SIRHAN AWAITs SENTENCE for FIRST DEGREE MURDER

LOS ANGELES—Sirhan Bishara Sirhan was convicted of first-degree murder, and Judge Robert F. Kennedy, whose bid for the presidency is the subject of the film “The Candidate,” said he intended to find a way to send him to the electric chair at San Quentin. This would make Sirhan the first person in history to be executed in California.

The trial ended in the same miserable and tragic circumstances that surrounded the assassination of President Kennedy in 1963. The trial was marred by suspicion, controversy, rewriting of history, and a grand jury investigation. The trial was also marked by the presence of thousands of Arab and Jewish women who raised flags to show their support for Sirhan.

Sirhan was found guilty of killing Senator Robert F. Kennedy, who was running for the presidency. The trial ended on December 14, 1968, and the judge sentenced him to death. The sentence was overturned by the California Supreme Court, and Sirhan was given a new trial.

In the new trial, Sirhan was tried for the murder of Senator Robert F. Kennedy. Sirhan was found guilty of murder and sentenced to death. He was executed on June 28, 1968, by lethal injection at San Quentin State Prison.

The trial was a turning point in the history of the United States. It was a time of great uncertainty and chaos. The trial was marked by the presence of thousands of Arab and Jewish women who raised flags to show their support for Sirhan.

**U.S., S. Viet ask Hanoi to halt stepped-up attacks**

The United States and South Vietnam called on Hanoi Thursday to put an end to its "repeated harassment" of American military planes and to halt stepped-up attacks on South Vietnamese occupation forces.

The American calls were repeated by South Vietnamese leaders who said the United States was still planning to station planes in South Vietnam.

"The statements come at the latest casualty figures released Saturday in the Viet Cong's South Vietnamese counterpart. Both sides have been steadily reducing the numbers and kinds of planes used in the conflict.

The United States has been increasing the number of its planes in South Vietnam, but South Vietnam has not announced any plans for stepped-up attacks.

The United States called on Hanoi to stop attacks on its planes at a time when it is planning to station planes in South Vietnam.

Dubcek ousted from party; pro-Moscow chief to lead

BY ED MCMURTRIE
State News Staff Writer

ST. LOUIS, Missouri (AP)—Mikhail Suslov, the newly appointed general secretary of the Communist party of Czechoslovakia, is reported to have resigned from the party. He is believed to be the leader of the delegation that traveled to Prague last month in an effort to improve relations between the two countries.

Citing reasons for dissatisfaction among the nation’s youth, Sukhov took part in the so-called “Prague Spring.” The event was the first major political change within Czechoslovakia, and he was termed the “workfare state.”

In a few weeks, all the Soviet bloc countries will be considered to have equal standing within the organization.

Our leaders condemned Russia for their interference in the internal affairs of Czechoslovakia, saying that it was an “imperialistic move.”

The situation appears to be stable, with no indications of a new crisis developing.

Dobrovolsky, a party member, told the Central Committee that the country is facing a difficult period.

“Bond machinery, destroying nation”

BY ROBERT SIBLEY
State News Staff Writer

As the last of the old guard was swept away by Soviet tanks, the younger generation came into its own, pushing the country forward.

In a bold move, President Dubcek has announced the creation of a new government, led by a former member of the Communist party.

This is a significant step towards democracy and freedom for the Czechoslovakian people.

The new government will be responsible for implementing the reforms promised by previous leaders.

With this change, a new era of hope and possibility begins for the country.

The people of Prague, and all of Czechoslovakia, are united in their support of this new direction.

Samet slips up on preliminaries

The much-anticipated final round of the Big Ten basketball tournament was marred by a controversial decision that may have implications for the conference standings.

The controversial call came in the closing minutes of a closely contested game.

The decision to award possession of the ball to the opposing team was hailed by some as a missed opportunity, while others saw it as a fair outcome.

The game ended in a tie, with both teams advancing to the next round of the tournament.

While the result may not have pleased everyone, it is a testament to the intensity of the competition.

The next round promises to be just as exciting, with both teams looking to make a statement.

The season is shaping up to be a memorable one, filled with surprises and unforgettable moments.

The fans are eagerly anticipating the next chapter, and the future looks bright for the conference.

U station wins fight to ban DDT

MHS’s Agricultural Experiment Station posted the warning on Tuesday, calling for the cancellation of the sale of DDT in the state. The Agriculture Department has Fifteen years ago, the first attempt was made to ban DDT, and it was met with resistance from the public.

Since then, the issue has been revisited multiple times, with varying degrees of success.

The latest attempt is being driven by concerns about the impact of DDT on the environment and wildlife.

The ban would be a significant step towards protecting the health of individuals and ecosystems.

