Dissenters offer demands to state representatives

By JEFF SHELLER
State News Staff Writer

The political confrontation was set aside and dialogue was established Monday when seven young people presented a list of demands written during a seven-day's discussion in East Lansing to Gov. Miller's legal advisor and two state legislators. The demands included passage of legislation by the state legislature, on the matter of "political corruption," and support of the program of the Black Panther Party.

The list also called for enactment of legislation providing for an "unbiased" state legislature, an end to "unfair" state districting laws, a fair and equal distribution of the Governor's task force, etc.

"Most of the things they were talking about we were doing already or could do," Thibodeau said. "Like the Chicago country fair. That's the kind of thing we can do about.""
Pompidou for U.S. visit

WASHINGTON — French President Georges Pompidou arrived in the United States Monday for an eight-day, 15-city goodwill mission against a background of criticism for Paris' policy in the Middle East.

The arrival of Andrews Air Force Base in nearby Manassas was uneventful one and a half hours before the 8 a.m. flight into Dulles International Airport.

Pompidou was to spend the night at Camp David, President Nixon's summer retreat in the Maryland Mountains of Maryland, before making his formal entrance into the capital Tuesday.

The flight from Paris ended a 24-hour whirlwind tour of Europe that was designed to improve the image of the French government. The French group shifted to the United States to begin their goodwill tour.

Pompidou's trip is the second state visit to the U.S. by a French head of state in 1970. The previous visit was that of President Charles de Gaulle.

Mansfield expects veto on HEW bill

WASHINGTON (AP) - The Senate's top budget writer has predicted the Senate will accept a veto of the bill that President Nixon's budget director has written into the budget bill, reversing the trend toward more conservative legislation.

The Senate today voted 57-42 to override the president's veto of the bill, which would cut $2.5 billion from the budget. The Senate also voted 63-37 to override the president's veto of the bill, which would cut $2.5 billion from the budget.

The Senate's action is expected to allow the bill to become law without the president's signature.

The Senate's action on the bill is expected to be the first step in the process of passing a budget that will become law.

An all-volunteer army can become a reality

A Presidential commission, established by President Nixon to study the possibilities of creating an all-volunteer army, is making its findings. The recommendations of the commission are, however, likely to be ignored by Secretary of Defense Dr. James Schlesinger. The Secretary may decide that the cost of an all-volunteer force would be considerable higher than that of retaining the current all-volunteer army. Furthermore, there are doubts that the all-volunteer force would be able to carry out the missions assigned to it.

The most serious roadblock facing the all-volunteer army is Congressional approval. L. Menlo Park, Chairman of the Armed Services Committee, has been harshly critical of any all-volunteer force and has shown little support for carrying out an eventual legislative proposal. The evidence supports the practicability of an all-volunteer army. Not only would its establishment eradicate the moral issue existing during the Vietnam war, but it is believed that the effectiveness of the army might be greatly improved.

The chances for Congressional approval are not promising since a majority of the Congress might be opposed to an all-volunteer force. Nevertheless, the support could be enhanced if people begins to recognize the importance of such a force.

The support could be the deciding factor on this issue.

Make class a teach-in

After the student violence of last week, a student committee was organized to demonstrate nonviolent support for the "Conspiracy Ten" (the Chicago Eight plus William Kunstler and Leonard Weinglass). This Non-Violent Committee has released a flyer urging students to attend classes today and attend an A.S.M.U. rally in the morning.

A.S.M.U. is not involving itself in this protest since it was not involved in releasing the flyer and does not support a boycott of classes.

The Pop success

The A.S.M.U. Pop concert this year has an attendance of 20,000 and performances played to capacity audiences of over 10,000 fans. The pop success is being attributed to the high quality of the concerts and to the presence of well known pop artists.

Steve Flacht, chairman of Pop Entertainment and music critic, says "the concert has been a huge success. The crowd was enthusiastic and the performers were getting their money's worth. We expect to continue to have successful concerts in the future.

Aid stores

The A.S.M.U. has already helped many students by providing them with aid stores for the food and clothing they need. The students express their appreciation by donating their time to help out with the aid stores.

Thank you for your support!

