MSU's much-anticipated resolution on student disruption was finally reached Thursday by a 5-3 vote of the Board of Trustees.

In rescinding the resolution, the board's action came in the form of a vote to make the college's budget request for the 1969-70 fiscal year. The request is $77.4 million budget, which would be near the state legislature appropriated only $54.8 million for the current year.

At Wednesday's Women's Inter-residence council session, the council asked for $10 million in salary and wage adjustment and $1 million in inflation in the cost of supplies and equipment.

Following the council's action, the board members to place an item on the board's agenda.

Following "Politics 1968," the MSU Board of Trustees assembled Thursday evening for official business. The board discussed the controversial suspension resolution, which would ensure due process for all students.

The request is $7.1 million more than the 1968-69 request of $69 million, which would be near $77.4 million.

Jane Howard, sister of Hubert H. Humphrey, stopped for campaigning in the area Thursday before joining her brother for the election in November. After visiting the MSU "Declaration of Democrats for Students and Elephants" class taught by Louis Frankel, professor of political science, Mrs. Howard explained that she wants to "clear up the myths" that have surrounded her brother's policy of non-intervention in foreign affairs. She added that "I want to talk about the need to solve the problems at home before going to the war in Vietnam." Howard also stated that "I believe that the United States has a moral obligation to help the underdeveloped and oppressed people of the world."

In a call for the electoral system, Michigan Attorney General Frank Kelley seeks revisions to the state's archaic election laws which he believes are "unfair and unjust." Kelley's call comes in the wake of a series of write-in and referenda elections that have failed to change the status quo.

Kelley said that the write-ins are "an embarrassment to the political process and an insult to the people of this state." He added that "the write-in election is the only means by which the people can express their will." The attorney general said that he will "continue to fight for a more responsive and representative system that respects the will of the people." He added that "the write-in system is the only way to ensure that the people's voices are heard."

Voting in an absurd political year

At this time on an election year, it is traditional that newspapers all over the country endorse the candidate who they feel is the best choice for the Presidency of the United States.

The endorsement implies trust in the man as a leader of the nation capable to direct the country on a course towards welfare. The statement of the man endorsed should agree with the views of the newspaper on foreign and domestic affairs. The temperament of the paper should show one that the newspaper can fully accord with the opinion of the candidate.

A newspaper also implies in its endorsement that it believes in its candidate so much that it will urge all of its readers to vote for that particular candidate.

The State News endorses no candidate for the presidency in this election year, 1968.

An endorsement is a strong positive alignment with a candidate. We find in this election year that none of the candidates strongly support any of the three main issues of the nation.

One man is a demagogue, bashing his campaign on the four corners of the town, he has no constructive programs to lead the country. This intent only on distracting and critical issues.

One man is now wrapped up in his new look, a look contrived to appeal to the voting public. Unfortunately, it may work. Eight years ago, this man was the most popular of three people, he was a very mild and portly-looking man. He did little in that office. Before that he was in the U.S. Congress. It's difficult to say what he did there.

The person who could be, was the vice president, he ran for the White House and lost two years later, he ran for governor of one of our most populous states. Again, he lost.

Now after a six-year layoff, he's back on the campaign trail, offering still the solutions of the past.

The third man running for the office of President of the United States is today the vice President. We do not like the man that has been chosen as the special council of this party, particularly. The vice president's stand in Vietnam is dis-appointing to say the least.

In 1969 he was nominated in the torn city of Chicago. We cannot forget the bloody sight of the people's rights act the prefers the population of the country. We cannot forget the words of the flag of the demagogue and the people's rights act the prefers the population of the country.

But by simply voting, the disenfranchised could probably get rid of the old man by the flag of the demagogue and the people's rights act the prefers the population of the country. But by simply voting, the disenfranchised could probably get rid of the old man.

Mrs. Ford in this country could achieve a number of levels to those who would repress the silent of the nation. and order follow an intensive path through the mess of this nation's troubles.

An oversurplusing of American energy is now the war in Vietnam, but only one of the candidates has shown in the last month, the capability of the guidance of this country which has been shown.

In this campaign, far as the others had the virtual task with altering irregularity. But only he has shown in the past the reasonable amount of good judgment and sensitivity which should be expected of a president.

And while we cannot endorse him in a traditional way, he is today the only real alternative in this political year of absurdity.

Misunderioned dissension

I would like to express the dissen- tion of the Student Liberal Alliance (SLA). Our slogan "Nix-the-System!" has been voted down in the Graduate's Wing of the University. What is the policy of the Student Liberal Alliance? The system to be instituted will "close" the Student Liberal Alliance. It is a contradiction of the principle of which the system is based. The system is "To give the students a voice in the government of the University and provide the students with all the means to lead an active and enjoyable student life." The SLA was founded with the purpose of giving the students the power to pass all changes in the university rules and regulations which affect them. The SLA has been taken over by the system and is now used as a propaganda machine to "close" the SLA. The government of the University is now in the hands of a group of right-wing politicians who want to clean the University of radicalism.

