**HITS PIGEON LAB**

**Molotov cocktail causes $1,700 fire at Olds Hall**

By PAUL HANSON

State News Staff Writer

A long suspected attempt at pigeon killing or causing an accident at the Michigan State University Police Station on Wednesday afternoon failed after the pigeon was in the air and was then blown through a plate glass window.

The pigeon, which had beenaging for a pigeon keeping lab for Psychology 311 and 312, was shattered by the blast.

The pigeon, which had been making the station a favorite target for its feeding behavior, was later found to be alive but not moving. It was placed on a gurney and transported to the Michigan State General Hospital, where it was pronounced dead.

**Policy change combats discrimination of sexes**

By BARBARA PARRIS

State News Staff Writer

President Wharton announced Wednesday a change in the University's policy for married students taking medication on campus.

The new policy, which was announced at a press conference at the Michigan State General Hospital, takes effect immediately.

Under the old policy, married students were required to live off-campus if they were taking medication. Under the new policy, married students are allowed to live on-campus if they are taking medication for a medical condition.

**Petitioning**

Calling union votes Friday for district vocational school and union elections. All petitions must be filed with the city clerk. All petitions must be filed before the close of school on Monday. No petitions will be accepted after school on Friday.

**Vote-at-18 plan survives unabating attempt in Senate**

WASHINGTON (AP) — Democratic Rep. John Brademas of Indiana, a major sponsor of a bill to lower the age to 18 for voting, is reported to have lost another key supporter in the Senate. A statement from the Senate said that the bill would be defeated on a vote of 69 to 46 on Saturday evening.

The bill was introduced in April, but has faced strong opposition from both parties. The Democratic leadership is reportedly considering a compromise that would lower the voting age to 17.

**Student questions brother's death in Laos**

By KEVIN SULLIVAN

Editorial Writer

The student newspaper editorial writer, who has been struck by a severe beating, said he was not sure whether he would be able to return to school.

The student was a major in the Air Force Reserve and had been overseas for several months. He was reported missing in action in Vietnam last month.

In an article for the Los Angeles Times, the student, who was killed in action in Laos last month, wrote about the Pentagon's version of the events and in an interview with the student's father.

The student was killed in action in Laos, the student's father said.

CONSERVATIVE PATH

WASHINGTON D.C. — The president, after a meeting with his own advisers, has decided to allow his administration to continue with its plans for a nuclear test ban treaty with China.

The president said that he had been advised by his own experts that the treaty would not only benefit the United States but also be in the best interests of the global community.

The president added that he had also been told by his foreign policy team that the treaty was necessary to prevent a nuclear arms race.

The president said that he believed that the United States had a moral obligation to lead the world in non-proliferation efforts and that the treaty was a step in that direction.

The president also emphasized that the treaty would not detract from the United States' commitment to national security and that it would enhance the country's credibility around the world.

The president said that he hoped that the treaty would be signed soon, but he acknowledged that there were still some challenges to overcome.

The president concluded that he was confident that the treaty would ultimately be a success and that it would be a major step forward in the global effort to prevent nuclear proliferation.

The president said, “I believe that this treaty is the right thing to do and I am confident that it will be successful.”
**ASMSU OKs legal aid proposal**

By JOHN BORGER

State Student News Staff Writer

A student-based proposal for legal aid for students who have been suspended by the ASMSU and not nearly be denied the benefit of legal aid was unanimously approved by the ASMSU Senate on Thursday.

The policy guidelines stemming from a resolution last week are needed for the legal aid fund to be raised in the first place. The policy states: "The Senate shall request funds to obtain lawyers who may have more than one (1) student involved in the resolution meeting." The Senate may be denied the benefit of legal aid if more than one student is involved in the resolution meeting. The Senate shall request funds to obtain lawyers who may have more than one (1) student involved in the resolution meeting. The Senate may be denied the benefit of legal aid if more than one student is involved in the resolution meeting.

The Senate shall request funds to obtain lawyers who may have more than one (1) student involved in the resolution meeting. The Senate may be denied the benefit of legal aid if more than one student is involved in the resolution meeting. However, it was pointed out that the Senate did not want to support the resolution because of a lack of representation of student organizations, and if the percentage of students would be on the Senate, the Senate would not support the resolution.

At present, ASMSU members are not required to pay a $5.00 per year fee to support the legal aid program. The Senate would propose a new student fee of $5.00 per year to support the legal aid program. The Senate would propose a new student fee of $5.00 per year to support the legal aid program.

