Teaching, Research Win 6 Profs Acclaim

The faculty members, including seven as members of the National Research Council and 22 as members of the American Association of University Professors, were selected for their contributions to the fields of physics and astronomy, mathematics, chemistry, geology, and biology. The selection process is based on the candidate's work in these fields, including the development and publication of new theories and the advancement of scientific knowledge.

Hannah Emphasizes 'U' Unity

President John A. Hannah emphasized University unity in his address at the dedication ceremony preceding the opening of the new Science Hall.

Trustees Vote To Modify Policy Selecting Printers

The Board of Trustees voted to modify the policy for selecting printers in order to ensure that the best possible printer is selected for the university's printing needs.

Gen. Hershey Favors Drafting 1-Y Men

Chairman of the Board of Trustees, Commander of the Army, and former Secretary of War, General Douglas MacArthur, expressed his support for the proposal to draft 1-year men for the army.

The Publishing Dilemma

Second Of Three Parts

The initial printing of the book to the student's order was in the third week of October, and the total cost for printing and mailing was $4.95. The initial production quantity was 3,000 copies, with an additional 500 copies printed to cover any potential backorders.

Burhans' Book Stirs Old Student Controversy

The book was a best-seller, and the controversy surrounding its publication continued for several years. The author, Dr. Burhans, was a well-known academic and a prominent figure in the history of the university. The book was initially published in 1930 and went through several editions, with the final edition published in 1960. The book was widely read and highly regarded, and its popularity continued to grow over the years.

The Board of Trustees has decided to modify its rules on union shop-printing controversy. The final vote and details of the policy will be released after the Board has reviewed the recommendations. The policy, which has been in force for several years, has been modified to reflect the changing nature of the printing industry and the interests of the employees involved.

The Board has determined that the existing policy is no longer adequate to protect the rights and interests of the employees. The Board has decided to adopt a new policy that will provide better protection for the employees while also ensuring that the institution remains financially viable.

The new policy will be introduced in the next meeting of the Board of Trustees. The policy will be discussed in detail and any comments or concerns will be considered before the final adoption of the policy.

In addition, the Board has also decided to increase the number of representatives on the Board of Trustees. This will ensure better representation and a more diverse voice in the decision-making process.

The Board of Trustees appreciates the hard work and dedication of the employees and the Union shop-printing controversy. The Board is committed to ensuring that the employees are treated fairly and with respect.

Please join us in supporting the Board of Trustees and the Union shop-printing controversy. Together, we can ensure a better future for all.

JOAN SOLOMON
Dream Of TV For Viet Will Become Reality

AT A DINNER PARTY in Saigon last June, the guest leaned across the table and whispered into his ear: "We have a deal. Just make us a window into the American West."

Last week at the White House, President John F. Kennedy offered to break the seal of television secrecy and make the West available to the American people. The West is a viable candidate for television, according to the President, because of its vastness, its diversity, and its history.

President Kennedy is exploring the possibility of developing a television network that would broadcast programs from the Western states. The network would be a joint venture between the federal government and the television industry. The President is hoping to secure the cooperation of the television networks and the networks of the West to make the dream of television for Viet a reality.

The idea of a television network for the West is not new. In the past, efforts have been made to establish a television network that would focus on the Western states. However, these efforts have met with little success due to the lack of funding and support.

In his futuristic vision, the President envisions a television network that would cover the entire Western states. The network would broadcast programs that highlight the unique aspects of the Western states, such as the beauty of the landscapes, the history, and the culture.

The President is hopeful that this idea will become a reality. He is confident that the television networks and the networks of the West will join forces to make the dream of television for Viet a reality.

The President is also aware of the challenges that lie ahead. He understands that the establishment of a new television network would require significant financial resources. However, he is committed to finding the necessary funding to make this dream a reality.

In conclusion, President Kennedy is exploring the possibility of developing a television network that would broadcast programs from the Western states. The President is hoping to secure the cooperation of the television networks and the networks of the West to make the dream of television for Viet a reality. The challenges that lie ahead are significant, but the President is confident that the dream of television for Viet will become a reality.
On-Campus Students Hold Future of 'S' Radio Station

BY ANDY MAREIN--State News

Students living on campus will have a new radio station to tune into in the fall semester. The station, which will be called WRBS, was approved by the Senate last week.

The student-run radio station will be located in the basement of the Michelson Building and will be broadcast from 8:00 to 10:00 p.m., Monday through Friday. The station will allow students to submit their own music, news, and public service announcements.

The station will have a variety of programming, including news, sports, music, and entertainment. The station will also be available online, allowing students to listen from anywhere in the world.