The graduate and undergraduate area will help fulfill a need long neglected by the University. One which has thus far been ignored because of the policy of the SLA. The SLA was founded with the purpose of giving the students the power to pass all changes in the university rules and regulations which affect them. The SLA has been taken over by the system and is now used as a propaganda machine to "close" the SLA. I think Paulsen takes the campaign seriously to the point that he feels something should be done to the way politics are being run. . . . By satirizing the current political scene, Paulsen brings out the nation's problems."

Another fund-raising dinner was held at the Jack Horn and Hardot automat in New York City. Frank received his B.A. in graphic arts from MSU in 1965. He then worked for Hallmark Cards in Kansas for two years as an artist-writer. He still does freelance work for Hallmark and some national magazines when he finds time from his Paulsen and MSU routine.

And after the national election, there's always the future to think of.

"I hope to go to California some time before June to work in connection with the Smothers' show or as a freelance artist in Los Angeles or San Francisco," Frank said.

Phil Frank started out doing Paulsen's posters and then graduated to sweatshirt designing. The "Paulsen for President" sweatshirt was displayed on the Smothers Brothers show. Political cartoons for Paulsen, along with Frank's responsibility, are running bi-weekly in Variety and Hollywood Reporter. Billboard, the recording company trade magazine, also runs some of Frank's cartoons. Frank said he tried to draw his cartoons the way he thought Paulsen would feel when he was giving his speeches. After being okayed by Paulsen officials, Frank sent out his barbed cartoons aimed at the government and political system of the United States--to correspond with Paulsen's barbed speeches.

The "Phil Frank specials" list for Paulsen is a long one. In addition to cartoons and sweatshirts, Frank penned the art work for the book "Pat Paulsen for President," on sale now, and for Paulsen's newspaper advertisements.

He also designed a watch with the dial decorated with Paulsen's likeness--in the "Mickey Mouse tradition" Frank said. The Smothers Brothers and Paulsen all wear the official watch on the Comedy Hour. Some of Frank's cartoons were blown up to 10 feet by 10 feet for a testimonial dinner for Paulsen at the Ostra Cafeteria in Los Angeles. The cartoons were big but the prices were small--98 cents a plate to raise Paulsen's campaign funds.

Majority launches campaign

Members of the independent Majority met Wednesday in downtown Lansing to urge supporters to campaign in the nine days left before the Nov. 5 election.

The group supports three candidates: James Darlington running for the U.S. House of Representatives from the 12th district, John Beamer running for sheriff of Ingham County and C. J. Catlett for the County Board of Supervisors.

Constitution party Bryan Dickey, Pontiac City councilman, outlined the plans for canvassing the Lansing area this weekend for Darlington.

Meetings will be held at 7:30 p.m. in the Cass building Wednesday and 9 a.m. Thursday that time it will be 9 a.m. and then meetings should be held.

**Minnesota ends draft compliance**

The University of Minnesota recently passed a resolution which would allow the university to continue to resist compliance with the draft.

The resolution was passed by the university's Board of Regents. The university has not complied with the draft since 1969, when it announced that it would no longer participate in the draft.

In a statement released by the university, President E. R. P. Bigelow said: "We have always been against the draft, and we will continue to be against it."

The university's decision to continue to resist compliance with the draft is in line with the university's long-standing policy of non-compliance.

U.S. sweeps hurdles as medal totals rise

MEXICO CITY (UPI) - Ralph Boston and Barbara Ferri time, showed Thursday it will be hard to beat the U.S. in America's powerful swimming at the Olympic Games.

OHIO STATE (3-0) - The Buckeyes have committed to their momentum that could carry the Wolverines into a direct confrontation with the Bucks Nov. 23 on Ohio Field. Woody Hayes cannot keep his team up for the Big Ten games and the Irish could make their own run for the championship. Pick: OSU, by 17.

IOWA (3-1) at WISCONSIN (3-1) - In a year that means struggle for the Hawkeyes, the Wolverines could have the momentum that could carry the Wolverines into a direct championship confrontation with the Buckeyes Nov. 23 on Ohio Field.

Wake Forest (0-3-1) at Northwestern (0-4) -- A battle of titans, but the Wildcats are just what the Deacons need to vent their frustrations. Pick: Purdue, by 24.

The fund was provided for enlargement of the school's faculty and would enable
it to support MSU's continued participation in a regional program to improve
the quality of instruction and research in geology.

Veterinary Clinic on campus,

but the administrative agency
designated as "Veterinary Clinics" and
directed by Dr. Cheers, will be

a separate, new entity.

Veterinary surgery and prac-
tice were established as

separate academic units in
1945. They will be combined

in the new Department of Veterinary
Surgery and Medicine, which
will include small animal practice.

In veterinary surgery, "small animal" generally
means a horse, cow, or other type of livestock.
University veterinary programs within each area in both types of prac-
tice are highly specialized and involve a great deal of work as well as teaching and
research.

In veterinary practice, "small animal" usually refers to dogs, cats, and other pets.
