'U' Academic Council OKs faculty committee

The Academic Council has approved the creation of a faculty committee to oversee budget allocation.

Power play

Two ROTC instructors wait impatiently for the voting outcome on the Academic Council proposal to make the Military Education Advisory Committee a faculty standing committee. The proposal was defeated overwhelmingly.

New comet flames in early a.m. sky

This week and next

Comet Borrelly, just discovered Dec. 29 of last year, can now be seen in the northeastern sky in the early morning hours. Brightest time for viewing, the day before the full moon, is Monday, November 7.

The comet, according to David B. Black, professor of astronomy at the University of Chicago, is best seen by observers in the Northern Hemisphere. It will come within 50 million miles of earth.

One of the brightest comets many people will see will come out of the naked eye will be the naked eye will be the most detailed of any comet seen in recent years.
Committee alters location of graduation ceremonies

By MARILYN PATTERSON
State News Staff Writer

At the urging of the Board of Trustees, the Commencement Committee has changed the location of spring term baccalaureate ceremonies from Spartan Stadium.

CUA re-slates black workshop

An interdisciplinary evening workshop for black students planned for the last half of winter term has been rescheduled by the Center for Urban Affairs. The group will meet Wednesday at 3:30 p.m. in 980 Wharton Hall.

Transistors: a wizard invention by Ma Bell

By MARY BELL

The originality of transistors is so great that the average person would be hard put to understand what they are or how they work. It is not surprising, therefore, that transistors are not often referred to by name in popular parlance. For example, the most familiar of transistors, the vacuum tube, is usually referred to as a “diode.”

DID TAXES TAKE A BIG BITE?

If the taxes are all paid and there’s not enough left in your budget, then find creative ways to increase your income. If you’re still short, then consider selling some of your assets. The goal is to make sure that your budget is balanced and that you’re able to meet your financial goals.
**Michigan News**

Stephen C. Miller, a Birmingham banker, announced today he will not seek the Democratic nomination for governor, ending a brief, well-financed push for party nomination.

Miller, 41-year-old Miller said business commitments between him and some of the nominee to seek the nomination to oppose Governor G. Milliken, who is expected to run for re-election.

Miller, a Secretary of Commerce Maurice H. Stans recently announced that 35 days have passed since the opportunity to complete a program to provide opportunities for minority groups.

The program is a part of a Nixon Administration effort to build black capitalism through the Minority Business Enterprise (MBE) program. As a previous promise, Miller said at a news conference on minority and business opportunities that would include such things as auto parts, food, and automotive contracts.

**National News**

Taking the role of the Michigan Officials Building, Monday morning saw no damage to the building but some concerns over the newly installed detector system. By 11:00 a.m., the Lansing Fire Department had determined that the problem was the result of a smoke detector system in the basement of the building. The fire department also received a report that smoke detectors were going off in the building.

An automatic fire alarm was activated in the basement, and the fire department was called to the scene. The fire was contained to a small area, and the building was evacuated. The cause of the fire was determined to be a malfunction in the fire alarm system, which was not functioning properly.

While the nation protests, business as usual here

April 15. Income Tax Day, the day designed by the antitax movement as the start of a nationwide revolt, is being virtually ignored here at MSU. The existence of the campaign is not even mentioned in the Daily. At the time of the tax revolt, a campaign is naturally ignored at MSU, is a studentApril 15 and there will be a big rally on Mar. 31, but on April 15, the day that the rest of the nation will be involved in an outburst of activities, RAVE will be business as usual at MSU.

A spokesman for one of the anti-war group maintained that they did not have enough time to organize anything because spring break came when they were expecting a rally, because every other campus had a spring break, and most other states are also having anti-war activities.

The case of the matter is that the peace movement has broken down over the campus. This is due to a number of causes. The Michigan State police was not able to sustain itself throughout the winter months. Whatever activities they conducted were not effective.

Another factor contributing to the failure of the movement is that April 15 is the current preparations for Earth Day, April 22. The Ecology movement has been criticized for taking away from the anti-war movement. Environmentalists, however, feel that there certainly students have a brain capacity large enough to consider two issues at once. The April 15 demonstrations, however, clearly lack effectiveness. Perhaps the highlight of the show is the performance of the Muppets. Two puppets take the shape of an animal, squirrel - looking human and monsters, each act out language concepts such as "more, less and most." An instructional asset is watching this program on a color television. Directly after the show, there will be an opportunity to see the Muppets, orange, and blue.

The Children's Television Workshop Inc., which produces this full length show, has just ended its semi-anonymous series, "The Electric Company," and plans to emphasize reading for older children, since they have not acquired the habits of the preschoolers, the format - including song, dance, and puppetry, visual effects and a game element - is a many, wishless, inseparable to the above concepts.

