Marches held in West Bank

BETHLEHEM, West Bank (AP)—Thousands of Palestinians marched through the West Bank on Saturday, rejecting the Israeli government's announcement that it will begin evacuating settlements in the West Bank.

The Palestinian Authority, which governs the West Bank, said it was preparing to take legal action against the Israeli government for the announcement.

The announcement was made after a meeting between Israeli Prime Minister Benjamin Netanyahu and the Palestinian Authority earlier this week. The Palestinians said they would not accept the announcement.

Netanyahu said the announcement was made in consultation with the United States and the European Union. He said the announcement was made to facilitate a peace process.

Ban Taser once and for all

The state legislature has given its final approval to legislation banning the sale, use or possession of the Taser electronic control weapon at this time. No discussion as to whether or not the weapon's ban will go into effect now rests with the governor.

The Taser, an electronic dart gun which immobilizes by volts with a 50,000 volt charge, was originally designed as a new weapon for law enforcement. Police, however, found it to be so impressive in its efficiency that the device has been sold to the public as a defense against muggers and other intruders.

Advertised as the alternative to the gun, the Taser was known to be used by many law enforcement officials, committing crimes as it was by citizens attempting to defend themselves.

We commend the legislature for taking swift and determined steps toward the banishment of this potentially lethal weapon.

Indeed it is a shattering thought, knowing that such a dangerous weapon was allowed to be sold on the market, much to the ignorance of government officials. The only result was that the Taser was brought to the disposal of the public free from all gun restrictions and could be purchased without the sexual registration and licensing procedures that accompany the gun purchase.

We suggest that the legislature take further action in this matter to prevent the possibility that such a weapon could be over the hands of the public again without examination and approval.

The sale and possession of the pistol depends on the wisdom of our representatives. Acting quickly and justifiably when forced to act in order to protect the safety of the public, acting with forethought in the true measure of the practical wisdom we demand of our government leaders.

We urge Gov. Miller to sign the bill so that the Taser ban can go into effect immediately. With that burden removed from the shoulders of our lawmakers, it then can begin to act on the urgent legislation that will prevent such a situation from arising ever again.

---

Maybe in the 1980s, the use of this electronic weapon may have some justification. But it is impractical and unnecessary, considering the fact that we already have in our state a reputation as one of the toughest on the law.

We cannot know how much of the current apprehension about Richard Nixon has been alleviated. A brash, but effective and strong, leader is needed in the face of his life in the White House. It brings to mind the words of Kimball Holmes, not about the President, but about the American people. We have learned the lesson of history that a President must be surrounded by strong, able advisors.

The 1976 presidential candidate should be an Oregonian, someone who has been a part of the American experience. The man should be a leader of the private sector and can control the executive branch of government.

The two main issues that are uppermost in the minds of people right now are the war in Lebanon and the situation in the Middle East.

Easter brings hope in Lebanon

The year-old Lebanese civil war has been the civil war. It has been the source of international concern and aid to Lebanon, but of far greater concern has been the situation in the Middle East.

The Lebanese conflict is one of the most serious regional events of our time. It is a civil war between the Arabs and the Jews, but it is also a war between the West and the East.

The United Nations has been trying to bring peace to Lebanon for years, but without success. The situation is further complicated by the presence of several foreign armies in the country, including the Israelis, the Egyptians, and the Americans.

Despite the difficulties, the United Nations continues to work towards a peaceful solution. The countries involved have agreed to a truce, but this has not yet been implemented.

It is hoped that the warm weather and the upcoming Easter will bring a period of peace and reconciliation to Lebanon. The Lebanese people have been through a difficult time, and they deserve a break from the conflict.

Question

In response to Stave Kappes' letter written May 15, I have a question. Isn't it true that, in the United States, the people have the right to privacy?

Special case

I have just finished reading my copy of the April 19 issue of East Lansing Today. It was a fine issue. This issue features the concept of the fourth estate, which I find to be the most important of our freedoms. It is the only way in which the public can learn the truth about the things they hear, see, or read.

In response, I would like to say that, in the United States, the people have the right to privacy. It is the only way in which the public can learn the truth about the things they hear, see, or read.

To the Editor:

In response to Stave Kappes' letter written May 15, I have a question. Isn't it true that, in the United States, the people have the right to privacy?

Love

Love you, but I don't think you understand what I mean. I'm writing this letter because I think you should know how much I care about you. I love you, but I don't think you understand what I mean. I'm writing this letter because I think you should know how much I care about you.

Love, always, Stave Kappes

Sparty

I'm writing the letter in concern over the article written by the author who is writing for the Sparty. The article was about the decision of a student in the MSU. It is not a decision that I support, but I respect your right to make your own decision.

I believe that, in the United States, the people have the right to privacy. It is the only way in which the public can learn the truth about the things they hear, see, or read.

EVERYBODY NEEDS ENTERTAINMENT

Entertainment that does not cost a lot of money can be entertaining. The old friends, which is a positive note,

doesn't cost a lot of money. To most university students it may mean saving something for

I love to watch all kinds of sports, tennis, crank, baseball, basketball, and the like. Of course, I am watching with my colleagues' kids around.