The fight to ban DDT is not without its challenges, but the recent expansion of the warning is a sign of progress.

More needs to be done, but this is a positive development.

Prof presents paper on anti-cancer agents

A new type of experimental treatment has been developed by a team of researchers.

Their work involves the use of natural compounds to target and destroy cancer cells.

The treatment has shown promise in early stages of clinical trials.

Further studies are needed to determine its effectiveness in treating more advanced cases.

Wang is considered an expert in the field of molecular biology and genetics.

His research has contributed to our understanding of cancer biology and has led to the development of new therapeutic strategies.

The paper presented at the American Chemical Society meeting will hopefully bring wider recognition to his work.

Wang’s presentation was well-received, and the audience was left surprised by the groundbreaking findings.

As research continues, we can expect to see more advancements in the treatment of cancer.

The future looks promising for those affected by this disease.

The blunders at Harvard

I am convinced that when a small student group decides on a naked confrontation of forces, the victory must be kept open, even by police action—

When our students learn about this, the disruption will end.

---

**Carol Corriere**

Co-ops: rewards aplenty

I'd like to invite the next generation of co-ops to an experiment in living together as an alternative life-style. Now, before I am accused here of being a social chauvinist, let me assure you that I am not advocating a new style but the free exercise of the right under the law to associate as people feel is right. This is a unique opportunity to learn how to live together.

Co-ops have been in existence for many years, but the current interest in their spread is a result of the sense of the times and a desire for meaningful living. It is time that we recognize the importance of co-ops and their potential for social change.

The idea of co-ops is not new, but it is seen in a new way. It has been introduced to us by a group of students, and has spread to all parts of the country.

The co-op movement is the only one which is a truly meaningful movement, as it provides a social experiment that is valid in the real world. It is the only one which can be successful in the real world. The co-op movement has been successful in the real world.

Student struck on Farm Lane

By RICK BERNARD

When a graduate student stepped in front of a car on the south side of the Farm Lane bridge, she became the fifth student within the last year to be hit by a car on Farm Lane.

Shortly after noon Wednesday, Melinda Chen, a graduate student, was crossing from west to east on the pedestrian crosswalk when she was struck by a car near the entrance to the campus from a car driven by Byran Keller of East Lansing.

She was taken to the Health Center where she was treated for abrasions to her knees and shoulders. She refused any further treatment.

According to witnesses, Keller had allowed a group of students to cross and was making a right-hand turn when his vehicle struck Chen.

Keller refused to give his name and refused to answer questions about the accident.

Four other students have been struck at the same location.

In all instances but one, the list of students struck was the student's fare bearing in front of the campus center. All the drivers who were involved in the accidents were cited for failing to yield to pedestrians.

The last traffic accident involving a student was in Fall 1980.

Singer-guitarist features blues

Vanguard Records artist John Hammer has been in the recording business for three years, and his latest album, "In the Style of Joe Turner," has been praised in several significant recording venues.

The album, produced by John Hammer, was released in March and has received critical acclaim.

Hammer is best known for his work as a songwriter and performer, and his music has been featured on several films and television shows.

This is his third album, and it features a mix of original material and covers of classic blues songs.

TV explosion hits campuses

By JIM VOSLING

The local Fordham University campus is ground zero for a new trend in television, with students regularly watching campus-specific television stations.

The trend, which began in the early 1980s, has gained momentum in recent years, and the number of students tuning in regularly has increased significantly.

The stations, which are typically run by student groups, offer a variety of programming, including news, sports, and entertainment.

Music and movies make up this week's on-campus events, with events being held in each courtyard that all should try to attend.

Live musical entertainment will be hosted by the A&R Advisor sounds of Smokey Robinson and the Miracles this weekend at Johnson. Tickets are available at the A&R Advisor box office.

"The Bop" is a light and breezy show that often features an up-and-coming artist. This weekend's guest is an up-and-coming artist. The show begins at 7 p.m. in the A&R Advisor auditorium.

"Soulful" is a weekend event featuring The Barons and The Funk Brothers. The show begins at 9 p.m. in the A&R Advisor auditorium.

"Gloria" is a live performance featuring the popular group The Funk Brothers. The show begins at 8 p.m. in the A&R Advisor auditorium.

IFC questions ruffle ‘U’ students

By DELPHINE MAJOR

A questionnaire that was compiled by the Office of International and Inter-Cultural Programs at the University of Michigan has led to a great deal of controversy on campus among international students.

The questionnaire, which was distributed to all international students, was developed as part of a study conducted by the International Foundation of the College, or the IFC, which is a non-profit organization that raises funds for international students.

Students were asked questions about their personal experiences, including questions about their academic achievements, personal goals, and future plans.

However, some international students have expressed concern about the questions, particularly those related to their personal lives and finances.

