Students watch Council okay
9 McKee recommendations

By DELORIS MAJOR
Chicago State News Writer

Almost 100 students stood at last call at the Student Senate meeting Wednesday afternoon to hear the altitudes and recommendations of 10 candidates for student representatives in the university's new student government.

Mrs. Nixon skips 'U' to go where action is

By ED HUTCHISON
Association Campus Editor

Mrs. Richard M. Nixon, a member of the M-16 committee investigating the recent student protest in Berkeley, Calif., has announced that she would like to continue her political career if she is called to meet the students challenge.

Mrs. Nixon's decision to run against Richard M. Nixon, a member of the M-16 committee investigating the recent student protest in Berkeley, Calif., has averted the possibility of a succession to the presidency that could have occurred if the vice president had been called to meet the students challenge.

U of 1 bans Kunstler talk; 750 guardsmen on alert

CHAMPAIGN, Ill. (AP) - Gov. Richard B. Oglesby closed U of 1 campus Wednesday night after hundreds of students and guardsmen blocked the main entrance with a huge mobile vehicle to protest the appearance of Richard B. Oglesby, the governor of Illinois, at a public forum sponsored by the University of Illinois Student Senate.

A spokesman for the Governor's Office said that Oglesby was speaking at the forum to discuss the state's financial crisis and to answer questions from the students.

The guardsmen were deployed to ensure the safety of the event and to prevent any disturbances.

NIXON TO CONGRESS
Reform, not expansion of education aid planned

WASHINGTON (AP) - President Nixon announced today that his administration had decided to request the Congress for a limited, temporary expansion of education aid to the states and to Congress. The President made the announcement in a letter to the Speaker of the House and the President pro tempore of the Senate.

In his letter, the President said: "I have decided that the current education aid program should be expanded in order to help the states meet their growing educational needs." The program would provide $500 million in additional funds to the states for educational purposes, and would be available for a period of six months, beginning July 1, 1970.

The President also said that he would ask the Congress for authorization to establish a new program of education aid to private institutions, which would provide $50 million in additional funds to private schools.

Mrs. Nixon said that she would continue to support the administration's Education Program, and that she would work with Congress to ensure that the program is expanded in a way that is consistent with the President's goals.

U.S. involvement in Laos

WASHINGTON (AP) - Sen. J. William H. Fulbright and Sen. Ted Kennedy Wednesday introduced a Senate resolution which would demand an immediate withdrawal of all U.S. forces from Laos, saying it was the "least that could be done to halt our participation in this war.

The resolution, if passed, would force President Nixon to withdraw American forces from Laos, and could lead to a根本的转变 in America's role in the war.

Two trustees speak against CUA probe

By BARBARA FARNES
State News Staff Writer

Two trustees Thursday questioned the appropriateness of the investigation of the Center for Urban Affairs (CUA) being conducted by trustee Charles W. Day, Jr., and a third trustee, Henry S. Aiken, who resigned from the board earlier this year.

Trustee Samuel F. Mosher, a member of the board, said that he believed the investigation was not necessary and that it was being conducted for political reasons.

"I believe that the investigation is being conducted for political reasons only," Mosher said. "I do not believe that the CUA is a threat to our university, and I believe that the trustees should not be conducting such an investigation.

"I have received numerous letters from students and faculty members who are concerned about the investigation, and I believe that the investigation is not necessary.

"I believe that the investigation is being conducted for political reasons only," Mosher said. "I do not believe that the CUA is a threat to our university, and I believe that the trustees should not be conducting such an investigation.

Kellogg: pollution aid needs people, cash

By DELORES MAJOR
State News Staff Writer

More money, more concern for pollution and more regulations are needed to curb pollution, James C. Kellogg, executive assistant to Governor Milliken, said Tuesday at the Faculty Club luncheon.

"This problem is being brought to the attention of the public more and more...there is a need for the public to be involved in the problem," Kellogg said.

The governor has called for a series of programs to deal with the problems of land, water and air pollution.

Kellogg said that Michigan's major pollution problem is water pollution because of the Great Lakes.

Kellogg also said, "the state government must have some sort of law in order to get tax monies."

Censorship antithetical to academic community

Suppression has never been an adequate answer to unpalatable or erroneous views. Just as books that are burned usually become unburnable, and Just as the horror of those books become portrayed by history. What happened in the United States in the 1950s in terms of McCarthyism is an example. But there are cases, such as the current situation in Vietnam, when censorship of any kind, regardless of motives, has resulted in a serious danger, not only to the Vietnamese but especially on a college campus. The Americanization movement is a logical and consistent view of the world. If, under such a set of circumstances, a popular mind does not buy a political point of view and either the position was not presented appropriately or it was not relevant.

