Bishop eats grass at rally

A 66-year-old Anglican bishop ate grass in Trafalgar Square in London Sunday to protest world poverty.

It lasted "a little like truc," as he said.

Black sheriff on trial

Alabama's first 20th-century black sheriff, Lorraine Ammons of Marion County, went on trial today, accused of beating a black prisoner who arrested a drunk driving suspect in 1977 and later sent him to the county jail.

Ammons, 37, and his chief deputy, Richard Edmond Jr., also black, are charged under federal instruments with depriving the prisoner of his civil rights by inflicting "summary punishment" following the shooting at the Marion County jail in the county jail last Aug. 22. Maximum penalty is one year in jail and a $1,000 fine.

Obstacles seen to detente

Moscow's Pravda charged Sunday that the U.S. must "agree on complex and difficult" as the Atlantic Treaty Organization (NATO) are the main obstacles to a peaceful détente in Europe.

T'Y Communist Party paper said the NATO alliance is "a branch of the Pentagon and State Dept. . . and has become the basis of 20 years to shape policies in western Europe."

It added that if it cannot control its irritation at the mounting tension in a number of western European countries to uphold the national interests of their states."

Nixon cannon drive: more for him than us

The all-out effort against cancer announced today by President Nixon is most welcome. Doctors have long been claiming that the nation is losing its battle against cancer. The President has now provided both the will and the money to take on this disease in a more concerted and effective way.

But there is a dark cloud on the horizon. It is the number of cancer deaths. The number could be reduced only if we found a cure for this disease. But the President has now provided both the will and the money to take on this disease in a more concerted and effective way.

The announcement should not be denounced simply because it leads to jobs politically from the moderate coalition, which is still fighting for its mandate. The total health program still does not provide the necessary services to cover the needs of this large group of people. Medical technology has progressed so fast that it is not possible to treat a wide range of illnesses. Yet, most of these services remain out of reach for many.

Health care costs have risen so rapidly in the past few years that the average person's income is not enough to cover the costs. As a result, the poor and the elderly are unable to afford the necessary care. The government should act to ensure that all Americans have access to quality health care.

MSU: what you see
not really what you get

There is an interesting little MSU pamphlet circulating about the University and the nation entitled "Interchange For Prospective Students." Essentially, it is a relatively short pamphlet, but it is a good read and should be read.

In the interests of equity, however, the University appears to have at least tried to play Mills to the University's students. A pamphlet called "Translating for the Doubly Dumb" appears to have been written for the benefit of those students who may feel that they have not been told the whole truth about what MSU is really like.

"The spirit is high here at State," it begins, "and you are in the presence of a proud Madisonian.""The campus is not a place to relax, it seems, but a place where one must work hard and strive to achieve the best possible results.

"We have no lack - the world is..." Mr. Mitchell sees "red"

Attorney General Mitchell, who heads the federal administration, has once again been called to task for his handling of the situation.

At a recent breakfast meeting, Mr. Mitchell was asked by some of the attendees what he thought the "Communist-oriented or related backgrounds, his further statement that he had "no doubt" that some anti-communist groups were involved in a "Communist source." Mr. Mitchell declined, however, to indicate what, if anything, a "Communist source" could mean in the context of the situation.

WASP's moving up in Navy's mess halls

WASHINGTON — There was much surprise among certain Navy sources that the Wasp, a new ship, will be the first to be commissioned into the Navy. This will be a significant event, especially for the WASP's, who have long been excluded from the Navy's mess halls.

The Wasp was built by the now-defunct Angle-Son Corporation and was named after the WASP, a class of women who served as military nurses during World War II.

Stung by the report, the Navy, that was long ago had been approached by the Angle-Son Corporation, had this to say: "We are not surprised at all. We have always been aware of the WASP's potential.

"Our decision to accept the Wasp, a new ship, to be commissioned into the Navy, will have a positive impact on the WASP's. The WASP's have always been considered to be patriotic and would be proud to serve in the Navy."
INMATES RUN PROGRAM

Prison permits conjugal visits

The administration of the prison programs also includes the監管 of inmates, who have been granted a form of conjugal visits. Each conjugal visit has to go through a rigorous process to ensure the inmates' safety and security. The conjugal visits provide an opportunity for inmates and their partners to share a special moment. The program is designed to be conducted in a manner that allows for a just and fair implementation. The conjugal visits are scheduled in advance and are monitored by prison officials to ensure compliance with the established regulations.

Leaning tower of Morrill

By looking at this window in Morrill Hall, one would probably imagine that the building was built by an architect who understood the benefits of good design and the importance of a balanced structure.

AT FRIDAY MEETING

Trustees could set rates

The Board of Trustees will vote on the rate issue, but the university's president said the board's decision will be based on what it deems best for the university and its students.

Hold card policy gets nod;

goes into effect fall term

By SYLVIA SMITH

The policy will go into effect in 1972. The university's president said the policy will be implemented in 1972.

The policy will be implemented in 1972. The university's president said the policy will be implemented in 1972.

Chinese professor plans lecture on literature

By W. L. H. W. Wilson

The author is a well-known professor of Chinese literature and has written extensively on the subject. The lecture will likely be of interest to those who are interested in Chinese literature and culture.

