Four Professors Air Views On Viet Nam**

Four professors will explain their views on their experiences in Viet Nam. They will be in residence at the university for two days.

**Four Bridges**

Four bridges will be built by the U.S. government.

**W-27'**

The U.S. government has announced that two additional nuclear warheads will be built.

**V-Program Tape Stated**

A tape recorded by members of the V-Program broadcast program in the U.S. will be played back on site.

**NATO Ministers Try To Break Deadlock**

The North Atlantic Treaty Organization (NATO) ministers are trying to break their deadlock with France over the future of the North Atlantic Treaty Organization (NATO). The ministers are meeting in London today.

**Two Britons Sell Secrets**

Two Britons have sold secrets to the U.S. government employees in jail.

The two Britons were among the 1965-70 list of top military and industrial espionage cases. The two Britons are currently serving time in jail.

**Columbia Professor Talks On 'The Negro Challenge'**

The Columbia professor is scheduled to give a talk on "The Negro Challenge." He is a member of the National Academy of Sciences and the National Academy of Engineering.

**Weather**

Fair and cool today and tonight. High near 70.
LETTERS TO THE EDITOR

Phantom Sampling

To the Editor:

I deplore the approach of University administration in this semester's sampling of student opinions. This semester, the usual random-sampling method was used, which was not as effective as a complete survey. The sample was not a representative cross-section of the student body.

The rules were somewhat questioned and those affected were not directly involved. The administration was not directly involved. The administration was not informed of the sampling methods. The students were not informed of the sampling methods. The students were not informed of the sampling methods.

The rules were somewhat questioned and those affected were not directly involved. The administration was not directly involved. The administration was not informed of the sampling methods. The students were not informed of the sampling methods.

The 'Pros' And The 'Cons'

To the Editor:

I agree with the letter by Mr. Howard Finkel. However, I disagree with the letter by Mr. Howard Finkel. The purpose of the survey is to determine the opinion of the entire student body. The survey is not representative of the entire student body.

The rules were somewhat questioned and those affected were not directly involved. The administration was not directly involved. The administration was not informed of the sampling methods. The students were not informed of the sampling methods.

Tokyo Joe Or College Joe, Puleo At Home With Weights

By ROBERTA YAFFE
State News Sports Writer

Add 100 pounds as an integral part of Joe Puleo's overall conditioning program. Add another 100 pounds as the man who became the first to lift 960 in a single lift.

"How's the home with weights because it's a weight training center," said Puleo, a state All-American with more than 500 pounds on record. "I've lifted in seven states in three different gyms and I've never quit training."

Most likely, for Joe Puleo, the answer is "never quit training." He's been lifting for nine years, ever since he was 15, and he intends to continue training until he's 30.

Puleo, a junior at Michigan State, weighs 221 pounds and is 6-foot-2. He's been lifting for nine years and has never missed a day of training since he started.

"I used to do a lot of lifting during the off season, but I really haven't been lifting for the past three months," said Puleo.

When asked about his lifting program, Puleo said, "I try to do five sets of six reps for each exercise. I alternate my workouts between two different routines, one for upper body and one for lower body.

"I try to do all my lifts in the gym, but I also have a home gym where I do some of my training."

Puleo, who is a member of the National Weightlifting Team, has been lifting for nine years and has never missed a day of training since he started.

South Korea Wants U.S. Aid Guaranteed

ST. LOUIS (AP)—South Koreans have asked the United States for financial aid to help them rebuild their war-ravaged country.

They described their request as a temporary move to overcome the current shortage of foreign exchange, which has left the government with little money to buy necessary imports.

In a statement presented by the South Korean ambassador to the United States, the government of South Korea thanked the United States for its help in the past and asked for continued support.

The statement, read by the ambassador, said that South Korea was in a difficult economic situation and that it had no ready source of funds except for foreign aid.

The request was made during a visit to the United States by a delegation of South Korean officials, including the minister of finance and the minister of education, who are expected to meet with government officials to discuss the country's economic problems.

The statement said that South Korea was committed to maintaining a stable exchange rate and to continuing its efforts to develop a balanced economy.

South Korea wants U.S. aid guaranteed to help rebuild its war-ravaged country.

The United States has already provided South Korea with significant aid, including military hardware and economic assistance, but the government is seeking additional help to cope with its economic difficulties.

The statement was read by the South Korean ambassador to the United States, who is expected to meet with government officials to discuss the country's economic problems.

South Korea has asked for continued support from the United States, but the government is committed to maintaining a stable exchange rate and to continuing its efforts to develop a balanced economy.
