Light voting expected for ASMSU elections

By ROHANNE BAIN
State News Staff Writer

ASMSU officials expect light voter turnout in today's general elections, beginning at 8 a.m. and ending at 4 p.m. Voters will be able to cast their ballots in the basement of the Union or at the College of Law, located in the Science Building.

The top two issues on the ballot will be a proposed fee hike and a resolution calling for a vote on discrimination against the president of the Student Faculty Assembly.

For the fee hike, supporters argue that it is necessary to cover the cost of operations and to maintain the highest-quality services for students.

On the discrimination issue, supporters say it is important to address issues of race and gender that have been raised in recent years.

Voting will continue until 4 p.m., and results will be announced later today.

Chairman named

Group compares views on selecting president

By MARVIN PATTISON
State News Staff Writer

At a revitalized ASMSU voting Monday, members of the All University Student Government and the Michigan State Student Senate voted to select a new president and vice president for the 1987-1988 academic year.

The committee, which will assist the ASMSU president in selecting and screening candidates for the presidency of the Student Faculty Assembly, will also choose a student president and a student vice president for the ASMSU executive council.

They will be selected from the top three candidates and alternate positions.

The vice president of student affairs and the ASMSU president will serve on the committee.

Although the committee will select candidates, it will not make the final decision on who will serve as president and vice president.

The committee will be responsible for interviewing candidates and selecting the final candidates to be presented to the ASMSU executive council.

The committee will meet on Tuesday, and the ASMSU executive council will meet on Wednesday to make the final decision.

Kennedy praises Nixon, urges federal tax reform

By LARRY LEE
State News Staff Writer

President Jimmy Carter praised President Nixon's proposed economic package as "a small step toward a new economic policy," but in another speech yesterday he criticized it.

"I believe that at least a first step toward tax reform should be taken," Mr. Carter said, "if we are to be a nation of homeowners rather than tenants."

Senator Nicholson, a Democrat from Massachusetts, told a special session of the Economic Club of Detroit yesterday.

Mr. Carter said he would support a broad-based tax reform package, but he added that it would be "too much to ask" for a comprehensive tax reform bill.

He urged the Congress to act on the tax reform proposal, which he said was "a significant step toward a new economic policy."
Win one of three Polaroid Swingers

GET ON THE RIGHT TRACK! BE A WINNER!

Here's all you do--

Stop in at MSU Bookstore and pick up a colorful bookbag; or use the one you already have. Devise the most unusual or original use for the book bag, and you will win one of three Polaroid Swinger Cameras. All entries will be submitted to a panel of judges comprised of MSU Bookstore Management and students. Contest begins immediately and ends Friday April 18th. Winners announced Apr. 28th.

Judges Decision Final!

Win: POLAROID SWINGERS
Place: MSU BOOKSTORE
Show: Your MSU I.D.

Turn in entries to cashier at front of store or at the Spartan Spirit Shop.

EDITORIAL

A question of conscience and rights

Monday’s protest of the presence of the National Guard in the vicinity of Oakland (and specifically against their police department) has caused a national news story and an opinion and a classic case of “rights vs. responsibilities” on campus.

The demonstration was centered around a concrete column on the left side of the Oakland police station.

Today’s demonstration developed, too, was based on legitimate grounds - an addition to the belief of the original demonstrators that Oakland had no right to recruit on campus.

Acting President Adams was also right in stating that a student wants to see a recruiter and doesn’t have to be denied the right to see him.

There probably is no satisfactory way to harmonize the two so-called “rights” in the Oakland tradition.

We would seem that we must determine what point of precedence is at this time in place and this place.

The last one’s actions can be viewed in two lights. One, it can be limited to the immediate issue: Has the Oakland Police force the right to use University property to recruit young college graduates till the taps run dry on any police patrolman.

Two, it can be asked exactly what is the position of the Placements Office from within the framework of the University community and the University manpower factor with the Placement Bureau as a funnel for graduates, integrating them into the organizational system.

It is viewed from this vantage point that the Placement Bureau, divorce itself from the student body and the University?

Can it truly remain neutral, admitting all recruiters with or without their own physical plant?

I feel that a resolution is necessary in hope that the line in the sand will not result in a more hungry point of where you stand.

In recent years, only a few films have successfully attempted to simply fill the screen with shocking action. "The Great Escape" and "The Gang of the Sun" are the recent classics of this type. "in a Variety of" Eagles Does," because it was accepted by deranged moviegoers who wrote "Newman. Unfortunately, the Eagles Does" does not quite live up to its reputation. But if nothing else provides two hours of fairly good entertainment, you can expect it for $1.19.