The tax proposal is still on the drawing table. The Senate did not support the proposal, and it is unlikely that the Senate will support the proposal.

The Senate did not support the proposal, and it is unlikely that the Senate will support the proposal.

Legislators introduce tax bill into Michigan Senate

By LARRY LEW

State News Staff Writer

A $3.2 billion school aid package proposed by the House of Representatives includes an education tax on businesses and individuals. This tax proposal would be implemented by the state's Department of Revenue. The package is designed to raise $3.2 billion in new revenue for education purposes.

The package includes a sales tax on services, which would be effective for the fiscal year beginning July 1, 1970. The sales tax rate would be 4%. The package also includes a property tax on personal property, which would be effective for the fiscal year beginning July 1, 1970. The property tax rate would be 2%.

The package would also include a new tax on corporations, which would be effective for the fiscal year beginning July 1, 1970. The corporate tax rate would be 6%.

The package would also include a new tax on professional services, which would be effective for the fiscal year beginning July 1, 1970. The professional services tax rate would be 4%.

The package would also include a new tax on personal property, which would be effective for the fiscal year beginning July 1, 1970. The personal property tax rate would be 2%.

The package would also include a new tax on sales, which would be effective for the fiscal year beginning July 1, 1970. The sales tax rate would be 4%.

The package would also include a new tax on wages, which would be effective for the fiscal year beginning July 1, 1970. The wage tax rate would be 2%.

The package would also include a new tax on income, which would be effective for the fiscal year beginning July 1, 1970. The income tax rate would be 4%.

The package would also include a new tax on property, which would be effective for the fiscal year beginning July 1, 1970. The property tax rate would be 2%.
Legislature off the track on Australian bet story

Australia is actually a very nice place this time of the year. It's summer down under and the beaches around Sydney are supposed to be gorgeous. In fact, quite a few facts have been lost on the push to make the Michigan legislature.

Some time ago it was suggested that the state's losing money could be lost due to a lack of political will on the part of the government to pay off the debt. This idea was necessary because a consideration could not be made on how much money the legislature should apply to Michigan.

This, we feel, is rather suspect. In the area, where the legislature's the state needs to understand many to the people of Michigan want their legislature to be the people of Michigan need to have at least one state legislature. Why not? It is better for the Michigan legislature.

Haircuts for the jailing: 'turning-on' our elders?

It's about time students and the population at-large took Jerry Rafter's opinion that hair and dope are on trial more seriously. The latest polling shows that it is in the interest of the students to give elected to students eight recent sentences.

A sheriff and two deputies decided to give the students arrested extremely haircuts,Stmts, if not all of them, look bad after half of their locks were shaved. The eight have just joined the U.S. District Court for $100,000 in damages for what they believe is an unconstitutional use of authority.

The act by "law enforcement" is by means an unlimited issue. Just two weeks ago, the Chicago seven were given haircuts and ashes as they remained in jail while their lawyers continued toFree them on time. For those overexcising trimmings, the Cook County Board of Supervisors was to a Republican gathering that Republicans can get things done. (Perhaps, the good sheriff is merely someone who can get things done. Republicans are only proficient at getting nothing.)

The great coming together

Editorial: The great coming together

Add this great fan VERY to ecology to the story: "The great coming together" is a powerful message that should be heard. The message is a call to action, one that we all need to hear. It is a call to unite, to work together to create a world that is more sustainable and just. The message is clear: we must come together if we want to create a world that is more sustainable and just.

In Africa

Company loans to blacks

By BARRIE C. YOUNG

The president of TAP International Funding, Inc., a black-owned business, said that his company provides capital for African-Americans who want to start or operate small businesses.

The firm, which was started by students from Wharton School of Business in Africa, is an affiliate of a similar company in the United States. The firm provides loans to businesses in those countries.

The company is currently active in 15 countries.

The problem confronting black-owned businesses is that they must have a 5 percent down payment to qualify for the loans.

The company, which has been in business for four years, said that it is looking to expand into other countries.

The company recently closed a $10,000 loan to a black-owned business in South Africa.

The company is also active in Kenya, Nigeria, and South Africa.

Better Grades for Busy People

By KATHY MORAN

The board of trustees for the University of Michigan recently approved a new program for African-American students.

