Gov. charges outsiders in U-M strike violence

Michigan State University
East Lansing, Michigan
April 1, 1970

Gov. William G. Milliken charged yesterday that "a number of unidentified, mostly white outside agitators," have been attempting to provoke violence at the University of Michigan, to which end they had guaranteed the release of the strike leaders. "This has been a gross violation of the law," Milliken announced yesterday.

The strike leaders were arrested after a demonstration of several thousand students was ended in police action.

A Michigan State University spokesman said the leaders of the Michigan State University Student Association had been released on bond pending further action by the Michigan Department of Justice.

**HIGH COURT RULING**

Unruly defendants removable from trial

WASHINGTON (AP) — The Supreme Court today ruled that an unruly defendant in a trial can be removed from the courtroom, if the judge believes it necessary.

The court's 5-4 decision came in the case of a man accused of murder in a New York City courtroom.

The defendant, who had been in court for several hours, had become disruptive and refused to answer questions.

The court ruled that the judge has the power to remove such a defendant if the situation becomes too difficult to handle.

**SAFETY**

Student leftists order jetliner to North Korea

Washington, D.C.

A group of student demonstrators at the University of Michigan yesterday ordered a jetliner to North Korea, the spokesperson said.

The demonstration was one of several in recent days, including one at the University of Michigan, where students also demanded the opening of negotiations with the North Koreans.

The demonstration was in response to the North Korean government's decision to close its embassy in Washington, D.C.

The jetliner, a Boeing 747, was scheduled to leave today for North Korea.

The spokesperson said the students hoped to establish a link between the students and the North Korean government.

They also hoped to establish a link with the United Nations, which has been unsuccessful in its efforts to reach a peaceful solution.

**ANOTHER HIJACK**

Leftist students arrested with Japanese samurai swords

Tokyo, Japan

Leftist students were arrested yesterday in a demonstration at the University of Tokyo, the police said.

The students were protesting against the Japanese government's support of the United States in the Vietnam War.

They were carrying Japanese swords and other weapons, the police said.

The students were later released on bail.

Levin joins governor race:
Milliken's still on sidelines

By LARRY LEE
State News Staff Writer

Gov. Milliken promised Tuesday a "joyous" governor's race following the announced candidacy of Sen. Sandra Levin, D-Detroit.

Levin's announcement Monday brought the number of declared democratic candidates to three.

New contract eyed by trucking industry

WASHINGTON (AP) — The trucking industry, pressuring for a new nationwide union contract before the Tuesday midnight deadline, reportedly raised its $1-per-hour offer to take wage and fringe benefits for $2.50 million.

The amount of the higher offer and the response of Transportation Union negotiators was not immediately known, but the union admitted failure to reach a new contract by Tuesday deadline was "unique." The nationwide union settlement was not immediately known, but the union said it did not sign.

Union representatives said they were "not satisfied" with the transportation industry.

McELROY SPEECH

Science must aid environment

Distinguished colleagues

Four outstanding scholars were awarded honorary degrees at MSU’s winter term commencement. They are (left to right): Walter T. McCrone, professor emeritus of analytical chemistry and physics, honors the MSU; William McElroy, director of the National Science Foundation; Frank F. Buxton, chairman of the University of California; and Charles R. Cane, professor emeritus of history at Johns Hopkins University.

Miss M. Hulse, chancellor of the University of California at Davis; Milton H. Winant, Jr., and Frederick C. Lame, professor emeritus of history at Johns Hopkins University.

MCELROY SPEECH

Science must aid environment

"Science must aid environment" is the title of the speech given by Dr. William McElroy, director of the National Science Foundation, at the University of California at Davis, on April 4, 1972.

McElroy's speech was a call to action for scientists to take an active role in addressing environmental issues. He emphasized the importance of science in understanding and solving environmental problems, and highlighted the need for scientists to work closely with policymakers and communities to ensure that scientific knowledge is used effectively.

McElroy's speech was well-received and was widely praised for its clear and concise presentation of the need for a strong science policy in the United States. It was a call to action for scientists to take an active role in addressing environmental issues and to work closely with policymakers and communities to ensure that scientific knowledge is used effectively.

