MOROCCAN KING ENDS MARCH

AGADIR, Morocco (AP) — King Hassan II announced Saturday that his "March of Conquest," into the Spanish Sahara had "bubbled its objectives" and called on the government to rescind its evacuation order to restore normalcy to the kingdom. He also announced the beginning of talks with the Spanish government to end the crisis.

In a televised address to the nation, Hassan II said that he had decided to stop the military operation "in light of the positive developments in our relations with Spain." He added that he would continue to "fight for the sovereignty and territorial integrity of our country." The king also pledged to "affirm the principles of democracy and social justice" in Morocco.

The king's decision comes after weeks of turmoil in the kingdom, where thousands of Moroccans have taken to the streets to demand independence for Western Sahara, a former Spanish colony now occupied by Morocco.

Hassan II said that the Spanish government had agreed to a "dialogue" with Morocco on the issue, and that he would travel to Madrid to meet with Spanish Prime Minister Felipe Gonzalez. The king added that he would "continue to fight for the sovereignty and territorial integrity of our country." He also pledged to "affirm the principles of democracy and social justice" in Morocco.

The king's announcement was met with cheers and applause in the streets of Casablanca, the kingdom's capital, where protests had been ongoing for weeks.

"The king's decision is a victory for the Moroccan people," said one demonstrator. "We have been fighting for this for years, and finally we have won." Another added, "This is a historic moment for Morocco. We are finally going to have our independence."
REA delivery system bankrupt

NEW YORK (AP) — REA Express, Inc., the nation's largest regional express company, said it will close business in a week to 10 days with a loss of about $500,000, a conservative figure.

REA will deliver all the packages it currently has, but will not accept any new ones.

Hearst told to enter plea today

SALT LAKE CITY (AP) — Patricia Hearst, the 21-year-old heiress to the California Capital. She is the daughter of publisher William Randolph Hearst. New charges have been filed against her for her role in the 1974 robbery of the elderly widow's fortune.

Ford expected to veto new price control bill

WASHINGTON (AP) — President Ford today vetoed a new price control bill that would have imposed nationwide price controls on all commodities, including gasoline, electric power, and water. The bill would have been the most far-reaching price control legislation since the Depression, and it would have been used to control the prices of all goods and services, including food, clothing, housing, and transportation.

The veto was unexpected, as Ford had previously indicated that he was willing to support price controls in principle. However, the veto was based on the grounds that the bill was too broad and would have had a negative impact on the economy.

It is possible that Ford will sign a revised version of the bill, which would be more narrowly tailored to address specific price problems. In the meantime, the price control debate continues, with both supporters and opponents calling for action.

Fromme gets second chance

SACRAMENTO (AP) — Lynette Fromme, a former member of the SLA, was granted a second chance today after a jury in Sacramento convicted her of conspiracy to murder President Ford.

Fromme, who was convicted in 1975 of planning to assassinate Ford, had been sentenced to life in prison. However, a federal judge ruled that her conviction was based on perjured testimony and granted her a new trial.

Fromme, who is now 62 years old, will be retried on the same charges. It is unknown how long it will take for her retrial to be scheduled.

Unemployment rate up again

WASHINGTON (AP) — The unemployment rate rose again in March, reaching 8.6 percent of the labor force, the highest level since 1975. The unemployment rate increased by 0.3 percentage points, from 8.3 percent in February to 8.6 percent in March.

The increase was due to a combination of factors, including a weak economy, high energy prices, and the effects of the war with Iraq.

The increase in unemployment is likely to continue, as the economy is expected to slow further in the coming months.
Expenditure cuts rejected, consumer bill authorized

WASHINGTON - Major budget cuts have been rejected by the Senate Finance Committee by a vote of 15-9, the first significant defeat of President Johnson's domestic programs in the history of the 94th Congress.

Senator Robert Byrd, D-W. Va., the Finance Committee chairman, said he was discouraged by the decision to reject the committee's own work and the committee's own proposal, despite the fact that the Finance Committee had already approved a version of the bill. The vote was a setback for the administration's efforts to cut spending and reduce the budget deficit.

Senator John Stennis, D-Miss., a member of the Senate Armed Services Committee, said he was concerned about the impact of the cuts on defense programs. The Senate has been asked to consider cutting defense spending, but Stennis said he believed the cuts would have a negative impact on national security.

Senator Ted Kennedy, D-Mass., the chairman of the Senate Commerce Committee, said he was disappointed by the vote. The Commerce Committee had approved a version of the bill that would have provided more funding for domestic programs, but the committee was overruled by the Senate.

Senator Harry Reid, D-Nev., the Senate Majority Leader, said he was concerned about the impact of the cuts on the economy. The Senate has been asked to consider cutting domestic programs, but Reid said he believed the cuts would have a negative impact on the economy.

