By SHIRLEY JOHNSON  
East Lansing, Mich., Dec. 1—
"Any teacher who has ever been in a recruitment meeting," the source said, "as far as I am concerned, has not served his time."

But plans do play a role in campus decisions—often in ways that are not always obvious. For example, a decision to reschedule an event may be made for purposes other than convenience or cost savings. In this case, the rescheduling was likely done to accommodate the needs of the students and faculty involved in the event, as well as to ensure that the event was well attended and enjoyable for all participants.

The rescheduling of the event allowed for additional time to plan and prepare, ensuring that the event went smoothly and that all involved had a positive experience. This underscores the importance of planning and communication in event management, and shows how even small changes can have a significant impact on the outcome of an event.
Nixon asks more veteran funds

WASHINGTON (AP) President Nixon asked Congress Thursday to provide $50 million more to expand special medical programs for the ever-increasing numbers of veterans returning from Vietnam.

The additional funds would be used to handle the backlog of veterans' medical claims. In a report which he requested from Donald E. Johnson, VA Administrator, Nixon said that he, too, was concerned about the long delays in completing the claims.

"I am determined," he said, "to make sure that within a reasonable time veterans are paid the benefits to which they are entitled... I believe we can make substantial improvements and I am asking the Congress to appropriate $50 million to ensure that these improvements are made." The report on the veterans' medical claims was prepared by the VA's Office of Medical Programs and Administration.

In an apparent attempt to get the veterans' claims out of the way, the administration also asked for an additional $50 million to expand special medical programs for veterans returning from Vietnam.

"The money will be used to expand the existing special medical programs, especially for those returning from Vietnam who have never been treated for their injuries," said Johnson. "In addition, the funds will be used to improve the facilities and services at VA hospitals and clinics, which are needed to meet the needs of veterans returning from Vietnam."
Nam, Laos quiet today, but back in Cambodia...

In the two weeks since a tense standoff ended in the latest of several minor skirmishes between United States troops and Khmer Rouge forces in Vietnam, the situation in the war-torn Cambodian countryside has been generally quiet. But in the area near where the fighting occurred, the Cambodian government has announced a military operation against Communist guerrilla troops.

The operation, described by military leaders as a "counteroffensive," was launched in response to the recent Communist victories in the area. However, the extent of the operation and its success remain unclear.

The United Nations has been unable to mediate a cease-fire between the two sides, and the fighting continues with increasing intensity.

New sentences may cut shoplifting by students

In an editorial on March 10, 1970, the local paper commented on the apparent success of the new sentencing policy aimed at reducing shoplifting by students.

The policy has been in effect for about six months, and has resulted in a decrease in the number of cases brought before the court. However, the effectiveness of the policy is still being evaluated.

The editorial was written by a local newspaper editor, who is concerned about the problem of shoplifting by students.

Legislating from fear and passion

The President's recent rhetoric on the issue of crime has focused on the need for tough new laws to protect the American people.

The President has called for a new law called "The Crime Bill," which would provide for harsher penalties for those convicted of violent crimes.

However, some critics argue that such legislation would only increase the already high levels of incarceration in the United States.

The debate over crime control continues, with both sides presenting their own arguments and evidence to support their positions.

SN RTOC position is unfair

The discussion of the SN RTOC's position on the issue of race has been heated and controversial.

On one side, advocates argue that the position is necessary to promote equality and justice. On the other side, opponents claim that it is discriminatory and unfair.

The debate continues, with both sides presenting their views and evidence to support their positions.

Trib from Washington

The issue of gun control has been a major topic of discussion in the United States in recent years.

Recently, a bill has been introduced in Congress that would expand background checks for gun purchases and sales.

The bill has been met with opposition from those who believe that it would infringe on their Second Amendment rights.

The debate continues, with both sides presenting their views and evidence to support their positions.
Journalism class analyzes church, militants

By BARNEY C. YOUNG

Young people in today's world are as critical of the church as any other aspect of society. The attention paid the church by the media is only one indication of this. The church is not immune to the criticism which other institutions are subjected to.

The following article, submitted by Barney C. Young, was prepared for a journalism class at Bennett High School, Detroit. The article was submitted as a part of the class requirement to examine the church's role in society.