The Editors

Destruction unfair to stores

The article that appeared in today's paper was a fair representation of the situation. The destruction of property by the demonstrators is unfair to the stores.

While the stores are victimized, it is only fair to note that the demonstrators are also victims of the system. The system is not designed to provide equal opportunities for all.

Unfortunately, the situation is not going to improve any time soon. The tension is increasing and it is hard to see how it can end.

The Editors

U.S. built and upon store violence

I want to express my belief in the inevitability of the system and the necessity of the revolution. The system is not working and it must be destroyed.

I am not sure that the revolution will happen, but I believe that it is the only way to achieve genuine revolution.

The Editors

Playing children's games

Once again, a few hooligans have managed to provoke a serious incident. The attempt to blame the protesters is unfounded.

The protest was a legitimate and necessary response to the government's actions.

Apollo film presented

A one-half hour NASA film showing the landing of man on the moon and the first lunar walk was shown Wednesday evening at the Makers' Drive-In. The film, "EAGLE Has LANDED: The Flight of Apollo 11," documents the Apollo 11 mission and the historic landing of man on the moon.

The film is intended to give the viewer an overview of the events as participants in the Apollo 11 mission. Still photographs, television pictures, and voice recordings are used to present the highlights of the journey. The footage is comprised of scenes described in the narrative.

SKI BUM SPECIAL at the Gables TONIGHT

To see John Mayall is to believe John Mayall

The 5th Dimension performed at the Makers' Drive-In, casting a spell on the audience with their harmonious music. The group proved to be a hit, captivating the audience with their soulful voices and harmonies for which they are known. After a rousing performance, they were lauded "Up, Up, and Away" with a hearty round of applause.

The program included their hit song "The Love You Make," which resonated with the crowd. The audience was eager to sing along with the group's other hits, "Baby's Praying," and "Mister Blue." The performance ended with a rousing rendition of "Eagle in Blue," the group's encore, leaving the audience with a memorable experience.

The 5th Dimension is a vocal group known for their harmonious blend of voices, creating a unique sound that has captured audiences' hearts for years. Their evident talent and passion for music are evident in every performance, leaving attendees in awe of their musical prowess and connection with their audience.

Natural Resources names Tanner head

Howard A. Tanner, director of the Division of Natural Resources, has been named president of the Michigan Natural Resources Commission.

Tanner was elected to the Council's top office during the spring annual meeting held recently in Muskegon. The Michigan Natural Resources Commission consists of five members.

The Council includes 65 Michigan associations, and it provides a public forum for current conservation issues.

**SPARTAN CAGERS HOST ILLINOIS TONIGHT**

By MIKE MANLEY

State News Sports Writer

Still standing perfectly upright to the Big Ten tournament, MSU's basketball team goes after second straight with home tonight when the Spartans host Illinois at 9 p.m.

Coach Gene Kranz's squad already has shootout awesomes going against tough teams Saturday night with a 7-30 win over Illinois, but the Spartans are still only one game ahead of the Bowd streets and Northwesterns.

"We're playing to stay out of the narrow lane," said Kranz at his weekly luncheon. "We can't

New Camaro.

Feb. 26th.

We've never announced a car at this time before.

But then nobody's ever announced a car like this before.

Super Hugger

If it were an ordinary sprout, we'd have intro-

duced it at the ordinary time.

Instead, we took the time to build a whole new

Camaro.

We started with a sleek new shape and a low-

racing stance.

And added more hood. A faster fastback. Wider
doors. And new deeply sculpted bucket seats.

You may see it carving through the traffic on
time for transmission. And six power plants

up to the Turbojet 38 V8 that we can offer.

Pick the one that best suits your driving. Then go

pick on an open road.

And make it one with plenty of twisting turns.

Because Camaro has a remarkable steering.

And standard front disc brakes for a leech-like grip

on the road.

New Camaro. The Super Hugger.

Other sportsters try to catch up, but it might come to this.

And they were right. Only their timing

was wrong.

Putting you first, keeps you first.

See it. At your

Room aids racial empathy

By DENISE MACOURT

The opening of Holden Hall's Black Culture Room is only the first step in the beginning of a patterned effort to reach that understanding, President William A. Beaumont said.

