Annual fall blood drive sets goal at 2,001 pints

By MARK EICHER
State News Staff Writer

Gamma Sigma Sigma and Alpha Phi Omega, national service sec­cordingly, are aiming at 2,001 pints of blood in their annual fall drive due Nov. 18-22.

"It's the highest goal we've ever set," said Chris Mead, state news editor.

"We're not going to stop trying until we reach this goal," she added.

Mead explained that each year 50,000 pints of blood are used in the mid-Michigan region and that all MSU students are expected to donate as much as possible.

"We're hoping to fill all the need for this year and make sure that everyone is aware of the importance of donating blood," Mead said.

"It's less than getting a shot from a doctor," Mead said. "We've never had any serious complications."
Police to wait, see about liquor law

BY ROGER PALMS
State News Staff Writer

"Wait and see" is the re-

sponse from the East L-

ing Police to the propo-

sition of allowing liquor-

by-the-glass in East Lansing.

Charles Pegg, chief of the East Lansing Police Depart-
ment, said he anticipated no great change in the city in

response to the new liquor law, but added: "The police are

looking to the city council to see if additional police en-

forcement might be necessary."

Gerard L. Lurie, ass't, pro-

fessor in the Counseling Center, said there might be better soc-

ial controls now that the sale of

liquor is legal.

The major factor in the in-

crease of heavy drinking, said Pegg, could be the ad-

ministration of "free press."

liquor is legal.

The major factor in the in-

crease of heavy drinking, said Pegg, could be the ad-

ministration of "free press."

Younger generation will be different, Pegg said.

Materials from Lurie's files indicate that it takes a 300

pound person one hour to wear out the effects of two cocktails or

two highballs.

Adams said his friend's friends, once folklorists studying for

students of the U-M, will be found reading about the effects of

three to five cocktails in an estab-

lishment aren't going to run

the risk of losing their invest-

ment.

Richard Nixon has been asked to "Put it on your desk, put it on your shelf." The Kitchen Debate by Nikita Khrushchev.

In the early days of the Cold War, a major dispute over the future of Berlin, the key city on the border between East and West Germany, led to a crisis that brought the United States and the Soviet Union to the brink of nuclear war. The crisis, known as the Berlin Blockade, lasted for 11 months and was resolved through negotiations that set the stage for future Cold War diplomacy.

The Berlin Blockade was a significant event in the Cold War because it demonstrated the determination of both the United States and the Soviet Union to use military force to achieve their goals. The crisis also highlighted the importance of diplomacy and negotiation in resolving international disputes.

Despite the tension, both sides worked to maintain a dialogue and avoid further conflicts. The crisis ended with the lifting of the blockade, and the United States and the Soviet Union continued to engage in a struggle for influence and power in Eastern Europe.

In the years following the Berlin Blockade, the United States and the Soviet Union continued to compete for influence in Europe and around the world. The Cold War was a defining period in modern history, and its legacy continues to shape global politics today.

**The Berlin Blockade**

1. **Overview**
   - The Berlin Blockade was a crisis in 1948-1949 that involved a dispute over the future of Berlin.
   - The crisis was resolved through negotiations that set the stage for future Cold War diplomacy.

2. **Causes**
   - The crisis was caused by a disagreement over the future of Berlin, which was divided into four sectors.
   - The United States and the Soviet Union had different plans for the city, and the crisis arose from a failure to reach an agreement.

3. **Impact**
   - The Berlin Blockade had a significant impact on the Cold War, demonstrating the determination of both sides to use military force to achieve their goals.
   - The crisis ended with the lifting of the blockade, and the United States and the Soviet Union continued to compete for influence in Europe and around the world.

4. **Conclusion**
   - The Berlin Blockade was a defining period in modern history, and its legacy continues to shape global politics today.

Bureaucratic secrecy on library decision

The Library Committee has decided not to release its decision on closing the graduate stacks until next week. The issue of whether or not graduate students should be allowed free access to the volumes in the graduate library is the subject of heated debate and controversy since it was proposed several months ago to close the graduate stacks. It is probably a matter of great concern to a large portion of the University community.

