Sunny job outlook may be cloudy for some graduates

By ROSE STEWART
State News Staff Writer

Though the employment outlook for 1977 college graduates is not the highest it has been for the last five years, unemployment may still plague graduates in some fields.

The EPRI Follow-Up Report of Parents of 20-Year-Olds indicates that in 1976 only one of three graduating seniors is earning enough to pay his or her college expenses from the income of one job.

Overall unemployment among last year's graduates is 12 per cent. This is substantially higher than the national unemployment rate of 5.5 percent.

The most important factor to remember when considering these rates is that the responses were collected between March and May, when the unemployment rate was at its lowest in 1976. By the time this report is released, the unemployment rate may have increased.

Underemployment is a serious problem among graduates. Researchers at Pennsylvania State University are now using the report to determine the severity of the problem, according to Perrin.

"Liberals and majors may be especially burdened," said Perrin, director of Placement Services, who has research to back up the points to which they aspire.

New bottles stir controversy

By JONICIPRIANO
State News Staff Writer

State environmentalists are up in arms over the recent introduction of plastic beverage bottles in Michigan.

The new containers, distributed by the Coca-Cola Bottling Co., and now in the stores of most East Lansing general stores, are a major concern to environmentalists who work long and hard to see the passing of Proposal A, the state ban on nonrefillable bottles.

The University has only closed in on two previous occasions because of beer. One of these actions was to close a street segment where a storm drain dumped over a hose in the food. The other was a big-a-purpose this time too; President Curtis Laramore, said Robert Perrin, vice president of Student Affairs, it's the only one that we know of.

The plastic bottle is very energy-efficient - not only in raw materials, but also in fuel needed to produce enough heat necessary to make them," Alex Saguy, research assistant of the Michigan Student Senate, said. "If the introduction of plastic containers in Michigan were to proceed, it would be an attack on the environmental goals that we have worked long and hard to see the passing of Proposal A, the state ban on non-refillable bottles.

Environmental groups spokespersons and the introduction of these containers could decide the battle has only been taken for a virgin territory. If it adds little to the already solid environmental argument, it will increase the anti-bottle movement.

"The plastic bottle is not as energy-efficient - not only in raw materials, but also in fuel needed to produce enough heat necessary to make them," Alex Saguy, research assistant of the Michigan Student Senate, said. "If the introduction of plastic containers in Michigan were to proceed, it would be an attack on the environmental goals that we have worked long and hard to see the passing of Proposal A, the state ban on non-refillable bottles.

The battle is being waged against the bottled water, and the whole of the packing line has remained open. "These "bottles" are also being used to make the product more marketable."

The sales of carbonated water, regular and low-sodium, are down 20 per cent in the last five years, according to the government and the Department of Agriculture.

As the market changes, the sales of carbonated water, regular and low-sodium, are down 20 per cent in the last five years, according to the government and the Department of Agriculture.

Scientists face regulation controversy

By Paul Nowicki
State News Staff Writer

The decision by the Lansing Department of Build¬
ing to declare certain realty property over 20 years old with approval by the members of the City Council and the management of the company, would enable housing inspectors to write up and force landlords and managers of apartment building to do away with the problems in their properties not in compliance with the building code.

It is important that they have made a real attempt to improve Enlan’s image, but if the spirit of it is followed, I see no problem, as long as it is followed and kept.

"Consider the city to be late, and I'm just giving a break to the municipalities, so they will be all right." Czarnecki’s observation was signed and bad in the following system.

"I took notes in case they ever wanted to use them again or anything they might be asking for." Czarnecki’s statement was made over the following system.

"I think this is a big deal and it is important that the other municipalities to do what they have been doing.

The problem, I don’t really know anything about it, so I can’t give you a direct answer to the problem."

"I can’t give you an answer, but I think this is a big problem." Czarnecki’s statement was also made over the following system.

"I don’t really know much about the problem, but I think this is a big problem." Czarnecki’s statement was made over the following system.

"I don’t really know much about the problem, but I think this is a big problem." Czarnecki’s statement was also made over the following system.

New system will bring landlords in line?

Placement center ranks high

MSU Placement Service has shown a continued improvement of its invaluable aid to graduating students with the recent release of an annual study of recruiting trends for 1976-77. The survey, one of several services provided by the center, is designed to provide valid information to 418 employers pertaining to trends in hiring in the labor market.

Director of Placement Services Earl Shimpling and the Placement Service staff members who worked on the survey, must be commended for a job well done. The information is very pertinent and much is already being used in the best placement services for students. The centralized office is the only one of its kind among Big Ten schools. According to Ed Fitzpatrick, assistant placement director, the centralized offices enables the holding of more recruiting sessions in a wider range of majors at one location.

Experience is said to be the best teacher and in the case of the MSU Placement Service, the experiences of those involved have proven very beneficial in the placing of students. Now if anyone only could come up with a solution that would eliminate the waiting in line for long, long lines for interviews.

Why Puerto Rico, is it Poland?

WASHINGTON - Everyone who has ever seen the old TV Cliche, that he wanted to make Puerto Rican flights to the United States, may wonder why the President chose to2 announce his decision in Puerto Rico.

For years, as we have heard, the Cliche has suggested that the U.S. is a haven for Puerto Ricans. Indeed, many contend that the U.S. is a haven for Puerto Ricans. The President's decision to make Puerto Rican flights to the United States is a decision that will save Puerto Ricans billions of dollars over the next several years. The decision will also save Puerto Ricans from the suffering that they had to undergo in Puerto Rico.