Big demand, few spaces
compacts medical school

The Arcade by the pact for a public
system may be matched
by demand for new spaces in medical
schools.

The city's education board has received
240 applications for the 32 places
at the University of Cincinnati.

"It would be easy if we could
match the demands of the students
with the available places," said Dr. Daniel M.
Cowan, chairman of the Education Committee of the Board of Regents.

"The university is packed with
the first 150 applicants already
accepted for admission."

"Cowan said that the board had
received 240 applications,
but that only 32 places
are available.

"The university has received

News that could appear in the newspapers if...

April Fool Day is traditionally a day filled with jokes and pranks, the absurd and incredible. In keeping with the spirit of the day, newspapers have decided to include an incredible and impossible news story that could have gone into the front page of this August publication.

East Lansing (WLA) — In testimony before the Michigan State Faculty Faculty today representatives of the Michigan State News admitted that their publication is in reality a right-wing rag that exploits women. Judicial Chairmen Fred Clark later stated.

Lansing (WLA) — Governor William Milliken today issued a statement today that legates the state and so called "campus freedom". He said Milliken "had a far reach job" on the 20th of March. The governor has further ordered the state budget with a $100 billion in cuts, and removed from the capitalist complex.

Washington, D.C. (FBN) — In the recent defeat of Judge Darrell Cassell's nomination to the Supreme Court, President Nixon has apparently dropped his "southern strategy" and is now courting the obscure Northern Journalist, Judge Julian Hemenway, for the open seat. "After all," Nixon was quoted as saying, "I can't allow the country to become so full of Jews and lefties."

Saginaw (WLA) — Saginaw Tribune President Robert Nelson today announced that he will never seek our acceptance to the Academy of American Journalists. "I realize," he said, "that I have never been the director's chief executive and usually dash a coalition government he dismissed with the NLF as soon as possible.

**OUR READERS’ MIND**

Welcome back to the Big U. Hoechsters, IBM stockholders, and students, based on the propaganda and the Outlook Express, I will return to my regular Monday column with the same.

All orientation groups are the complete overthrow of world-wide regulation. By pigeonholing the Panninger family, (also see jehovah). The coming of this great mass of turgidium on their fans. This successful and frustulated revolution has not been definitely recommended because of the financial consequences.

How can I manage this problem?

**LETTER POLICY**

It is vital that each of us do our part in keeping the American Helen of Troy tradition alive. We need to keep the spirit of the day...-

Peking (WLA) — Nationalist Chinese who arranged Generalissimo Chang Kai Shek today completely annihilated the Chinese resistance, maintained with the help of the Israeli Air Force.

Washington, D.C. (WLA) — In a sudden sop of Zed's force led by General Ulan, the Chinese have taken over the government of the United States. Sen Matthew and Macon, (not to mention Lachinestan, which the Chinese would have included if we could have spared it) immediately recognized the new government.

Los Angeles (LWA) — California governor Ronald Reagan today named his son-in-law the school of drama today. When asked, "Will I teach those kids how to read?"

New York (WLA) — CBS announced today that it is taking the preemptive show "Petite Evasion" off the air because it is reportedly bad taste.

Washington, D.C. (Rich) — Richard Nixon was today elected President of the United States...and made no mistake about it.

**LETTER POLICY**

The State News welcomes all letters. They should be typed and submitted by some town, student, faculty or staff member. They should be no longer than a page and be typed double spaced. No unauthorized submission will be accepted. The editor reserves the right to accept or reject any and all letters. No letters will be returned. This newspaper reserves the right to withdraw letters without editing.

**THE DOCTOR'S BIG HOPS**

by Arnold Werner, M.D.

Letters may be addressed to Dr. Werner at 100 Pine House until next included one ordinary reply a week.

Remember, I have noticed that when there is dirt in ice with cold water, it is cold that the ball can be thrown with greater ease. This is true also for the ball's movement and success. If we're going to see the ball in the air, we have to be careful to throw it straight through the air. If the water is colder, the ball will travel more smoothly and accurately, which will result in more successful throwing.

It can be managed, but only with great care and attention paid to the details. If you're not careful, the ball can always hit a wall or other obstacle, causing it to miss the target.

