$67.5 Million Proposed For MSU

Atom Ban Plan Offered

Soviets' Position Adamanat

GENEVA — President John- son proposed Thursday a nego-
tiating plan for nuclear dis-
mament, and the Soviet Union re-
glided to the stage of armaments-
ations, not to their own armaments
The Soviet demand appeared to be the opening move in a new round
of the new round of the long
struggle to limit the arms race.

"We go to the United States to
create conditions for peace, to
prevent an arms race," Johnson
said. "The peace we are after is
not a peace of exhaustion, but a
peace of renewal.

"We have been told that no
peace is possible so long as an
arms race is possible. We offer our
help in breaking the arms race.
"The United States will also be
presently prepared to negotiate a
proportional reduction in defense
spending in the middle of the
next month."

GEORGE ROONEY

$6 Million Boost Asked For State

Gov. George Romney recommended a $6
million increase in the state appropriation
for MSU, including Oakland Univer-
sity, in his $944.9 million proposed general
funds budget presented to the Legislature
Thursday.

Romney recommended that MSU and Oak-
land be given $87.7 million for operating
and building expenses. This is the largest budget
appropriation of all the state's higher educa-
tional institutions.

To meet the needs of increased enrollments, the in-
creases in budgeted funds for individual institutions will come from state

Romney proposed that 550 new positions
be added to the University campus payroll.
The new positions will include 100 science
professors, 70 agricultural specialists, 60
non-faculty staff, 50 faculty aids, 20 medical
researchers, and 20 assistant professors.

With over 2,700 additional statewide
students expected in the next fiscal year, the
Michigan House of Representatives on
Thursday approved a $6 million increase
for MSU. The increase will bring the University's
budget to $944.9 million and provide an
additional $6 million for increased student
services.

Because the state's aid to higher education
will increase from last year's $944.9
million, Romney said the

"This recommendation re
minds us of the fundamental
needs of all our people. To
meet the needs of increased enrollments, we
must increase the number of teaching and
research positions."

We have introduced the necessary
increase in the institution's budget to meet
the needs of increased enrollments." Romney
said.

"The increase in student aid to
higher education is an important step
in providing the educational needs of all our
people," Romney said. "We have

by increasing the number of teaching and
research positions." Romney said.

"This increase in student aid will provide
the necessary increase in the institution's
budget to meet the needs of increased enrollments." Romney
said.

Best Place For ‘Hyde Park’ Is Beaumont Tower Area

IT IS NECESSARY at this time to be cautious, where students are being considered the idea of recommending an area set aside for this purpose, commonly referred to as a "Hyde Park" arrangement. When ASMSU was working on this matter, this, however, we feel that the area they are considering is not significant when compared to other purposes the program would be seriously involved.

ASMSU CONSIDERING the area in front of the student union, it appears to be the most logical location. It is centrally located, and it is believed that the student union would be exposed to any demonstration.

But, its greatest advantage is also its weakness. Since the area is probably the most crowded spot on campus, the area would be ideal for both non-combatants and other buildings in the area. In addition, the site would create an insensitive manner.

BEAUMONT TOWER IS ALSO on the list of possibilities. It is not too congested, yet it would be visible to many more people than could the area in front of the student union.

We urge those who fear Hyde Park will demonstrate the same problems that would face the tower if the requests were made. We also urge that ASMSU abandon their idea of recommendations and locate Beaumont.

EVERYONE SHOULD BE AWARE that presently, students are setting up exhibits on campus. Setting aside a special area for the students is not the best way to give the students the public attention they feel is warranted. Any kind of request ultimately ends up in the hands of an individual with some personal interest in the event. 

It seems to us that this kind of attitude has brought us no credit, either, and is not effective, but will fall into disuse.

Rural Poverty Aid Small

President Johnson’s antipoverty program may expand rural America’s view of how $5 million programs are spent to combat poverty. It may certainly serve to tackle some problems on rural community health, education and public services. These people need such help, but some say the problem is too large to help rural America, should be expanded.

The President must watch his budget carefully, because increased demands are going to demand more and more dollars.

Child-Slaying Suspect Surrenders

SAN FRANCISCO — The man who police say is connected in some way with the slaying of a little boy found in a San Francisco park Wednesday, surrendered himself to authorities here Thursday.

The 18-year-old man, who gave his name as Alonzo Boyd, turned himself in to the police about 8 a.m. At the police station, he was examined by a doctor and released.

The boy, whose battered body, unidentifiable for more than a week after he was found near the children's play at a cemetery in Adrian, Mich.,

Mercy Draft at $2,300

WASHINGTON (AP) — The long-expected call-up of the nation's 2,300 males now 20 to 23, or called the mercy draft, is expected to be given Thursday.

The draft call is expected to be announced at the place of the military service board of the state of Montana.

HUAC Criticizes Loss Again

WASHINGTON (AP) — The House committee investigating Communist activities urged Thursday that its jurisdiction be extended to include all American territories.

The committee's report, which was sent to the House of Representatives, praised the work of the committee in the investigation of the Communist Party's activities.

Offensive Gains Momentum In Scattered Engagements

WASHINGTON (AP) — The allied offensive against Imperial Germany began this week with a series of engagements in scattered areas.

