The national Merit pair, and ADS holders on team

COLLEGE BOWL

National Merit pair, ADS holders on team

The national Merit pair and two ADS holders representing MSU will represent MSU at the nationally televised College Bowl competition Sunday, Nov. 20 in New York City.

Next Monday, Nov. 14, will bring the first two rounds of competition with the third scheduled for Nov. 17.

The Merit pair consists of Donald McKechnie, a 19-year-old junior from West Hartford, Conn., and John Hall, a 20-year-old senior from Houghton. He has a duel major in physics and philosophy.

Boyd, also a member of Phi Eta Sigma, at Michigan Technological University in Houghton, is a 21-year-old sophomore from Hagerstown, Md. He has been on the South Case Residence Hall staff member on The Paper.

The national Bowl Team represents the students of MSU and it will compete against the University of Chicago team.

On Nov. 17, the team will compete against the University of Chicago team.

These four students, who distinguished themselves as students of MSU, will be designated. They will compete against the University of Chicago team.

The team will select its captain before the contest and it will be designated.

A recent survey by the East Lansing Planning Commission indicated the need for more parks and recreational facilities in the East Lansing area. The Commission pointed out that the present park system is inadequate in the face of expanding population both in East Lansing and the University.

What's more, the study showed that many new parks are being purchased by developers for new undeveloped lots. This is true especially along the Red Cedar.

The Commission finds that the city's present parks are inadequate in two counts. First, it is East Lansing's plan to increase the ratio of park acreage to population is deteriorating. Secondly, the facilities in the park system themselves are not adequate.

To the Editor:

To end the problem the Commission recommends that the city purchase and develop a new community park and build a new swimming pool. It also recommended that the city's main attraction at a new park. People would be able to enjoy a day without driving up north for the weekend.

Members of the university community who are residents of East Lansing would get a lot of enjoyment out of a park and pool. Especially the winter sports the park and pool would be a source of enjoyment and recreation to those in the East Lansing area.

The commission estimates that the park and swimming pool would cost East Lansing residents a total of $500,000. In view of the expansion of apartment construction on ideal park sites, in view of the continuation of the East Lansing population, and in view of the Commission's findings that parks are not a recreational facility in the city, we think that the $500,000 bill for a new swimming pool and park would be one of the best spent half million dollars in East Lansing in many years.

70,000 BUSHELS

Grounds staff busy

By CHRIS O'CONNOR

The grounds department has about 70,000 bushes of leaves in its care every October.

It's a big job—wet, windy, heavy work with wind velocities of 1,500 miles per hour, taking into account that the work must be done in October, when the leaves are at their peak color.

"The work is very demanding," said Ferris, "but we're up to the task." He estimates that it will take the department about two weeks to complete the task.

Superintendant of grounds main-

Fall is a busy time for grounds workers. According to Ferris, "It's a big job—even with tractors, it's still a lot of work." He estimates that it will take the department about two weeks to complete the task.

"Snow is the most difficult job of the season," said Ferris, including the snow removal. "We have to winterize equipment and workers. Besides keeping up with the snow, we have to deal with more people on campus." He estimates that it will take the department about two weeks to complete the task.

In addition to the snow removal, the department also has to clean up the leaves. "The leaves are collected and then have to be disposed of," said Ferris. "We have to make sure that they are disposed of in an environmentally friendly way." He estimates that it will take the department about two weeks to complete the task.

In summary, the grounds department has a lot of work to do in October, but they are up to the task. They estimate that it will take them about two weeks to complete the task.

Autumn Leaves

You use a vacuum cleaner to clean your room, so why shouldn't the Grounds Dept. use a vacuum cleaner to pick up the fallen leaves on campus? Only one problem remains, disposing of the leaves after they are collected. State News photo by Larry Fritzlan.

Sink proposes student-made film

Student Board member-at-large Jim Igle is looking for student interest in producing a student-made film. "I think there is an awful lot of people who'd like to try film," said Igle. "We'd like to see if we can get an all-University student-made film." He estimates that it will take the department about two weeks to complete the task.

The film will be a sort of time capsule of what MSU is like today. "We'd like to see if we can get an all-University student-made film," said Igle. "The film will be a sort of time capsule of what MSU is like today." He estimates that it will take the department about two weeks to complete the task.

A REWARDING CAREER IN AEROSPACE/ELECTRONICS

FIELD ENGINEERING

The Field Engineer's job ranges from completing an evaluation of a component to assisting in takeoff and landing. A Field Engineer, working with a team, provides the necessary engineers for the project and provides their expertise in the field. This position involves working closely with the client to ensure that the project is completed on time and within budget.

Let's talk about a rewarding career in aerospace and electronics.

FIELD ENGINEERING WRITING

Specialists in printed communications, fields and technical writing, our professionals create high-quality content for a variety of industries. Our team of experts is dedicated to creating compelling written material that effectively communicates complex ideas. Whether you need technical documentation, marketing collateral, or content for a website, our team is here to help. Contact us today to discuss your project needs.

INTERESTED IN A REWARDING CAREER IN AEROSPACE/ELECTRONICS?

If you're interested in a rewarding career in aerospace and electronics, please contact us at info@mycompany.com or call 123-456-7890. We are looking for experienced professionals to join our team and contribute to our growing client base.

CAMPUS INTERVIEWS

November 1

For additional information on our career opportunities, please contact us at info@mycompany.com or call 123-456-7890. We are always looking for talented individuals to join our team and make a difference in the aerospace and electronics industry.