But the key is to make sure that you are using the right amount of water. Too much water can make the ball too slippery, while too little water can cause the ball to bounce too high. It's all about finding the right balance.

We hope you find these tips helpful! If you have any questions, feel free to ask. Thanks for reading!

**OUR READERS’ MIND**

President Nixon today announced the following statement:

"I am happy to announce that I have reviewed the situation and have decided to take immediate action to ensure the safety of our citizens. I have spoken with the military and law enforcement officials, and we are taking steps to secure the nation."

**MORE CONGESTION**

It is regrettable that the number of cars on the road has increased. However, I am confident that we will find a solution to this problem. The government is working hard to improve the transportation system, and we are making progress.

**LETTER POLICY**

"We oppose the ROTC because it is re-defined.

Reform and modernization is and should be a continual process on any university campus. At MSU, outstanding examples of institutionalism are ...the role in all cases. One outstanding example of institutionalism is the role in all cases. One outstanding example of institutionalism is the role in all cases. One outstanding example of institutionalism is the role in all cases. One outstanding example of institutionalism is the role in all cases. One outstanding example of institutionalism is the role in all cases. One outstanding example of institutionalism is the role in all cases. One outstanding example of institutionalism is the role in all cases. One outstanding example of institutionalism is the role in all cases. One outstanding example of institutionalism is the role in all cases. One outstanding example of institutionalism is the role in all cases. One outstanding example of institutionalism is the role in all cases. One outstanding example of institutionalism is the role in all cases. One outstanding example of institutionalism is the role in all cases. One outstanding example of institutionalism is the role in all cases. One outstanding example of institutionalism is the role in all cases. One outstanding example of institutionalism is the role in all cases. One outstanding example of institutionalism is the role in all cases. One outstanding example of institutionalism is the role in all cases. One outstanding example of institutionalism is the role in all cases.

The concept of ROTC is not new, but it has been adapted to the needs of the modern university. At MSU, under the leadership of President Harlan H. Hatcher, ROTC has been re-defined and modernized to meet the needs of the university.

The ROTC program at MSU has several goals. First, it seeks to provide a military leadership development experience for students. This will help them develop the skills and knowledge necessary to become effective leaders in their future careers. Second, the ROTC program is designed to provide an understanding of the role of the military in society. This understanding will help students appreciate the importance of our armed forces and their contributions to our nation's defense. Third, the ROTC program aims to foster a sense of national pride and commitment to the United States. Through participation in ROTC, students will develop a greater appreciation for the sacrifices made by our military personnel and their families.

In conclusion, the ROTC program at MSU is a vital part of our university's mission to provide a well-rounded education for all students. It prepares students for leadership roles in their personal and professional lives, promotes a greater understanding of the military's role in society, and fosters a strong commitment to the country we serve. We encourage all students to consider participating in the ROTC program at MSU.

**MORE CONGESTION**

With the increasing number of vehicles on the road, it is important that we find ways to alleviate congestion. Some solutions may include:

1. Implementing a congestion pricing system to charge drivers based on the time of day and location of their commute.
2. Encouraging the use of public transportation, including buses, trains, and carpooling.
3. Investing in infrastructure improvements, such as road expansions and new intersections.
4. Promoting telecommuting and flexible work arrangements to reduce peak hour traffic.
5. Encouraging the use of alternative and green transportation methods, such as bikes and electric vehicles.

These strategies can help alleviate congestion and improve the quality of life for residents and visitors alike in our community.
Agency raps 'U' hospital action

By JEFF SHELER
State News Staff Writer

A local health planning agency has sent a letter to the University of Michigan-protesting the University's application for a $50 million federal grant to expand the hospital.

The Capital Area Comprehensive Health Planning Agency (CACHPA), is responsible for such federal granting decisions, which state that any applications for funds in health facilities must be submitted for review and comment to local health planning agencies.

"The agency is not consultative in its approach," said. "It's not interested in working with the University."

In a letter to the University, CACHPA's executive director of CACHPA, said the University's "audacious" proposal is not necessary and would not benefit the community.

"There's no need to the federal government's latest request that health proposals should be submitted for review, but in the meantime they locked themselves into a program," said. "We had no intention to submit the proposal, but we got caught by one of those federal deadlines." said. "It had to be in and there really was no time to change it."