The offensive, which began in the Rhineland, has already resulted in the capture of several enemy rearguards.

The advance of the American troops in the Rhineland has been halted, however, by the resistance of the enemy.

Civil War Begins

WASHINGTON (AP) — The war of independence began Thursday when President Lincoln issued his famous proclamation.

The proclamation, which was read in all the states, declared that the war of independence had begun.

The proclamation was read in all the states, including the Confederate States of America.

**Two-Game Set Crucial For State**

By JOE MITCHELL

State News Sports Writer

Minneapolis, Minn.—Two critical contests for the Michigan State Michigan hockey team will be staged in the Twin Cities of Minnesota this weekend. The two games, in St. Paul and Minneapolis, will determine the balance of power in the Michigan-Minnesota rivalry.

At 8 p.m. Saturday, the Spartans will play the University of Minnesota in the 11th annual Michigan-Minnesota hockey contest. The contest was staged for the first time in 1947.

The two teams have met seven times in the series, with the Gophers winning three and the Spartans four.

Following a series of high-scoring games in the past, the contest will be decided by the performance of the players on the ice rather than by the outcome of the games.

The Michigan-Minnesota series has produced some memorable moments, including the 1947 match in which the Spartans won 3-1.

The first game, scheduled for 8 p.m. Saturday in St. Paul, will be played at the Mariucci Arena.

The second game, scheduled for 8 p.m. Sunday in Minneapolis, will be played at the University of Minnesota's Williams Arena.

The winners of the two games will advance to the next round of the National Collegiate Athletic Association (NCAA) hockey tournament.

**State Faces OSU, Ky. For Triangular Track**

By PHIL LENNARTS

State News Sports Writer

St. Paul, Minn.—A triangular track contest between the Michigan State Michigan, Ohio State, and Kentucky teams will be held in the Metrodome on Saturday, February 16.

The contest will feature three events: the 100-yard dash, the 200-yard dash, and the 400-yard dash. The winning team will be awarded the championship trophy.

The Michigan State Michigan team, led by sprinter Tom Brown, is favored to win the triangular track contest.

Crusaders For Christ Busy Behind Scenes

The Campus Crusade for Christ has become a campus force which is the result of the personal and persistent efforts of all the Crusaders. The organization is based at LEA, the Campus Crusade building at 7:30 p.m. on weekdays. At this hour, the Crusaders meet and plan their activities for the week. In addition to the weekly meetings, the Crusaders also have special events scheduled throughout the week. For example, there is a prayer breakfast held every Friday morning. The Crusaders are dedicated to spreading the message of Christ on campus and to providing a supportive community for students who are interested in exploring their faith.

Scientist To Speak Thursday

Dr. Theodore Abbott, a scientist from the University of Michigan, will speak at 7:30 p.m. Thursday in the Calvin Chapel. Abbott is a professor of biology at the University of Michigan and is known for his research on the evolution of plants. His lecture will focus on the role of evolution in shaping the diversity of plant species. The event is open to the public and is free of charge.
Wage Guidelines Unfair

INCOME FLOWS TO TOP

Labor and management must take a new look at what is being done in a major industry problem to determine the earning and spending phases in the U.S., said Paul Jenkins, president of the International Union of Electrical Workers, M-I-1000.

Jenkins addressed a graduate seminar on collective bargaining in the union Tuesday, his appearance was sponsored by the Department of Industrial Relations.

New rules and the federal wage guidelines are designed to stabilize wage scales. The annual rate of productivity increases 3.5 per cent annually, but the ceiling or maximum wage is presently set at 3.0 per cent per annum.

More than a million workers have been represented by both the employers and the union.

"If the number ofinitiatives has increased to many more than 4,000 during a period when wages are limited to guidelines, it must be because those guidelines have caused excessive incentive to flow back into the economy."

Management must rely on the quality of labor along with wages to give the workers a fair share of the profit, Jenkins said. He said the way to accomplish this profit distribution is through voluntary collective bargaining by both labor and management. At this meeting, he said, "It is necessary to include the bargaining wage in the bargaining scale unless it is unlimited and open just for both sides."

"The attitude is one against antitrust designed by government and a failure on the part of the economy, since they represent the workplace of a free society."

Jenkins predicted union will evolve into all phases of the work force in the future to solve the problems brought by it. apparently, new technology and greater interest among workers.

As an indication of this trend, the Michigan Educational Association of Teachers, Michigan Science and Research collective bargaining a highly useful instrument to improve the welfare of both the teachers and the children.

Jazz Festival Here Saturday

MI will hold its first annual International Jazz Festival Saturday at the East Lansing Inn. The first big college jazz festival will feature the Jazz Ensemble of the Michigan State University's College of Music and the Jazz Band of the University of Michigan, the Jazz Workshop Band of Western Michigan, the Jazz Workshop Band of Northern Michigan, and the Detroit College of Central Michigan. They will perform at 2 and 5 p.m.

The festival is sponsored by the Jazz Ensemble of the Department of Music, Michigan State University's College of Music and the Detroit College of Central Michigan. It is in competition for awards. But for the enjoyment of the performers and the audience, the music is an added bonus.
