*House votes to restart transport plane project*

WASHINGTON (AP) - The battle over a university-sponsored experiment to restart a transport plane project was renewed Wednesday when the Senate approved a measure to fly a U.S. $45 million project that would allow the university to seek federal funds for a new project.

The Senate voted 30-35 in favor of the measure, which would allow the university to seek federal funds for a new project. The measure now goes to the House, where it is expected to pass.

**ASMSU tackles policy**

The Senate approved a measure to withdraw federal funds from the university, which has been operating a transport plane project since 1969.

The measure, which was introduced by Sen. Charles McNair, D-Mich., was passed by the Senate 30-35 and now goes to the House, where it is expected to pass.

**Profl sees little chance of vote on unionization**

WASHINGTON - There is little chance that a collective bargaining session will be held during spring term to determine whether faculty members will be represented by the American Faculty Association, the university's largest union, according to university officials. The university's 18,000 employees are not covered by the university's existing collective bargaining agreement.

The university's financial administration, which is unionized under the American Faculty Association, has rejected the university's proposal to extend the contract, which expires in June.

**Student reveals profits of E. Lansing landlords**

A third-year law student at Michigan State University has uncovered evidence of a significant profit margin in the E. Lansing area, according to the student.

The student, who asked to remain anonymous, stated that landlords are making substantial profits on the rent they charge.

**Unfunded project battles drug addiction**

A project aimed at providing treatment for drug addiction has faced funding challenges. The project, which was funded by a grant from the National Institute on Drug Abuse, has struggled to secure additional funding due to budget constraints.

The project, which was initially funded at $2 million, has faced difficulties in obtaining additional funding. The project's director has expressed concern about the project's ability to continue its work.

**Motion put off to pull troops from Europe**

WASHINGTON (AP) - The Nixon administration is putting off for one week a show-down over a proposal to pull troops from Europe, giving time to find a way to handle the issue.

The move follows earlier moves by the House to vote on the proposal and by the Senate to send it back to the House.

The president has ordered that the troops be withdrawn from Europe, but the House has refused to agree to the withdrawal.

**Petitions for the Michigan State University**

Petitions for the Michigan State University have been circulating on campus, asking for better living conditions and more attention to student needs. The petitions call for improvements in housing, dining, and transportation services.

**Married students**

Married students at Michigan State University have faced challenges in finding adequate housing and childcare resources. The university has been working to address these issues and provide support for married students.

**ASMSU plans suit**

**Housing challenge OK'd**

By MICHAEL FOX

The ASMSU board Thursday night authorized a suit against the city of East Lansing, Michigan, to challenge the city's policy on rent control.

The ASMSU board voted 8-3 to seek a court order to stop the city from enforcing its rent control ordinance, which sets maximum rent increases for apartments.

**Staffing problem looms**

The city has been facing a staffing crisis, with a number of employees leaving the city government.

**Protest planned**

A protest is planned for next week to show solidarity with the city employees who are facing layoffs.

**Drugs**

The project aims to develop new treatments for addiction, with a focus on providing support and resources for those struggling with drug addiction.

**You don't know where you are**

A volunteer project aims to help individuals who are experiencing homelessness or other challenges.

**Patience**

A group of volunteers has been working to provide support and resources for those in need.

Tense war and Native American relations.

Michigan.  It was interesting to see the change in the relationship between the two as they discussed the events of the past few weeks.

While discussing the current events, the president mentioned the recent actions of the Native American students at State University. He stated that the students have been working closely with the administration to resolve the issues that have been causing friction.

The president also expressed his concerns about the current political climate and the impact it has on Native American communities. He encouraged the students to continue working towards a peaceful resolution.

Overall, the meeting was productive, and both parties came away with a better understanding of each other's perspectives. The president praised the students for their efforts and encouraged them to continue working towards a positive outcome.

The meeting ended with a handshake and a smile, indicating the positive atmosphere that had been created during the discussion.
War leaves Pakistan in ruin

The Old American Dream

The New:
Expressed many ways. A diacritical emergence of romanticism, aesthetics, honesty, and art. A lot of it is expressed through music. We feel Emmet Rhodes has captured some of this essence in his albums: The American Dream SP4254. A&M Records and Tapes.
The real tragedy of Vietnam

D. W. Roberts

To this battle-tested infantry officer the war in Vietnam has lost much of its mystery. It is found in a few dead Saigon civilians, victims of bullets that his soldiers fired. The more than 600,000 lives that they have lost in Vietnam. The height of tragedy is probably measured by the more than 200,000 American deaths that they have suffered.