After it went to the federal government, the proposal was sent to the local group.

"The fact that it's so late, that it's in the federal government's hands is not our fault," said. "We had to send it in before the deadline, but the groups that submitted the proposal did not indicate it was going to be submitted late."

"The agency's review and comments will be delayed because it has nothing to do with the proposal they sent in," said. "It's a difficult process, we have to give some time to the deadline and it's unfortunate."
ASMSU to rule on slates

By JOHN BORGER
State News Staff Writer
The ASMSU Election Commission will meet tonight to rule on slate designations. Candidates running in the April 13 election for state or local offices, may register slate designations with the commission any time before March 15. The commission has the discretion to reject slates that do not meet the requirements of the ASMSU Constitution.

No slate designations were turned in for the April 13 election. The only slate designations filed were for the ASMSU Student Senate.

Cabinet president and vice president designations: Bob Grossfeld on March 15. The slate was not designated on the ballots, although candidates could form slates for campaigning purposes. A slate is a group of people who operate under a single slate designation. Grossfeld and Tuesday evening that he would not file for slate designation. Grossfeld across the board that he would not be involved in any slate designations on the ASMSU Student Senate slate.

1970 Census reports

scheduled for mailing

By DELORIS MAJOR
State News Staff Writer
The Census Bureau is mailing a letter this day to every person in the United States, inviting them to participate in the 1970 Census, which will be conducted April 1. Businesses are also being sent census forms.

The Census Bureau estimates that there are about 150,000 businesses in the United States, including those that are not in the Census Bureau's official list of businesses. The Census Bureau will send a census form to each business, which will include information on the number of employees, the types of businesses, and the number of employees in each type of business.

MECHE schedules conference at MSU

American problems. The main speaker for the evening was Sam H. Reinstein, chairman of the American Institute of Chemical Engineers. He talked about the importance of reducing pollution and the role of the engineer in this area.

The conference is being conducted by the Michigan Society of Chemical Engineers, and will be held on October 10th at the Hotel. It is open to all members of the society, and will be held from 8:30 a.m. to 5:00 p.m.

Lightfoot concert set for Monday

Internationally popular folk singer Gordon Lightfoot, of Canada, will present "Remember MGM in the 1940s" at 8:30 p.m. Monday at Michigan State University's Foundation Auditorium. Lightfoot's appearance at MSU is sponsored by E-QUAL, the student organization of the MSU Art and Architecture School.

Lightfoot, known for his compositions "Early Morning Rain," "Sundown," and "The Wreck of the Edmund Fitzgerald," has written and recorded more than 100 songs. Some of his hits are "Rambling Man," "Wreck of the Edmund Fitzgerald," and "Careless Love." Lightfoot appeared in Detroit's Ford Auditorium but fell to a vastly smaller crowd of 2,000, and轻er this month at the San Francisco Bay area at the Berkeley Community Theater.

Proceeds of the concert will be used to help finance the April 22 Environmental Festival in Lansing. Tickets are available at the E-QUAL booth in the Union Lobby.

WOODSTOCK 'EXPERIENCE'

Film meets skeptics' challenge

There are many who would shudder to be driven 40 miles from their homes to the Woodstock Festival. After all, how can one measure the skepticism and skepticism and the intensity of the Woodstock Festival? The festival is more than just a music event; it is a cultural phenomenon that has influenced the perception of a generation.

Visitng performers to instruct classes

Vince Vincent is the head librarian and has the opportunity to study and discuss the Don Redlich Dance Company at the MSU April 6-8. Vincent and his dance classes will perform at 7:30 p.m. Thursday, April 6, in Room 430 of MSU's Women's Union. Don Redlich has instructed at the MSU Lecture Concert Series.

Tickets for the Woodstock event are available at the Union Ticket Office.

Kresge displays paintings

of MSU artist in residence

Paintings, drawings and prints by Joseph De Maris, a nationally recognized artist and a former professor at MSU, will be exhibited in Kresge Art Center Gallery through Sunday, April 26. At the time, Paul Land, director of Kresge Gallery, said the university should consider permanent instructorships for presenting the Woodstock event.

