HONG KONG (UPI)—A total of 307 persons were killed and another 779,000 were injured or made homeless as a result of the historic earthquake which hit northeast China last July, Hong Kong University seismologist T. M. Wong Wednesday said in a report to a "top secret" Chinese document but did not say how it got into his possession.

Wong said in a report to "top secret" Chinese officials that the July 28, 1975 earthquake, which was the most powerful earthquake since 1933 Alaska quake, caused more than $600,000,000 in damages and forced thousands of people to lose their homes.

He said the earthquake caused more than 3,000 deaths and 30,000 injuries, including 5,900 reports in the "top secret" Chinese newspaper.

Wong also said that the earthquake was caused by a sudden plate movement, which is the same mechanism that causes earthquakes in other parts of the world.

The earthquake caused the death of 307 persons and injured another 779,000, according to the report.

**WEST POINT ACCEPTS RECOMMENDATIONS**

Reinstatement of cadets stalled

The Army at West Point said Wednesday that it will accept the recommendations of its independent board of inquiry, but that it will not reinstate any cadets who were fired or expelled.

The board, which was established by the Army in 1977, is investigating the affair.

The board's recommendations are expected to be released next week, but the Army said it will not act on them until the board's report is complete.

Action on power plant uncertain as controversy still smoulders

Michigan students gain increased financial aid

The controversy at MSU Power Plant 56 continues in another form. Protests by the Environmental Protection Agency and the United Community Planning Commission (MPC) officials are suspended against the building of the plant for the time being.

At that time MPC had the option of cancelling the project but decided not to, since the energy crisis has complicated any further action.

The hearing was an informal discussion that was criticized by all parties for a lack of understanding of MSU's long range needs and for the lack of efficiency, Purnell said.

Purnell also said the EPA did not give a specific reason for action against the plant.

The public hearing was held for the following reasons:

1. For an emergency order letter to the city council.
2. To make the public aware of the situation.
3. To gain support for the people who are against the plant.
4. To get the city council to consider the situation.

Type the document into a text editor and then format it as needed.

The Drug Enforcement Administration (DEA) has reported possible perjury in a probe into the activities of a crack cocaine dealer. The DEA report concluded that the dealer was lying to the DEA and to the U.S. government.

In response to the report, DEA officials on the scene said that they were investigating the matter and that the DEA had not made any arrests or taken any action. The DEA has been investigating the dealer for several months.

The DEA report also noted that the dealer had been involved in several incidents of drug trafficking, including the sale of cocaine in the area. The DEA has also been investigating the sale of cocaine and heroin in the area.

ICE CREAM MAY IMPROVE

By MICHAEL MACKWOOD
State News Staff Writer

Following in the footsteps of chocolate, which was developed here at MSU, researchers are now working to develop a better ice cream.

Ice cream made of the future could contain less calories and more active ingredients, according to a graduate student in the Food Science and Human Nutrition Department, is studying the possibility of transforming whey, a cheese byproduct, into a food commodity which can be used in ice cream.

"When making cheese you start with milk and add enzymes and bacterial cultures which are responsible for the flavor and texture of different types of cheese," Chandan said. "When cheese is made, about 10% of the milk becomes whey, which is discarded.

Chandan said that whey is a gramain, yellow watery fluid and is a very good food.

"Whey is an excellent protein source. It is 11 percent milk protein and it is a good ingredient to replace protein," Chandan said.

In the past, whey has been thought of as just a byproduct in the cheese process. Traditionally, his current research and environmental considerations have prompted researchers to look for use for whey.

Chandan said in the last few years the Environmental Protection Agency has been more aware of the changing of whey. But some people have estimated that up to 80 percent of whey produced in the country is still dumped into sewage systems.

Czarnecki supports office hours concept

John Czarnecki, the only East Lansing city commissioner to hold office hours, will hold his last office hours in the wake of a successful, overwhelming citizen petition.

One or two residents is normal hours of office.

But he was during such a high in a former city commissioner that Czarnecki has become interested in extending city position.

Czarnecki said he would rather talk to people in person than on the phone. He added that phone calls are not to get to know those who are at least religions and do not get to know them at the same time.

Chandan said that the idea is not enough people know about his office hours, and that account for the low response he has gotten.

Chandan's office hours are on the first Wednesday of every month, from 6 to 9 p.m., at the second floor of city hall, next to the city manager's office.

Several other commissioners denied the usefulness of holding office hours.

"I don't think I can fit in the schedule," Commissioner Mary Cherry said. "I don't like the idea of going to city hall in the evening."

"I don't think people who want to see me," Commissioner John Polansky said.

People have messages for him at home, at city hall and at MSU, he said, where he is an assistant professor of engineering.

Setting aside time to leave office hours is "as feasible as a three-stopper," Polansky said.

WRESTLERS HOME TWICE

Winter campaign begins

By MICHAEL V. DURCAL

Sunday, 1/13/79—Sports fans aren't accustomed to hearing any news of opening events in an official capacity during January. However, the University of Wisconsin Wrestling Team has been on the road for a long time and will be back in Madison Sunday afternoon at 3 p.m. for a home game against Ohio State. The meet will take place in the Memorial Student Center and be broadcast live on radio station WAKA.