The tragedy is not in the victims of bullets that his soldiers fired. It is the loss of the lives that they have lost in Vietnam. The height of tragedy is probably measured by the more than 200,000 American deaths that they have suffered.

Population control urged

By AUDY VALES State News Staff Writer

The state has never before made such a move toward population control, and many leaders in the state are calling for immediate action.

"We must act now to prevent the overpopulation crisis," said Governor John Smith. "There are already too many people in our state, and we must do something to control the growth."
You, the news said, "delightful..."

Mrs. Romney supported the students' efforts to stop the killing of Cambodians in the Cambodian refugee camp at McLean. She was in favor of giving the students the opportunity to participate in the Cambodian refugee camp at McLean, she said. "They should have the experience that I am interested in..." she added.

Since the election in November, Mrs. Romney has been involved in the National Conference of Christians and Jews. She is the second woman to hold that position.

We have been honoring people who have demonstrated kindness to non-Jewish students, she said, "and I think it's important to show that..." Mrs. Romney said that she was aware of the student's interest in the social issues of the day. She said that she was aware of the student's desire to be involved in the world of politics.

**Boyle big man in record books**

By JON VOGEL

State News Sports Writer

Gary Boyle is placed in an appropriate spot in the MSU batting order. Leadoff has become appropriate when considering his hitting since coming to the team in the last two seasons and his record of two two-out, two-run hits in his first two seasons. His hitting has been a plus for the team.

Boyle is the only player in the lineup who has played in all 25 MSU games this season. His average of .375 is the highest average on the team. He is also hitting .400 in 11 conference games.

Boyle has had 60 hits in 155 at-bats this season, which is the highest total on the team. He has 10 doubles and six triples, which is also the highest total on the team.

Boyle's hitting has been a key factor in the team's success. He has 11 home runs, which is also the highest total on the team. He has 46 runs batted in, which is also the highest total on the team.

Boyle's hitting has been consistent all season. He has hit .375 in the first 11 games of the season, .366 in the second 11 games of the season, and .396 in the last 33 games of the season.

Boyle's hitting has also been consistent in league games. He has hit .393 in conference games and .371 in non-conference games.

Four 'S' trackmen in last home meet

By JOY KOPRIVA

Steve Kopriva Sports Writer

Bill has got a problem. It's that pesky triple that he had to study on Saturday. He's still thinking about that one. He and John have been working on it for the past three days and they've got it almost solved.

But there are other problems that need to be solved as well. There are the issues of developing a winning team, and making sure that their opponents are prepared.

JANUARY 31

It's a cold day in the Big Ten conference this season. The temperature is below freezing, and the winds are howling. It's a tough environment for any track team, but the 'S' boys have been working hard to prepare for this kind of weather.

Bill has been working on a new training program that will help the team stay warm and dry during practice. He's also been looking into new types of equipment that might be able to help them in this kind of weather.

**PRACTICAL**

In PRACTICAL, Canonero II favored

RACONTOUR, 11 (UP) -- They drove for post positions Sunday morning at Aqueduct, but in the end it was to no avail as they took two weeks off in a row.

yevgeny yevshenko

It was foggy on the Monterey Peninsula that morning. The roads were lined with young people—old people—in between people. The nooey sun peaked through the grey. Blue skies and a warm afternoon mingled lightly with pastel shirts and pleasant scenes. The grandstands were packed as Joan Baez walked center stage amidst a tremulous roar of applause. AplODY titled: CEREMONIAL; it was. More than anything else it reflected man's desire to create a microcosm of beauty amidst a world torn by violence and hatred. He confirmed his innate goodness. It reinforced our belief that each person makes an important contribution to the whole. We call our own wintry triple. Multipled a thousand fold, we created a tidal wave of understanding. It was one hell of a beautiful day. Mercy Clayton was there; Kris Kristofferson, too. Linda Rondstadt and the Beach Boys and thousands of people singing, enjoying, swaying, loving. And thanks to tape. Now there's an album. Its
ters are donating all royalties from Non-Violence, Palo Alto, Calif.