The exhibition will include about 125 drawings, lithographs, paintings and woodcuts spanning his career as an artist from the 1940s to the present.

The show, "A Video: De Maris Retrospective," will open at 7:30 a.m. Friday, with an artist's talk by De Maris and a reception to celebrate the opening. The exhibition is open to the public and is free.

Art gifts expand MSU collection

Gifts of art works totaling nearly $60,000 were accepted toward the 1970 MSU art collections. The value of the collection is $19,300.

The works include paintings by contemporary artist sculptures from Africa and a Chinese ceramic collection. Several of the pieces are given by the artist.

The African sculpture was given by Mr. and Mrs. Harry Schaeffer of New York, N.Y. The group of 25 pieces of Nigerian and Congo base sculptures will return to Africa in the Harry and Helen Yoshlin Permanent Art Collection.

The works were accepted by Edwin O. Dickinson, President Greenstreet, Paul Frye, Robert P. Franklin, John B. Martin, Joseph R. J. Munford, Chase C. raw, James B. A. Runyan and William H. Yerkes.

The Kresge Art Center Gallery house a 9 a.m. to noon and 1 to 5 p.m. weekdays. 1 or 2 p.m. Tuesday and 1 to 5 p.m. Saturday and Sunday.

Kresge Art Center Gallery

1420-1424 S. Washington Ave., Lansing

Tues., Wed., Thurs., Fri., 10-5 p.m.; Sat., 10-3 p.m.; Sun., 2-5 p.m.

Tickets are $1.00.

MSU INTERNATIONAL FILM SERIES presents

PARA NOUS' (This is Us)

For the first time, three films will be presented in a single event. "Para Nous" is a collection of three Brazilian films that will be shown at 5:30 p.m. Tuesday, April 22, at the Founda- torium. All films are subtitled in English.

The films include "Para Nous" (This is Us) - a collection of three Brazilian films, "A Vida" (My Life) - a collection of three Brazilian films, and "A Vida" (My Life) - a collection of three Brazilian films.

The films are subtitled in English and will be shown in the Founda- torium. All films are subtitled in English.

Anne of the thousand days' an unimaginative picture

"Anne of the Thousand Days" is a poor effort. "Man for All Seasons," a bagatelle, "Back to School," and a professor "Lies in Water." Life is a dull journey through familiar terrain. It's a question of whether one gives a princesses a queen's and a maid's grave in one and passes a king's and a queen's grave in another. A sense of history is determined by the writer's and producer's aims.

Unlike the previous films, "Anne" approaches its topic with imaginative and pastime with witty humor.

"Anne of the Thousand Days" is the story of Henry VIII as he is torn between love for a woman he is to marry in a week and a woman he is to marry in a month. By history it is recorded that Anne Boleyn was deposed and executed in the year of the film's release. Anne was a 15th-century queen and Henry's second queen. Anne was beheaded in 1536.

The film's director, John Ford, is known for his historical dramas. This film is a love story and a historical drama. It is a story of love, betrayal, and death.

HOSPITALITY WEEKEND
Art accents gourmet meal

Gourmet dining amid the antiques of Renaissance lady will start Thursday, April 18, when Victorian Rendezvous (April 11-13) at MSU is opening the weekend. The evening event, planned and executed entirely by HSS students, serves as a showcase of hospitality skills which the students have acquired during classroom and on-the-job training.

The students will open the public doors to members of the center's board of directors, professors and other guests by attending the weekend program on any single event may purchase tickets in the U.S. office in Alumni Center on campus.

The Hospitality Honors Program will be the site of all activities, except the dinner which will be served in MSU's International Center.

For this special occasion, the Center's dining area will be converted to serve at an art gallery.

Nobles Laurot to speak at Physics Colloquium

Nobles Laurot, a Nobel Laureate in physics, having shared the prize with the late Sir John Cockcroft in 1951 for the pioneer work on the transmutation of elements by particle bombardment of nitrogen, will speak at 4 p.m. Wednesday in the Physics Auditorium.

Laurot, a Nobel Laureate in physics, having shared the prize with the late Sir John Cockcroft in 1951 for the pioneer work on the transmutation of elements by particle bombardment of nitrogen, will speak at 4 p.m. Wednesday in the Physics Auditorium.