“I think it’s important that we have a say in the decisions that affect us,” said one international student. “I feel like my privacy is being invaded by these questions.”

Other students have also expressed similar concerns, with some saying that the questions are intrusive and inappropriate.

The questionnaire has also sparked controversy among faculty members, with some expressing concern that the questions are not relevant to the academic environment.

“The questions are too personal and don’t have any bearing on our work,” said one professor. “I don’t think they should be asking these kinds of questions.”

The IFC has defended the questionnaire, saying that it is necessary to ensure the well-being of international students.

“The questions are designed to help us identify potential problems and provide support when needed,” said a representative from the IFC. “We want to make sure our students are safe and comfortable here.”

Despite the controversy, the questionnaire has been distributed to all international students on campus, and the results will be used to inform future policies and programs.

“I think it’s important that we use the data to make informed decisions,” said one international student. “I hope we can use the results to improve our experience here.”

Overall, the questionnaire has sparked a great deal of debate on campus, with both students and faculty members expressing their opinions and concerns.

Students contribute to search for 'U' president

By MARILYN PATTSON

The Michigan Student Editorial Board of the Michigan State University Student Body has endorsed the candidacy of Michigan Governor George Romney in the presidential election. Litau, chairman of the Michigan Student Board of Aldermen and editor of the Student, said that the endorsement was made after the Governor's recent address at the University. Litau spoke at a demonstration meeting, organized by the University's Student Government Association (UGSA), on the University campus.

The Michigan Student Board of Aldermen is made up of 12 students from various colleges and schools in the University. The Board is responsible for the student government activities of the entire University. Litau, who is a senior in the College of Business Administration, said that the endorsement was based on the Governor's record and the way he has handled issues of importance to students.

Litau said that the Governor has shown a strong commitment to education and has been a strong advocate for student rights. He has also been a strong supporter of the University and has been actively involved in the University's activities. Litau said that the Governor's endorsement of the Michigan Student Board of Aldermen is a sign of his support for the University and its students.

Litau added that the Governor's endorsement is a step in the right direction and that it will help to build a strong relationship between the University and the Michigan Student Board of Aldermen.

Litau concluded by saying that the Governor's endorsement is a sign of his commitment to the University and its students and that it will help to strengthen the relationship between the University and the Michigan Student Board of Aldermen.

Conference to concentrate on mental health care plans

WILLIAM STONE

New State Senator Will Street has proposed a bill that would require all state agencies to develop mental health care plans. The bill would require the agencies to develop plans that would address the needs of individuals with mental health problems.

The bill would also require the agencies to develop plans that would address the needs of individuals with mental health problems. The bill would require the agencies to develop plans that would address the needs of individuals with mental health problems.

The bill would also require the agencies to develop plans that would address the needs of individuals with mental health problems.
Vetwishes offers perspective

BY IRENE PONCKES

Artists, diabetics, cancer patients, parents, burn victims—veterinary medicine is the place for all of these people. This is the way it has been for years.

The College of Veterinary Medicine at Michigan State University offers a four-year program that is recognized as one of the best in veterinary medicine. The college has been providing quality veterinary education for over 100 years.

The college is currently ranked as one of the top veterinary schools in the United States. It is known for its strong research programs and its commitment to providing quality education.

The college offers a variety of programs, including a four-year Doctor of Veterinary Medicine degree, as well as a variety of graduate programs. It is also home to the Michigan State University College of Veterinary Medicine Research Park, which is one of the largest veterinary research parks in the world.

The college is committed to providing a quality education and to preparing its graduates for successful careers in the field of veterinary medicine.

Petitioning set for radio board, members

Petitioning begins today for radio board chairman and members. The chairman and members are in charge of the radio station and are responsible for making decisions about the station.

The petitioning process is open to all members of the college, and anyone can participate. If you are interested in participating, you can contact the radio board or visit their website for more information.

Drobac shuffles his card; netters host Wildcats today

Drobac is not afraid of what time his team meets Wisconsin, no matter what time it is, he knows the league is a tough one. Drobac said today that he would not be afraid of Wisconsin, but he did say that Wisconsin is a tough opponent.

'S' bouncers aim high in trampoline world

The Michigan State gymnastics team, which is currently ranked third in the nation, is preparing for its first competition of the season against the University of Illinois. The team is coached by Bob McNally, who announced his retirement earlier this month. McNally is succeeded by Assistant Coach Tom Leonard, who has been with the program for five years.

How to take a course in anatomy and stay away in physics.

If you don't think you can give yourself an advantage in physics, you should really take some time to consider the possibilities. Start out by studying the fundamentals of the subject. Then, as you become more familiar with the material, you can move on to more advanced topics.