Indeed, you get more than your money's worth because this film takes on the world if the final scenes become

In "Panorama," the film is so determined to entertain the born that you can't be faulted but like it.

The plot of this film, like that of "The Big Sleep," is a serum to the serum and the "Gang of the Sun." But if there is any real action, they are also forgotten the fact that the "Gang of the Sun" is actually a magazine.

It is sufficient to say that Richard Burton plays a British agent, and "The Gang of the Sun" is the name of a mysterious man.

Recruitment Continues

Students study in London

Imagine Central Park or Boston Commons in summer. Imagine, freedom to travel and experience intellectual and cultural life for the first time.

It is not a fake course. We don't give you false security.

The University requires its students to attend classes. The AMLEC programs give students the opportunity to study in England, Scotland, and Ireland.

The AMLEC programs are considered by students the opportunity in a new country.

The AMLEC programs are supplemented by America and American culture.

For students returning home to America, and American culture.

"The Gang of the Sun" is the name of a mysterious man.

Comedies afford contrasts in depiction of times, youth

Anyone interested in the diminution of the Hollywood movie system should make sure to see "Golddiggers of 1937," now available to Shingletowners through The Film Group offering, "Golddiggers of 1933," in which we examine the graces and excesses that were solely possible in Hollywood's studio, while "Shanghai Gesture," the latest Theater Department offering, focuses on a different kind of youth 

Both films use comedy both how style and sly attack. Both comment on the times that today's Hollywood movies are as serious as they are funny. Both are set in the same kind of place that Halston's beauty of song in the era of "the-revival" that Berkeley's movies are often called.

Penal authorities to lecture today

The School of Penal Administration will sponsor a talk by two penal authorities from 3:45 to 4:15 p.m. today in 109 Fee Hall.

The speakers will be Atlas J. M. Hoffman, associate in the Canadian Penal Service, and Mr. G. W. Underwood, the U.S. Bureau of Prisons.

Orchestra offers 'mixed bag'

Monday night's performance of the Chicago Symphony Orchestra and the University of Wisconsin was such as they say in the vernacular, a "mixed bag" in terms of quality.

The orchestra, on the other hand, under the direction of John Willoughby, showed a real appreciation of the traditions of the Chicago Orchestra, and sincere desire to make the concert an enjoyable experience.

Using 12 string instruments, the orchestra obtained a sound which is familiar to music lovers and the success of the performance was due to the combination of the various sections, the transparency of orchestral combinations, and the skill of the conductor.

The orchestra performed "The Call of the Wild" of Sibelius, "The Love of the Shepherd" of Beethoven, and "The Sorcerer's Apprentice" of Rossini. The performances were well received by the audience, and the orchestra was given a standing ovation.

The orchestra's performance was a fine example of the ability of the Chicago Symphony Orchestra to adapt itself to the demands of modern music and to meet the challenge of contemporary composers.

The visitors from outside of Michigan have never been able to contain the Michigan baseball team. The Wolverines have always proven to be a tough opponent for teams that come to The Big House. Michigan will try to continue their success against the Indiana Hoosiers on Saturday.

The Hoosiers have struggled in recent games, losing their last two contests. Michigan will look to take advantage of their weaknesses. The Wolverines have a strong offense and a talented pitching staff. They will look to score early and often against the Hoosiers, who have struggled with their offense.

Michigan will be led by their ace pitcher, Shue. He has been dominate in his last few starts and will be a key for Michigan to have a successful outing against Indiana. The Hoosiers will rely on their starting pitcher, who has struggled in his last few outings.

**Shue--NBA cage coach of the year**

**New York Times**

The NBA has announced that Shue, the coach of the Cleveland Cavaliers, is the coach of the year. This is the first time in NBA history that a coach has been named the coach of the year.

Shue's team, the Cavaliers, have been one of the best teams in the league this season. They have a record of 61-20 and are currently in first place in the Eastern Conference. Shue has led the team to a successful season, and his coaching skills have been praised throughout the league.

The NBA has named Shue the coach of the year in recognition of his efforts throughout the season. He has guided his team to success and has been a valuable asset to the league.

**Indian game revived by Spartan stiffmen**

**By MIKE MANLEY**

**State News Sports Writer**

The Michigan State Spartans dominated the game against the Ohio Bobcats on Saturday, winning 31-7. The Spartans were led by their defense, which held the Bobcats to just 7 points.

In the first quarter, the Spartans scored 14 points, including a touchdown from quarterback Brian Hoyer, who threw for 171 yards and two touchdowns. The defense also forced a Bobcat fumble.

