Candidates, Wolverines arrive Saturday

They'll all be here Saturday, The Democrat, the Republican, and, as you, the Wolverines.
The University of Michigan is coming down to Spartan Stadium to take on the defending Big Ten champions, and the Wolverine fans are out in droves.

And when close to 50,000 people gather in one place at one time, in an electric year—you can see why everyone comes to watch.

The Spartans are a team that is used to being in the spotlight. They have been in the top ten for the past two years, and they have a strong offense and defense.

The Wolverines are also a strong team, with a solid defense and a talented offense. They have the potential to go far in the Big Ten this year.

So, if you're a fan of either team, be sure to come out and support your favorite team. It promises to be a thrilling game!

Fair trial
for Ruby, where?

Jack Ruby is to get a fair trial.

No says Texas' highest court of criminal appeals, the court overturned Ruby's first trial on the basis that he did not have an impartial jury. This second trial is justifiable.

The reason is the exposure and given the case; the jury of the jurors had seen Ruby. Lee Harvey Oswald's television trial.

Another factor was the general feeling in the community. Many people felt that somehow Dallas itself was on trial.

Seeks impartiality

For this reason the court ruled that the new trial must be in some county other than Dallas, hoping that by going elsewhere, an impartial jury can be found.

But while the Texas court is rightfully seeking a fair trial, Ruby finding an impartial jury will be an impossible job. The tone of the shootings has been shown on national television several times. There is hardly a person in the nation who has not seen it at least once.

Correcting the injustice is another matter.

Hershey's Friend to Serious Objectors

The serious student to the draft and the war has a new friend - General Lewis B. Hershey, head of the Selective Service System.

In a recent speech at Yale University, General Hershey said that if he found his country's military position 'forlorn enough to support' he would soon go to jail rather than be drafted. All this, he said, 'in consideration of the national dignity.'

He put matter into the new phase of existence there can be no justice in refusing to fight a war one does not believe in as there is no plan for fighting for a cause one believes in.

Science predicts mechanical heart

INDIANAPOLIS, Ind. (AP) - A team of Indiana University Medical School scientists announced Thursday they have perfected a completely mechanical heart for use in people whose own hearts either would fail or couldn't otherwise be repaired.

It has performed successfully, without side effects, in short-term animal experiments. The investigators laid it out in a statement that's unexaggerated by anyone who inhabits scientific atmosphere.

The $20,000 dire damage to Wilson person.

loss on campus last year resulted from careless smoking. A fire in 1963 was the result of a carelessly tossed match. A fire in 1872 in the famous Chicago conflagration spread in a so-called fire "fire proof" building. A fire in 1963 was the result of careless smoking. The fire department later announced that the fire was caused by a carelessly tossed match.

Cabinet open to fresh board to present voting pros, cons

The numbered days of the Student Board of ASMSU will square up today when Tuesday’s regular meeting is held to allow students to voice their opinions.

The outcome to this session will be the results of an opinion poll to be conducted by the Student Board, which will determine the voting policies for the ASMSU Student Board.

The poll will be conducted from 11 a.m. to 1 p.m. today in the Student Union, with the results to be announced on the board’s bulletin board.

The Student Board is more than a voting machine. It is a group of students, to give them the facts of the situation, Tung said. “We will tell the students what has gone on up to the point and any questions that anybody has, we will answer.”

When voters are handed ballots, they will have the opportunity to record their opinions on various issues, Tung explained. Most people will hand in ballots, Tung said, and the result of the poll will be a clear majority of what people want.

The first fall meeting of Chi Epsilon Alpha will be held at 8 p.m. Monday in the Museum Auditorium. Election of officers and refreshments.

The main theme in this quarter is the issue of apartheid, and they can get that opinion, and they can get that point of view.

“Knowing the way the Student Board is more than a voting machine, to give them the facts of the situation, Tung said. “We will tell the students what has gone on up to the point and any questions that anybody has, we will answer.”

Athletes join Christian fellowship

The campus community looks to Christian athletes to "speak the truth in love," according to a recent letter from the Rev. Ralph W. Sockman, pastor of the Peaceland United Methodist Church, which has Christian athletes as members.

