CITY ON ALERT
Reds order new attack to raze Saigon in month

OTTAWA (AP)--Prime Minister Lester Pearson, who rose at dawn for a flight to this city, adjourned in 2 1/2 minutes, giving Pearson's government that tottered while he was in office, indication he could not work with Thieu. The government that Pearson had held together was called by the opposition to calling a confidence vote Tuesday, apparently prepared to ask for a vote of confidence. Pearson himself met with his colleagues for two hours before they decided to adjourn. Thieu resisted the government's threat to call a vote of confidence. There was no word from the Viet Cong, the 35-year-old leader of the Viet Cong movement, and a Viet Cong offensive. Thieu was said to have told the communists that they were planning an attack. Student identification cards are required at the university. The communists were estimated to have been told the second wave would run into trouble.

Liberals fight to keep reins in Canada

Canadian Prime Minister Lester B. Pearson, who received a warm welcome from the Canadian parliamentarians who already are on full alert for developments in the second wave, which dwindled after its opening with rocket and mortar attacks. But military authorities said they had been told the second wave would run into trouble.

CONSTRUCTION THIS SUMMER
Health complex proposed

The building model at MSU's planning map illustrates development of a health complex south of the present campus between Hagadorn Road and Bogue Street extended and bounded by Mt. Hope Road. Buildings number I and 2 are the new life sciences building and 3 will be the new health center. The facilities in the complex would include other student services, including research facilities, examination rooms, outpatient care, and student health care.

The students are expected to have a better view of the river from the hill top.

Married students face understaffed Day Care

By STAN MORGAN
State News Staff Writer

Help is available for married students with children but it may be a while before the shortage is alleviated. The Michigan Department of Social Services, said that married students may be eligible for the Day Care Services Program, but due to a staff shortage the department is unable to process any applications until existing workers are hired.

William Lowert, director of the department's children's unit for Ingham County, said that married students may be eligible for the Day Care Services Program, but due to a staff shortage the department is unable to process any applications until existing workers are hired.

"We must have the necessary help to get the word out," he said, "but it is possible that the workers will not be hired until July, when the next fiscal period starts."

The program provides financial assistance to the full cost of a child's day care if both parents are working or in school. Lowert said he explained that the program was started on a sliding scale with a base set income of $260 a month, an income scale with a base net income of $319 a month, was below $260 the program would pay the full amount. If their net income would pay the full amount.

He gave a hypothetical example of a family with two children whose base net income was $355 a month.

"If the family is under the base income we will pay the full out of pocket expenses," he said. "If they are above the base we will pay part of the cost."

Lowert said he explained that the program was started on a sliding scale with a base set income of $260 a month, an income scale with a base net income of $319 a month, was below $260 the program would pay the full amount. If their net income would pay the full amount.

"The family's net income was $355 a month. If their net income would pay the full amount.

The family's net income was $355 a month. If their net income would pay the full amount.

"The family's net income was $355 a month. If their net income would pay the full amount.

The family's net income was $355 a month. If their net income would pay the full amount."

He said the only thing his department could do at the present time was to take names of families that were interested in applying for any new applications until existing workers are hired.

"Another thing we can do," Lowert said, "is to inform people of licensed homes that are able to take children. But most of these homes are in the Lansing area."

Spartans outlast Hoosiers

**Sports**

By Don Darienre State News Sports Writer

The Spartans' big win was not a surprise to anyone. The Big Ten had lost its Big Ten. But in the Big Ten, with a 6-3 record, the Big Ten had dropped to 8-3 in the Big Ten. Illinois lost to Ohio State, 56-5, with 10:30 left in the game, but Ohio State didn't establish a new Jenison making 16-3 in practice during Tuesday's basketball action at Jenison Fieldhouse before 5,080 fans.

The victory gave the Spartans sole possession of seventh place in the Big Ten. Bob Steiner led the Spartans to a 75-70 victory over the Hoosiers with 10:30 left in the game. The win was the biggest of the season for the Spartans, who were 13-10 overall, 5-7 in the Big Ten.

Indiana refused to lose. Ball was still remaining but that was as close as it got. The Spartans trailed 4-4 in the game, but then Bob Steiner made three of four free throws on a three-point play in the last 40 seconds. Bob Steiner led the team with 16 points, 14 of those coming on a three-point play. They never again trailed. Biling the five shows in a row from the field, MSU built up the lead to 50-30 in the first half. They led by 16, 55-39, at halftime. Steiner scored 16 points in the first half and finished with 20 for the game. Carter and LaMonte each added 16 points. Bill Barlow, who has 30 points, was the high scorer for the Hoosiers. Carter then had the bar moved to 15-7 before the Western Michigan game. Carter grabbed second in the NCAA championship. Indiana's now graduated Bill Barlow, the star of the show, was optical for the Spartans. IU's Jeff Hoelschel was making 15-7 in practice before the Western Michigan game. He has a second week that meet to compete against the Big Ten. Medium and big teams. The redshirted Michigan State is still getting adjusted to life in Detroit and was optical for his chances in the NCAA. If a great defender on the team, he is still going to be a basketball court full of basketball into the playoffs. Seventeen feet would be optical for him in the nationals, and I could only make 15 feet.

Carter said his biggest goal is to get to the NCAA tournament. He said May was the win of the Big Ten championship at 15-7 in 1971. "I'm not sure," he said. "I told the bar at 16, 15-7. We are looking for 10 points after he and I made that goal. Carter then had the bar moved up to the magic of 16 feet. He made it.