We feel that the students of today are more competent to make up their own minds, in this case perhaps not without some self-appointed hardships. We feel that the actions of those people who closed down the theaters against the war were neither constructive nor consistent with the free flow of ideas.

The Editors, Dissent: Jeanne Suddread

The U.S. role in Laos: the next Vietnam?

In Washington D.C., Secretary of Defense McNamara has claimed that U.S. military actions in Laos are part of a "defensive strategy" against North Vietnamese troops and President Nixon has both announced and demonstrated his commitment to the use of both strategic and tactical air power in Laos. While the U.S. has not yet announced a commitment of military units to Laos, it is clear that the U.S. government intends to send combat troops to Laos.

In Vietnam, Premier Souvanna Phouma of Laos has called for a re-examination of the Geneva Conference and has followed the integrity and neutrality of this small but war-torn country. Thus, the Government in Austria, the North Vietnamese and the U.S. Government continue to send troops to Laos.

Among the many important people who have visited Laos, such as Matthew, Maresfield and Syntingon, have expressed their most important that the Nixon Administration is involved in Laos has had a significant impact on the military activity that this Government is supporting in Laos. They have also attempted to alter the American public to our relations with our own Internal Affairs and those who have been doing Laos.

Although the doors of Congress are a welcome site, it is not nearly enough. The war in Laos is not directly related to the American scene. It is an international war, and the American public must be interested in what is happening in Laos and our experience of the war in Laos.

Hanoi, at present, is playing its role as a U.S. base. The central aim of the war - to be the U.S. military activity in Laos - is a violation of the United Nations and a threat to the integrity of Laos. Hanoi and the U.S. Government are to withdraw military personnel from Laos before that country becomes the next Vietnam.

The pattern in Laos is unmistakably similar to the U.S. role in Vietnam - advisors, CIA and ARVN agents involved in the war, significant military forces, a full-scale psychological warfare effort. To make Vietnamization truly meaningful, the U.S. forces must begin Laosization as well.

'Twister' recalls old rock

In the eighties, a new fad hit the country with 'Rock 'n' Roll' and "Rock Around the Clock". This "rock mold" has undergone a metamorphosis that has seen songs, styles, trends and fads come and go.

From simplicity to complexity, rock has seen its share of changes. From the "Boys" and "Girls" of the 50's, to the "Youth" and "Teenagers" of the 60's, the music has continued to evolve.

The "swell" days of the 70's have been replaced by the All-Seeing Eyeballs of the 80's. The current trend today is the "80's favor".

The industry has seen its share of changes as well. From the "record label" to the "promotion firm", the music business has undergone a metamorphosis.

For example, the "record label" has become the "promotion firm". From "sell more than one record" to "sell more than one album".

The trend is clear: from simplicity to complexity, from the "Boy" to the "Man".

The changes have not been limited to the music industry. The fashion industry has also seen a shift. From "simple" to "complex", the clothes have undergone a transformation.

The "rock mold" has become the "80's favor". From the "Boys" to the "Man", the changes have been dramatic.

The music industry is a reflection of the times we live in. From simplicity to complexity, the music we listen to today is a reflection of our changing society.

Prof views fear as cause of homosexuality

By PAULA MAYE State News Staff Writer

Until recently homosexuality was an acceptable concept, but at present it is not. Professor of sociology, Zerby, says that Negroes are not comfortable with homosexuality as a concept.

"Homosexuals may identify with an unpopular social attribute," he said, "but I feel that the student, if he identifies with what may be as an unpopular social concept, must adopt the role of the group members and society as a whole.

The Negro society is not the same as society in general. Negroes are more tolerant of homosexuality than society as a whole. But there are still some Negroes who feel that homosexuality is a sin.

The Negro society is not tolerant of homosexuality. The concept of homosexuality is not acceptable to Negro society.

In the Negro community, the term homosexual is not used, and there are not very many examples of this type of relationship in the Negro community.

There is a great deal of fear and fearfulness about homosexuality. The fear of being labeled a homosexual is so great that many Negros are afraid to identify themselves as homosexuals.

In the Negro community, the fear of being labeled a homosexual is so great that many Negros are afraid to identify themselves as homosexuals. It is a problem that the Negro community has not been able to overcome.

The fear of being labeled a homosexual is so great that many Negros are afraid to identify themselves as homosexuals. It is a problem that the Negro community has not been able to overcome. The Negro community is not comfortable with homosexuality as a concept.
**Freitag views US space plans**

"The next human landing is scheduled for April 11 and we will continue at a rate of about two a year for the next two or three years. Then we will stop for a couple of years and concentrate on manned space activities in each orbit."

