A ROPED GOVERNMENT is not a good government. It is a land of make-work, where money is the order of the day, and many a man is forced to work hard to make a living. The government is always trying to find new ways to tax the people and spend their money. This is a system that is not only wasteful, but also oppressive.

The government is not the only one that is run on a make-work basis. Many industries, too, are forced to work hard to make a living. This is because the government is not willing to give them the freedom to make decisions on their own.

We need a government that is run solely for the benefit of the people. This government should not be a make-work government, but one that is run on a free-enterprise basis. This way, the people can make decisions for themselves, and the government can be run by the people, for the people.

In the United States, we have a system of government that is run on a free-enterprise basis. This system has been working well for many years, and it has helped the people to make many decisions for themselves. However, recent events have shown that this system is not working as well as it used to.

**Czech Philharmonic To Be Here Sunday**

The Czech Philharmonic Orchestra, having its first tour of the United States, will give a concert at 8:00 p.m. today in the Auditorium. The orchestra has traveled extensively in Europe and started the Prague Spring Festival. Under conductor Ferenc Fricsay, the orchestra was booked for the Charles Goodyear Symphony and Orchestra of Chicago. "The Czech Philharmonic," said the program, "is one of the finest of the world's orchestras, and it is the first time that the orchestra has been in the United States."
