Dingell and Udall kick off teach-in activities today

The two activities include a public lecture by environmentalist John Gunther at 7:30 p.m. at the Ford Auditorium, Administration Building, and a panel discussion on environmental science at 3:30 p.m. in the Student Center.

Rep. Dingell, an environmentalist, will discuss "The Future of the Environment" at the evening lecture. He will focus on the need for increased awareness of environmental issues and the importance of protecting the environment.

Udall, a former member of Congress, will moderate a panel discussion on environmental science. The panelists will include scientists from various fields, including biology, geology, and economics.

The teach-in activities are part of a larger campus-wide initiative to raise awareness about environmental issues and promote sustainable practices.

Elections today

Off-campus students may cast their ballots

Two elections will be held today, one for the Student Senate and the other for the Senate of the American University (AU).

The Student Senate elections will be held from 9 a.m. to 5 p.m. at the Student Center, with polling stations located throughout the campus.

The Senate of the American University elections will be held from 10 a.m. to 4 p.m. in the same location.

Off-campus students, including those living in the District of Columbia, Maryland, and Virginia, are eligible to vote in both elections.

Damaged service module

This NASA photo shows the 13 service modules with debris exposed by the hole in the side of the craft after it was jettisoned from the command module and lunar lander. The service propulsion system module is at the bottom and the projection of the debris is a cone that holds the service module to the command module during flight.

Carmel's in the ring; plans Senate campaign

The Senate campaign of Sen. Edward M. Kennedy has kicked off with a series of events across the state.

The campaign, which is expected to be one of the most expensive in the state's history, has already attracted the attention of national political analysts.

Kennedy, a three-term incumbent, is facing a tough challenge from Republican challenger, former state Sen. Joseph P. Gurney.

The campaign has focused on issues such as education, health care, and the economy, with Kennedy强调ing his record of fighting for the middle class and Gurney highlighting his business experience.

The campaign is expected to be a closely watched race and will likely set the stage for the upcoming election in November.
Detroit Yeeger enters Secretary of State race

Summary shows U female role

BY MARLYN PATTISON
State House Staff Writer

Women candidates for Secretary of State have had a string of three candidates in the past, the last one being Democrat Joan Brickel, who served from 1987 to 1989. Although she did not win the election, the report indicated that the woman candidate won the post of State's Attorney under her rule and that women's leadership in general has increased with the number of women in elective positions.

Women have held administrative positions in the United States and three of those were in the House of Representatives. Among those recommended for promotion was one woman who ran in the previous election.

All raked up

Cycles may have a rough time pushing their bikes in these roads. Some pedestrians seem to have upset the environmental balance of the area.

IN NIXON ADMINISTRATION

Blacks fill more top posts

WASHINGTON (AP) — With a recent shift in the administration's focus, the number of black cabinet members has increased in recent years. The National Republican Party, which has been the driving force behind the shift, has appointed a number of black officials to key positions within the administration.

One of the key developments in recent years has been the appointment of black cabinet members to important positions within the administration. These officials have been chosen for their expertise and have been chosen to represent the interests of black Americans.

The shift is seen as a significant step forward for the administration, which has been under pressure to be more inclusive and representative of all Americans.

The shift has been welcomed by many as a positive development, and there is a hope that it will continue to bring positive changes to the administration and the country as a whole.

The administration has also been working to increase the representation of black Americans in other areas, including in the military and in the work force.

Demonstrators plan Earth Day activities

By The Associated Press

Anchorage is preparing for Earth Day with lectures, clinics and workshops. Demonstrations are over.

A group in Anchorage, Alaska, said it was "the first, the last and the only". The group was concerned that the city's environment is a "catastrophe".

"We're working on our planet," said the group's leader. "We're doing it for the future..."

Michigan News

A crush of 700 of Detroit's 800 city nurses and related technicians today furred four city hospitals for inner-city clinics to offer curative medical services.

The nurses and technicians said they would provide "medical coverage" at all city health facilities to ensure that patients were treated between the hours of 8 a.m. and 4 p.m.

The crush is over wages and fringe benefits. Nurses now receive a starting salary of $3,500, which increases to $7,900 after five years. They also receive a starting salary of $10,000 and $13,500 after five years.

DAVE SHOFT  

The anti-war movement parade  

In the peace, the demonstrations involved in the anti-war movement had never been as large or as well organized as they were today. It has always been the dream of the young that they would be able to bring the war to an end, and they were the young who helped that dream to reality.  

The student anti-war movement has now dissolved into a series of small, local demonstrations. The student demonstrations came to the nation because they knew that the war was not just, and they wanted to change it. They were going to the war — no way!  