Winemaking class trains students to do it yourself

By ANNE HEFRO

More than 33 MSU students have been fermenting wine this spring, following a “winemaking 101” course. Anyone interested in learning about the craft of wine making is invited to participate in the class.

"You can make wine out of anything you can find in the woods," explained Van Horn, Battle Creek writer and educator.

"We've talked about life, love, and why we felt giving birth was the best part of our lives."

"You can make wine out of anything you can find in the woods," Van Horn continued.

"I've always had a passion for the outdoors and I enjoy sharing my knowledge with others." Van Horn added.

"I've always had a passion for the outdoors and I enjoy sharing my knowledge with others," Van Horn added.

The course is designed to teach the basic principles of winemaking, from understanding the grape to bottling the finished product. Students will learn about different types of grapes and how they are used to make different styles of wine. They will also learn about the importance of sanitation and the use of sulfites.

"Winemaking is a complex process that involves many steps," Van Horn explained. "It's important to understand each step in order to make a successful wine."
**Director reports fee for pool use**

For the first time, a fee will be charged at the outdoor pool at the Herrick Intramural Swimming Center. Although the fee will not be enforced until the swimming season begins in June, it will be available for use on a trial basis. The fee will be $220 for the entire summer season or $100 for a half season. The fee will be charged to all members of the pool, except those who are registered for the swimming team.

The fee is being charged to help defray the cost of maintaining the pool, which includes the cost of chemicals, labor, and maintenance. The fee will be charged to all members of the pool, except those who are registered for the swimming team.

**Motor bike problem cited**

Motor bike theft has become a common occurrence on campus, and the police are working to reduce the problem. The thefts have been reported in the past several weeks, and the police are now taking steps to prevent them.

**Whites rout Green, 42-0**

By GARY SCHARRER *State News Sports Writer*

The game was supposed to be close, the Green squad was slightly favored to win, but a formidable White team upset the high-scoring Spartans, 42-0, at the annual intrasquad game Saturday.

Paced by the accurate passing of senior quarterback Mike Rasmussen, the outstanding running of Fred Baker and Billy Joe DuPree and the outstanding play of the defense, the White team eliminated any hopes the Spartans had of a comeback.

The White team scored on its opening possession of the game, which ended in a 1-yard pass to Freddie Johnson from the 1-yard line. The latter score was set up by the efforts of the Green's defense.

Three plays later Rasmussen hit Randy Davis close in the corner of the end zone for the second point of the game. With 3:15 remaining in the first half, Rasmussen threw a 43-yard touchdown pass to Frank Baker. Moments later sophomores-to-be Ron Karmings intercepted a Miners' pass and returned it 27 yards for another White touchdown. The quarter ended with the Green team lasting halfback Easton Anderson with a spirited eleven-yard run, but Green's efforts were not enough.

Judge a Mercedes-Benz over miles of twisting back roads.

Not "once around the block in light traffic!"

By DON KOPRIVA

State News Sports Writer

The white team outgunned the Spartans by a score of 3-0 in the first half and never let the score slip more than six points in the game.

And that was because the two were underdogs for the Spartans of years past. But by 1968, the Middle Michigan Sophomore and the Mid-Senior Sophomore had changed the fortunes of the Spartans.

The Winter team continued to dominate halfback action but what happened in the second quarter was the real score. The Green team last halfback Easton Anderson with a spirited eleven-yard run, but Green's efforts were not enough.

**Batsmen win three, near title**

By MIKE AMBERICK  
State News Sports Writer

Closing in on their third title, the MSU batsmen have scored 16 runs in their last two games to tie with the Spartans in the race for the Big Ten crown. The MSL's batting average on the season is .283, and the Spartans are at .284. As many runs as the MSU batsmen have scored in their last two games, the MSL's batting average is down to .275.

Black film maker to discuss work

The final meeting of the 1975-76 academic year of the Electrolyte Faculty Council will be held at 3:30 p.m. Tuesday in the Student Union Ballroom.

The meeting, sponsored by the Dept. of Electrical Engineering and the Electrolyte Faculty Council, will consist of three main topics: the consideration of the Institute's student government, a discussion of the faculty's role in the National Science Foundation, and the consideration of the student government's role in the National Institutes of Health.

The student government's role in the National Institutes of Health will be discussed at the meeting, and the faculty's role in the National Science Foundation will be considered.

The meeting will be open to the public, and all interested members of the faculty are encouraged to attend.

Last meeting for council

By WANDA HERON

State News Staff Writer

A near-perfect sunny day, flying fishermen, folk music, football games and numismatics comprise the fare at the 3rd Annual World's Fair of the International Center. The agenda was sponsored by the Dept. of Art, featuring the considerable interest in numismatics on campus, Erving R. Brauner, director of organizations, and Wanda Heron was named to head its innovative use of film.

The film, which will be broadcast by the Doom student-run television station, will be introduced by Debrah Warton, wife of the head of the Department of Art, and will be shown at 11 a.m. and 3 p.m. in the Student Union Ballroom.