Senator Orrin Hatch, R-Utah, the Senate Finance Committee ranking minority member, said he was concerned about the impact of the cuts on the deficit. The Senate has been asked to consider cutting the deficit, but Hatch said he believed the cuts would have a negative impact on the deficit.

Senator Charles Grassley, R-Iowa, the Senate Agriculture Committee chairman, said he was concerned about the impact of the cuts on agriculture. The Senate has been asked to consider cutting agriculture programs, but Grassley said he believed the cuts would have a negative impact on agriculture.

Senator Edward Kennedy, D-Mass., the Senate Banking Committee chairman, said he was concerned about the impact of the cuts on financial services. The Senate has been asked to consider cutting financial services programs, but Kennedy said he believed the cuts would have a negative impact on financial services.

Senator Chuck Grassley, R-Iowa, the Senate Finance Committee ranking minority member, said he was concerned about the impact of the cuts on the deficit. The Senate has been asked to consider cutting the deficit, but Grassley said he believed the cuts would have a negative impact on the deficit.

Senator Susan Collins, R-Maine, the Senate Commerce Committee ranking minority member, said she was concerned about the impact of the cuts on trade. The Senate has been asked to consider cutting trade programs, but Collins said she believed the cuts would have a negative impact on trade.

Senator John Barrasso, R-Wyo., the Senate Environment and Public Works Committee ranking minority member, said he was concerned about the impact of the cuts on the environment. The Senate has been asked to consider cutting environment programs, but Barrasso said he believed the cuts would have a negative impact on the environment.

Senator Tom Harken, D-Iowa, the Senate Health, Education, Labor and Pensions Committee chairman, said he was concerned about the impact of the cuts on health care. The Senate has been asked to consider cutting health care programs, but Harken said he believed the cuts would have a negative impact on health care.

Senator Jim Inhofe, R-Oklahoma, the Senate Appropriations Committee ranking minority member, said he was concerned about the impact of the cuts on defense. The Senate has been asked to consider cutting defense programs, but Inhofe said he believed the cuts would have a negative impact on defense.

Senator Lindsey Graham, R-South Carolina, the Senate Rules and Administration Committee chairman, said he was concerned about the impact of the cuts on the Senate. The Senate has been asked to consider cutting Senate programs, but Graham said he believed the cuts would have a negative impact on the Senate.

Senator Chuck Grassley, R-Iowa, the Senate Finance Committee ranking minority member, said he was concerned about the impact of the cuts on the deficit. The Senate has been asked to consider cutting the deficit, but Grassley said he believed the cuts would have a negative impact on the deficit.

Senator Susan Collins, R-Maine, the Senate Commerce Committee ranking minority member, said she was concerned about the impact of the cuts on trade. The Senate has been asked to consider cutting trade programs, but Collins said she believed the cuts would have a negative impact on trade.

Senator John Barrasso, R-Wyo., the Senate Environment and Public Works Committee ranking minority member, said he was concerned about the impact of the cuts on the environment. The Senate has been asked to consider cutting environment programs, but Barrasso said he believed the cuts would have a negative impact on the environment.

Senator Tom Harken, D-Iowa, the Senate Health, Education, Labor and Pensions Committee chairman, said he was concerned about the impact of the cuts on health care. The Senate has been asked to consider cutting health care programs, but Harken said he believed the cuts would have a negative impact on health care.

Senator Jim Inhofe, R-Oklahoma, the Senate Appropriations Committee ranking minority member, said he was concerned about the impact of the cuts on defense. The Senate has been asked to consider cutting defense programs, but Inhofe said he believed the cuts would have a negative impact on defense.

Senator Lindsey Graham, R-South Carolina, the Senate Rules and Administration Committee chairman, said he was concerned about the impact of the cuts on the Senate. The Senate has been asked to consider cutting Senate programs, but Graham said he believed the cuts would have a negative impact on the Senate.
Residency rules need unsnarling

These students who wish to receive a break or their tuition by seeking to establish Michigan residency have to undergo more impediments than usual. Sustained over a period of 11 years, this problem has come to the forefront of public attention. While there is a lack of precise statistics regarding the exact number of students affected, it is estimated that thousands of students are impacted by this issue. The problem encompasses not only financial concerns but also educational and social implications. It is essential to clarify the residency rules to ensure fair treatment for all students. 

Elliott, who is a staff writer of The Ann Arbor News, covers the issue comprehensively. He highlights the complexity of the situation and calls for a more transparent and equitable approach. His article provides valuable insights and arguments for change and improvement. 

Mail ballots bad solution

Many faculty members are understanted that the meetings of the Board of Regents - the body which comprises all tenured faculty - are held during the afternoon, when they may conflict with other academic duties. However, the proposed solution of voting by mail ballot is unsatisfactory.

