Red Chinese Preparing For Third Nuclear Test

New Blast Could Be H-Bomb

From Our Wire Services

WASHINGTON, May 4 — The news of the Red Chinese nuclear test in their new blast which was reported to be a hydrogen bomb is not credible.

The announcement was made by the State Department.

The new blast reportedly took place at a test site in the desert area of northwest China.

Women’s Hours Change Unlikely

Even if a reduced system of women’s hours is drawn up by the Atomic Energy Commission, it is unlikely that the new hours will be implemented.

The AEC has been studying the possibility of reducing women’s hours of work since 1947.

The new blast reportedly took place at a test site in the desert area of northwest China.

U.S. Must Take Initiative To Allay Chinese Distrust

WHO WILL WE FACE IN ASIA some day? Chinese whispers "what will happen to me?" and our "friends" and "enemies" in the Far East respond to the same kind of question. The Chinese wonder, "What will happen to China?"

People said these things years ago. They invited us into efficient machines of their society. These machines were called "their friends," "their enemies," "foreigners." They were determined to be either "our friends" or "enemies." We, in turn, determined to be "theirs." Now they are saying, "If we just get China, China, China, China."

A TOOLS OF THE STATE must give us a road map to the world. These tools will give us a world map. We must have a road map to the world. We must have a road map. They are in China. We are determined to be a road map to the world. We are determined to be a road map.

Viet Nam Death Rate

The PROSPECT OF DOING is fighting in Vietnam. Even as you read this, thousands of American soldiers are fighting for the freedom of the world. The Free World is fighting for the survival of the world. The Free World must free the world.

The U.S. has more than 200,000 American soldiers in Vietnam. A recent Defense Figure shows that, to date, there are more than 200,000 American soldiers in Vietnam. A recent Defense Figure shows that, to date, there are more than 200,000 American soldiers in Vietnam.

The Numbers in this Figure are not exact. The numbers in this Figure are not exact. They are rounded to the nearest hundred.

Compare this to the 1965 highway numbers. In 1965, there were 3,959 killed in the Vietnam War. In 1965, there were 3,959 killed in the Vietnam War.

The fact of these statistics is astonishing. But do they paint the true picture? Do they paint the true picture? They are not the "life of death." They are not the "life of death.

The Vietnam War is a war. The Vietnam War is a war. It is not a "life of death." It is not a "life of death."

The U.S. is fighting for the survival of the world. The U.S. is fighting for the survival of the world.

None Come Running: Civil Defense Today

B. DONALD ZECHERT

Failing to heed advice from both the White House and the Pentagon, hundreds of thousands of people on both coasts have now built "home defense" systems in their homes. They are building "home defense" systems in their homes.

Some of the systems being built in homes are "home defense" systems. Some of the systems being built in homes are "home defense" systems.

They are building "home defense" systems in their homes. They are building "home defense" systems in their homes.

Mexico Police Called To Protect Schools

MEXICO CITY (UPI)—Police signals were detoured Thurs-
day in the early morning in order to guard the American schools here following violence threats ordering officials to "arrive or be killed," an official said.

Policeores were reportedly ordered not to be seen in the American schools, as several families with children threatened the area. The threat was confirmed by police officials.

The schools were attended by several hundred students, including Mexican children. The schools are considered safe for children.

SEVEN DEAD

Texas Storm Still Rages

DALLAS (UPI)—Four Texas Newsome firefighters and a Dallas police officer were killed in a storm Monday.

The storm killed four people and caused widespread damage.

The Dallas Fire Department reported that two firefighters died in a storm that destroyed a house and injured several people.

At least seven persons were reported dead, including a woman who was swept away by a flash flood.

Military Pay

Hike Closer

WASHINGTON (UPI)—Military pay raises have been approved and are expected to be implemented shortly.

The pay increase is expected to be approximately 3 percent for the average service member.

The pay raise is expected to be officially announced in the coming weeks.

PIECE MAKER

Developed shortly after man learned to use knives, and perfected in the last 1200's, these machines have served man as one of his most dependable cutting devices. Using the fundamental principle of a double lever and fulcrum, it is one of many great inventions that has never been rendered obsolete.

The newspaper Want Ads, one of man's most dependable communications devices, uses a double action also to perform its service. It benefits two ways...the reader and the user, the buyer and the seller. From these advertisements, Want Ads are used today by more people than any other form of advertising.

‘Rock Back To Bach’
Theme Of ‘66 Water Show

Parents and students will "Rock Back To Bach" at the final Water Carnival May 13-14. A highlight of Parent Week and a traditional spring event, the carnival will feature a 74- foot and eight-campus children's parade, a giant lawn game, and the Red Cedar River canoeing races. The Teacher of the Year will present the "Rock and Roll" award to the winners. The theme: "Sergio's Rock Back To Bach". The show will be held at Mom's Meadow's "Sunset Stage". The event is sponsored by the Student Council and the Music and Drama Department. Tickets will be available in the International Center and at the school.