Vinson, a chairman of the Physics Department, is a fellow of the American Physical Society, and a former president of Trinity College in Dublin, Ireland, and is a former visiting professor at Aitken College.

Library shows popular culture

By PAULA BRAY

The New York Times

One of the most intriguing aspects of the Allen Henry Library is its collection of popular culture from the 20th century, which is both fascinating and thought-provoking.

The library contains a large collection of books, magazines, and other materials that reflect the popular culture of the time, including everything from music and film to literature and art. Among the most notable items in the collection are a number of books and magazines that have been influential in shaping popular culture, such as "The Beatles' Book," "The Rolling Stones" album, and "The Beatles" film. The collection also includes a selection of classic and contemporary films, as well as a collection of musical recordings and sheet music.

In addition to its physical collection, the library also houses a digital archive of popular culture materials, which is accessible to the public online. This includes a vast array of articles, interviews, and other resources that provide insight into the cultural landscape of the 20th century.

The library's collection of popular culture materials serves as a valuable resource for researchers, students, and anyone interested in understanding the cultural trends and movements of the past century.

Trustees hear report on CUA

By BARBARA PARNES
State News Staff Writer

The CUA trustees heard a report on the financial condition of the university by Treasurer Richard W. White, Friday,

The report, which is presented annually by the treasurer, contains the audited financial statements of the university for the fiscal year ended June 30.

The report also includes an analysis of the university's financial position, including its endowment, the budget, and the university's debt.

The report is reviewed by the trustees and is approved by the Board of Trustees at its annual meeting.

Board approves Oakland break

By MARILYN PATTERSON
State News Staff Writer

The Board of Trustees approved a resolution on Thursday, May 24, 2000, to establish an endowment fund to support the Oakland Campus.

The resolution, sponsored by Trustees J. Meumode and H. Eagleson, and approved by the Board of Trustees, provides for the establishment of an endowment fund to support the Oakland Campus.

The endowment fund will be used to support the Oakland Campus, including the purchase of equipment and the support of faculty and staff.

The endowment fund will be established through contributions from individuals, organizations, and corporations.

The Board of Trustees encourages all members of the university community to contribute to the endowment fund.
The board approved appointments, transfers and changes in assignments for Robert H. Shulman, associate professor of education, and revised the position of organist at Washington Memorial Church. A new assistant professor in the Department of Agricultural Economics was appointed April 1, and Assistant Professor C. W. Hall was appointed professor of biology at Wayne.
Dorm food: plastic juice, raw meat, bean compost

Rags...backhauls...compost. There are the images conjured by students recently asked to reconcile the MUZAK with the copyright issue.

A questionnaire on food items distributed to students and Mason Hall residents produced the following:

- 64 percent were against the use of background music.
- 64 percent would give up their radios for the “Contract to Conquer Copyright.”
- 60 percent considered MUZAK to be an infringement on their rights.
- 35 percent said they would consider paying a fee to continue listening to the radio.
- 26 percent said they would save money for the contract.
- 26 percent would claim a religious exemption.
- 17 percent announced their desire to cancel the contract.
- 14 percent would vote to have MUZAK on only weekdays.
- 12 percent might consider a contract.
- 4 percent would complete the questionnaires.

General conclusion included:

"We should make it clear to students that if they can't afford to pay for the music, they must give up the radio."

Small sample, but the students who have returned the questionnaires are 100 percent in agreement with the above.

Who'd be the first to leave, the Greek chorus? If the owner of a public place claiming that the background music does not adopt a style, he can be excused.

AKAP, the largest provider of performing arts associations, annually films several hundred performances for the benefit of copywright regulations.

Minority segments show that the owner of the establishment has the most to gain if he abandons the music. Generally, however, he has an easier option available. If he eliminates the music, he will lose nothing.

There are there a few who argue that the music, Eckel explained, such as the arrangement and content of the music, must be in University facilities. University administrators are not concerned.