There are several reasons for the massive success of the show. The films on various aspects of reading by Bob Lawton, Pete Seeger or Ethel Kennedy are very much as one young child and have a way of bringing a mood of spontaneity. In addition, the program is often performed ordinarily perfunctorily and desired exercises - reading the alphabet, counting numbers - in a creative and exciting manner.

Pan Am plans saplings beautifying project

The beauty and photogenic subject matter have arrived in Lansing for the first time this year. The young ladies have been photographed throughout the East Lansing area, as part of the company's advertising campaign. They are being photographed for the project, the emphasis on the beauty of the area. The project will also feature pictures of the students, and the students' facial features. The project will be featured in the fall, and will be used by the company for future advertising.

The students are being photographed at a variety of locations, including the MSU campus, and the MSU athletic fields. The photos will be used to promote the school, and to bring attention to the beautiful scenery in the area. The photos will be distributed to potential students, and to the general public.

Pan Am is also planning to plant saplings in the area, as a way to beautify the environment. The saplings will be planted in the fall, and will grow to provide shade and beauty to the area. The saplings will be planted in the fall, and will grow to provide shade and beauty to the area.

Quinn again plays Greek in modern Chicago setting

No other actor has played as many nationalities as Anthony Quinn. His mother was half Bulgarian and half Russian, his father was Irish and a little Greek, and he makes it look easy. "My heritage is from all over the world," he said in a recent interview.

Quinn says his career began with a Cypriot friend of his father's, who was also a movie producer. Quinn's first film was "The Big Sleep," and he has played a variety of roles, from a Greek in "The Island," to a Russian in "The English Patient," to a Mexican in "The Godfather." His most recent role was as a Greek in "The Gods Must Be Crazy."

In "The Gods Must Be Crazy," Quinn plays the character of Mafikeng, a wealthy South African businessman who is kidnapped by a group of bushmen. Quinn's portrayal of Mafikeng is both humorous and touching, and he received critical acclaim for his performance.

"The Gods Must Be Crazy" was released in 1980 and has since become a cult classic. Quinn's work on the film earned him a nomination for the Academy Award for Best Supporting Actor. He has since gone on to work on numerous other projects, including "The Gods Must Be Crazy II," "The Gods Must Be Crazy III," and "The Gods Must Be Crazy IV."

Quinn lives.
Temptations: Rare blend

The Glenn Miller Orchestra, appearing at MEU’s Fieldhouse this weekend, will present a performance that will rival any heard on radio or seen on television. This will be the fourth time the orchestra has appeared in East Lansing. Although plays have always been popular in this area, the orchestra is unique in that it brings a high-quality, professional performance to the area. The orchestra is composed of musicians from all over the country, including several who are internationally renowned. The orchestra has been performing for over 70 years and is still a popular choice for concerts and events around the world. The show includes a variety of music styles, from classical to jazz, and is sure to please any audience. The orchestra will be performing at 8:00 p.m. on Friday and Saturday in the Fieldhouse. Tickets are available at the door and online at the MEU box office. Don’t miss this opportunity to see a true musical gem in person!
Batsmen at Albion today, EMU here Wed.

BY GARY WALKER

Director Bldg. Feb.

The MSU baseball team got a taste of what the Big Ten competitors will be like when they take on Albion and Eastern Michigan in back-to-back doubleheaders today and Wednesday.

Today’s contest is at Albion, while the Spartans will play the home team Wednesday against EMU at 2 p.m. at Keil Field.

Casper wins Masters title

AUGUSTA, Ga. (AP) – Twelve-time U.S. Open Champion Billy Casper finally added a major to his impressive golf collection on Monday when he made a 6-foot putt on the 18th green to win the Masters.

Casper, who had missed the cut in his last two Masters, had been playing well this season and was clearly favored to win the title. He had finished third at the Masters in 1966, and he had won the U.S. Open in 1966.

The two-time defending champion started the day with a 69 and a one-stroke lead over Sam Snead and Gary Player. Snead, who had missed the cut in the prior two Masters, tried to catch up in the final round but was hampered by a missed green on the 18th hole.

For his victory, the 58-year-old Casper, one of the greatest golfers of all time, earned $125,000 and captured the prestigious Masters trophy. The win was his first major since 1966 and his fourth overall.

He put his plan in action at Augusta National, which he had frequented since the 1940s. Casper, who had played in the Masters since 1956, earned $75,000 for his win.

The win was his second major in two years, and he had also won the U.S. Open in 1966.

