INACTION HARMS OTHERS

Sorensen hits non-voters for shirking responsibility

RICHARD MEA
State News Staff Writer

Those who do not vote in the national election Nov. 8 are by their very inaction denying other people the right to assume the responsibilities to their country as citizens. Thomas C. Sorensen said last Friday.

"I do not say that they are violating the letter and the spirit of the law, but rather that they are violating the rights of the people," he said.

The majority of the nation has been concerned in recent days over the principle of the President of the United States being the commander in chief of our armed forces and the nation's military power. This has been a concern of the nation for many years, and it has become apparent in some of the most important and significant decisions of our history.

Sorensen believes that the nation's military power should be used as a means of achieving national goals, and that it should not be used to achieve personal or political goals. He also believes that the nation's military power should be used to protect the nation from external threats, and that it should not be used to protect the interests of foreign nations.

"I believe that the nation's military power should be used for the defense of the nation and for the protection of the nation's interests, and not to achieve personal or political goals," he said.

Sorensen also believes that the nation's military power should be used to protect the nation's interests, and not to achieve personal or political goals. He also believes that the nation's military power should be used to protect the nation from external threats, and that it should not be used to protect the interests of foreign nations.

"I believe that the nation's military power should be used for the defense of the nation and for the protection of the nation's interests, and not to achieve personal or political goals," he said.

Sorensen also believes that the nation's military power should be used to protect the nation's interests, and not to achieve personal or political goals. He also believes that the nation's military power should be used to protect the nation from external threats, and that it should not be used to protect the interests of foreign nations.

"I believe that the nation's military power should be used for the defense of the nation and for the protection of the nation's interests, and not to achieve personal or political goals," he said.

"I believe that the nation's military power should be used for the defense of the nation and for the protection of the nation's interests, and not to achieve personal or political goals," he said.
Behind the suspension resolution

The suspension resolution has been rescinded, but the attitudes and misconceptions underlying it remain.

Frank Merriman, B. Rockerville, the only trustee who voted against withdrawal of the resolution, was quoted as saying, "Taxpayers have the right to expect that a few misfits do not have the right to disrupt the University."

This inflammatory and wrong-headed statement belies a disturbing degree of irresponsibility and contempt for the student concerns. His implication that students who disrupt classes have the right to disrupt the University is absurd but unfortunately characteristic of too many politicians who keep themselves in office by appealing to public fears.

That Merriman is not alone in his Neanderthal orientation to University affairs is evident from the typical remarks from other trustees and political figures who have made the same para
demaisions last spring.

President Hannah's approach to the suspension resolution issue was moderately more reassuring to any concern of student rights. The resolution, Hannah said Thursday as he requested its withdrawal, "only made explicit what was implicit in the first place." If the resolution's flagrant disregard for the legal rights of students was "implicit in the first place," then it is high time those rights were made explicit and guarded from further attack through any appeal by the trustees or the administration.

In accordance with a recommendation of the Academic Council, the trustees voted to have the Faculty Committee on Student Affairs work with administration representatives and the Academic Senate to recommend a new method of coping with emergency situations involving student disturbances.

The withdrawal of the suspension resolution was not so much a victory for the cause of student rights as a signal that the time has come when students themselves must take action to secure those rights. Due process, for students, as for others, of offenses must be clearly and carefully outlined by law. This recommendation must be drawn up for the trustees.

We should demand that if students are to be guaranteed the protection of the University Student Judiciary (AUSJ) before any disciplinary action can be taken, the rules defining AUSJ must be changed.

If the Academic Freedom Report, previously made explicit what was implicit in the definition of AUSJ, it is the opinion of the Student-Faculty Judiciary that multiple violations of the terms and spirit of the Academic Freedom Report occurred during, and as a result of, the sit-in demonstration held at the Administration Building during final examination week of Spring Term, 1968.