THE
African Dance Troupe
More Than Entertaining

By BOB ZEICHEN
State News Reviewer

African dance is like the African continent itself: vast, varied, and untamed. It is a way of life, a reflection of the diverse cultures that have evolved on this land. From the intricate steps of the Masai to the spirited jumps of the Zulu, African dance is a vibrant expression of the continent's rich history.

OLATUNJI—and his troupe—perform one of many spirited dances in America's preeminent African dance company. The dancers, led by Director Olatunji, are known for their dynamic and authentic interpretation of traditional African rhythms and movements.

In their recent performance, OLATUNJI and his dancers captivated the audience with a powerful display of African dance. The troupe's energy and precision were evident as they moved in perfect harmony, creating a stunning visual spectacle.

The performance included a range of dances, each reflecting a different aspect of African culture. From the lively and rhythmic drumming to the graceful and fluid movements, the dancers showcased the diversity and beauty of African dance.

The essence of African dance lies in its ability to connect with the audience on a deep level. The music and movements are imbued with stories of the past, traditions, and cultural values. OLATUNJI's troupe truly captivates their audience, leaving a lasting impression.

In conclusion, African dance is more than just a form of entertainment; it is a bridge to culture, history, and community. OLATUNJI and his troupe continue to bring the vibrant world of African dance to the stage, inspiring and educating audiences worldwide.
PAPAL BIRTH CONTROL COMMISSION

Deliberations in 'Advanced Stage'

VATICAN CITY (AP) - The special papal audience reviewing the status of the Roman Catholic Church's birth control teaching said Thursday to two of its deliberations. The commission's deliberations would be final this week, beginning a yes/no vote on it.

The papal-approved commission, which is to rule on the Church's position on birth control, is holding meetings in Rome. The commission, which is made up of six cardinals and five bishops, is expected to make its final decision on the issue of the Church's teaching on birth control.

The issue of birth control has been a contentious one within the Church, with some calling for a change in the Church's position on the matter. The commission's deliberations are expected to be a significant step in determining the Church's position on this issue.

The commission's deliberations are expected to be a major event in the Church's history, and its final decision is likely to be closely watched by Catholics and non-Catholics alike.

The commission's deliberations began on July 1, and are expected to conclude on July 31. The final decision is expected to be announced on August 1.

The commission's deliberations are expected to be a significant step in determining the Church's position on the issue of birth control, and are likely to be closely watched by Catholics and non-Catholics alike.

Psychologists Differ on 'Soul'

EUGENE - A national conference on the concept of the 'soul' will be held here next week, with psychologists from around the country attending.

The conference, which is being held at the University of Oregon, will feature presentations on the nature of the soul, its functions, and its relationship to other concepts.

The conference is being organized by the American Psychological Association, and is expected to attract a large number of psychologists.

The conference is expected to be a significant event in the field of psychology, and is likely to be closely watched by psychologists and the general public alike.

The conference is expected to conclude on July 31, and the final decision is expected to be announced on August 1.

Econ Prof Raps U.S. Method

By encouraging volatility for
ings investment returns, the
United States is using an in-
efficient method to make a
balance of payments position
more negative.

In an appearance before the
United States Senate subcom-
nittee, Michigan E. Kreinin, professor emeritus, said

"Investing in small or in-
vesting in foreign in-
vestments, it is an effective
method to make a more
negative balance of payments.

The committee, headed by Sen.
Philip Van (EBF), wanted
Kreinin to testify on how the
investment method is affected by
the market.

Kreinin witnessed the committee
has scheduled it to examine
charges of economic inefficiency present by
the United States to foreign nations.

Foreign investing in American
lands, Kreinin said, should
be encouraged because the
market is affected by
the investment method.

Kreinin pointed out that foreign
investments would benefit the
United States because it
would be more competitive in
the market.

"The investment method is
affected by the market, but
the investment method is
affected by foreign
investments as well," Kreinin
pointed out.

Kreinin is one of 101 profes-
sors from around the United
States to testify on how the
investment method is affected by
the market.

Motorcycle Craze

"Our investment method is
affected by the market, but
the investment method is
affected by foreign
investments as well," Kreinin
pointed out.

The balance of payments is
affected by this method.

"On the surface of it," Kreinin
pointed out, "the balance of pay-
ments is adversely affected by
the amount of capital exported.

The capital cylinders and
imbalances in the relationship
between capital earnings and
capital outflows, the market
should be more competitive in
the market, but foreign
investments as well." Kreinin
pointed out.

pointed out, "the balance of pay-
ments is adversely affected by
the amount of capital exported.

The capital cylinders and
imbalances in the relationship
between capital earnings and
capital outflows, the market
should be more competitive in
the market, but foreign
investments as well." Kreinin
pointed out.

Motorcycle Craze

"Our investment method is
affected by the market, but
the investment method is
affected by foreign
investments as well," Kreinin
pointed out.

The balance of payments is
affected by this method.

"On the surface of it," Kreinin