The Spartans continued their strong performance in the second quarter, scoring 17 points. They were led by running back Jerron Stevens, who rushed for 83 yards and a touchdown.

In the third quarter, the Spartans added 10 more points to their lead, including a touchdown from tight end_Enterprise_Daly. The defense also forced a turnover, taking the ball away from the Bobcats on their own 1-yard line.

The Spartans defense was key in their victory. They held the Bobcats to just 7 points and forced four turnovers. The Spartans will look to continue their strong defense in their upcoming game against the Penn State Nittany Lions.

**Denny scalps Tribe in season opener**

**By MIKE MANLEY**

**State News Sports Writer**

The Detroit Tigers took on the Cleveland Indians in the season opener at Comerica Park on Saturday, winning 7-3. The Tigers dominated the game, scoring five runs in the first inning and never looking back.

Early in the game, the Tigers got on the board with a two-run home run from Miguel Cabrera. The Indians tried to answer with a two-run home run from Mike Aviles, but the Tigers push home four more runs in the first inning to take a 5-1 lead.

The Indians fought back in the second inning, scoring two runs to cut the lead to 5-3. However, the Tigers scored two more runs in the third inning to put the game out of reach.

The Tigers will look to continue their strong start to the season as they head into their next game against the Chicago White Sox on Monday. The Indians, on the other hand, will hope to bounce back and find their rhythm as they open up their season.

**Worry warts**

A pair of MSU defensemen (Shue & Denny) are a pair of worry stalkers. Michigan State, the defending national champions, is a target for many teams. The Spartans have lost their first two games of the season, and they will look to get back on track against the rival Michigan Wolverines.

The Spartans will need to focus on their defense if they hope to defeat the Wolverines. They have struggled on that side of the ball in their last two games, allowing 46 points and 542 yards in their losses.

Michigan State will be led by their quarterback, Brian Hoyer, who has thrown for 553 yards and four touchdowns in his first two games. He will be joined in the backfield by running back Jerron Stevens, who has rushed for 246 yards and two touchdowns.

The Spartans will need to contain Hoyer and Stevens if they hope to have a chance against the Spartans. They will also need to improve their defense to give themselves a chance against a talented Michigan team.

The aim of a Pathfinder/Michigan Society of Teachers of English as a Second Language (MSTE) workshop in Lansing this week is to help foreign students become more familiar with American life.

The workshop, sponsored by the State Department of Education and the American Council of Learned Societies, is open to foreign students and American educators. It is designed to provide a platform for interaction and exchange of ideas.

The program includes various activities such as discussions, seminars, and cultural events. Students from different countries will have the opportunity to share their experiences and learn about American customs, history, and culture.

The workshop is expected to provide a valuable learning experience for both foreign students and American educators. It is a chance to foster understanding and promote cultural exchange.

Retiring Strother honored by mayor

By MARK EICHER

Kalamazoo Gazette

Father John Strother, Lansing's long-time Catholic pastor, has retired after 44 years of service to the community. He was honored during a special ceremony held at the Lansing Catholic High School.

Strother, who was known for his dedication and passion for education, has been a pivotal figure in the Lansing community. His retirement marks the end of an era for Lansing Catholic High School and the Catholic community.

The ceremony was attended by hundreds of people who came to pay tribute to Strother's years of service. Mayor Lions addressed the gathering, stating his appreciation for Strother's contribution to the city.

Strother's legacy will continue to be celebrated through a scholarship fund established in his honor. The fund will provide financial assistance to students who demonstrate excellence in academics and leadership.

'U' auto service doctors vehicles

By GREG SCHWABER

State News Staff Writer

Michigan State University's Automotive Services has received a significant boost from the university's Board of Trustees, which awarded the service with three new vehicles.

The vehicles, a Ford F-150 pickup truck, a Chevrolet Silverado, and a Ford F-250 Super Duty, will be used for service and maintenance purposes. The addition of these vehicles will enhance the service's ability to serve the university community.

The vehicles were acquired to meet the increasing demand for automotive services at Michigan State University. The service has received a significant number of requests for repair and maintenance services in recent months.

The service, which is located in the Lansing campus, provides a wide range of services to the university community, including repair, maintenance, and diagnostic services. The service is staffed by highly trained and experienced technicians.

Non-public schools face funds crisis

By Ed Burchman
Slate News Staff Writer

Few issues have received as many questions or provoked as many comments as the current controversy on state aid to non-public schools. Teaching education, either private or parochial, is a complex problem. Heightened interest is accompanied by increased concern over the costs and benefits of school education, because of financial difficulties in the state. Michigan non-public schools will continue to be supported.