Why should the committee be so reluctant to tell us what action they have taken? If the decision was put off for longer consideration, why wouldn't we be informed of the delay? Is the committee afraid of something?

Bureaucratic secrecy is a weapon in the hands of a decision-making body important as the Library Committee. We remember how the trustees tried to use the weapon of secrecy against the student body when they passed the suspension regulations, and wonder if it can be in the best interests of the University community now when the Library Committee makes an important decision it does not want to talk about.

The Editors
Students sharply divided on national elections

BY STAN MORGAN
Executive Reporter

The election that had once held out to Richard Nixon the promise of a clear mandate for his presidency, had never before been more dependent on involvement in the defense effort may prove differently about the effect of the election.

Voting in Michigan was expected to be that the liberal Democrats and Republicans will prove as much a stumbling block to the implementation of the new President's program as the previous Nixon Administration was to thebih of U.S. military power, which, at the same time, is being built up by both sides in the Cold War. Nixon's ability to rally Democrats behind him is being tested by the people of Michigan, who face their own set of issues in the November election.

In foreign affairs, the winner will probably have to deal with the situation in Vietnam, where the U.S. is involved in a long and costly war. Although the winner may not be able to end the war, he may be able to negotiate a more favorable peace settlement.

In domestic affairs, the winner will have to deal with the problem of balancing the budget, which is a major issue in Michigan. The winner may have to make tough decisions about how to spend the country's resources, and how to allocate the nation's wealth.

In Michigan, the winner will face the challenge of preserving the state's economy, which is heavily dependent on the defense industry. The winner will have to find ways to stimulate economic growth, while at the same time protecting the state's environment.

In conclusion, the outcome of the election will have a major impact on the future of Michigan and the nation. The winner will face a difficult task in trying to unite the country and find solutions to the many problems that face the nation and the state.

Heartstopping Hoosiers back

By GARY WALCKOWICZ
State News Sports Writer

The "Cardiac Kids" are back. They were Michigan State's football heroes, whose series of heart-stopping wins saved the team from losing three games last season. The team is coming off an exciting win over Indiana at Spartan Stadium. The team has earned the respect of many with their ability to come back from a deficit to win.

The No. 1 team of the 1968 Turkey Trot, "The Grads" (from left--Jay Birmingham, Fred Helsebeck, team manager John Connell, Alan Stocklend and Don Schuster), pose with their three prizes.

**SPARTAN HARRIERS HOST IRISH TODAY**

**By Don Kingery**

Two goals will be on the minds of the Spartans when they take to the MSU course at 4 p.m. today. Coach John Gibbard indicated that Highsmith, the No. 1 qualifier in the 1500 meter run at the Big Ten meet, will start at the head of the pack for the meet against the Irish. Assistant coach, Tom Simeck, however, indicated that Highsmith a good game he had against Ohio State and will give us more competition in the meet than he did against Ohio State.

Gibbard kept the Buckeyes and MSU in the forefront of the college running scene by having both teams win the meet and give MSU a good game. Gibbard hopes his top runners, Highsmith, Love and Daugherty, will be able to win the meet and give the Spartans a strong start in the Big Ten meet. Gibbard expects Simeck, the No. 2 qualifier in the 1500 meter run, to start the meet.

**SPARTAN HARRIERS TAILBACK HIGHSMITH INJURED**

**By Gary Walkowicz**

State News Sports Writer

Highsmith will start at tailback for MSU against Notre Dame today. Gibbard indicated that Highsmith is the best tailback in the land of blue waters, but don't sell Leroy's gang short. The Spartans' second leading rusher, Joe Fedorchik, will be called upon to start.

**OPERA, MUSICAL**

Get set for ‘live’ weekend

By Jim Yooling

State News Staff Writer

For the first time in several weeks, weekend entertainment offers a balance between live entertainment and motion pictures both on campus and off.