MORALIST, POLITICALLY NAIVE

Grads look back at King

By BARNEY C. YOUNG

Young people today are not as naive as those of the past. They have seen too much, heard too much, and are not as willing to accept things at face value. They are not as willing to accept the church as they were in the past.

The following article, submitted by Barney C. Young, was prepared for a journalism class at Bennett High School, Detroit. The article was submitted as a part of the class requirement to examine the church's role in society.

New penalty for hitchhikers

EL CENTRO, Calif. (AP) — "The greatest hindrance to the development of the new civil rights movement is the potential danger to the lives of the students involved," said Martin Luther King, Jr.

The following article, submitted by Barney C. Young, was prepared for a journalism class at Bennett High School, Detroit. The article was submitted as a part of the class requirement to examine the church's role in society.

The time has come to realize a real opportunity at yourself

If you're about to get your degree, it's time to think about your future. What do you want to do with your life? What kind of career would you like to have? What kind of person do you want to be?

The following article, submitted by Barney C. Young, was prepared for a journalism class at Bennett High School, Detroit. The article was submitted as a part of the class requirement to examine the church's role in society.

INTERNATIONAL HARVESTER

An equal opportunity employer
A NEW HAVEN, Conn. (AP) — Conservationists have expressed disappointment at President Nixon’s decision to appoint a carefully qualified environmentalist as secretary of the Department of Interior.

But they withheld judgment on his choice of multitudinous Fred J. Russell, as unknown in the field of environment and resource management, who heads the American Forest Council in New York.

The appointment of Trum, the president of the Conservation Foundation, whose budget was significantly increased, does not look well to a section of environmentalists.

Russell is a former chairman of the National Resources Council of America, which hired, among others, Russell, to carry a load of a lot better than people.

Minister plans to join race for state Senate nomination

DAVE FETRYK The State

Jondahl, coordinator of Catholic Social Action in Lansing, has announced that he will seek the Democratic nomination for state Senate from the 10th District. The district, encompassing the city of Lansing, is a Democratic stronghold. Jondahl said, "I've been working hard to make sure that my name is known to the voters in the 10th District, and I'm looking forward to the opportunity to discuss my platform with the electorate."

Jondahl's decision to run for the state Senate is part of a broader effort to increase the participation of Catholics in the political process. "I believe that Catholics have an important role to play in shaping public policy, and I'm committed to working to ensure that our voices are heard," said Jondahl.

Jondahl's campaign will focus on issues such as education, health care, and the economy. He said, "I believe that the state must do more to support our schools, and that we need to work together to create jobs and promote economic growth."

Jondahl's decision to run for the state Senate is part of a broader effort to increase the participation of Catholics in the political process. "I believe that Catholics have an important role to play in shaping public policy, and I'm committed to working to ensure that our voices are heard," said Jondahl.

Lecture to start pollution series

Tuesday, April 5, 4 p.m. - 101 Harrington - "Aspects of Environmental Controls," Dr. Jesse Buckner, Dept. of Foods Science and Nutritional Engineering, University of Michigan. 4:30 p.m. - 103 E. Redfern - "Environmental Policy and Public Perceptions," Dr. David Maguire, Dept. of Crop and Soil Sciences.

Wednesday, April 6, 3:30 p.m. - 115 Natural Resources - "The Red October and the Forest," panel discussion by Dr. Robert F. Redmond, Michigan State University. 5:10 p.m. - 115 Natural Resources - "Students and Future Policy of Pollution Control in Agriculture," Dr. William Costeff, Dept. of Crop and Soil Sciences. 7 p.m. - 209 Audubon Hall - "The Impact of Pollution in Our Environment," Dr. Donald G. Eilander, Michigan State University.

Thursday, April 7, 3:30 p.m. - 115 Natural Resources - "Environmental Policy and Public Perceptions," Dr. David Maguire, Dept. of Crop and Soil Sciences. 4 p.m. - 216 Landscape Architecture - "Dispersal Views on Pest Control," Dr. Fred Kedzie, Dept. of Entomology and Natural Resources. 7 p.m. - 209 Audubon Hall - "Air Pollution from Household Sources," Dr. Donald G. Eilander, Michigan State University.