About 3,000 of 10,000 demonstrators joined in the march, according to witnesses. The student demonstrations came to the nation because they knew that the war was not just, and they wanted to change it. They were going to the war — no way!

'U' enjoys Saturday soul show

By TOM MOWERS

State Farm Bank Staff Writer

For several weeks I had read the promising reviews of the quality, tone and overall presentation of "The Temptations: I'm Gonna Make You Love Me," the movie version of one of the most popular groups of the 1960s. After finally getting a chance to see it, I was not disappointed. In fact, the movie was superb. The Temptations' voices blend so perfectly that it's hard to distinguish between them. The film's soundtrack is filled with hits like "My Girl," "Just My Imagination," and "Don't Look Back," and the performances are simply flawless.

The movie covers the group's rise to fame, their struggles with each other, and their ultimate breakup. It's a moving story that will leave you feeling inspired. If you're a fan of classic soul music, this movie is a must-see.

The Michigan State University baseball team, ranked 31st in the nation, has a combination of good pitching against us and some poor hitting on our part that has knocked us into this little slump," said Coach Frank Rogers. "It is not Central Michigan's fault. They have some good hitters and some very good pitching. We weren't prepared to go against their hitting and they held us to two runs."

Central Michigan managed just one hit in the two-game set against MSU, while the Spartans had six. The batters on the MSU staff were on either 25 or 30 minutes in the past of games.

"Our hitters should come out of this thing all right," Petersen said. "They hit too good for too many games this season for them to stay in a slump very long. Anyway, we're not going to lose too many players who are as strong as the pair of pitchers that were on the mound today." Petersen was referring to sophomore right-handed Dan Pennington and sophomore left-hander, Jeff Miller.

"It was to diagnose today to Central twice. They have a real good team and Countless times over against any Big Ten team. The Spartans will be having some more good hitting tonight. Probably the biggest problem is their pitching staff as they rolled up 15 hits in their first 15 games.

**Windsor drops 'S' ruggers, 5-0**

Excessive penalties cut the Michigan State University hockey team's chances of winning against the University of Michigan. The Spartans scored only two goals in the game, while the Wolverines scored five. The game was held in the Central Michigan University Fieldhouse.

Coach John Harvey's leadership and inexperience were responsible for the Spartans' attack on the Michigan defense. The Spartans had many opportunities to score, but they were wasted due to the penalties.

Central Michigan's attack was well coordinated and they were able to score a goal midway through the first period following a fortunate bounce by MSU.

**Batsmen try to shake slump; U-D here today**

By GARY WALKOWICZ

Executive Sports Editor

Michigan State University will attempt to shake a three-game losing streak and hitting slump when it meets the University of Detroit in a doubleheader at 2 p.m. today at Katie Park.

The Spartans have lost four straight games, including the last three to the Big Ten's top--Nebraska, Ohio State and Michigan. Michigan State is 18-25 on the season, 3-17 in the conference. But the Spartans, which had several teams in the last couple of years, was beaten in a doubleheader by 2-0 in both games against Central Michigan last Saturday.

MSU has collected just two runs and nine hits in their last three games, and despite strong pitching performances from Larry Locke, John Douglass and Rick Green, the Spartans' hitting is too weak to overcome their pitching staff. The Spartans have batting average, which has been hovering near the .280 line, has dropped off to .254.

MSU will likely open in 1970 season without the services of two of its top returnees. MSU Coach Frank Petersen has announced that he will have no part in spring drills and neither is likely to see any action this season.

MSU head Coach Duffy Daugherty has a standing policy that anyone who misses two consecutive practice days for any reason will not be allowed to play in the spring of 1970.

Practice is off the squad. The players began their second week of spring drills today. Larry Joseph leaves a big gap in the defence line. The junior captain started on last year when he could keep his weight down. But this year, he is averaging around 250 pounds and is not as strong as he was a year ago. Daugherty said he regularly times Joseph on his weight loss since he started being carried up in weight.

Daugherty sat it out on the right of the picture. Duffy's weight, which is currently hovering at 291 pounds, is not exactly distributed over his body. Six foot, 205-pound Daugherty didn't give his full

MICHIGAN ST. Pat Miller

Kalmbach swimmer's MVP

Senior freestyler Mike Kalmbach has been picked by his teammates as the Spartans' most valuable performer for the season recently completed.

It was the second straight year in the Michigan State University swimming program. Since 1969, the native of Detroit has been a two-time All-American. This year, the 6-1, 180-pound Kalmbach was named to the All-American team for the third straight year.

He is a former Michigan State University swimming team captain and was a strong leader in the pool during his senior year. He is considered one of the top swimmers in the country and has been a constant threat to national records.

Kalmbach was named to the All-American team for his performance in the 200-yard freestyle, 400-yard freestyle and 800-yard freestyle.