The President's flight will be held on the American people who may need assistance in Puerto Rico.

It's a good idea to fly Puerto Rican flights to the United States.

Letters to the Editor

Sexism

In the May 9th issue of The State News opinion section, it was stated that "it's time that the area of prejudice is "virtually nonexistent". "It's time that the area of prejudice is "virtually nonexistent". It's time that we all realize that the area of prejudice is "virtually nonexistent."

This statement is part of the discussion on the issue of sexism in the workplace. The statement is not accurate and it is important to correct it.

The problem of sexism in the workplace is a real issue and it needs to be addressed. It is not "virtually nonexistent". There are still many instances of sexism in the workplace today. It is important to continue to work towards eliminating sexism in the workplace.

Bad finances

It's a tough time for business owners and their managers to maintain a positive attitude. However, there are ways to overcome the difficulties and maintain a strong financial position. One way is to focus on improving cash flow. Improving cash flow can help businesses remain liquid and sustain operations during tough times.

The state of the economy is important to consider. If the economy is in a recession, it may be necessary to make adjustments to business operations. It may be necessary to cut costs or reduce expenses in order to maintain a strong financial position.

In conclusion, it is important for business owners and their managers to maintain a positive attitude and take steps to improve cash flow. This can help maintain a strong financial position during tough times.

MSU women gymnasts narrowly escape Kent

MSU tracksters open at EMU

By JOHN DUFRESNE
State News Writer

"The year's indoor track season is at EMU in the shape of the meet," said Coach Larry Melancon of the women's track team. "It is a good opportunity to see how we stack up against other teams in the conference." Melancon was joined in the press conference by Head Coach Jeff Bibbs, who is also the head coach of the women's gymnastics team. Bibbs said he was looking forward to the meet, which will be held on Sunday at 1:00 p.m. at the EMU Indoor Track Facility.

INDOOR RUNNING SEASON BEGINS

Women beat Ontario in opener

Members of the women's indoor track and field team were on hand to discuss their upcoming meet in the third annual Indoor Running Season. The meet will be held on February 3 at 1:00 p.m. at the EMU Indoor Track Facility.

Correction

Team entry deadline for all collegiate-level track and field events is February 3 at 1:00 p.m. at the EMU Indoor Track Facility. The meet will be held on February 3 at 1:00 p.m. at the EMU Indoor Track Facility.

AWarning

The Michigan State University Police Department has received reports of suspicious activity on campus. Students are urged to be vigilant and report any suspicious activity immediately.

Military service may be required.

Tony Tanner

Starting

John Michaelis as Sherlock Holmes
Kurt Kircher as Professor Moriarty

and a New Year-Year, of 15

A Victorian melodrama by William Gillette. Sherlock Holmes is back, exacting and with a great sense of humor. The play is a combination of Sir Arthur Conan Doyle's most famous story, "A Scandal in Bohemia," and a number of other Holmesian tales.

Tickets on sale NOW at the Union: 810-525-5300. Reserved seats only: $5.75, $4.25. Check with your MSU Student Union for details.

Threefold dimensions in geology, technology, shape Kresge exhibit

By MARTHA G. BENEDIKTI

The incorporation of geology and technology as art forms becomes obvious in the contemporary treatment in Kresge Art Gallery's exhibition, which runs through Feb. 13.

J. M. Whitaker, substantial individual artist, received, with a deeper understanding of the interrelational nature of our modern-day 'art objects.'

The Kresge Art Gallery is located in Michigan State University's Founders Library Complex. The gallery is open to the public weekdays and weekends from 10 a.m. to 9 p.m.

Firesign Theater theory offered in unique class

By JOHN CASEY

State News Staff Writer

"These are the eerie shadows of our times."

This is how Peter Barnes, a 22-year-old American poet and playwright who co-founded the Firesign Theater in Los Angeles, describes today's society.

"These are the eerie shadows of our times."

The group's latest album, "The Power of Love," is by turns hilarious and disturbing, a social commentary, a political satire and a poetic lament.

"We are telling a story about a group of people who are in a room called 'The Power of Love.'"

The title track is a satirical look at the American news media, which the Firesign Theater sees as a complicit participant in the nation's social and political problems.

"The Power of Love" is a concept album that explores the themes of truth, freedom and the human condition. It features songs by Julia Davis, who has also worked on other Firesign Theater projects.

On the album, the group uses humor and irony to criticize the media's role in shaping public opinion and its failure to provide accurate information.

"The Power of Love" is a concept album that explores the themes of truth, freedom and the human condition. It features songs by Julia Davis, who has also worked on other Firesign Theater projects.

The album's title track is a satirical look at the American news media, which the Firesign Theater sees as a complicit participant in the nation's social and political problems.

"We are telling a story about a group of people who are in a room called 'The Power of Love.'"

The genre of the Firesign Theater's work is difficult to classify, as it combines elements of poetry, music, and political commentary.

"This is a difficult album to describe in any conventional terms," said Peter Barnes. "We are trying to create something new and different, something that is both funny and thought-provoking."

The Firesign Theater's unique approach to music and poetry has earned them a dedicated following among fans who appreciate their satirical and satirical takes on contemporary issues.