Lou Adler, some of the day was captured titled: CEREMONIAL. The artists and producers in sale to the Institute for the Study of Non-Violence in some moment to stop and listen.
Frosh highlight secondary

By GARY SCHRANNER
State News Sport Writer

The biggest thing for the Michigan coaching staff on the outset of spring football drills was the rebuilding of the defensive secondary, particularly in the defensive backfield. Junior Ken McLean has been moved from last season's strong safety position to free safety to add versatilty to the defense and to recover from eligibility problems and the injury bug in a definite position.

But the rapid development of young defensive backs has been the most pleasant surprise of spring practice, Spartan Coach Ed Bruce said. "(W.) Mike Holt, Paul Hayden, Bill Baskett, Dave Rawlings and John Lawrence have all stepped up to fill the void in the secondary." Bruce said.

Ken McLean, who has been playing the strong safety spot, had the misfortune of knowing where the ball was much of the time. His style, according to Bruce, is "a hard hitter who knows how to hit." He Gotham is also responsible for taking the place of the outgoing junior McLean in the backfield.

McLean himself has been moved to the free safety position to get back on the field and to work more on tackling. "We want to make sure he knows what he's doing before he moves in there." Bruce said.

Several key battles are still being played out as spring practice winds down. Senior Tom Bolen and junior Dave Rawlings are going for the starting job at the strong safety position, while junior Kip Shaw and senior Jim Baskett are going for the starting job at free safety.

Senior Tom Bolen is another line backer prospect who is being switched from defensive line backer to free safety. Bolen is big and strong and is expected to be a solid defensive player. He is the starting player at left backer for the Michigan football team.

Bolen's style is also "a hard hitter who knows how to hit." He is also responsible for taking the place of the outgoing junior McLean in the backfield.

Junior Dave Rawlings is another line backer prospect who is being switched from defensive line backer to free safety. Rawlings is big and strong and is expected to be a solid defensive player. He is the starting player at left backer for the Michigan football team.

Rawlings' style is also "a hard hitter who knows how to hit." He is also responsible for taking the place of the outgoing junior McLean in the backfield.

Junior Kip Shaw and senior Jim Baskett are going for the starting job at free safety. Both players are expected to be strong, solid defensive players. Shaw is the starting player at free safety for the Michigan football team, while Baskett is the starting player at free safety for the Michigan football team.

Shaw's style is "a hard hitter who knows how to hit." He is also responsible for taking the place of the outgoing junior McLean in the backfield.

Baskett's style is also "a hard hitter who knows how to hit." He is also responsible for taking the place of the outgoing junior McLean in the backfield.

With the return of several players from last season's strong safety position, the Spartan secondary is expected to be just as strong as it was last season. The secondary, according to Bruce, is "a hard hitter who knows how to hit." He is also responsible for taking the place of the outgoing junior McLean in the backfield.

Bruce is also expected to return to the starting lineup at free safety. Bruce is expected to be a solid defensive player. He is the starting player at free safety for the Michigan football team.

Bruce's style is also "a hard hitter who knows how to hit." He is also responsible for taking the place of the outgoing junior McLean in the backfield.

Chances for vote viewed dim

(Continued from page one) The Senate, AASP members will meet to discuss the results of the organization's bills, and to determine whether to bring them up for a vote. The Senate met last night but did not have a quorum, so the bills were not debated.

John A. Alar, former congressman from Michigan, was killed in a plane crash in Lebanon. Alar was a well-known Democrat and was considered one of the most effective minority leaders in Congress. He was loved by his constituents and was known for his progressive views on issues such as civil rights and foreign policy.

Former ambassador to talk on African art

John A. Alar will speak on African arts and culture at 8 p.m. on Friday in 1100 Hall. Alar, former ambassador from Senegal, resigned from his post about two weeks ago as a public demonstration of former Prime Minister Daka Stevens, who declared Senegal a republic of state itself, en route to positive political, economic, social and cultural development.

Project battling addiction

The project, which is sponsored by the African Studies Department, is designed to help individuals overcome addiction and improve their quality of life.

Gas Mileage Plus Performance

TOYOTA has the Combination

Progressive linkage dual throat carburetion uses only half the carburetor for economy in normal driving

Want Power? Push the the pedal to the floor. It opens the second throat and gives you brisk acceleration to well over 100 MPH

No wonder TOYOTA CORONA is the best selling imported 4 dr. sedan on the market.!!!
