Tenure dispute provokes Garofol

By CHRIS MEAD
State News Staff Writer

The MSU Board of Trustees approved the early retirement request of Philip J. May, MSU treasurer and vice-president for business and finance, at their Thursday meeting.

May requested the retirement through President Hannah. May had submitted resignation effective June 30, 1969, but will not step down until after January 1, when the Dem-ocatic trustees-elect Warren Huff and Blanche Martin take their seats on the Board.

White blasts partisan use of MSU Alumni Association

By CHRIS MEAD
State News Staff Writer

Trustee Clair White, D-Bay City, accused the board of the Committee for Better MSU Trustees Thursday of using the MSU Alumni Association to get votes for Republican candidates and said the committee's campaign is made up of corporate and farm interests “set on putting down” his effort for the state Board of Trustees.

White said the payroll of the farm Alumini Association is “far too large” and should be cut in half. He said the committee is composed of “professional people” who are trying to make the Alumni Association work for them.

Last chance to contribute to blood drive

Today from 8 a.m. to 4 p.m. is the last chance for students and faculty to contribute to the MSU annual blood drive at demonstration hall, 119 Morrill Hall. Blood donation chairman Robert Freerzer said that it will be the last day that blood drives will be held on the campus and that it will be the last day that blood donors will be able to contribute.

Freerzer said that the number of people who contributed to the blood drives has been decreasing and that it will be the last day that blood drives will be held on the campus.

"The decision to purchase or not purchase grapes for the University during the months of July through October next year could have far-reaching effects.

Tasting an estimated $110,000 in benefits, the university was instrumental in getting the Board of Trustees to review the subject of the purchase of grapes.

Several alumni were defeated Thursday night by the Board of Trustees in their attempt to bring the grapes into the University during the months of July through October.

The Board of Trustees approved the recommendation of the department to purchase grapes for the University during the months of July through October.

The department said that it was necessary to purchase grapes for the University during the months of July through October because the University needed grapes for its own use.

The Board of Trustees said that the grapes were necessary for the University's efforts in the area of equal opportunity.

"I'm not sure we should be placing our money in the stock market," said President Hannah. "I think we should be looking to the future and to the needs of the University."
Conference deadlocked over world money crisis

BOSS: Germans (AP) - Treasury and central bank officials and representatives of the 10 richest nations met in emergency sessions until after midnight but failed to reach an agreement on what to do about a severe financial crisis. 

Officials and search teams duty operators and rescue efforts were focused today on the 78 miners who were trapped in a coal mine in West Virginia. 

Miners and other rescue workers at the mine had been working since an explosion and fire trapped them underground late Tuesday afternoon. 

A group of professors at Michigan State University says the Selective Service System is not correctly interpreting a law and is placing the names of graduate and postgraduate students on the draft list, even if they are not married. 

Selective Service System officials support survey showed more than 90% of married students interested in academic work would leave school if they were drafted.

Inequalities and inadequacies present in the Michigan system of funding public education have recently undergone acute scrutiny. Allen, University Professors (AAPU). The points of the association bring up an area of great concern. But elimination means a vast overhaul of present policy. To begin with, $1 million is to be used to compute appropriations. $40 million per fiscal year must be replaced with a more equitable instrument. In its report, the AAPU suggested a possible plan. This includes the idea that the cost of instruction increases from the freshman to the senior level. In any new policy something similar to this notion must be represented fully.

Underlying this whole program of achieving equity in education is the practical aspect: Can the state supply the money needed for adequate programs? Bearing in mind that $1 million is to be used to compute appropriations, the AAPU proposed that the state make a determined effort to bring every institution up to a position of excellence by the year 1974. The cost of instruction increases from the freshman to the senior level. In any new policy something similar to this notion must be represented fully.

With inadequate compensation for faculty members in general, quality education may be hindered. Minimum qualms were allocated to all Michigan institutions below the equalized the increased salaries resulting would attract better teachers. The advantages of increased salaries are many and should be considered carefully. Obviously however, increased salaries will be to no avail if not coupled with adequate programs.

OUR READERS' MINDS

Cedar Village Apartments. Assistant at North Wonders Hall. Expected to report student violations of University Ordinance are required to explain to the view of these students and any of North Wonders Hall staff any kind anywhere within the confines of land governed said board.