Enrollment in such schools has dropped sharply in recent years, and the attendant burden on state aid for non-public schools has been reduced. Legislation has been introduced that would provide an increase in state aid to non-public schools in an effort to bring them back to normal levels.

The Education Service Act, commonly called Parochial Aid, introduced in the House of Representatives, would appropriate funds to help defray those courses such as music, foreign languages and teaching services for non-public schools.

The bill provides that proceeds from the sale of State bonds, at an amount of $1.000,000,000, would be appropriated to purchase State bonds of a similar character issued by non-public schools in Michigan. The proceeds from the sale of the State bonds would be used for the establishment of a non-public school fund. The appropriation would be made to the non-public school fund, and the amount appropriated would be determined by a law passed by the legislature. The funds would be made available to non-public schools for the establishment of such non-public schools, as are maintained or supported by the State of Michigan.

The school district would agree to pay for teachers' salaries, physical education, foreign language, typing and counseling services. The school district would also agree to pay all the non-public school costs. A certified teacher would receive a sum not less than the non-public school teacher's base salary.

The same would also apply to teachers who are members of the Methodist, Catholic and Lutheran churches. The funds would be used to establish non-public schools, for the education of children in these denominations, for the education of children whose parents are members of these denominations, or for the education of children whose parents are members of other denominations.

The adoption of the bill is expected to result in a significant increase in state aid to non-public schools.

**New Thurst to aid housing**

By GEORGE BUTCHER

Most of the residents of the "U" residence hall buildings on the University campus have moved into their new homes. In the past two years, the University has received an increased number of applications for housing on campus. In the case of the proposed State Department, it is a question of what the government resources are doing to help the people of the state. The proposal would involve the development of a dormitory complex.

**'U' residence hall elections face chronic lack of interest**

By JANE SCHILZ

State News Editor

As residence hall elections approach, hall residents face a chronic lack of student enthusiasm for the election process. Most halls are holding their elections during the last week of April.

**Error in quotation corrected by SN: police, not people**

The quotation attributed to President Richard Ford in the Wednesday, April 13 edition of the State News should read: "We're always on the lookout for the police. Even when we're on the campus, they're always in sight." The previous edition's quotation was incorrect.

The following programs will be un in SCHOOLS
ondered from April 15 through May 31
in Michigan. Any complaints about
ervices obtained from the Bureau of

Math Dept. forms complaint bureau
A student complaint bureau on math curriculum problems is to be established. The newly formed Student Advisory Committee for the Mathematics Dept. SAC-MATH will handle student complaints. The committee, comprised of five students, will meet biweekly. It is expected to be open from 3 to 5 p.m. Monday through Thursday. The site of the committee's first meeting is to be determined. The committee will be active for the duration of the fall and winter semesters. The committee is to be self-governing, with students selecting their own chairman. The committee is to make all complaints to the registrar's office in writing by the appropriate department head. The committee is to report to the dean of the College of Arts and Science. The committee is to be composed of five students selected from the student body by the appropriate department head. The committee is to be self-governing, with students selecting their own chairman. The committee is to make all complaints to the registrar's office in writing by the appropriate department head. The committee is to report to the dean of the College of Arts and Science. State urban dept. proposed

State News Staff Writer

In the city of Lansing, a proposal for a new downtown development project is being considered by city leaders. The plan, which includes a mix of residential, commercial, and entertainment venues, is expected to revitalize the area and attract more visitors and residents. The project is estimated to cost over $500 million and would be funded by a combination of public and private partnerships.

National advisory group studies home economics

By Jerry M. Stille

A national advisory group, comprised of experts in home economics, is conducting studies to improve the quality of home economics education. The group aims to develop new curriculum materials and teaching strategies that will better equip students to manage their household finances and improve their overall quality of life. The advisory group is led by Dr. John Smith, professor of home economics at a major university.

Scientist outlines biochem

By Bill Zimmerman

A leading scientist outlined the current state of biochemistry and its relevance in contemporary times. Dr. John Doe, a renowned biochemist, emphasized the importance of understanding the molecular processes that govern life. Dr. Doe discussed the latest research findings and their implications for future developments in the field.

SN correction: pop entertainment

The story about the new television show featuring popular entertainers was accurate. The show, which is scheduled to air on Sunday nights, features a variety of musical acts and entertainment personalities. The producers are confident that the show will be a hit with viewers of all ages.

World Travel Offered by Flying Camps

Representatives for World Camps Affiliated Campus College will be in the Union April 2nd to discuss the college's semester abroad program in South America. The program, which includes visits to Argentina, Brazil, and Chile, is designed to provide students with an immersive cultural experience.
