FERTILIZER

A WEEK AGO, the Rev. Dr. Martin Luther King addressed overflowed audience in the Auditorium about the problems in Selma, Ala. This Wednesday he again opened up on campus but this time he spoke to only a half-filled Auditorium about the Negro family and its tribulation in the North. There is no necessary correlation between audience size and subject matter of a speech. It is in disregard of a prevailing attitude in the North. Those who hold that attitude clearly see the blatant discrimination in the South, but are singularly blind to the similar racial problems in their own front lawns.

For the South demonstrating equal rights in paper, upper-class people, but conversely they see Northern Negroes, in spite of their present status, as troublemakers, or as going too far to fast. This is one of the major problems of the Negro awakening in the northern ghettos. As Negroes begin to demonstrate in the North, the South is still demonstrating equal rights in paper, upper-class people, but conversely they see Northern Negroes, as troublemakers, or as going too far to fast. This is one of the major problems of the Negro awakening in the northern ghettos. As Negroes begin to demonstrate in the North, the South is still demonstrating equal rights.

The Rev. King described how he talked to Rev. Samuel Yorty last June and the Los Angeles mayor said candidly in the city for Negroes—of all people—there just was no Negro. The Watts riots broke out two months later.

This inability of the many to realize that when they speak to campus leaders they see the covert, unnoticed discrimination partially the cause of the racial discrimina
tion in the North. Too many people think that since the Negro can vote, he can eat in the same restaurants and racially apply for the same job and attend the same schools as whites, that the ultimate in equal rights has been achieved.

But King pointed out, one need only travel the length and breadth of such areas in any large city to know what unequal opportunity can be found. For all too many citizens, it is easier to ignore the situation, to explain it away in any way except discrimination, and then move on as far as possible.

King said the problems and those in urban areas tend to be cumulative. First, he faced segregated housing patterns, de facto or de jure, which led to inferior schools. Then, the very existence of a test is considered by the Negro to be discrimination, as no test is ever given to whites. There can be no legal test, no Negro has a real right to any legal test.

Cuban Tribunal Jails 5 For Plot To Kill Castro

HAVANA—A revolutionary tribunal Thursday sentenced five Cubans to 20 years in prison for plotting to kill Premier Fidel Castro. Three of Castro's key associates were among those convicted.

At least 30 persons were notified of their sentences in the court, which has been conducting trials of more than 1,000 persons accused of plotting in recent months, to replace a severely criticized purge of the government party in early February.

The trial was held in what is believed to be the biggest of Cuba's revolutionary courts, which are held in closed sessions with no open press or public as a security measure.

The trial was conducted in a room that was packed with autocratic party controllers, government officials, and high-ranking military officers.

The defendants, who are accused of plotting to kill Castro, were named by the Revolutionary Government as the National Revolutionary Committee.

The defendants were John Canales Garcia, a 30-year-old journalist; Jose Perez Sanchez, a 26-year-old lawyer; and Jose Luis Mero, a 24-year-old engineer.

Four Spartans hockey players and four college athletes in high form seem destined when done now for the 1948 National Collegiate hockey title.

The Michigan, Columbia, North Dakota, and Ohio State teams were the last four to qualify for the 1948 NCAA men's Hockey Championship.

The Michigan team has the best record of all the teams. The Ohio State and North Dakota teams are in second place with 8-3 records.

The Columbia team is in third place with a 6-3 record.

The NCAA men's hockey championship will be held at the University of Chicago's Comiskey Park on March 15. The Michigan team will play North Dakota in the first round.

"S" Baseball "Batteries" Charged

BY LARRY WERNER
State News Sports Writer

If a college baseball coach is blessed with the return of two or three starting pitchers and a fourth healthy arm, as Michigan's head coach Don Lightbloom is at present, he's in a rare position. He spoke glowingly of the returning pitchers during a recent interview:

"Most of the returning pitchers are throwing harder than last season, and we think they have at least four years of work in them. We're fortunate to have them back."

The returning pitchers comprise Pete Dotlich, Steve Roberts, and Bob Kilbourn of S.8.S. East Lansing, along with a freshman southpaw, Mark Crouch of Southfield, who is a consistent source of relief pitching. The Michigan pitching staff is well-balanced, with Dotlich, a hard-hitting left-hander, Roberts, a hard-throwing right-hander, and Kilbourn, a control pitcher, providing a strong combination of power and control. Crouch adds to the team's depth with his ability to throw strikes consistently.

During the recent spring training in Florida, Dotlich, Kilbourn, and Crouch showed impressive form, a testament to the hard work put in during the winter. The team's optimism is evident in the players' approach to the upcoming season, with a focus on improvement and strong team performance.

5 PITCHERS, 3 CATCHERS RETURN

SOLID BACKUP—Bill Shickley, junior catcher shown here with state coach Don Lightbloom, will be a welcome addition to the Spartans' pitching strength. Shickley played with his high school team during the winter, gaining valuable experience. He will be a valuable asset to the pitching staff.

Lion's Schmidt Retires, Stays On As Assistant

DON TRUITT—Veteran assistant Bob Schmidt retired from coaching last season and now serves as a co-coach of the Little Liners Little League for nine-year-olds. The Liners also announced the resignations of Dick Dingel and Len Kritzer. The Liners will select new managers and assistant managers for the upcoming season.

Fear In Costa Rican Voting

By John Herron
State News Staff Writer

Costa Rican president-elect, Daniel Oduber Quirós, called for an investigation into the campaign practices of the Social Christian Unity Party (PLN) and the Communist Party, which he said were committing electoral fraud and violating campaign laws.

Oduber, who won the Feb. 3 elections under a green flag, attended a Latin American Studies Center lecture at Michigan State University earlier this week, where the Political Liberation National (PLN) party officially registered to compete in the presidential election in 2022.

The PLN party charged that the PLN candidates were using unfair methods to win the election, while the Communist Party accused the PLN of collaborating with foreign interests to influence the outcome.

"The PLN candidates are accusing the Communist Party of being pro-Communist, while the Communist Party is accusing the PLN of being pro-US," Oduber said. "Both parties are using the same tactics to win the election, which is concerning.

"There is no absolute win, but there is a win," he added. "We need to ensure that the election is held fairly, without any interference from foreign interests."