Friday, April 8, 1 p.m. - 115 Natural Resources - "Problems and Implications of Necrotic Disease," Dr. Donald G. Eilander, Michigan State University. 2 p.m. - 224 Student Union - "The Impact of Pollution in Our Environment," Dr. Donald G. Eilander, Michigan State University.

American Flag Lawyers Association. He will speak on "If You Choose to Bowl in the Great, You Open the Door to the Streets."

C. M. Milius, Sen. Philip A. Hart, state Senator Coleman Young and U.S. Representative Donald W. Stringer will discuss "Reclamation on the Federal, State and Local Levels."

"Industry, the Citizen and the Environment" will be widened by John Reynolds, Environmental Surveys Coordinator for Consumers Power Company; Roan Hewitt of Michigan's United Fund; and Dr. Herman Kosig, of MSU's Department of Electrical Engineering.

More than 10 different programs are scheduled on EARTH DAY.

Because solutions cannot be found in one day, however, a variety of programs focusing on the environment and pollution have been scheduled over the next two months.
Movies provide only weekend entertainment.

The fine shows — the Garden Theatre, morning and afternoon, Wednesday and Thursday) and the State, Rialto, Desire Company (Tuesday) — are not much this week. Still, there is being provided weekend entertainment.

Cover to cover is the Wednesday collection of news: winning experimental films by young filmmakers, "Cinema 3" shown at 7 and 9:30 Friday and Saturday nights in Wells; the first all-male revue to the sticky of the week, "Sex on the Seventh"; the newest cantankerous comedian, Jack Benny, whose eccentricity is made more endearing by his ability to make a comedy out of disaster; the new film from Disney, "The Sword and the Stone", which proves that the studio is still able to bring us the kind of animation that made the studio famous; and the closing show, "The Philadelphia Story", which proves that the old Hollywood classics are still as entertaining as ever.

RESTRICTED. "The Charlie Partin novel of a young woman in the making of the film, "The Man with the Blue Eyes," is a story of loneliness and love, and of the human who protects his home in spreading, ruthless, and Humphrey Bogart, and the latest leading man to enter the cinema. "Free Press" has gone public, and the directors have been praised by the critics.

An era of permisiveness climaxed, and now comes the most significant cinematic advancement in 18 years.

MONDO CANE

"A racy Swedish-Danish movie...starring a beautiful girl named Daisy Persson...hope I make myself clear when I say that I doubt if we will be seeing more of her but that we will surely be seeing her some more." — Boston Daily News (c) 1970

**MOST SIGNIFICANT ADVANCEMENT**

The movie draws its power, documentary style, from every available source of contemporary bizarreness and human folly, and comments on them by shocking caricature. It is a film that makes the spectator feel like a household name. It is a film that shows life as it is, and love, as it can be.

"A Woman" is a passionate love story concerning a dance-hall heroine unthinkable on the screen. And it is executed with irresistible candor and frankness.

"A Woman" is a snapshot movie that proves love is not a sin, that life is full of sex, and that life itself is as exciting as it is, and love, as it can be.

"A Woman" looks at the screen of the 1970s, and comes up to the elevated community standards of the 1970s. It is a film for today's mature adult.

**INCREDIBLE BIZARRE BEAUTIFUL PURPORTED SAD ECSTATIC**

"A Woman" was directed by 35-year-old Peter Farrow, who had previously directed "The Blue Nile", "The Garden of Earthly Delights", and "The Man with the Blue Eyes". The movie was shot on location in Sweden and Denmark, and stars actress Daisy Persson, who had previously appeared in "The Man with the Blue Eyes" and "The Garden of Earthly Delights".

**FCC shifts interest, eyes media holding**

It seems that the FCC is gearing up to shift its interest to media holdings, following the recent announcement of a media company's plans to acquire a network. This move could have significant implications for the future of media and broadcasting.

**MHA-WIC**

The Michigan Hall Association has announced plans to hold a special event on Saturday, highlighting the importance of media and communications in our society.

**CELLULOID**

The "Celluloid" event will feature a variety of speakers discussing the impact of media on society, with a focus on the role of technology in shaping our world.

**WILSON HALL**

Wilson Hall will be hosting a special event on Saturday, featuring guest speakers and discussions on the future of media and communications.

**Brodycut**

The "Brodycut" event will highlight the latest in media technology, with demonstrations and workshops for participants.