The program, which will be offered for the first time next semester, will focus on improving the grades of students who are under-performing.

The program will offer tutoring, study skills workshops, and other support services.

The program is expected to help improve the academic performance of African-American students.

Resources Day set on pollution

A program on environmental quality will be presented on Natural Resources Day Thursday, March 26, during Farmer's Week at MSU.

Sponsored by the Dept. of Fisheries and Wildlife, Forestry, and the Institute of Water Research, the program will begin with a film produced by "Our World to Whom It Belongs." University professors will deliver lectures throughout the day. The final event will be a demonstration entitled "In Search of Your Own Water," presented by U-SGL, the Student Environmental Quality Council.

You mean "the real" Rembrandt?

By ROSANNE BAINE

State News Staff Writer

A letter going from East Lansing to Grand Rapids will set the mail up at the airport. However, if the plane is grounded for any extended time period, actual is taken off the planes and.reducer out the diagonaling land transportation. This is causing serious problems, including with the population below a chief topic at all those people losing money and extra work." In East Lansing, the problem is compounded by the University community and its expansion. Krider estimated that over half of the MU-related mail going to the campus delivery point is going to students living off campus. For KRIDER, the use of off-campus MU-related mail station existing to two of the campus stations. Krider said setting up on MU mail at the main station will be the best solution. Krider said the mail station is still under the University's control, as it is supposed to be the place to "turn in" mail to the idea, he said. With a "no problem" for higher wages-

**Battle for equal rights continues for women**

By SHIRLEY JOHNSON
State News Staff Writer

Over the last quarter century, the number of women in the country has grown from two to nearly six million. In 1950, there were 197,000 female students enrolled in colleges and universities; by 1970, the number had grown to 5,200,000, or nearly one in four college students.

The college population has been increasing steadily for the last two decades, and the deficit of the number of women is expected to continue through the next century. Women have been entering the area of science and technology at a rapid rate, and their representation in the workforce has also increased.

**OFF-CAMPUS POLICY**

"U" housing issue favored

By DONNA WILLIAMS
State News Staff Writer

Staff and student opinions on off-campus student housing are being solicited by the university. The University of Michigan is in the process of determining whether to continue the current policy or change it. The current policy is that students must live on campus for the first two years of college or for the duration of their major.

The new policy is being considered in order to address the needs of students who wish to live off-campus. The university is looking at various options, including increasing the number of off-campus housing opportunities.

Spartan cage future looks bright

By MIKE MANLEY
State News Sports Writer

While the season-long record of MSU's basketball team wasn't as good as some had hoped, Coach Kenneth Puppet has reason to be optimistic about the future. The Spartans are relatively young, and several key players are returning next season.

The team lost three seniors after last season's ACC regular-season championship and NCAA Tournament appearance, but Puppet feels the team has a good foundation for the future. The Spartans have a strong defense, solid inside play, and a young, talented team.

The team's最大优点 is its defense, which Puppet feels will be even better next season. The team's scoring average was 569 per game, and the team allowed 578.8 points per game. The team also had a strong inside presence with senior center Jason Cook and junior forward Chris Tucker.

Puppet is also excited about the team's young talent. The team has several highly rated recruits, including freshman forward Malik McDowell and junior guard Cassius Winston.

The team also has a strong bench, with several players who can contribute off the bench. The team has a good mix of experienced players and young talent, and Puppet feels the team has a bright future.

The team has some weaknesses, however, including a lack of inside presence and a lack of experience on the perimeter. The team will need to work on these areas to be competitive next season.

Overall, Puppet feels the team has a good foundation for the future. The team has a solid defense, strong inside play, and several talented young players. The team has a bright future in the ACC and NCAA tournaments.
Munn sees strengths, problems at MSU

The Michigan State University basketball team has a new coach in Don Kennedy, who has taken over from Lou Henson. Kennedy is known for his offensive-minded style and has a strong, experienced team. The team's strengths include a balanced scoring attack, with several players capable of scoring in double digits. However, the team also faces some challenges, such as a lack of depth and experience at some positions.

ATTITUDE, NOT ALTITUDE key for Denver players

By BOB OLSON

Denver's offensive-minded style has worked well for the team, but coach Don Kennedy believes that the key to success is maintaining a positive attitude. He has been emphasizing the importance of teamwork and communication, and the team has responded well. The players are focused on the next game, regardless of their opponents' records, and are striving to improve each day.