The students involved in the sit-in demonstration were violating the provisions of the Academic Freedom Report. The administration acted after accepting the report without debating it. The students involved in the demonstration were left hanging in the balance of the trustees' action. The trustees' decision was to wipe the slate clean of any possible charges for disciplinary procedures outlined in the report for disciplinary action. The Student-Faculty Judiciary de
does not have the power to discipline students, but it has the power to discipline the trustees and the administration.

The suspension resolution was not in any way intended to be a put-down of the students who demonstrate for a cause. We feel that little would be gained by adding further to the state and local jails. We feel that little would be gained by adding further to the use of the universities as prisons.

The second major point of this resolution was the opinion of the Student-Faculty Judiciary that multiple violations of the terms and spirit of the Academic Freedom Report occurred during, and as a result of, the sit-in demonstration held at the Administration Building during final examination week of Spring Term, 1968.

The Student-Faculty Judiciary believes that the administration should have known of the multiple violations of the terms and spirit of the Academic Freedom Report since the report defined the rules that were violated. The students involved in the demonstration were left hanging in the balance of the trustees' action. The trustees' decision was to wipe the slate clean of any possible charges for disciplinary procedures outlined in the report for disciplinary action. The Student-Faculty Judiciary does not have the power to discipline students, but it has the power to discipline the trustees and the administration.

We feel that little would be gained by adding further to the state and local jails. We feel that little would be gained by adding further to the use of the universities as prisons.

The Leadership Professions: there's one you may not have thought of.

The CPA has become a key man in the brokerage boom of today. If you are thinking of making a career in this field, your advice can often determine whether an enterprise goes or slows.

In fact, there is a shortage of CPAs. That's why we're sponsoring this ad.

What type of man makes a good CPA? He should be able to work with people, but not work with people, all at the same time. He should be able to handle stress and situations — and stick to his neck out when he thinks he's right. And, very important, he should be a type of man whom people can trust and put their confidence in.

There are a number of courses that will help you get a CPA certificate soon after graduation, or your can do graduate work. Ask your faculty advisor about it.

A special booklet has been prepared with the whole CPA story. Just drop a card and note to Dept. A10, AICPA, 666 Fifth Avenue, New York, N.Y. 10019, and tell us how many copies you will need. The whole story will bring confidence to many more men.

Gridders drop ball, game

By PAUL BOYCE
State Sports Writer

Ohio-The Michigan Wolverines scored four touchdowns in the first quarter and held Kent State scoreless in a 20-0 victory over the Golden Flashes Friday.

Michigan, however, did not play as well as expected. Kent State was outgained in total offense, 185-33, but Michigan had 17 first downs to Kent State's six.

The Wolverines' defensive line, which was expected to be their strength, did not play well. Kent State gained 187 yards on the ground, including 143 by running back Tom Kreft.

Michigan's offense, on the other hand, was not as dominating as expected. The Wolverines had 187 yards of total offense, but only 72 of them came on the ground.

Michigan quarterback John Anderson, who had a strong game against Ohio State last week, was not as effective against Kent State. He completed 7 of 20 passes for 114 yards and one touchdown.

The Wolverines' defense, on the other hand, was solid. They held Kent State to 187 yards of total offense, including 143 on the ground.

Michigan, however, did not play as well as expected. Kent State was outgained in total offense, 185-33, but Michigan had 17 first downs to Kent State's six.

The following employer listings will be interviewed during the week:

Seidman: accounting majors (December graduates only), and marketing (December graduates only).

Stauffer Chemical Co.: chemical engineering majors.

SPARTAN GOLD

As Mark Spitz surfaces, former Spartan runner Ken Walsh dives into the water for the first leg of the men's 400-meter relay. The team of Walsh, Spitz, Zachary Zorn and Steve Rights has world record as they won the Olympic gold medal with a 3:37.1 clocking.

Bart stars against Lions as Pack comes back, 14-14

Thursday, Sept. 1 -受益 Bart Starr in for his elbow injury. Former Lion's halfback, the 300-pounder is getting more and more attention from the football world. Before Dewar is given the Green Bay Press-Gazette, the Binghamton Lions Division is the other team in the game.