Carlton, Michigan State News, East Lansing, Michigan

HOUSTON TOPS LIST

8 accept NCAA bids

Kansas City, Mo. (UPI) - Houston's top-ranked Cougars, Northwestern St. Seminoles and Kentucky both qualified for the NCAA basketball championships. Pairings were expected late Tuesday.

The Cougars, led by eventual NCAA champion, also established a new Jenison making 16-3 in practice during Tuesday's basketball action at Jenison Fieldhouse before 5,080 fans.

Indiana dropped to 3-6 in the Big Ten, 8-9 overall. The victory gave the Spartans sole possession of seventh place in the Big Ten. Bob Steiner led the Spartans to a 75-70 victory over the Hoosiers with 10:30 left in the game. The win was the biggest of the season for the Spartans, who were 13-10 overall, 5-7 in the Big Ten.

Panel discusses right to abortion

By PAT CARR... State News Staff Writer

The discussion of woman's rights will not cease until she can choose to have a child she does not want, said Rever... Dow Ward, in a discussion of the abortion question Monday night in the Broady Auditorium.

The arguments were presented by a panel which included... Thomas, MSG. associated professor of anatomy in the Broady. Frank Murray of the Marietta Social Service Center and Ward, chaplain of the MSG. football team. Reverend Thomas was part of the Catholic position which opposes abortion while the others presented the pro-abortion stand. Ward contended that the right to abortion should be amended to allow a woman the right to a legal and safe abortion.

The experiment noted that negative and determinations of abortion under present laws, he said, citing the after effects of abortion, loss of heartbreak of the mother.

Ward contended that every woman has "an unalienable right to her own life style." He pointed out that some disability service should be available to a woman to permit her to discuss the situation instead of making the decision under the pressure of a boyfriend or parents.

Ward stated that with the current overpopulation problem, "we should view abortion with more pragmatic and practical concern."

"Every abortion child is an unwanted child," Mr. Ward said. The complications of children who are brought into the world should not be denied a "life of humanism.

"It seems that the church should come to grips with the situation. It is pointed out that the past, post-abortions against abortion was necessary to parents, and the idea existed that if a woman was properly used it was due to the will of God."

He stated that with the abortion laws in this the result of death, and the women who would on abortion laws wouldn't exist today, he said.

Murray, presenting the Catholic viewpoints, commented that the ethical implications involved.

FATHER MURRAY

Rev. Ward

Dr. Thompson

"If no distinction between birth and life can be made, then the abortion problem should be considered," he said. He said that this raises a different approach to the question of abortion and that it becomes a question of weighing lives in comparison to each other.

"Abortion is a medical problem, but only in certain instances is it a medical and legal problem," said Thomas, who viewed abortion from a scientific point of view. "It is open for a woman to consult her physician, the social worker," he said.

Thomas said there are between 150,000 and 200,000 abortions in the United States per year. Most of them are among poor and unmarried women with families.

"The greatest danger," he said, "is that which would stem."

Murray believes that those who feel abortion is a private matter would not have an opinion on abortion if a third party involved, he said, and the moral and legal laws to protect the life of this unborn child.

NSU students will discuss the differences between Canadian and American social mores and organizations during the Interdisciplinary Conference on Canadian-American Social Interaction Friday and Saturday.

According to coordinator Larry R. Robin, Rochester, V.P., the purpose of the conference is to make American students more aware of Canadian culture and identity.

Approximately 200 students from both countries will be used for the conference which will include students from the University of Ottawa, Oxford University, the University of Western Ontario, the University of Guelph, and Queen's University.

The Faculty Women's Association will present an American Political Scene," at 6:30 p.m. Saturday in the Union Tower Room. Panelist will be Dr. Thomas, professor of political science at the University of Ottawa.

Another dinner address, "Minority and the Multicultural" will be held at 6:30 p.m. Saturday in the Union Tower Room. Panelist will be Dr. John Porter, professor of sociology at Dalhousie University.

Proposed hotel hits snags

By JIM GRANELLI
Spartan News Staff Writer

A proposed high-rise hotel and office building project in downtown Lansing may be in trouble as the Michigan state Senate has taken no action on a bill to rezone a portion of the site.

The bill was introduced in April by Sen. Donald F. MacGillivray, D-Lansing, and would have allowed the proposed building to be built on the property. The bill was referred to the state Senate and has not been acted on since.

The proposed hotel, which is expected to have 200 rooms, will be located on the corner of Michigan Avenue and Washington Square in downtown Lansing.

The bill was introduced in April by Sen. Donald F. MacGillivray, D-Lansing, and would have allowed the proposed building to be built on the property. The bill was referred to the state Senate and has not been acted on since.

**Threat to Saigon**

(continued from page one)

Other Red forces controlled most of the capital city of Saigon. An estimated 12,000 to 14,000 persons were taken prisoner. The capital was a scene of intense fighting as the Viet Cong offensive Jan. 30 continued.

Lt. Col. Pham Khoa said there would be publicity in the next few weeks to get people to identify with him. He said there was no way for him to get away from being pulled up. Marceau recognizes himself in Marcel Marceau, a master of the art of mime. Whether he is being pulled up or being lifted, he expresses those difficult emotions, moments, and sentiments that we never are able to find just the right words to express.

Marceau, for you identify with him. Whether he is being pulled up or being lifted, he expresses those difficult emotions, moments, and sentiments that we never are able to find just the right words to express.

SDS to sponsor anti-draft forum

The Peace and Freedom Committee of Students for a Democratic Society (SDS) will sponsor a conference on draft resistance at 10 a.m. Thursday. The meeting will be of special interest to seniors, graduate students and others who are thinking about alternatives to the selective service system.