“Player of the Year”

Casper had won the Player of the Year award in 1966, and he had also been named the Player of the Year in 1962.

He had been one of the most dominant golfers in the world over the past decade, and he had been consistently ranked among the top 10 players in the world.

The win was his 17th professional victory, and he had also won 17 events on the PGA Tour.

Spring grid drills open today

BY RICK GOSSELIN
State News Sports Writer

MSU football coach Steve Yeargin yesterday announced that the Spartans will begin "spring training" on the football field today at 9 a.m. The first regular season game of 1971 will be played against the University of Cincinnati on Sept. 11 in Detroit.

The purpose of the spring drills is to evaluate the talent and ability on the bench and also to help the Spartans prepare for next year's football schedule.

Indiana大学's basketball team will be working hard to improve its offensive unit which will be minus eight major players from this year's team. But Yeargin has said that the team should be much better next season.

Indiana's spring football schedule was announced yesterday by Coach Bob Knight.

The first practice of the spring season will be held today at 9 a.m. The second practice will be held tomorrow at 9 a.m.

The spring season will end May 16.

During the spring season, the Spartans will play their next match against the University of Michigan in a season match in Ann Arbor Thursday.

Indiana's basketball team will hold the answer to the question of who will lead the team when the season gets underway.

The first practice of the spring season will be held today at 9 a.m. The second practice will be held tomorrow at 9 a.m.

The spring season will end May 16.

Bye bye ball

A note of Iowa and MSU rugby players are sought who played on the Irish in the 1940s or 1950s. Anyone who played for the Irish is asked to contact the Irish Rugby Union at 418-457-4573.

Elliott

Coach 11

That week the squad will practice Monday, Tuesday, Wednesday and Thursday. They will have their first game Monday, March 7, against the Irish in the 1940s or 1950s.

MSU quarterback Bruce Driver will be the only returning starting quarterback on the team this season. Driver is the only returning quarterback on the team this season.

The Spartans will be looking to improve their attack on the offensive side of the ball.

Coach 11

That week the squad will practice Monday, Tuesday, Wednesday and Thursday. They will have their first game Monday, March 7, against the Irish in the 1940s or 1950s.

MSU quarterback Bruce Driver will be the only returning starting quarterback on the team this season. Driver is the only returning quarterback on the team this season.

The Spartans will be looking to improve their attack on the offensive side of the ball.

Indiana's basketball team will be working hard to improve its offensive unit which will be minus eight major players from this year's team. But Yeargin has said that the team should be much better next season.

Indiana's spring football schedule was announced yesterday by Coach Bob Knight.

The first practice of the spring season will be held today at 9 a.m. The second practice will be held tomorrow at 9 a.m.

The spring season will end May 16.

Bye bye ball

A note of Iowa and MSU rugby players are sought who played on the Irish in the 1940s or 1950s. Anyone who played for the Irish is asked to contact the Irish Rugby Union at 418-457-4573.

PHONE: 332-6441

NINE AND TWELVE MONTH LEASES AVAILABLE

UNITED SUBMARINE LEASES NOW ACCEPTED
IMPEACHMENT STUDY

House members call for Douglas inquiry

WASHINGTON (AP) -- Creation of a special House committee to study organizing impeachment of Supreme Court Justice Anthony M. Kennedy was recommended Monday by a group of House members, who labeled the nomination "unprecedented." 

The GOP Leader General D. Ford of Michigan said Kennedy nomination would be brought to the floor on Tuesday or Wednesday to consider the study.

Rep. Louis C. Cyna, R-N.H., and Joe J. Wannenger, D-Ill., will be included among sponsors of the nomination which would call for the committee to submit its report in 30 days.

Ford, who said personally he would vote to impeach Douglas, told reporters he would not join in directly questioning the nomination because in its form it would indicate it was particularly partisan.

Ford, Wannenger and several other House members have been critical of the nomination.

WINDSOR (AP) -- House members called for Douglas inquiry Monday, the GOP Leader General D. Ford of Michigan said his nomination would be brought up on Tuesday or Wednesday to consider the study.

Rep. Louis C. Cyna, R-N.H., and Joe J. Wannenger, D-Ill., will be included among sponsors of the nomination which would call for the committee to submit its report in 30 days.

Ford, Wannenger and several other House members have been critical of the nomination.

Island wildlife near extinction

HORGENOLO (AP) -- More than half of the 48 species of animal and bird that are found only on the island near extinction.

The name suggests a final warning, for it is no longer valid to say the island species is the Hawaii hawk, which now may be at full of accidentally poisoned pesticides in unknown numbers. 

It is estimated the hawk will be extinct within a decade.