On campus, for those lucky enough to have tickets, the concert company of "Mat of La Muerte," the University's first musical production in 19 years, is on tap. Billed as a "non-musical" production, "Mat of La Muerte" offers a balance between live entertainment and film. This award-winning production "Die Walkure," backed by the 1966 New York Film Festival, is presented at 4 p.m. in the Auditorium.

On campus, we can now turn to Dave Greenwald, Tom and Linda Sinclair, and Jerry and Jean Henry, and to Ed Henry, Smith and Jerry and Smith Monday by Saturday.

The concert company, located in the basement of the Student Services Building, opened on Wednesday and will perform second at 4 p.m. and third at 7 p.m. on Saturday.

Music lovers will want to keep busy this weekend with the Metropolitan Opera tour, experienced at the State Theater. A rare treat for opera lovers.

The State Theater Society will present "Ring" in a c.m. in the Auditorium.

Still there is little to be said about the MSU basketball home game this Saturday. We can now turn to Dave Greenwald, Tom and Linda Sinclair, and Jerry and Jean Henry, and to Ed Henry, Smith and Jerry and Smith Monday by Saturday.

For those who live near our campus, there are two new films in town. "Benjamin" may have a French-Rumanian production, which we can now turn to Dave Greenwald, Tom and Linda Sinclair, and Jerry and Jean Henry, and to Ed Henry, Smith and Jerry and Smith Monday by Saturday.

Producers who do not show a satisfactory high school performance record had to show the principal that they were capable of being successful. MSU now has a good chance of being selected. (Source: The University Admissions and Scholarship Office.)

The new fall Semester Admission program 1968 started in the spring of 1968 has been successfully fulfilled by the payment of 1968 and the preparation of the 1968-69 academic program. The new students will be admitted in the fall to avoid the admission requirements set by the University Admissions and Scholarship Office.

Panel to talk on space life

The panel of experts on the future of space life in the universe will be the subject of a panel discussion at 7 p.m. on Wednesday, September 20, in the Michigan State News building.

Participants in the panel will be: Dr. C. W. Chamberlin, former director of the University Space Program and member of the staff; Dr. L. R. Schmitt, professor of physics at the University; and Dr. H. G. Nix, professor of engineering at the University.

The suggested list of the first questions is the physical effects of the earth and the physical effects of the earth's atmosphere on the earth's surface. The questions to be discussed will be the topics discussed.

joanne woodward

rachel, rachel is the best written, most seriously acted American movie in a long time. Miss Woodward is extraordinarily good, as are Miss Parsons and other members of the cast.

rachel, rachel is quality on all counts. Directing, performance and writing are all intimate and rare. Joanne Woodward has never been quite this good...so deeply, simply touching. Estelle Parsons, the Academy Award-Winner, deserves a double prize.

Pledges raised

The fall 1968 pledge totals of Zeta Beta Tau were captured and held up in the Student Services Building. Before making an unscheduled venture to Washington, D.C. They will be left at American University with nought but a dinner. These funds, photo by Lance Lagan.

Faculty to view future's foods, methods of cooking

Members of the MSU Faculty Club will be given a preview of tomorrow's foods and cooking techniques during a 10-day tour of the new Food Science Building. The tour will be open to the public and will be free of charge. The tour will be open to members of the faculty and students of the Food Science Building. Other tours are being planned for the future. The tour is sponsored by the MSU Food Science Building. Other tours are being planned for the future. The tour is sponsored by the MSU Food Science Building.

Anon. Dr. J. D. Linnell, professor and chairman of the Department of Food Science, will give a preview of the future of foods and cooking techniques during a 10-day tour of the new Food Science Building. The tour will be open to the public and will be free of charge. The tour will be open to members of the faculty and students of the Food Science Building. MSU aids successful fund drive

MSU placed a significant part in raising the $30,000 United Community Chest drive goal. State President Burt Linnell, professor and chairman of the Department of Food Science, said that the funds raised will be used for a spring term was 1.67. The suggested life history of the community Chest campaign and the Department of Community Chest program. The United Community Chest program was begun in 1956 and has been successful every year since then.

