Youth Option: Peace Corps Or Military

The Michigan Senate and House of Representatives on Monday morning took up a resolution by Democratic Sen. Paul W. McPherson of Detroit and Republican Rep. Elizabeth M. Smith of Southfield, which would have made Michigan a "peace corps or military zone." The resolution was passed by both houses and sent to the governor for his signature.

The resolution would have authorized the governor to establish a Peace Corps or Military Zone in Michigan, which would be funded by federal and state funds. The Peace Corps or Military Zone would be used to train and deploy volunteers to areas around the world where peace corps or military personnel are needed.

The resolution was passed by both houses of the legislature and sent to the governor for his signature.

Consider Raise In Tuition

By DONNA CUMMINGS
State News Staff writer

The University of Michigan administration has proposed raising tuition by 3.5% for the 1990-91 academic year. The proposal, which was announced last week, would be the first tuition increase in four years.

The proposed increase would bring the tuition for in-state students to $5,000 per year, up from $4,800 in the current academic year. The tuition for out-of-state students would increase by $4,000 to $5,200 per year.

The increase is necessary to maintain the quality of education offered by the university, according to university officials.

Rules Study Group Calls Hannah, Neville

The Rules Study Group, under the leadership of Chairperson Hannah and Vice-Chairperson Neville, is working on a proposed set of rules for the Michigan Senate. The proposed rules are expected to be approved by the Senate and the House of Representatives in the next legislative session.

The proposed rules would include changes to the current rules of procedure, such as increasing the number of committee members and changing the quorum requirements.

construction strike nearing paralyzing, disruptive stage

To the Editor:

As a parent of two students at the University of Michigan, I am writing to express my concern about the current strike and its impact on our campus. The disruptions caused by the strike have affected not only our students but also the entire community.

The strike has led to the cancellation of classes, which has impacted the academic progress of our students. It is crucial that our students have access to a quality education, and the strike is hindering that.

Furthermore, the strike has caused a significant disruption to campus life. The absence of regular activities and events has left our students with limited opportunities for social interaction and personal growth.

It is important that we find a solution to this issue and ensure the well-being of our students. I urge the parties involved to work towards a resolution that prioritizes the needs of our students and the community.

Sincerely,
[Your Name]
ASMSU Board Asks 'The Paper' Charges

The ASMSU Board of Directors has asked that the Board of Student Publications, which publishes the newspaper, take action to prevent any future publication.

The board feels that the paper's policies and practices have been detrimental to the university and that the board should be able to control the content of the paper. The board has also asked for a change in the way the paper is funded, suggesting that it should be funded by a combination of student fees and advertising revenue.

The ASMSU Board's actions come on the heels of a series of meetings between the board and the paper's editorial staff, during which the board expressed concerns about the paper's policies and practices.

In a statement, the ASMSU Board said that it was concerned about the paper's policies and practices, and that it believed that the board should be able to control the content of the paper. The board also said that it was concerned about the paper's funding, and that it believed that the paper should be funded by a combination of student fees and advertising revenue.

The ASMSU Board's actions come as the university is facing increased pressure to address the issue of the paper's policies and practices. The university has already taken steps to address the issue, including the creation of a task force to investigate the matter.

However, the ASMSU Board's actions have not been well-received by the paper's editorial staff, who have said that they believe that the board is not qualified to make decisions about the paper's policies and practices. The staff has also said that they believe that the paper should be funded by a combination of student fees and advertising revenue, and that the board should not be involved in the paper's funding.

The university has said that it will continue to address the issue of the paper's policies and practices, and that it will take steps to ensure that the university is fulfilling its responsibilities as a public institution.