The letter was distributed to the athletes Union to help them in their role as Christian athletes. It is the first letter of its kind to be sent to the athletes Union.

Sockman said the letter was sent to help the athletes understand their role as Christian athletes and to help them to be a positive influence on their fellow students.

The letter also contains information about the Peaceland United Methodist Church and its activities.

The church offers a variety of services to the community, including a free bus service to the church and a weekly service for the community.

The church also offers a church school for children and a youth group for young people.

The letter encourages the athletes to be a positive influence on their fellow students and to be a part of the church community.

The letter also includes information about the church's annual event, "The Peaceland Church Picnic," which is scheduled for Saturday, Sept. 26, at 6 p.m.

The church asks the athletes to come and join in the fun and to help support the church's activities.

The letter also includes information about the church's monthly event, "The Peaceland Church Dinner," which is scheduled for the last Thursday of each month.

Duffy, just for the record

STATE NEWS: What special meaning does the Michigan State-Michigan game have for you as a coach and for the Spartan team?

DUFFY: Well, each year I think it’s a game that means more to us because of the great intra-state feeling. I think that the team that wins the game has certainly established its supremacy in the state for that particular year. It’s a big deal to your recruiting of Michigan athletes, and it’s something that we always look forward to—this game. It’s one we’d be the most important.

I am sure that in the hearts and minds of all coaches, and in the minds of all true Spartans, the Michigan game will always be the most important.

STATE NEWS: What sort of game will we be seeing this Saturday? How do the two teams look now, as you see them?

DUFFY: It should be another in the great games of this series, because both teams have talent, both teams have speed, both teams have good linemen. It should be an exciting game, because both teams have a lot of potential.

STATE NEWS: What special meaning does the Michigan State-Michigan game have for you as a coach and for the Spartan team?

DUFFY: Well, each year I think it’s a game that means more to us because of the great intra-state feeling. I am sure that in the hearts and minds of all coaches, and in the minds of all true Spartans, the Michigan game will always be the most important.

STATE NEWS: And you are happy, too, with the rule prohibiting the secondplace team from going to another bowl game --for the same reason?

DUFFY: That’s right, I think that that is a sound reason. I think that if the game were played right in your own stadium, where it didn’t disrupt anything—it would be a fine thing, if you could play the bowl on a university campus.

But I think the fact that you make it a bowl game, and it has to do with the thing that indexes thousands of students, and faculty, friends and alumni to follow—this is the thing that is disrupting.

Not the fact that the team would go, it’s not the game itself, it’s the things that go along with the game.

STATE NEWS: What do you feel about all the polls, rankings, and mythical championships?

DUFFY: I think that they add interest to football, and I think this is healthy, it’s good for football. I don’t know that they necessarily reflect an accurate picture, because a lot of the people voting on the polls haven’t the opportunity of seeing all the teams play that they’re voting for, and in some cases none of the teams that they are voting for. But I think that it has stimulated the interest among the fans, and I think this standpoint is good.

STATE NEWS: What do you feel about the mark of a great college football team, and would you care to name any?

(continued on page 4)
'M' AIRBORNE

MSU 'bomb' shy

They say the air is crowded down at Ann Arbor, which might help to explain some of the strange going on at the University of Michigan this year.

For instance, the win footballs float through the air and bounce. The way the punts float from the arms of Wolverine quarterback Dick Vidmer and land gently in the hands of Sickles and Jack Clancy.

Saturday the boys in blue will be playing on the air show at Spartan Stadium, as Michigan and Michigan State square for the 6th time in history, starting at 1:30 p.m.

And everyone knows that Spartan coach Duffy Daugherty, who has been the climax of this game, is ready to light a little fire in the Michigan aerial attack. Or, would you believe some thick fog?

For the undefeated and top-ranked Spartans will have to stop Clancy and company from choking the air with footballs, to keep Michigan from getting the 'bomb' and winning the day. Jamey Schrock, Bill Apisa figure to rebound from a frustrating day last week at Ann Arbor.

The Spartans meanwhile, center with a potent offense, that has been stopped chiefly by its own mistakes, halfback Clancy, and fullback Apisa figure to rebound from a world of frustration last week at Illinois.