"The Educators for the Preservation of the Holden culture, William, said there was bias in the white community recognizing black culture and the immediate contributions which blacks have made to this society.

"The first step in reducing the polarization between blacks and whites must come through greater understanding of each other and especially through understanding of black culture, black history and black pride."

"Such a程序 will enable the greater dialogue in the black community for selecting their full privileges in society.

Home Economics Dept. accepts program changes

By SUSAN BILENK
State News Staff Writer

Program changes approved following a meeting of the faculty of the College of Home Economics and the American Home Economics Association faculty of Michigan State University, and the formal awarding of the second-year accreditation for the Michigan State University Home Economics Dept.

The proposal committee, consisting of the chairman of the department, two faculty members and the dean of the College of Home Economics, recommended changes to the program in order to better meet the needs of students and keep the program current with the latest advancements in the field.

The changes approved included revisions to the coursework, adding new courses and deleting outdated ones. The program now includes more courses in areas such as nutrition, food science, and consumer behavior, while reducing the emphasis on traditional home economics topics. These changes are expected to make the program more appealing to a wider range of students.

The American Home Economics Association faculty of Michigan State University also approved the changes, which will take effect in the fall semester this year. The changes are the result of a collaborative effort between the faculty members and the American Home Economics Association faculty, and are intended to ensure that the program remains relevant and competitive.

For more information about the program changes, please visit the Michigan State University Home Economics Dept. website or contact Susan Bilenk, State News Staff Writer at (517) 335-2227.

Advisers confront academic problems

By NORRIS R. MCDONELL

His student problem is one small or great for the administrator himself. His is to see that every student at University College is given the best possible academic advice.

"Academic advisement in the U.S. is highly experimental," he said. "The system is not perfect. But I think it is improving, and it's working."

Many students could be helped if they visited the University College's counseling center. "The counseling is given by academic advisors," he said. "They can help students with academic red tape too.

One of the main goals of the counseling center is to teach students methods for dealing with academic problems. "If you have difficulty with a professor, you can talk to the advisor," he said. "Or if you have a problem with your major, you can talk to the advisor."

Any student is welcome with any problem, be it academic or personal. "Sometimes students are referred to us for help in the personal problem, for example," he said. "And sometimes we refer students to other people for help.

To make the counseling work, the advisor needs to know the student. "We have to be in touch with the students," he said. "We have to know their problems.

We have to know their strengths and weaknesses. We have to know what they can do and what they can't do."

We have to have a clear understanding of the student's background. "We have to know the student's academic background," he said. "We have to know what they have done in the past."

We have to have a clear understanding of the student's goals. "We have to know what the student wants to do," he said. "We have to know what they want to achieve.

We have to have a clear understanding of the student's problems. "We have to know what the student is facing," he said. "We have to know what they are dealing with.

We have to have a clear understanding of the student's potential. "We have to know what the student is capable of," he said. "We have to know what they can do.

We have to have a clear understanding of the student's future. "We have to know what the student wants to do in the future," he said. "We have to know what they want to achieve in the future.

We have to have a clear understanding of the student's past. "We have to know what the student has done in the past," he said. "We have to know what they have done.

We have to have a clear understanding of the student's present. "We have to know what the student is doing now," he said. "We have to know what they are doing now.

We have to have a clear understanding of the student's situation. "We have to know what the student is facing now," he said. "We have to know what they are dealing with now.

We have to have a clear understanding of the student's options. "We have to know what the student can do," he said. "We have to know what they can choose.

We have to have a clear understanding of the student's choices. "We have to know what the student chooses," he said. "We have to know what they choose.

We have to have a clear understanding of the student's plans. "We have to know what the student plans to do," he said. "We have to know what they plan to do.

We have to have a clear understanding of the student's goals. "We have to know what the student wants to achieve," he said. "We have to know what they want to achieve.

We have to have a clear understanding of the student's problems. "We have to know what the student is facing," he said. "We have to know what they are dealing with.

We have to have a clear understanding of the student's potential. "We have to know what the student is capable of," he said. "We have to know what they can do.