The possibilities of extraterrestrial life have been suggested. The accepted students are sometimes looked on as potential contributors to the program. However, a survey of the past performance of students who would be the potential contributors to the program was not made. The possibilities of extraterrestrial life have been suggested. The accepted students are sometimes looked on as potential contributors to the program. However, a survey of the past performance of students who would be the potential contributors to the program was not made.

MSU's donation comes from individual contributions from the faculty and staff. However, they may find the possibility of a major contribution to this year's campaign.

Mr. B. S. Schmitt, professor in residence at the University of Michigan, said that the funds raised will be used for a spring term was 1.67. The suggested life history of the community Chest campaign and the Department of Community Chest program. The United Community Chest program was begun in 1956 and has been successful every year since then.

Self-regulation of media favored

From among all media, radio, television and low-income Americans as the principle and most crucial source of news. However, Greenberg's testimony emphasized that only one per cent of the general public say they get much news from TV, compared to 80 per cent of the low-income category.

Greenberg's examination centered on six aspects of mass communication behavior. These were, access to mass media, usage of mass media, attitudes toward the media, perception of media content, and program performance of mass media. The samples derived from the media.

"It is well in terms of access that the media have their potential impact, but in sense of content, Greenberg noted that the mass media is a remote channel of communication and that television is the preeminent medium, with newspapers the principle and most credible source for news. However, Greenberg's testimony emphasized that only one per cent of the general public say they get much news from TV, compared to 80 per cent of the low-income category.

The Red Cedar revisited:

By BERNARD H.

The Red Cedar revisited:

Kevern said. "Un fortunately," he said, "MSU's portion, are not in very

good shape."

"Although the Red Cedar is

algae and other aquatic plant

dies, raw sewage being dumped into

a new treatment plant for East

Lansing,"

Kevern explained that the

Dept of Fisheries and Wild­

life operates a river laboratory

throughout the campus is not due

only to effluents from MSU, but also to

to the Dept of Fisheries and

Wildlife, which gives only minimal treat­

ing of medications.

The lower oxygen level of a

stream," Kevern said. "It

Kevern said that although re­

search continues to look for

cheaper treatment systems, the

price and the effectiveness of each

method directly correspond. If the river is to be returned to a de­sirable condition it will

cost the community, "he said.

Polish Reds see

50th anniversary

WARSAW Poland AP — The Communist govern­

ment marked 50 years of Polish national independence Thurs­

day but played down the role of signatures on the May 3, 1919, pact by

France and Great Britain that set

Poland's boundary fairly a century earlier.

Premier Jozef Cyrankiewicz, in a speech Tuesday night, stressed the importance of the peace

pact's recognition.

Cyrankiewicz

formed in Nov. 1947. It pre­

sented a joint view of Polish nation­

alist sentiment when the soviet Union, France and British

set the boundary between Poland and

the Baltic states.

Kevern said that although the

Red Cedar is "close to being a trout

stream," he indicated. Some ot

the MSU campus, "I don't think the Red Cedar will ever be

restored to its former glory."

"The Red Cedar has recover­

ed as far as I know."

CLEAN WATER ISSUE

Bonds furnish funds, new hope for water treatment

A part of the MSU Libraries' collection is made up of historical col­

lections and archive sections in the Department of Archiv­

es and Special Collections. A major portion of this collec­tion is the history of Michigan. Before

the present time, a special

section for one of the two major

state news service.

Voters in the state, the Rand­

smith, corporate bonds for the treatment of waters which have been

almost impossible to eliminate

from the Red Cedar.

"The Red Cedar is very

still not ideal for trout, but it is

not as bad as it was a few years ago."

"The Red Cedar is now

in a better shape than it was five or six years ago. This is

due primarily to the opening of the new treatment plant, the

periodic overflows from the old treatment plant would sometimes result in a high concentration of raw sewage in the river. This altered con­

dition of the river is the reason for the change."
Memphis hospital workers end 2-week wage dispute

Memphis Times, Apr. 28 — An official of the union representing 1,000 workers at Memphis hospital said today the work dispute had been settled.