For the Wisconsin fans who will be at the meet, the game will be a good one to see. Ohio State is a good team and will be a challenge to Wisconsin. The meet will be a good one for both Wisconsin and Ohio State fans to enjoy.

By the way, the Wisconsin Wrestling Team will be back on the road again for a match against the Minnesota Golden Gophers on February 3rd. The meet will take place in Minneapolis and will be watched by Wisconsin fans who are looking forward to seeing their team take on the rival Golden Gophers. The meet will be an exciting one, and the fans of both teams will be盼望着 to witness the action.

Kraeer said that the decision of which player to start would not be made until just before the game. He stressed that if Chris Rudd was not at his best, he would get a turn at quarterback.

Rudnick Smith, the Mid-American starting quarterback for Michigan State against Ohio State, has been declared eligible to play since he was hit in the head during last week's game against Minnesota.

Rudnick Smith has stated that he is ready to play and will do whatever is necessary to help the Spartans win the game. He has expressed his determination to give his best effort and contribute to the team's success.

In summary, the Michigan State-Wisconsin game is expected to be a tough one, with both teams determined to win. The outcome of the game will depend on which team can perform better and make fewer mistakes. The fans are eagerly期待着 to see the result of this exciting match.

President's Men' nodd, critic's nod as year's best

director's Choice features five Curtiz films

by STEIN BAKER

Steve has predicted the Lieutenant's various films for the year. The author has decided to feature five films directed by the greats as some of the best films of the year. While the films are not necessarily the best in terms of box office success, they are considered by the author to be excellent examples of the master's craft.

1. "The Maltese Falcon" - John Huston's classic noir film released in 1941, adapted from Dashiell Hammett's novel. The film stars Humphrey Bogart and Mary Astor. It is considered one of the most influential films of the 20th century.

2. "Casablanca" - Directed by Michael Curtiz, this 1942 film is a romantic drama set during World War II. It stars Humphrey Bogart and Ingrid Bergman.

3. "Casablanca" - A 1942 film directed by Michael Curtiz, this classic war drama stars Humphrey Bogart and Ingrid Bergman. It is considered one of the greatest films of all time.

4. "Citizen Kane" - Directed by Orson Welles, this 1941 film is a psychological thriller that tells the story of Charles Foster Kane, a报业大亨. It is considered one of the greatest films ever made.

5. "Casablanca" - Directed by Michael Curtiz, this classic war drama stars Humphrey Bogart and Ingrid Bergman. It is considered one of the greatest films of all time.

The author has chosen these films to highlight the talents of Michael Curtiz, one of the greatest directors of all time. These films showcase his ability to create compelling stories with memorable characters and iconic performances.
**New laws favor rights of nonsmokers**

**By MICHAEL DAVIS**

State News Staff Writer

The Women's Legislative Pro-

gress of the State Legislature

gave the women's movement

the upper hand in an impor-

tant area by approving a
data bill providing for

different smoking areas

during the legislation ses-

sions. The bill was

approved, which is a good

year for nonsmokers as far

as the state legislature was

concerned. "Nonsmokers have

been regarding their

rights during the past five

years," Rogers said. "This is

due to more interest in the part

of nonsmokers."

The new law governing

smoking in grocery stores and

supermarkets links smoking to
designated areas in those

establishments. The

restaurant law, followed

voluntarily by some establish-

ments before the bill was

passed, requires that a

restaurant with a seating capa-

city of 10 or more seats have

a nonsmoking section. Rogers

will not of the hour that

smoking areas have been

very successful in the Capitol.

He pointed to the Kiln Room's

name as an example. A

smoking area at MSU was

opened by students and

spokeman. The Kiln Room is

designed to provide an area

for students who either smoke

or who wish to smoke, and

the other students want a

smoke-free environment.

This area has been successful.

"We have a number of

students who have chosen to

smoke in the Kiln Room," said

Rogers. "We are making

progress in changing the

attitudes of people on both

sides of the issue." Rogers

said to find the legislation

entertaining but said there were

several possible reasons for the

success of the nonsmokers.

"Smoke is going up because

there has been an increase in

the population," she said. Rogers

said that the number of nonsmokers

and smokers "will continue to

increase among young

people."

Rogers said she would re-

main aware everyone who is

brought by a speaker to speak

and tell them the size of the

smoking in the Capitol.

"I think that people are

starting to understand the

issue," she said, "especially

as they have worked on the

well-organized lobby that is

ready to go to the right to set.

Outdoor News, East Lansing, Michigan

Michael Lent and the Legal Services Cabini are planning to investigate the Committee to Save the Village, which one senator has called the "newest chapter of the Michiganemit," said. Only a few of the middle members retain their seats, and residents have been urged to support the "newest chapter of the Michiganemit." Said one senator. This is a very serious matter. The Senate is aware of the situation, and we are looking into the matter.

Budgetary

— a rate that was released on a recommendation to Malc.

— has led the Senate to meet and adopt a higher rate, as much as for the academic department," said. 

Looking ahead, Mgai said he was concerned about the impact of research on state funding. He warned that the state should continue its funding of university research. "We have been successful in rising funds for the university, and we will continue to do so." said. But, he added, that the state is not opposed to increasing funds for the university.