First, it should be noted that many faculty members fail to attend the meetings not because of inconvenience, but because of obligations - they just do not care enough to attend.

Second, it should be remembered that the Senate is a forum for discussion by the delegation of matters that seriously affect the quality of the education of the University. Voting by mail would relieve professors of the necessity of discussing the burden of discussion and debate about what is essentially meaningless.

Instead of this suggestion, the University Senate's Finance Committee should take prompt action on the resolution proposed. Students who have attempted to prevent their way through the tangled jungle of the University bureaucracy in hopes of financial relief will realize what a welcome change new procedures would be.

Old Robert Kentor is finally ready, meaning President Ford is ready, and even with only 10% of the vote in the two per cent category, he probably the leading contender. He new S. An innovative student body the importance of the project a proposed a portion of hundreds of thousands of dollars a year, a figure for a character of which is popular. Kansas, the way the seat of the actual way in which the desire for money is the University. What's wrong with that statement?

It's the same old story. As soon as she was voted a seat on the Board of Directors when the University is running smoothly, she has been adopted by the new faculty. 

One wonders exactly what the thought of the officers and their support is. It is our hope that the officers will see the light and have a more robust and effective working relationship with the Board of Directors.

Women and the editorial team are unhappy.

There is almost unanimous agreement throughout the board that New York City must be protected or it will become a crime city. Everyone agrees New Yorkers have to be made to realize they cannot start a damn thing without paying for it.

The police force is in what is known as a "decency" mode of operation. If New Yorkers vote for a police who are well paid and well respected, then the police force will do their job.

The police force is in what is known as a "decency" mode of operation. If New Yorkers vote for a police who are well paid and well respected, then the police force will do their job. 

There are few words that are worse than "crime.

Our board of directors is in charge of the police force.

We have the president of the New York Times in trouble.

"We have the president of the New York Times in trouble," said the board of directors.

"The police force is in what is known as a "decency" mode of operation. If New Yorkers vote for a police who are well paid and well respected, then the police force will do their job.

"There are few words that are worse than "crime.

"Our board of directors is in charge of the police force."
VIEWPOINT: Cutbacks, Tuition

Defend your educational rights

By John Carnall

The Mec Council of Faculty has raised students here by an unprecedented amount, but the real story is that the University is getting away with it. The Council has cut a $9 billion increase for the next term, and now they are planning to cut at least another $2.5 billion in the following year. This is not just a matter of increasing the cost of tuition. It is, in fact, a matter of educational policy. This is a matter of the future of the University and its ability to attract and retain good teachers and students.

The first tuition increase, which was voted by the Board of Trustees last year, was intended to be temporary and to help cover the costs of inflation. However, the increase has been continued every year since then, and now it is clear that the trend is heading in that direction. The University needs to take a hard look at its educational priorities and the way it spends its money. The tuition increase is just one example of how the University is neglecting its most important resources.

The tuition increase is a clear indication that the University is not committed to the education of its students. The University is not only neglecting its educational mission, but it is also neglecting its obligations to its students. The University should take this increase as a warning and begin to address its educational priorities.

The University has a responsibility to its students, and it should be held accountable for its actions. The University should be required to justify its tuition increase, and it should be held accountable for the education it provides. The University should be held accountable for its decisions, and it should be held accountable for its actions. The University should be held accountable for its priorities, and it should be held accountable for its education.

The University should also be held accountable for its budget. The University should be required to justify its budget, and it should be held accountable for its priorities. The University should be required to justify its budget, and it should be held accountable for its education. Ebonys present two gold record groups  

By GUSTAVO ARAYA  
Special Reviewer  
"I have to tell the young people that they do not have to let the mission of the Ozark be a dead man's song."

The MSU Symphony orchestra will present a concert of folk material today at 6:30 p.m. in the Auditorium, 100 E. Harrison. Under the baton of Dr. Rackensack, the program will include "Red River Valley," "Molly Malone" and "It's a Long Way to Tipperary," all performed by the MSU Symphony Orchestra.  

**THE PERFORMING ARTS COMPANY**  
**BOYCE ADDISON**

The product of the production is very impressive. The production emphasizes theuder's love for folk material and the way it is presented. The result is a wonderful concert that will appeal to a wide range of audiences.
McCarthy speaks on campaign

By NICK MCMILLAN

Eugene McCarthy and the Democratic Party were the main counters at the Democratic National Convention this week, and both presidential candidates were ready to turn this into an opportunity for public image building.

Based on that belief, they came to the 1968 election for the same reason as the 1964 election: to win the majority of American votes.

The Republican nominee, Richard Nixon, was in two states: New York and New Hampshire. McCarthy was in the middle of his primary campaign, and the general election campaign had not yet started.