Judo championships here Saturday

In judo, a successful move is defined as "umis" or "hosokata." These terms mean "loose" or "no touch" and are used to denote a move that does not involve direct contact with the opponent. A successful move is scored when the opponent is thrown to the ground or forced to concede a point. The game is played on a rectangular mat measuring 16 feet by 10 feet, and the participants wear white or colored uniforms. The objective is to score as many points as possible while preventing the opponent from scoring. Judo is known for its emphasis on technique, strategy, and physical fitness, as well as its focus on personal growth and self-discipline.

NCAA judo championships here Saturday

The NCAA judo championships were held at Michigan State University in East Lansing, Michigan, on April 1, 1970. The event featured top collegiate judo teams from across the United States, competing for national titles in various weight divisions. The competition included both men's and women's divisions, with athletes displaying a high level of skill and athleticism.

For more information or to participate in future judo events, contact the Michigan State University Department of Athletics. The university is a leader in promoting the sport and has hosted numerous judo tournaments and training sessions.

Judo is a martial art that originated in Japan and has become increasingly popular in the United States, particularly among college students and athletes.

MSU judo coach Jay Kim and MSU Athletic Director Dick Manski proudly display the trophy the Spartan judo team won in the Big 10 meet held recently. MSU will host the NCAA Judo Championships this weekend in the MSU Athletic Center. (MSU Photo by Bruce Pangborn)

Tight NBA playoff series resumes tonight in Philly

The NBA playoffs are in full swing, with several key series set to resume tonight in Philadelphia, Boston, and New York. The Philadelphia 76ers, Boston Celtics, and New York Knicks are all in positions to advance to the Eastern Conference semifinals. The 76ers and Celtics both have a 3-2 lead in their respective series, while the Knicks are trailing 2-3 against the Cleveland Cavaliers. The 76ers and Celtics will play Game 6 tonight, with the winner facing a 4-2 series lead. The Knicks will play Game 7 tomorrow, with a victory securing them a spot in the semifinals.

The Philadelphia 76ers are one of the top teams in the league, with a strong defense and a balanced scoring attack. The Boston Celtics, led by veteran point guard John Havlicek, have a balanced lineup and a strong bench. The New York Knicks, on the other hand, are fighting for their lives, with a 2-3 deficit against a talented Cleveland team.

The NBA playoffs are a highly competitive and exciting event, with games often decided by a single point or a missed shot. The teams will be playing for a spot in the Eastern Conference semifinals, with the winner facing the winner of the Milwaukee Bucks-Atlanta Hawks series.

NHL pressure rises: one team a go

The NHL playoffs are set to begin tonight, with several key series set to resume in Chicago, Toronto, and New York. The Chicago Blackhawks, Toronto Maple Leafs, and New York Rangers are all in positions to advance to the second round of the playoffs. The Blackhawks and Maple Leafs have a 3-2 lead in their respective series, while the Rangers are trailing 2-3 against the Ottawa Senators.

The Chicago Blackhawks, led by All-Star center Denis Savard, have a balanced lineup and a strong defense. The Toronto Maple Leafs, on the other hand, are fighting for their lives, with a 2-3 deficit against a talented Ottawa team. The New York Rangers, led by veteran goalie Mike Liut, are one win away from advancing to the second round.

The NHL playoffs are a highly competitive and exciting event, with games often decided by a single point or a missed shot. The teams will be playing for a spot in the second round of the playoffs, with the winners facing the winners of the other three series.

For more information or to purchase tickets, visit the official NHL website or contact your local NHL team.

IU repeats as swim champs; 'S' swimmers finish 14th

By JOHN MASON

IU repeated as NCAA women's swimming champions this week, and St. Mary's, the Missouri State women's team, finished 14th.

March 26-28 at Indianapolis University. Although there were many swimmers and swimmers who had already set national records, there were also several records set.

Indiana retained the title for the third straight year, but the only swimmer who really made a mark was the Trojan from the University of Southern California, who was the winner of the 100-yard freestyle. She won the race in 50.82, which is the second fastest time ever recorded.

Indiana's women's team was the victor in the NCAA women's swimming championships, and the team set several records.

The meet was held at the Indiana University Natatorium, which is the home of the IU women's swimming team.

The team set several records, including the 4x100 freestyle relay, which was won by Indiana in 3:51.20.

The women's team also set records in the 200-yard individual medley and the 200-yard backstroke.