**"Enough intrigue and excitement to eclipse James Bond."**

Friday, April 3, 1970
"Goodbye, Mr. Chips" is less, really, a million-dollar feature for "O'Toole, his star. But if it's O'Toole's moment, it is the moment for a very different kind of film making. The earlier film and book were simple works that were aimed primarily at the popular market. The more recent work, however, is a sophisticated, multi-layered story that is aimed directly at the mature audience. It is a film that may be difficult to understand at first, but it is worth the effort.

The story is about the character of Chips, a schoolteacher who is faced with the challenge of modernizing his school. He is a man of principle, a man who is dedicated to his work, and a man who is determined to make a difference. But Chips is also a man who is struggling with his own personal demons. He is a man who is haunted by the memories of his past, and a man who is struggling to find his place in the world.

O'Toole's performance is masterful, and he brings a subtle pathos to the role. He is able to convey the character's complex emotions, and his performance is a testament to his ability as an actor.

"Goodbye, Mr. Chips" is a film that is not for everyone. It is a film that requires patience, and it is a film that requires thought. But for those who are willing to put in the effort, it is a film that is well worth the time. It is a film that is a tribute to the power of story, and it is a film that is a tribute to the power of film making.
Soaring rises in popularity

The challenge of flying combined with the opportunity for individual control has contributed to the rise of soaring as the ultimate in sport aviation.

James Stout, MSU soaring Club president, described the sport as potentially the safest way to fly. "There is no passenger or mechanic for the glider pilot is solo, responsible for the glider and its operation."

"If a person participates principally for fun and safety, it is a primary consideration," he explained. "For those who are less interested in safety than flying, they may find that soaring is for them.

Dr. John M. Joseph, professor of psychology and faculty advisor to the Soaring Club, agreed that soaring is the glider pilot's ultimate sport. "There are fewer people flying who are not seriously involved in soaring, but those people are there for safety and enjoyment." The soaring program has been in operation at MSU since 1962.

The soaring program has been important in the development of glider pilots for the University of Missouri (UM) since 1965. UM President Robert T. Penner has written that soaring at MSU has saved many pilots, "If you are a pilot and want to rebuild your skills, you should come to MSU."

Dr. Penner has agreed that soaring is an extremely safe sport, "It is a sport where the pilot is in control of the glider and can fly as long as he wants to.

The soaring program at MSU is one of the most successful in the country, "The soaring program at MSU is one of the best in the country," said Dr. Penner. "This is a sport where the pilot is in control of the glider and can fly as long as he wants to.

Trial decorum upheld over defendant rights

News Analysis

Not all judges whose honors are fiscalized gleefully.

One judge, for Justice William J. Brennan, who makes only for honor, was taken of the erroneous main of maintaining both decorum and the defendant's right to face his accusers.

And but for a single, rogue现象 in Justice Hugo L. Black's opinion for the majority, only Justice William O. Douglas, whose defense in a historic today was immunity, interpreted the maximization of prospective power, too up in this, ignored the judge's warnings that he should remain and finally told the defendant, 'you're going to be a Buttry.'

The judge ordered Allen removed, the trial proceeded without him and the defendant may be charging to assert his constitutional right.

William Allen, who is now in great, deserves the j as swelling ta for today, was a most severely defendant to Court Hawk, County criminal court 14 years ago. The judge, Harry S. Wayne, who is a very patient man, whose defense to a Innocent, interpreted the maximization of prospective power, too up in this, ignored the judge's warnings that he should remained and finally told the defendant, 'you're going to be a Buttry.'

The judge ordered Allen removed, the trial proceeded without him and the defendant may be charging to assert his constitutional right.

Last July, the U.S. Court of Appeals in Chicago reinstated the conviction, saying Allen's constitutional right to face his accusers had been violated. If necessary, the appeals court said, the judge should step aside and appoint a new judge.
Wallace's American party suffers from lack of funds

ATLANTA, Ga. (AP) — George Wallace's American Independent Party (AIP) appears to be running out of steam.

At the peak of Wallace's 1968 campaign, there was speculation that AIP would coexist in some form with the Democratic party in the South. But at the 1970 elections, things have not gone as planned for the AIP.

