Ford proposes new department

Detroit (AP) — President Ford on Thursday proposed creating a federal agency devoted to solving one of the nation's most urgent problems, advancing energy independence. Ford said Congress should consider legislation to create a new Department of Energy to promote energy development, efficiency and conservation. Ford has said one of the first goals of his two-year term is to develop new energy strategies. The legislation he endorsed Tuesday would be a key part of that plan, setting up a new cabinet-level department to be headed by a secretary who would report to the president.

The president also pledged to work with Congress to create a National Energy Foundation to advise the government on energy issues and to conduct research. Ford's plan would also establish a National Energy Council to oversee the work of the new department and coordinate efforts among federal agencies.

The legislation would also create a new office within the Department of Energy to oversee energy policy and would authorize the establishment of a new Energy Research and Development Administration, which would be housed within the Department of Energy.

Ford said the legislation would be the first step in a broader effort to develop a comprehensive energy policy for the nation. He said the legislation would be the first step in a broader effort to develop a comprehensive energy policy for the nation.
**MSU FOLLOWS NATIONAL TREND**

**Enrollment reported down**

_by Joe Putnam_  
不通州州府报文

Despite severe cutbacks and a nationwide drop in enrollment, MSU’s fall term enrollment was only 32 percent lower than the fall of 1975. While MSU’s enrollment for men was down 29 percent, the women’s enrollment was down 28 percent.

MSU total student enrollment was down 13 percent, or 45,000 as compared to the enrollment of students in the fall of 1975. This fall decrease at MSU was 14 percent of the national college programs affected, according to the National Student Clearing House. The number of winter students at MSU decreased only 3 percent.

Steady enrollment declines have taken place since 1979. During that year, MSU enrollment was 27 percent lower than the fall of 1975.

Continuing a national trend, the nation’s enrollment figures for men was up 2 percent and women was up 1 percent.

Ross, a senior New York Daily News writer, leads the board as head of the Student Senate and has been in the forefront of a number of controversial issues. Ross has been a driving force behind the recent passage of the Redlining Act, which he said, "An effective way to cut the cost of student life in the university is by reducing the number of students who are eligible for financial aid."

Ross, who is a member of the National Student Clearing House, said, "I believe that the university should look for ways to cut down on the number of students who are eligible for financial aid."

Ross is a member of the National Student Clearing House, which is a national organization that tracks the enrollment of college students.

**LETTERS To the Editor**

**Security**

In response to James Blanchard’s letter (怀俄明州的)，I believe the issue of security is of utmost importance. We must ensure that our borders are secure and that our citizens are protected. This is why I support the building of a wall along the border with Mexico.

William E. Buckley

**Greenhouse**

I would like to add that I believe there is a need for the government to take action on climate change. Greenhouse gases are causing the Earth's temperature to rise, and we must act now to prevent further damage.

Sorenson, 1987

**Tens of thousands of letters**

To inquire about the democratic process, it is important to understand the rules and regulations that govern elections. In the United States, a democracy, these rules are set by the Constitution, and it is important for citizens to participate in the political process.

Sorenson, 1989

**Director's approval necessary**

The recommendation of Ralph W. Baner to become the new head of the Human Relations Board is welcome, and it should be approved when the City Council meets next week. As a member evaluation committee, we made up of representatives from various departments, found Baner acceptable for the position. He has the experience and qualities that are necessary for this position.

John Doe

**The Human Relations Board**

One of the first decisions Baner is likely to make is whether to affirm or reverse the findings of the committee. It is important that Baner make a decision that is not only legal but also fair and just.

Mack, February 2023

**Assassination inquiry must push forward**

The House Select Committee on Assassinations is a necessary tool to prevent the mass murder of John F. Kennedy and Martin Luther King Jr. and to keep it from happening in the future. It is disheartening to note that the panel has run into several difficulties, at least two of which seem to be self-imposed.

Joe Smith

It is the committee's intention to see that the panel reports the results of the inquiry in a timely manner. The findings of the committee are crucial to our understanding of the events of the past, and we must ensure that the findings are made public. It is important that the committee continue its work and provide us with the information we need.

ECONOMY HEALTHY, MAYORS SAYING BOARDS LAUNDED

LANSING'S G Helen Thomas, mayor of Detroit, and Mayor William E. Hurlbut of Lansing, at the opening of the 87th Annual Michigan Municipal League Convention in Lansing last Tuesday, said that the economic recovery of the city of Lansing is well under way. "The city is alive with new life," he said. "The economy is growing, and we are beginning to see a marked improvement in the city's finances."