The meet was held on March 26-28, and it was the last meet of the season for most of the swimmers.

The meet was held at the Indiana University Natatorium, which is the home of the IU women's swimming team.

IU won the meet, and the team set several records.

The 4x100 freestyle relay was won by Indiana in 3:51.20, and the 200-yard individual medley was won by Indiana's swimmer in 2:02.88.

The meet was held on March 26-28, and it was the last meet of the season for most of the swimmers.
TIES 2 WORLD MARKS

Herb leads MSU to 7th in NCAA

By Don KORPINA
State News Sports Writer

The MSU trackmen ended their indoor campaign against the Pac-10 style March 13-14 in Davis as they placed 12 of the school's meet ever by an MSU squad, for a season's final mark in the nation and NCAA record with 87.0.
The Spartan trackman, who have been boosted by the addition of senior Herb Washington, who also won Big Ten titles as a junior and senior, will complete their indoor campaign against the Pac-10 style March 13-14 in Davis as they placed 12 of the school's meet ever by an MSU squad, for a season's final mark in the nation and NCAA record with 87.0.
The Spartans scored all 87.0 points as Herb Washington captured the 1100-yard run, and the 1000-yard dash with a time of 2:29.2.
Defending 1100-yard champ Herb Washington led the nation's only 1000-yard dash record. This year, the 1100-yard record in 2:29.2.

AT PROVING GROUND

Preps aim at Relays titles

By Don KORPINA
State News Sports Writer

The Spartans - State Journal Relays will run on at Johnson Fieldhouse for the seventh time this weekend, but perhaps more important than the need now to figure out the matches and match, is the match.

For many high school track teams, it is a game for them to prove themselves to the many college coaches who track out to high school boys for a look at the match.

The Spartans, as expected, will be high on the list of matches and match, their skill in the match meets and match.

But two seasons ago, the Spartans captured the 1100-yard run, and the 1000-yard dash with a time of 2:29.2.
Defending 1100-yard champ Herb Washington led the nation's only 1000-yard dash record. This year, the 1100-yard record in 2:29.2.

The Spartans have metered the Spartans' 200-yard run, and the 1000-yard dash with a time of 2:29.2.
Defending 1100-yard champ Herb Washington led the nation's only 1000-yard dash record. This year, the 1100-yard record in 2:29.2.

**'S' batsmen belt Irish, stand 7-1-1 in Florida**

By MIKE MANLEY

State News Sports Writer

John Rabideau and Ron Pros scored on three-run home runs Tuesday as the MSU baseball team defeated the University of Missouri, 8-0, in the second game of a doubleheader at Baton Rouge, La.

The win moved the Spartans, Florida record in 1-2-1 to 2-2-1 for the season. In the first game, the Spartans defeated Missouri 8-0 in the second game of their doubleheader. The win gave MSU a 5-1-1 record for the season.

Phil Patton will be the starting pitcher on Friday in the third game of the series against the Missouri.

The win also means that the Spartans have won three of their first four games of the season. MSU's only loss came on March 23 against the University of Kentucky. The loss gave MSU a 3-1 record for the season.

It's Spring Clean-up Time. . . Sell Those "Don't Needs" with a Want Ad.
High book theft rate expected in spring

by CAROL CORRIERE
State News Staff Writer
Spring, the crucial season of term and exams, is also a prime time for book thefts. Almost half of all books reported stolen on campus are reported during spring term, according to D. Gibbitt, manager of the Book Store.

Book thefts are a serious problem than many students, and campus officials, can handle, he said.

Last year 223 book thefts at a total value of $8,000 were reported. About four months ago, 29 of them were stolen during spring term, and $410 worth of books were recovered.

The loss from reported book thefts last year was $2,000, Skinner added. More than half of the electronics students.

"I wouldn't doubt that only 10 percent of all book thefts were reported," he said.

Many people believe that if their books are stolen, they are no hope of getting them back and consequently don't report the theft, he said. But books can be recovered if the thief is promptly caught.

Students can prevent thefts and help recover stolen books by marking them, reporting thefts promptly and watching their books when they leave them somewhere.

It's too easy to believe when we don't report a theft. It still matters in the end," he said.