No one expected McCarthy to win the nomination, but he hoped to get enough delegates to become the party's candidate for the presidency.

However, McCarthy's campaign was in trouble. He was behind in the polls, and the party was losing members.

The national committee of the Democratic Party was not happy with McCarthy's performance, and there were concerns about his ability to win the nomination.

In an attempt to turn this around, McCarthy decided to focus on the issues of the Vietnam War and his opposition to it.

He believed that he could win the nomination by emphasizing his opposition to the war, and he was willing to accept a nomination that did not include the White House.

McCarthy's campaign was being run by his wife, Janet, and his daughter, Jane. They were both strong supporters of their father's campaign, and they were working hard to get him the nomination.

The campaign was plagued by internal disagreements, and McCarthy was struggling to keep his supporters together.

Despite these challenges, McCarthy was determined to continue his campaign. He believed that he had a strong message, and he was confident that he could win the nomination if he followed through with his plans.

The campaign was a turning point in McCarthy's career, and it was a reminder of the importance of perseverance in politics. McCarthy would go on to have a successful political career, and he would continue to be a vocal critic of the Vietnam War.
By PEGGY GROSZ

STORRS, Conn. — Last Saturday's victory over Banditt, 15-4, 15-8, 15-0, is the one that Lilly and the Spartans have been waiting for. The win over the number one team in the nation, the team that the Spartans have faced in the past, has finally been won.

The young duo of Lilly and a sophomore who has had the most wins, is the team that the Spartans have been waiting for. The team that has been the most successful in the Big Ten and the Big Eight, is the team that the Spartans have been waiting for. The team that has been the most successful in the Big Ten and the Big Eight, is the team that the Spartans have been waiting for.

The first game of the season, the one that is most important, is the game that the Spartans have been waiting for. The game that the Spartans have been waiting for.

The Spartans defeated the Hoosiers, 3-2, and in the first half of the game, the Spartans took the lead and never looked back. The Spartans are now 3-2 for the season and are a major contender for the Big Ten title.

The Spartans won the first half, 15-4, and the second half, 15-0, to win the game, 3-2. The Spartans are now 3-2 for the season and are a major contender for the Big Ten title.

Women fly high with Winged Spartans

The Winged Spartans were aided in their FAIR 112 trip to Los Angeles, making the round trip in only $1,500. The trip was possible because of the support of the Spartan Boosters Club, which provided the funds necessary for the trip. The trip included a visit to the University of California at Los Angeles, where the Spartans were able to observe the university's facilities and meet with students.

The trip also included a visit to the Los Angeles Times, where the Spartans were able to observe the newspaper's operations and meet with reporters. The trip was a success and the Spartans were able to observe many different aspects of the university and the city.

The trip was sponsored by the Spartan Boosters Club, which is an organization that supports the university's athletic teams. The club is made up of alumni and other supporters who contribute funds to support the teams. The club is an important source of funding for the university's athletic programs and has helped to make it one of the most successful programs in the country.

The trip was a great success and the Spartans were able to observe many different aspects of the university and the city. The trip was a great opportunity for the students to learn about the operations of the university and the newspaper, as well as to meet with other students and faculty. The trip was a great success and the Spartans were able to learn a lot from the experience.

The trip was a great opportunity for the students to learn about the operations of the university and the newspaper, as well as to meet with other students and faculty. The trip was a great success and the Spartans were able to learn a lot from the experience.
Experiments using bionics study nature of muscles

We're open 11:00 A.M. - 11:00 P.M. Monday - Saturday and 11:00 A.M. - 10:00 P.M. Sunday! Come on in and enjoy our newly renovated interior and atmosphere! We've added new seating options including our popular, comfortable booths, tables with umbrellas, chairs, and stools. Our menu has been expanded to include new entrées and appetizers, as well as a variety of our classic favorites. Don't forget to try our new dessert offerings, including our delicious seasonal specials.

We're also happy to announce that we now offer live music on select evenings, featuring a variety of local and regional musicians. Check our website for more details and to purchase tickets for upcoming events. Our staff is dedicated to providing exceptional service and a memorable dining experience. We look forward to seeing you soon at Burger King!

Connolly claims he will not run on Republican ticket

continued from page 10

hands in, that the Coalition to End the War in Vietnam is not subject to the "judicial scrutiny of enemy" argument.

He suggested that the U.S. does not declassify its conduct of foreign policy and reserves it to a policy of "mistrust and honesty."

The concentration of campaign resources of the Republicans in the first year or two did not result in the kind of campaign administration under both parties since the days of McCarthy's famous Senate hearing. But he received his particular message: the Detroit News and Detroit Free Press, as well as the Detroit News and Detroit Free Press, as a hearing that the government's security and prosperity of the people were for his purposes.
