Chapin says library can't increase hours

Library officials continued their opposition to closing the library on weekends to provide extended hours. The library is closed from 11 p.m. to 2 a.m. on weekends.

The library now closes at 11 p.m. It was suggested recently that the library could be opened for an additional hour to operate the library with a skeleton crew on duty. He said this doesn't accommodate students and offer them all available services, however he said other smaller libraries have open hours. Librarians ask for no more than an hour.

Understood

The director said the library is currently understood. It employs only 15 people in all. The library was opened Monday through Friday by George Byington, 50, of Southfield.

"If someone of those people like to be here," he commented.

Chapin said that labor contracts allow administration to offer students and offer them all available services, however he said this is possible because of class hours.

The library now is open from 8 a.m. to 11 p.m. Monday through Thursday.

Kyu uses the wrong approach

During his present nine-day trip to Australia and New Zealand, South Vietnamese premier Nguyen Cao Kiem reported to a most unfortunate response to anti-war demonstrations.

Appropriately trying to defend his regime in the face of heckling mobs, Ky stated that if the Communists win South Vietnam, "We will be slaves of Red China—that would be our fate."

It is of course possible that this could occur. The result of a Communist victory in Vietnam, however, would be present to hamper any Soviet interests would both Red China and Russia.

Hanoi leaders are walking a tightrope between aid and encouragement from the United States, and now not even a probability.

North Vietnam receives aid and encouragement from both Red China and Russia. Hanoi leaders are walking a tightrope between aid and Chinese control, playing the powerful and feuding Communist giants against one another.

In the face of any eventual U.S. withdrawal, China, Red Russia, and Vietnam, Soviet interests would be present to hamper any Chinese ideas of Vietnamese domination.

It is also doubtful that a Communist regime in Vietnam would submit to Chinese domination. Hanoi has declared openly that it wants to gain political influence from China.

Harrison Salisbury, an assistant New York Times who recently returned from North Vietnam, reports a strong desire for "independence" in the country. They speak as strongly of their resistance to Chinese invading armadas of the Ming dynasty as they do of today's war.

With the strong-willed Ho Chi Minh as a ruler, Hanoi has led the role of a somewhat independent Communist nation, though he has temper his independence with fear of aggression of the powerful dragon in the North.

If Ky hopes to win respect for the war, his nation, or himself on his current tour, he must quickly change his tactics.

Emotionalism and myths are not going to change the minds of people already hopelessly confused by the events in Vietnam. What is truly manager editor of books turned to duty.

Church says ‘ought' not ‘must’

To the Editor:

Because I am not a Catholic, I have never been a part of that Church. But if I am a Catholic, I may be one among many religious who are affected by the injustices and the misery, and the suffering of the world's greatest need from South America to Russia, to Africa, to Asia, and to the world.

The moral standards defined by religion for the best relationship of men to man, and for a nation influence the standards of all people, no matter what their religion may be.

If we are to become more truly a world community, we need to consider the teachings of the great religious traditions, not to change them but to understand them better.

AFTER PROTESTS
Ky wins Aussie support

Melbourne: Prime Minister Harold Holt has called a meeting next Thursday to discuss ways in which Aus- tralian public opinion can help resolve Vietnam's looing problem.

Holts announced his decision yesterday, when he was re-elected in the Australian Parliament for the New South Wales seat of Flinders. He won by a majority of 5,076 votes, the second largest in the State.

Ky said that unless there was a new approach to the war in Vietnam, the United States would have to keep its promise of withdrawal.

Sixty-four-year-old Holt is the first Australian prime minister to have been re-elected for a second term.

Ky also thanked Australia for its support, and said that the country had helped to strengthen the position of the United Nations in Vietnam.

Ky's visit to Australia was arranged by Prime Minister Holt and Prime Minister John Gorton of the Commonwealth of Australia.

Ky said: "I think our relationship has been a little more than potential. It has been a relationship that we have wanted to develop, and which we believe will be strengthened in the future.

Holt's decision to meet Ky next week is expected to be welcomed by the Australian public, who have been concerned about the future of the country in the face of the war in Vietnam.

Some 40,000 Australians have demonstrated against the war in the last two weeks, and the Prime Minister has been accused of not doing enough to end the conflict.

Ky said: "I think it is important that we develop a relationship with the United States, and that we work together to find a solution to the problem of Vietnam.

Surprising weekend for skaters, wrestlers

'S goalsie star in stopping Tech

BY JOE MITCHELL
State News Sports Writer

Battling hard in the second and third periods, Michigan Tech goalie Jim Best made 23 saves Saturday night in a 3-3 tie with the Spartans, and 21 in Friday night's game. The tech goalie was superb, never giving the Spartans any easy shots. Tech's goalies, Nino Cristofoli and Gerald Fisher, combined for only 18 saves in the two games, with Cristofoli allowing 12 and Fisher 6.

The Spartans, now 4-7-1 in the WCHA and 7-10-1 overall, face Minnesota-Duluth next weekend at Duluth. The Spartans, playing their sixth Western Collegiate Hockey Association game of the season, took advantage of eight Michigan Tech penalties to score a 4-3 victory.

Bessone named his two goalies, and couldn't pull either one for the empty-net strategy. Best made 23 saves Saturday night, in which neither team scored a goal. Fisher, with 21 saves, was nearly as good but also had his problems. He allowed only one of the Spartans' eight power-play goals.

Spartan players pile up in the Tech goal in Saturday night's game. The Spartans came out with a 3-3 tie in this one, after beating Tech, 3-0, Friday night.

As the government marched towards its new goal of regulating the press, there was concern in some quarters. The chairman of the student board, speaking for the first time on this issue, said that the board was "pleased" about the plan. "Any action by the administration on this matter must be taken in consultation with students," he said. "I am pleased to note that the administration has come to see the need for such action."

The administration agreed, stating that the proposed regulations were necessary to maintain a fair press. "We believe that the press must be free to publish information, but we also believe that it must be held accountable for its actions," said the president of the student board. "The proposed regulations will help us achieve this balance.

The amendment to the student constitution did not pass, however. The majority of votes were cast against it, with only a few votes in favor. The students' union voted against the amendment, saying that it would limit freedom of speech.

The reaction to the decision was mixed. Some students praised the administration for its stance, while others criticized it for not doing more to ensure a fair press. The situation is likely to continue to be a source of tension between the administration and the students' union. The students' union has announced plans to continue its opposition to the proposed regulations.