Reuters won the right to have the 1968 Olympics at the University of Michigan. It may be the first time that both United States and United States will be held at the same location.

Boys basketball teams from Michigan State and Michigan will meet for the third time in the season. Michigan State won the first two games, 115-108, and 96-95 respectively.

Gophers Wins But Loses

Harriers nip Gophers

Gophers Coach Jim Gibbard explained that he was pleased with the win, even though it was a narrow one.

Officially, the Spartans walked away with 22-20 win in their home game last Saturday. The Gophers had really taken the first round in the series, but the score was 14-14 last Thursday.

The match was that both teams played well.

An apparent winner in 25-27 was lost to East Lansing last week. The Spartans had a 7-1 record and outscored their past two opponents by a combined score of 81-7.

But the satisfaction of seeing a three-score lead take 56 minutes to build was a great one.

"I didn't think about using anyone else. He was doing the job and deserved the opportunity to continue." -Michigan Coach Murray Warmath added as he explained, "Duffy certainly did surprise us with his passing. He threw better than we thought he would, and he certainly ran it well."

Starr, who missed last week's game and did not start, also completed 10 of 17 passes.

"He's a bad shoulder, came up with a great one when it counted," said Duffy.

The quick Triplett kept the defense in confusion, forcing a fumble on a deep pass. The ball was recovered by Grooms, who ran it 80 yards for a touchdown.

Grooms covered the last 46 yards on an apparent winner in 25-27. But the Gophers are our short about 40 or 50 yards at the end of the fourth quarter, the rules called for dispossession.

Squandered a two-touchdown lead.

"I didn't think we would lose with that kind of a lead," said Duffy.

The Gophers, on the other side, had to settle for second place.

"He's an amazing athlete. He threw better than we thought we would," said Duffy.

Michigan led 10-7 at halftime. The Gophers had 234 total yards to Michigan's 209 in the first half.

Michigan quarterback Bill Moman in the Detroit 46.

"Starr was in when Bratkowski was slow getting up and with the whole world expecting a run, the chair was back to the line and the second half. The ball was in the hands of the Gophers for the second half, with the ball carrier short of a yard in the end zone and McCullough with the ball."

Michigan scored on a 24-yard strike pass to Boyd Foreman with his tight end Foreman, who had caught his first touchdown, McCullough in the end zone and Munson in the second quarter, pitched a three-yard strike pass to Boyd Foreman with his tight end Foreman, who had caught his first touchdown, McCullough in the end zone and Munson to tighten up the second quarter.

In 'Show business' An analysis thirty months with an Oscar-nominated film, "The Swimmer". When Lou Rawls finally appeared to perform at the University of Michigan Auditorium on November 17, it was the result of a long and impressive buildup. The concert came as no surprise to those who have followed Rawls' career over the years. He has been a force in the music world for more than three decades, and his influence on contemporary music cannot be overstated.

He is known for his soulful voice, which has captured the hearts of millions around the world. His performances have been described as moving and powerful, and his music has a way of evoking strong emotions in listeners. Rawls has recorded many albums, and his music has been featured in films and TV shows.

Rawls' concert was held in the University of Michigan Auditorium on November 17. The concert was well-received by the audience, and Rawls' performance was praised for its intensity and passion.

In conclusion, Lou Rawls is a true American icon, and his contributions to the music world cannot be understated. His concerts continue to draw sell-out crowds, and his music remains popular to this day.

Amendment cuts aid to protesters

By LARRY MAHAN

A $150 million dollar cut

passed by the House and Senate contains

little known provision govern-

ing for the discontinuance of federal aid to students who are

charged of a crime of a

violent nature. The measure has been

agreed upon by President Johnson's

signatures since the House passed it.

Section II of the education bill states that anyone who 'engages in the use of force, menace, or violence of property' to prevent enrollment of

students from entering schools in future

is ineligible for federal aid.

President Johnson's signatures

were added March 23.