---

**NASA director speaks**

Robert Freitag, director of Marshall Space Flight Center, said that NASA will emphasize development of reusable vehicles to reduce the cost of flights.

"We're still committed to the same goals that we were in the past," Freitag said. "We're still committed to the goal of human exploration of space."
indians comprise smallest 'u' group

by estella chambers

(the minority and ethnic groups at the university are probably the largest, and the diversity of the student body is reflected in the number of different cultures that exist on campus. a student at msu is exposed to many different cultures in their studies and in their everyday lives. these experiences can enrich a student's life and help them to develop a greater understanding of the world. the diversity of the student body makes msu a unique and special place.)

there are 33 undergraduate and 12 graduate students of american indian origin currently enrolled at msu, according to the university's diversity report for 1988 and 1989.

there are only 92 of the 180,000 americans of native american descent enrolled in majors in the fields of business, engineering, science, and law at msu, according to the president's report on diversity.

virgil townsend helps students find lost articles

by randy smith

anyone who has ever lost something knows how difficult it is to find it again. lost items are a common occurrence, and the process of searching for and recovering lost items can be frustrating and time-consuming. however, virgil townsend helps students find lost articles through his role as a police officer at msu.

these tips are aimed at making the search for lost items easier and more efficient. by following these tips, you can increase your chances of finding your lost items and reducing the stress and frustration that come with searching for lost items.

four elected to posts in 'u' credit union

the annual meeting of the msu employees credit union, held on february 3 in the auditorium, was attended by 250 people.

the election results were as follows:

- donald williams, president
- janet johnson, vice-president
- bill marcus, treasurer
- sue cook, secretary

these officers will serve one-year terms and will be responsible for managing the credit union's finances and overseeing its operations.

religious significance

turban weavers -- they're sikhs

the question parikh asked most often was: why do you weave a turban? although there is no direct way to know what thoughts the sikh weavers actually have, the question does provide a deep religious significance for the turban.

parikh explained that the turban serves to unify the nation, to protect the wearer, and to express the wearer's identity. the turban is a symbol of the sikh community and a way to manifest the sikh identity.

Spartans drop 101-98 thriller to Boilermakers

BY MIKE MANLEY
State News Sports Writer

It's probably a good thing the last home game of the season - Tuesday night's performance would be excellent.

Fighting from behind late in the second half, Purdue, behind the clutch shooting of Rick Mercer and Larry Weatherford, became the first team to top 100 in the Breslin Center this season. 

 Mercer's five-game streak as Purdue's highest scorer ended when he was held to 9 points.
Spartans solid favorite for wrestling title

BY GARY WALKER
Crack Express Published

Overall balance is the key aspect in matches that comprise the meet, but Michigan State will still have to prove it against the PSU tight title in the intercollegiate meet against Bob Jones on Saturday. The University of Wisconsin is the host for this 1969 match, and the brains behind the scenes are believed to show the best of their athletes on the mat.

The Michigan State team has been reinforced by the addition of the son of a former state champion, John Jensen, who has shown promise in his recent matches. Jensen is expected to provide an exciting and difficult challenge for his opponents in the individual matches.

Big 10 meet next for g-men

BY JOHN VIERS
Sports Editor

Michigan State's gymnastics team is in a position to be an important meet this weekend in the Big Ten Conference meet. The meet will be held in Ann Arbor and will feature all of the conference schools.

The meet is important for several reasons. First, Michigan State will be looking to improve its position in the conference standings. Second, the meet provides an opportunity for the Spartans to gain valuable experience in preparation for the NCAA Championships. Third, Michigan State has several talented gymnasts who could make an impact in the meet.

Spartan swimmers prepare for Big Ten Championships

BY JOHN MADON
Sports Writer

Michigan State is preparing for the Big Ten swimming championships, which will take place in Chicago, Illinois. The Spartans have a strong team and are expected to perform well at the championships.

The Michigan State swimming team includes several talented swimmers, including John Jensen, who is a key member of the team. Jensen is expected to perform well in the individual events.

The meets for the conference and 6-1 cold are expected to be exciting and competitive. Michigan State has a strong team and is expected to challenge for victory in both events.

For more information on the meet, contact Coach Bob Jones. He can be reached at the University of Wisconsin-Platteville, 1000 South Campus Drive.

The Michigan State swimming team is looking forward to the challenge of the Big Ten Championships and is preparing to give it their best effort.