If you don't like to study and want to get ahead, try some of the following tips:

1. Study in the morning when you are most alert.
2. Take breaks as you study to keep your mind fresh.
3. Practice what you learn through exercises and problems.
4. Use flashcards to help you remember key concepts.
5. Review your notes regularly to reinforce your learning.

Contact lenses may be helpful in anatomy courses, but they are not necessary. If you have vision problems, consult a doctor to determine the best course of action.

The key man in Coach Don Miller's decision to switch his offensive tactics for the coming season is halfback and quarterback Bill Tripplet.

"We had to change him," Miller said. "I'm afraid of what is in store for the future if we don't change our offense."

Tripplet broke into the Spartan lineup last year against Minnesota. In that game against Butler, Tripplet had 128 yards rushing and 37 yards passing. In the game against Minnesota, he had 28 yards rushing and 94 yards passing.

"We think that Bill is going to be an outstanding quarter-

back," Miller said. "I've been talking to him about becoming quarterback in the country. He is the key to our offensive change."

In his first season Tripplet completed an impressive 1,482 yards in 1,065 attempts. He also had 128 yards rushing on 38 carries. His passing average was 20.7 yards per carry.

"I think we will have the best offense in the country," Miller said. "Bill is the key to our offensive change."

The Spartans will open the season against Washington (State) at 1:30 p.m. in the stadium. The Spartans will be without the services of fullback Frank Turner.

Tripplet broke into the Spartan lineup last year against Minnesota. In that game against Butler, Tripplet had 128 yards rushing and 37 yards passing. In the game against Minnesota, he had 28 yards rushing and 94 yards passing.

"We think that Bill is going to be an outstanding quarter-

back," Miller said. "I've been talking to him about becoming quarterback in the country. He is the key to our offensive change."

In his first season Tripplet completed an impressive 1,482 yards in 1,065 attempts. He also had 128 yards rushing on 38 carries. His passing average was 20.7 yards per carry.

"I think we will have the best offense in the country," Miller said. "Bill is the key to our offensive change."

The Spartans will open the season against Washington (State) at 1:30 p.m. in the stadium. The Spartans will be without the services of fullback Frank Turner.

Former mayor, councilman retires from public service

By MARK EICHEL
State News Editor, 
East Lansing Mayor Max Strother will resign Friday after more than 28 years of public service to the community. 

Strother said that among his greatest accomplishments were the initiation of a downtown parking plan, the approval of Specifications, the improvement of the public library and the central location of East Lansing High School.

The parking plan was initiated during Strother’s first year as councilman in 1971. The job is not yet complete, he said.

There have been continuous studies due to the fact that there are more automobiles every year,” he said.

During Strother’s tenure in East Lansing, a downtown area developed. “I didn’t do any of this alone,” Strother said. “It’s the council as a whole that did it.”

Despite the assistant parking chief for MSU, first came in East Lansing in 1949. After serving in the army, he bought a grocery and retail store at 225 Abbott Road, about where Jacksonville is today.

“We were the largest distributor of ice cream in the state,” Strother recalled. “I then became a district manager for seven years.”

Strother said he was one of the biggest change agents for MSU. “I was brought in by the former East Lansing Board of Education.”

The change in the future will be a gradual shift in the economic development of this area, Strother said.

“The students are the backbone of East Lansing and MSU is really its only industry,” Strother added.

He said he knows that in the city of East Lansing, there are more than 20 years of service to the East Lansing community. 

As a purchasing agent at MSU, he remains with the University for another year, he said.

Fraternity spring rush sees high pledge rate

Spring rush ordered over 200 pledges to the fraternity. The boxes, packed for inventory, will be sold to interested students. The boxes will be opened during the formal pledge period.

The number of rushes was more than expected, but many were turned away when interest declined under 125 people.

The new fraternity system is expected to meet the demands of many new organizations.

Illness forces replacement of string group

The Penn State String Quartet will be replaced at 120 people. The new quartet will be formed with the help of the String Quartet Association.

Tickets for the String Quartet Association will be available at 10 p.m. on Thursday, May 8, at the Penn State String Quartet Association.

Legislators in 25 states air controverisal abortion bills

By BILL CLARK

State News Staff Writer

Abortion legislation is being debated in legislatures across the country.

Among the most radical pro

abortion reforms advancing is a bill in North Carolina that would allow abortion to

take place up to the 24th week of pregnancy. In that state, a death penalty for women who perform an abortion is being considered.

The National Association for Re-

stricting Abortion (NARA) of America has estimated that 2,000 women die each year from illegal abortions. It has also estimated that 2,000 more women die annually from legal abortions.

Efforts to restrict abortion are being made in every state in the union. The result is a nationwide furor over the issue of abortion.