Please note that the text appears to be disjointed and incomplete, making it difficult to interpret the context or meaning accurately. The text contains fragments of sentences and does not form a coherent narrative. It appears to be a mix of personal opinions and statements, but without further context, it's challenging to provide a meaningful interpretation.
By GREG SCHROEDER

The freshmen in the class of 1972 are a "new breed" to give their opinions on just about anything and everything at MSU, and the MSU News decided to ask them. Here are the results.

"I can understand how students can get hung up on high school and not get an education. As a freshman, I know that I have to get out of high school and move on to college."

About 160 of the freshmen were surveyed by the freshman class and all of their answers reflect that they are ready to get an education and move on to college.

The freshmen in the class own ideas, who are ready to get an education and move on to college.

Some come just to have fun, others search for potential husbands or are registry social life. "I can't understand how students can get hung up on high school and not get an education. As a freshman, I know that I have to get out of high school and move on to college."
Student teaching times vary

By BARBARA PARNES
State News staff writer

There are three options for students who wish to complete their teacher education program. Students can apply for student teaching in the fall, spring, or during the summer. Each option offers unique benefits and challenges.

1. Fall Semester Teaching
   - Duration: September to December
   - Benefits: Offers an opportunity to teach during the academic year, providing a full semester of teaching experience.
   - Challenges: Requires students to balance teaching with other academic responsibilities and personal commitments.

2. Spring Semester Teaching
   - Duration: January to May
   - Benefits: Provides an opportunity to teach during the academic year, allowing students to gain valuable teaching experience.
   - Challenges: May be less flexible due to spring break and other academic disruptions.

3. Summer Teaching
   - Duration: June to August
   - Benefits: Allows students to focus solely on teaching, providing a concentrated period of professional development.
   - Challenges: May be less bandwidth due to shorter teaching periods.

Students should consider their personal and professional obligations when deciding which option to pursue. It is recommended that students apply for the fall semester teaching option if they are planning to pursue graduate studies or are looking to build a strong professional foundation.

Donald A. Taylor, a professor in the MSU Department of Marketing and Transportation Management, has been appointed to the position of director of the Business Administration Program.

He is a 1968 graduate of the University of Michigan and has served as a marketing specialist for the State of Michigan and as an assistant professor of marketing at Indiana University. He is presently an assistant professor of marketing at the University of Illinois.

Taylor is married to the former Roberta Foss and has two children, John and Mary. He is a member of the American Marketing Association and the Academy of Marketing Science.

He is the author of several articles on marketing and has received numerous awards for his contributions to the field.

Education study continues

By Sherry Templeton

State News Staff Writer

The MSI! Institute for International Studies is holding its sixth year of research in education in cross-cultural and graduate programs. The New Folk is coming to town and anybody who doesn't believe that just hasn't been on campus lately. Advertisements for the show have appeared throughout the University, the Institute works with officials to help support faculty and to help educational systems as well.

Two purposes of the Institute are: to help support faculty and educational systems, and to help educational systems develop new curriculums. Utilizing resources from the entire University, the Institute works with officials to help support faculty and educational systems.

The Institute has been in operation at the University since 1957. It has all the great campuses and faculty members of the University involved. It's hard to believe that it has been in operation so long.

The Institute is currently involved in research in the areas of education in cross-cultural and graduate programs. The Institute has been in operation at the University since 1957. It has all the great campuses and faculty members of the University involved.

'Coogan': trite plot, admirable technique

A fairly hackneyed, with the spirit of a film noir, "Coogan's Bluff" is a low-budget effort by the Long Brother Productions Inc. Based on a novel by Peter Cheyney, "Coogan's Bluff" is about a New York City police detective, played by Clint Eastwood, who brings in a wily con artist, played by Richard Widmark, after the con artist lures in a fellow cop to his apartment to look for the stolen goods.

The story is set in New York City and involves a murder investigation that leads to the discovery of a stolen art collection. The plot is straightforward and predictable, with the detective trying to outsmart the con artist at every turn.

The acting is competent, with Eastwood and Widmark delivering solid performances. The supporting cast includes Lee Marvin as a tough cop, and Joanne Woodward as a psychiatrist who helps the detective solve the case.

The film's strengths lie in its solid performances and its well-paced action sequences. The film's weaknesses include a predictable plot and a lack of emotional depth.

Overall, "Coogan's Bluff" is a competent crime drama that delivers what it sets out to do. It's not a film that will blow you away, but it's a solid piece of entertainment that will hold your attention for an hour and a half.