The party is struggling to find a foothold in the South and has been forced to scale back its campaign efforts. Officials say the party has not been able to generate the same level of support as it did in 1968.

In Mississippi, where Wallace has strong support, the AIP is holding its own. However, in other states where Wallace had previously been strong, such as Alabama and Arkansas, the party is struggling.

The AIP's failure to gain traction in the South is a blow to Wallace's political career. He has been a vocal critic of the Democratic party, and his party's inability to make inroads in the South could hurt his chances of winning the presidency in 1980.

Wallace and Bresee are now fighting for the Democratic nomination for governor in Tennessee. The race is closely contested, and Wallace is relying on the support of Wallace and Bresee is relying on the support of independent voters to win.

In Kentucky, where Wallace has strong support, the AIP is holding its own. However, in other states where Wallace had previously been strong, such as Alabama and Arkansas, the party is struggling.

The AIP's failure to gain traction in the South is a blow to Wallace's political career. He has been a vocal critic of the Democratic party, and his party's inability to make inroads in the South could hurt his chances of winning the presidency in 1980.
Spartans out-slug Notre Dame

By JEFF ELLIOTT

State News Sports Editor

The weather — hitting MSU and coach Art Faught on the head with a 91-degree blast out of Lawrence Calif. — maybe not be enough to last three innings of the top of the fifth, but the biggest hit in the game came from the bat of senior Darryl Moreau. The hit led to a two-run outburst that carried the Spartans to a 9-5 victory over Notre Dame yesterday at the Spartans' second straight home win over the Irish.

The Spartans took a three-run lead into the top of the fifth, but the Irish had the game tied at 5-5 through the fifth.

The Spartans are now 15-8-1 overall in the Big Ten and 3-1 against the Irish for the season. The victory was the 10th of the season for the Spartans, who have already clinched a spot in the Big Ten tournament.

The win left the Spartans, who are now 3-1 against the Irish for the season, with a one-game lead in the Big Ten.

The Spartans took a three-run lead into the top of the fifth, but the Irish had the game tied at 5-5 through the fifth.

The Spartans are now 15-8-1 overall in the Big Ten and 3-1 against the Irish for the season.

Wings dump Hawks, 5-2, bolster playoff bid

CHICAGO (UP) — The Detroit Red Wings had all the way Wednesday night a 1-2 lead when the Wings decided they would best seat there in the National Hockey League's Eastern Division.

Despite the deficit, only two seconds into the first period, beset with some big plays, the Wings scored on its way to leading the standings in the Western and Detroit's 2-1 leads. Twice thereafter the Hawks pulled within one goal, at 2-3 in the first game, and at 3-2 in the second, but the Wings scored a 2-1 lead on a shot at the last second of the first period. The final score was 3-2.

**SURPRISED WITH SUSPENSION**

McLain queries decision

The Detroit Free Press's Steve Deryn, who scored three goals and allowed only one goal in the first game, has the West and Detroit's 2-1 leads. Twice thereafter the Hawks pulled within one goal, at 2-3 in the first game, and at 3-2 in the second, but the Wings scored a 2-1 lead on a shot at the last second of the first period. The final score was 3-2.

The Hawks cannot even think of leading the standings in the Western, Detroit's 2-1 leads. Twice thereafter the Hawks pulled within one goal, at 2-3 in the first game, and at 3-2 in the second, but the Wings scored a 2-1 lead on a shot at the last second of the first period. The final score was 3-2.

**A happy Denny McLain**

Detroit Tigers pitcher is a left-hander who打击手 and gets a warm greeting from Tiger catcher Jim Price after his return from Florida to Detroit. McLain was suspended from baseball until July 1 for comments to the press.

A. A. Mitro gave us the first Edward Bear for that with his given name of Winnie the Pooh, a bear of some repute.

Canada has now given us another Edward Bear: this is the given name of a famous modern writer, who has become a kind of symbol of some repute.

Reviewers have given high praise to some Edward Bear: audiences have loved him. Music critic Richard Vane called Edward Bear "a delight." Edward Bear's "incomparable" for the audience.

It seems likely that Bear (the new album) will appeal to the target audience. Guests Who, then, Motherbeard and the next Canadian who got the chance is Edward Bear. In Capitol Edward Bear's first album. It is new and it is exciting: and Bear, we feel inspired to make more records.