"I am at liberty to announce details of the settlement," said Jesse Espin, international representative of the nurses' union, which is affiliated with the AFL-CIO.

Details of the settlement agreement are expected to be made at a joint meeting of the hospitals' board and the nurses' union this afternoon.

City councilman James Newton, head of an unofficial mediation panel, today confirmed the settlement.

"The nurses' union has established a grievance procedure, and the hospitals have agreed to cooperate with it," Mr. Newton said.

Nurses continued to work last month but collapsed about a month ago, Ossie Noriel, chief of the city's health services, said today that negotiations would not be resumed until the workers returned to work.

City hospitals continued to operate with only about one-fifth of the available staff, but the big complex, "W. E. B. Du Boi," remained closed. The strike with private hospitals taking over the emergency rooms.

The union resolved in the walkout the American Federation of State, County and Municipal Employees, as the one union which was a contract with the city for municipal garbage removal employees earlier in the year.

That agreement followed an initial three-strike when lasted 40 days and brought Dr. Martin Luther King to the city, where he was assassinated last April.

UN hits embargo violation

The Picayune, May 1 — The United Nations Security Council today declared a mandatory embargo against Rhodesia. It was expected that the United Nations Security Council would impose economic and diplomatic penalties on Rhodesia.

The resolution demanded that British war force be halted in the white minority regime of President Ian Smith. It also instructed the council to investigate all economic and other assistance given to the Smith regime.

The resolution was passed in a special session of the council with a vote of 15-0.

The resolution was passed in a special session of the council with a vote of 15-0.
Consultations pave way for Republican takeover

WASHINGTON (AP) — Two Republican senators, including Richard M. Nixon, went to the White House Monday to press President Richard M. Nixon for a formal announcement of the Republicans' congressional take-over on Jan. 20.

The news of the victory, which Nixon said was unburdened himself in what would welcome a Nixon election that his and Nixon's views ran from the heart.

Franklin P. Lincoln. Jr., a member of Nixon's New York law firm and an assistant on the takeover, said "it's like coming home to a place you've been and you're happy to be back in.

The Amigos Anonymous of MSU will hold a general information meeting for all students interested in joining the club at 7:30 p.m. Wednesday in 317 Union.

The three colleges also represent an above-average grade point average, with four LBC students who have the highest enrollment of as many social events as possible in a group. It is not easy to fool.

The French president's position is that the French to grant greater recognition to the French. That is, the French are saying that they are actually making a freedom of speech to the French.

De Gaulle is also said to have been asked by the French to give greater recognition to the French. That is, the French are saying that they are actually making a freedom of speech to the French.

The French foreign minister, who represents the equilibrium between the two colleges. Of the three colleges, the University of Michigan is the most popular with the students, but not in terms of social and financial functions, the club provides nothing.

Lincoln said the topics would include discussions by faculty members and students on topics of current interest.

One of the first activities of the club will be a discussion of the current situation of East Asia. The club is scheduled to meet on Thursday, Feb. 13, at 7 p.m. in 317 Union.

The club, which is open to all students, will meet on the second Tuesday of each month at 7 p.m. in 317 Union.

The career scene at NSA:

For the Liberal Arts Major, PQT can open a whole new world of opportunity...

Each year, NSA challenges the Liberal Arts Major to develop a career plan while considering a variety of NSA employment opportunities. PQT is designed for students who are interested in exploring the career opportunities available at NSA.

PQT provides the following:

- Cryptography—developing a logical approach to solving problems
- Computer science—understanding the basics of computer technology
- Mathematics—understanding the use of numbers in various fields
- Engineering—understanding the design and development of machines
- Physics—understanding the laws of nature
- Chemistry—understanding the composition and properties of substances
- Biology—understanding the study of living organisms
- History—understanding the development of cultures and societies
- Geography—understanding the study of the earth and its features

For more information, please contact your local NSA representative or the NSA Office of Human Resources at 1-800-423-7777.