Too 'Harsh'

Attorney raps drug laws

By KATHY MORAN

An attorney rapped the drug laws Wednesday night at a panel discussion on the topic, "Drug Laws: A Challenge to the Civil Liberties of the Individual." The attorney was one of five speakers who addressed the issue from different perspectives.

The attorney, who was not identified, said that the drug laws are "harsh" and "penalize" the user of marijuana. He cited a number of cases in which the courts have ruled that the use of marijuana is a violation of civil rights.

The attorney also said that the drug laws are "unconstitutional" because they infringe on the rights of individuals. He said that the laws are a "reaction against the social undesirables," and that they are not based on medical evidence.

The attorney concluded by saying that the drug laws are a "failure." He said that the laws are not effective in reducing drug use, and that they are a burden on the courts and the police.

The laws on LSD and similar hallucinogens, which were made within the last two years, are not beneficial to those dealing with drug problems.

The laws are based on political factors, and they are not effective in reducing drug use. The laws are also a burden on the courts and the police.

The attorney's position was well-received by the audience, who applauded his comments at the end of the discussion.

The discussion was held at the Michigan State University, and it was attended by a group of students, faculty members, and members of the public.

The attorney's comments were part of a larger discussion on the issue of drug laws, which included a panel of five speakers who addressed the topic from different perspectives.

The panelists included a lawyer, a sociologist, a psychologist, and a representative from a non-profit organization.

The discussion was part of a larger event, which was organized to bring together different perspectives on the issue of drug laws.
Bible topic of seminar

"The Authority of the Bible" is the topic of a one-day theological conference to be held in East Lansing at 9:30 a.m. Saturday. The conference is a joint effort of Trinity Evangelical Divinity School, Deerfield, Ill., and the Michigan State News, East Lansing, Michigan. The conference is sponsored by the Michigan State News and Trinity Evangelical Divinity School.

The conference will feature a morning session at 9:30 a.m., followed by lunch and a second session at 1:30 p.m. The conference will conclude with worship at 4:30 p.m.

The conference will be led by a team of theological experts, including Dr. Kenneth Kantzer, dean of the school, and Dr. George Frein, a professor of systematic theology.

The conference is open to the public and will be held at the Michigan State University Union, 134 West Grand River Avenue, East Lansing.

Registration is $3 per person. For more information, please call 332-8693 or 332-0606.

Organ transplants termed vital

"Organ transplants are still being developed and are not yet perfect," said Dr. Howard A. Lyman, pastor of the First Christian Reformed Church in East Lansing. "But they are a step in the right direction."

Dr. Lyman was one of the speakers at the Michigan State News-Trinity Evangelical Divinity School conference on "The Authority of the Bible." He spoke on the theological aspects of organ transplants.

Dr. Lyman's presentation was part of a larger conference that included sessions on the historical and cultural background of the Bible, as well as discussions on the role of the Bible in contemporary society.

Dr. Lyman's talk focused on the ethical and moral implications of organ transplants. He discussed the potential benefits of these procedures, as well as the challenges and concerns that come with them.

He also addressed the issue of organ donation and the importance of making informed decisions about organ donation.

Dr. Lyman's presentation was well-received by the audience, who were engaged and eager to learn more about the topic.

Overall, the conference provided a comprehensive and thought-provoking exploration of the Bible's role in contemporary society, and highlighted the importance of continued study and dialogue on this important topic.

Michigan State News, East Lansing, Michigan
Wildcats hungry for final win

**McKee Fieldhouse**

Four Northwestern players called out their 160-point season Saturday as they meet a Princeton team Saturday night in the second place game. The Wildcats will be playing in the Big Ten. The teams each start with a 3-3 conference mark, with the Big Ten's Duke checking in at 3-1. Yest has been a highly successful year. Northwestern's top backfield weapon rushing for a team-leading 330 yards and throwing 233 passes and completing 98 for 1,245 yards and six touchdowns. He has been punctured for an average of over 600 yards per game. The Wildcats have had the most trouble against opponents running game, giving up 220 rushing yards in one game. The Northwestern defense has been a highly successful year. Northwestern's top backfield weapon rushing for a team-leading 330 yards and throwing 233 passes and completing 98 for 1,245 yards and six touchdowns. He has been punctured for an average of over 600 yards per game. The Wildcats have had the most trouble against opponents running game, giving up 220 rushing yards in one game.

McKee Fieldhouse