The mayor added that the city is now in the process of reorganizing its affairs and that the city council is working hard to bring about improvements. "We are making progress," he said. "We are working hard to bring about a better city for our citizens."

The mayor also said that the city is making progress in its efforts to attract new businesses and industry. "We are working hard to bring about new businesses and industry to our city," he said. "We are working hard to bring about a better city for our citizens."
Foreign grads share cultures

By MICHAEL SAVEL
State News Staff Writer

Fifty foreign students are attending the University of Michigan. They come from the United Kingdom, Canada, Mexico, Uruguay, Venezuela, Japan, China, India, Italy and from many other places. Some started the school year as international students and others have transferred to the University of Michigan.

“Michigan has a rich history of educational exchange that goes back to the very beginning of the University,” said Professor John Smith. “But there are still many students who are not familiar with the rich diversity of cultures that exist here at Michigan.”

The students who have come to Michigan since the beginning of the term have been involved in various activities. Some have participated in the Michigan International Student Association (MISA) while others have taken part in the Michigan International Student Program (MISP).

MISA is a student-run organization that provides information and support to international students. It also organizes social events and takes part in various cultural activities.

The Michigan International Student Program (MISP) is a program that offers opportunities for international students to learn about the culture and traditions of the United States. It also provides a platform for international students to meet and network with other international students and faculty members.

“Michigan has a great deal to offer international students,” said Professor Smith. “We have a rich history of cultural exchange and a commitment to diversity and inclusion. I encourage all students to take part in these activities and learn more about the different cultures that exist at Michigan.”

TM introductory lectures set

By MICHAEL SAVEL

The introduction of TM into the educational system is a growing phenomenon. Many universities and colleges have started offering TM classes, and the interest in the technique continues to grow. The reasons for this interest vary, but the most common is the desire to improve mental clarity, reduce stress, and enhance overall well-being.

WASHINGTON (AP) - President Bill Clinton today asked Congress to adopt a new form of discrimination that would ban discrimination against teachers. Clinton said the new form of discrimination, which he called "disagreement," would allow teachers to express their views in the classroom and would protect them from retaliation.

Math students may get aid

An intensive study in the psychology of learning will make recommendations for changes and improvements in the special education programs at the University of Michigan. The study will be conducted by a team of psychologists and education specialists who have been working on the project for several months. The study will be completed in the next few weeks.

Discrimination decision reversed by high court

The court reversed the lower court's decision and remanded the case to the lower court for further proceedings.

TM and the law

The court ruled that TM is a valid and effective method for reducing stress and enhancing mental clarity. The court also ruled that TM is not a form of discrimination, as defined by the Civil Rights Act.

Health club aims to educate nonsmokers

By FRED PARKE

The news from South Market Street seems to be a week for every news that any group in Lansing wants to think it is or perhaps it is more appropriate to say there is a cause for every week.

Another "whack" is being sounded this week and again those hoping that it will have an impact on society.

Soviet Baptist awaiting inauguration of Carter

MOSCOW, Dec. — The Sovi- et Union's half-million Baptists are looking forward to the inauguration of a fellow Baptist as president of the United States, but for vastly differing reasons.

The All-Union Council of Evangelical Christian Baptists, an officially-recognized club by the Soviet government—very few other groups in the USSR are officially recognized by the government for increased religious freedom.

The situation for Baptists is considerably improved and things are better, but it could be better. "We are not the Baptist in word but the Baptist in deed," said one Baptist who has been in Moscow.

The officially-recognized Baptist church does not complain about Soviet restrictions on religion, the Soviet Union, and activities as open-air religious meetings are generally approved by the authorities.

We "try to come as a man who is here to propagate our faith in Christ," he said. "We know that this is our mission and we try to do it."

But the discrimination, which caused the officially-recognized Baptist church a "sensation of distance" when they broke away from their own group, continues. The Union of Unregistered Religious Organizations has put a ban on the activities of the official Baptist church.

Some of the Baptist's rights, and the government's response to the proposed Baptist church, which claims 200,000 members in the country, have been less than such as Soviet authorities.

The Baptist church is currently in the process of appealing to the government for permission to hold religious services and to form a separate church-

"The State is trying to silence us, but we are not giving up. We are not going to be silenced," a Baptist said. "We are going to continue our work and we are not going to give up."

The government has responded to the Baptist church's request by saying that they are "not ready" and "are not prepared to" recognize the Baptist church.

The Soviet Baptist church is also concerned about the future of religion in the USSR, as the government has recently announced plans to ban all religious activity.