Quarterback Jimmy Raye has been running well enough to rack up yards for scores.

MSU - M: game with a past

A. 1960—MSU's Tom Wilson cracks into the end zone from the six-yard line for the Spartan's first score en route to a 24-17 win over Michigan.

B. 1957—Fullback Hendricks Young scoots around end. MSU wins 21-0.

C. 1963—David McCormick holds as Louis Bobich gets set to try a field goal. He missed, and the Spartans tied, 7-7.

D. 1961—Gary Ballman (no. 14) takes Pete Smith's (no. 23) handoff and runs for valuable yardage MSU took this one 28-0.

E. 1964—Charlie Migyanka is all over the Michigan quarterback, but neither he and George Webster, who is looking on, could stop the Rose Bowl-bound Wolverines. "M" on top, 17-10. Sorry about that.

Harriers take on Badgers

BY GAYEL WESCH
State News Sports Writer

The MSU cross country team will be shooting for its second straight win of the dual meet season when it takes on Wisconsin tomorrow at 10 a.m. at Forest Akers Golf Course. The starting time of the meet was changed to 10:00 a.m. due to the expected crowd for the MSU-Michigan football game.

MSU took a 20-30 decision over Valdosta last week while Wisconsin dropped their first dual meet 27-30 to tough Minnesota squad.

Seniors George Rackstraw and Chuckle James are expected to be in the line-up this week after missing last week's action. Rackstraw is a double letter-winner who placed eighth in the conference meet last year, and is expected to be among the front runners Saturday.

James, a distance man on the Spartan track squad failed to better in two previous varsity seasons. Also running for MSU will be captains Dick Sharkey, Eric Zemper, Art Luby, Roger Merchant, Dean Rosenburg, Pat Wilson, Dale Stanley and Art Costantino.

Sharkey ran first in the Indiana meet with a 20:24.3 time for the Hoosier course. The time was a course record for the Hoosier course. Sharkey set a course record the mark of a great football team.

Duffy interview

CONTINUED FROM PAGE 1

Duffy: We've had some great teams at Michigan State. I think the mark of a great football team may be seen both early in the season with a difficult schedule, and to play consistently well, to rise to the heights on Saturday, and not falter. To play consistently and achieve greatness.

Sport Shorts

Coeds interested in the competitive swim team are requested to be present at either the initial practice today from 2:30 to 4 p.m. in the pool of the Women's Gym or on the women's basketball team, who finished second in the Big Ten last season, 22 points behind MSU, who finished second.

A meeting will be held Sunday, Oct. 9, for all coeds interested in joining the Spartanettes precision ice skating club. The meeting will begin at 9:00 p.m. in the ice arena. Girls are reminded to bring skates.

Friday at noon is the deadline for entries in fraternity bowling, fraternity and independent touch football, and independent volleyball and soccer teams.

Spartan spirit never sleeps

By LARRY WINNER

State News Sports Editor

There's something about the week of the Michigan-Michigan State game that gets you right here. It's that old-fashioned "rah-rah" atmosphere that pervades everything, including study and, yes, even sleep.

A post-midnight stroll through the athletic community Wednesday night demonstrated the value which Michigan State students place on THE GAME.

A Jackson Field House, in 50-degree cold, was a line of dedicated students who were spending the night outdoors to make sure they'd get tickets.

Sleeping bags, blankets, transistor radios and small warming fires adorned the Jenison sidewalk. Some of the male vigilists had begun a game of touch football in the parking lot.

One of the Shaw men remarked about Sparty's attire in the wintry weather. "It kinda gets you, right here," the officer said. "But you'll have to put them out . . . Sorry."

As the students reluctantly separated the burning twigs, one complained, "The University should buy us heaters." The officer chuckled and drove off, after which the students did their best to mumble, "The University should buy us heaters."

A bicyclist rode by whistling the MSU Fight Song.

On the football stadium on the day of the game and only a few players like George Webster and Bill Jones were recognized, Dudy wanted the whole starting lineup to have this recognition, so he gave us the berets.