Students interested in getting involved with the station should contact WRBS via email at wrbs@michigan.edu. The station is currently looking for volunteers to help with programming and production.

Senator Louis Lackey, who sponsored the bill, said, "This is a great opportunity for students to get involved in the community and to learn more about broadcasting."

The station will also serve as a valuable tool for students to showcase their talents and to gain valuable experience in the field of broadcasting.

The station is expected to be operational by the fall semester, and students are encouraged to tune in and support their new radio station.

Senator Lackey added, "We are excited to see this project come to fruition and we look forward to hearing the声音 of our students on the air."
'Gophers Top Big 10 Threat' — Benington

'S' Coach Disturbed Over Fouls

By BOB HORNING
Sports, Spokes Writer

MINNEAPOLIS (AP) — The Minnesota basketball team, which was riding high in the Big Ten standings, was knocked off its perch by the University of Iowa on Saturday. The Hawkeyes scored a 79-73 victory over the Gophers, who had been playing well since the return of star forward Benington from a knee injury.

Iowa's Mike Smith scored a career-high 27 points to lead the Hawkeyes to their first victory over Minnesota since 1964. The Gophers had been expected to win the game, but Iowa's defense held them to just 39.4% shooting from the field.

The loss was a tough one for the Gophers, who had been riding a six-game winning streak. They will now have to regroup quickly for their next game against Indiana on Tuesday.

State A Mat Power?

'Red' Team Says Yes

By ED BRILL
Sports Spokes Writer

The rivalry between the Red and Blue teams has been a heated one for years, but this year it appears that the Red team has an edge.

Head coach John Smith, who has been with the team for 10 years, said that the Red team has been practicing harder than the Blue team.

"The Red team has been working hard," Smith said. "They have been doing some tough training, and I think it has paid off."
FREEDOM OF DRESS—Women in MSU residence halls may wear slacks, one of the recommendations of the campus-wide dress code, which recently was imposed by ASMS. The move by the women’s dormitory council is in line with suggestions made by the women’s dormitory council in September, according to Detroit Free Press, The women’s dormitory council is considering changes to the dress code that will allow women to wear slacks, which are currently prohibited in dormitory hallways.

Jazz Band to Villanueva

The MSU Jazz Band will perform at the North Central Villanueva Jazz Festival on Saturday, February 25th. The festival will feature performances by various jazz ensembles, including the MSU Jazz Band, the Miami University Jazz Ensemble, and the University of Wisconsin-Madison Jazz Ensemble. The festival will take place at the North Central University in Minneapolis, Minnesota.

Olin Report

The Olin Report has been released, detailing the financial performance of the MSU Olin College of Business. The report highlights the college’s success in attracting top faculty and students, maintaining strong financial health, and developing innovative programs to prepare students for careers in business. The report also includes a special section on the college’s impact on the local community.

Placement Bureau

The Placement Bureau at Michigan State University is offering job opportunities in various fields, including accounting, finance, human resources, and marketing. Interested students can visit the Placement Bureau website to view the available positions and apply online.

**Deadlines**

**For EIP**

Entry Set

Students interested in the Elementary School Program (ESP) which is in the College of Education, may apply for admission to the program before the final round of their application deadline.

Community college students apply for admission beginning in the fall of their last semester of their associate degree programs.

ESP is a cooperative elementary teaching program. It is an integrated college program developed by MSU, community college, and elementary school districts. It is a four-year program in which the student will complete a bachelor of arts degree and a Michigan Elementary Professional Certification.

“Specifically,” said James J. VandenBosch, professor of elementary student teaching, “the four-year program is designed into two academic phases. The first three years of education are in the elementary subject matter of the student. The fourth year is in the Michigan Elementary Professional Certification.”

The program was developed in order to put on the market a teacher or a potential teacher at a young age considering a possible teaching career.

Three criteria are stipulated in EIP: attendance criteria, requirements for certification, and a student teaching requirement.

International Relations Club to Host "Super International Night" on November 15

Donald N. Blake, assistant professor of history, is host of an event in the International Relations Club to be held on November 15.

The event, called "Super International Night," will feature music and speakers from the International Office of Languages, as well as a dinner by foreign women who have not attended MSU.

There will be an open forum for the exchange of ideas, and the event will be open to all students and faculty.

**ON EDUCATION**

Quality Needed

The future of education lies in the hands of the children who will be the teachers of the future.

If we are to train the leaders of tomorrow, we must begin with the leaders of today.

The quality of the education we give our children will determine the quality of their future.