George Webster and Bob Apisa display their berets. Webster wears green since he is on the defensive squad. Apisa wears grey. They'll try to make 'M' wear black and blue this weekend.

NEVER PLAYED

Gene Kenney a success without any experience

Soccer Coach Gene Kenney is an interesting phenomenon. In his seven years as coach, Kenney's soccer teams have compiled an 89-10-9 record. The Spartans this year, have won five of their six games, have scored 30 goals, and have allowed only 12. The Spartans, unlike Kenney, are as yet untried in the college ranks. Kenney, born in Urbana, Illinois, attended the University of Illinois. He was a member of the football and wrestling teams. But no soccer.

In 1950 Kenney went to North Carolina as an assistant wrestling coach. He also helped out the soccer team.

"I was naturally attracted to soccer," said Kenney, "It's an American sport with tremendous spectator appeal. It's more popular than football in most countries." "In a matter of fact," he added, "I have outscored 50 percent of the colleges when I was a high school coach in Urbana."

But never having played any sport in 1950, I guess I was the least educated for the job. I used to say, "I had no idea, however, that I would become involved in the sport when I came here."

Kenney was asked to explain his success.

"We have been fortunate that good players have been attracted to Michigan State. The reason? Well, we always have a successful soccer team, and succesful soccer players naturally want to go to successful schools."

"Also, we have a tremendous scouting system — men in New York, Connecticut, Chicago, St. Louis — who are constantly scouting these boys."

"That's how we obtained a majority of these players."

Kenney has been a fine job of scouting St. Louis. Nine of his 17 players are natives of that city. Considered the soccer capital of the United States, St. Louis has been exceptionally high percentage of All-Americans in his first two years here. Kenney has had on the first team, 10 on the second team, and honorable mention.

Word on rugby team: experience, talent

Experience is said to be the most important asset of any athletic team. Including coach Neville Doherty, the ruggers have eight starting players with experience on Eastern teams. Doherty, who has coached here for three years, earned the sport in his native England and has coached two championship teams in America, Canada.

Ian Ronald, a 16'7" 260-pound forward, played overseas in New Zealand and England before coming to State for graduate work.

Mike Harris, a new back on the team, is a graduate student with 11 years of experience on clubs in London, England. Another back and grad student, Brendan Costello, previously played for Ireland clubs.

Mike Ayers, a left back, played three years of rugby and a year of football at Harvard. Other State players with experience on Eastern teams include Jim McDonough, two years at Cornell, College Mike Myers, three years on the New York Rugby Club, and Jim Montgomery, three years at Holy Cross.

In addition, Mike McClarty, a right winger, played for the Detroit Rugby Club.

Vic's in the annual MSU-Michigan football game has been described, as just about every possible way. There have been an important victory in the classic, the two all been big games.

This year, the first win over the Wolverines was a 3-14 when the Spartans scored 12-7 victory and broke a seven game season streak for Michigan.

MSU took three straight contests in the thirties, 34-36, but had to wait until 1950 for their next victory. The 14-7 victory for the Spartans was one of the most dramatic, MSU came into the contest as 14-point underdogs to top-ranked Michigan but pulled off the upset on a seven yard touchdown run by captain Royce Cowin in the fourth quarter.

State won four of the next six games before getting their Michigan win over the Wolverines in 195.

Touchdowns by Walt Kowalczyk, Art Johnson, Sam Wil Baring, Mike Franczak and Bob Jewett opened MSU to a 3-6 victory; their biggest point output ever against the intrastate rival.

In 1960, Michigan went ahead 34-22 in the fourth quarter to give Michigan ahead 17-14. MSU's boot man, now athletic director, Duffy Daugherty both the11-14 victory over the Wolverines in their 11-14 victory.

While Michigan comes to East Lansing for the big one, the Illini get another chance at Champaign, this time against Ohio State. In their 35-0 drubbing by Texas last week.

Michigan's last victory came in 1954 when a Rick Byrger to John Henderson pass with less than three minutes left in play netted them a 14-7 victory. And so the clash continues, the joys and woes of the past must stay there. This is a new game and in the vernacular of the sports writers, "You can throw the statistics out the window when there are games of these teams involved."
