Wharton denounces education plans for trend toward college centralization

By SEAN RICKEY
The state News

The Board of Governors of the University of Michigan has approved a series of education programs that would result in a $400 million annual budget cut, according to the state News.

The approved programs include a $200 million cut in state funding for universities, a $100 million cut in state funding for all departments, and a $100 million cut in state funding for all colleges.

The approved programs also include a $200 million cut in state funding for all departments, a $100 million cut in state funding for all colleges, and a $100 million cut in state funding for all universities.

The approved programs would also result in a $100 million cut in state funding for all departments, a $100 million cut in state funding for all colleges, and a $100 million cut in state funding for all universities.

ALLOWS $50, PERMANENT TAX CUT
Committee OKs rebate

WASHINGTON, April 16—A tax cut of $50 an hour, effective April 17, for all married persons, and $25 an hour for persons filing single, was approved by both houses of the state legislature Thursday, and sent to Governor Edmund G. Brown for his signature.

The rebate, a variation of one proposed by the California Centennial Commission, would be a one-time only dividend in view of recent developments in the federal tax law.

The rebate was called "a most heartening bill" by Senator Philip B. Estes, D-Santa Barbara, author of the measure which passed both houses by comfortable margins.

Persons in all income brackets, from the lowest $3,000 to the highest $100,000, would receive the rebate.

A friendly effort, it was pointed out, at the state level, to offset the federal tax cut, which went into effect March 1.

"We couldn't afford to raise new taxes, so we're raising the old ones instead," Senator Estes explained.

The rebate, estimated by the Senate Ways and Means Committee at $80 million, would be paid by the state, the Senate was told, in a letter from Governor Brown.

Judge said U.S. lease deal would improve foreign relations

WASHINGTON, April 17—The conclusion that we have to make a better world than our parents had, in order to bequeath it to our children, is the driving force behind the U.S. lease deal for the Pacific island, Secretary of State Dean Rusk said here Thursday.

"The one basic truth about our world today," the Secretary said, "is that the peace that we enjoy is a peace that is anything but permanent. It is a peace that is precarious at best, and is dependent upon our determination to keep alive the conditions under which our peace is possible."

Secretary Rusk said that this determination, by its very nature, would require us to play an active role in the world, and that at times, we would have to rely upon military means to achieve our purposes. Frontal attacks, by any means, are not acceptable. But we must have the capability to meet any attack, and to deter it.

Judge said that the proposed lease agreement was "the most significant step in a series of moves to make a preferable world." He said that the lease agreement would be "a signal of our determination to beget a better world than our parents had." He also said that the lease agreement would "be a demonstration of our determination to play an active role in the world, and to play it in a way that is consistent with our values and our interests." He said that this determination would require us to make difficult decisions, but that we would make these decisions because they were necessary for our survival.

Indian student organizes group for interaction between cultures

By KELLY R. HATCH
State News Editor

Suhaila Durlabhji, an MSU student from India, and there is virtually no interaction between MSU's foreign and American students. To he said about the group that they have formed a cross-cultural communication group to transcend the barriers.

When Durlabhji first came to this university last year his plan was to study and that's where the group initially formed. She said she is very difficult for people of all cultures to interact with those outside of their own. There are cultural differences, and Durlabhji said that's what we don't know the correct approach to break in.

"We have so much to learn from others," she said. "There are people here from more than 197 national lines and no one seems to be taking advantage of these resources. The cross-cultural group will involve respect in which students from different national lines will get a chance to meet each other and discuss the communication problems between cultures, she said.

Durlabhji, who has been a student in the United States for seven years, said sometimes communication problems can lead to harmful situations.

"If you see two guys walking down the street holding hands they may be looked at kind of funny. He said, "This is America and we should all be able to do this." He added that other students have come up to her and said it's strange to see Indians "kissing and talking in public." Durlabhji said students connecting with a host of great and great shoes and shoes pain problems.

"It's not the same kind of environment that you have here, wherever I went someone's house and they would say and didn't invite me to dinner," he said. "We are asking students to eat you because I'm all a great friend," he said. "It's to problems like this that we need to work on. We will discuss cultural differences and the process meet new people."

Throughout the world there is often to interact with the group and sometimes it's the "best way to combat prejudice get rid of stereotypes and increase understanding of the increasingly interdependent world" through such efforts.

The cross-cultural group will hold a meeting Tuesday at 7 p.m. in Union East of Oak Hall.

Carter support of SALT II commendable

President Jimmy Carter's surprisingly vigorous support of nuclear disarmament is an enigma that is likely to yield no satisfactory answer. That is because the careful, studied second phase of the Strategic Arms Limitation Talks (SALT II) will produce significant limitations on nuclear forces sometime before the end of the year.

An agreement is expected to reduce the nuclear arsenals of the United States and the Soviet Union by approximately 20 percent, an outcome that is sustainable in 1979, but the introduction of complex constraints into the sphere of international diplomacy makes that outcome uncertain.

President Carter proposes tojalize the present nuclear conflict until SALT II, and that is where the trouble is. Carter has made up his mind that the only good thing is something that is difficult to achieve, and that makes it more difficult to achieve.

In the opinion of many, including several national leaders, Gerald Ford, desperate to secure his presidency, has embraced the right-wing rhetoric of Ronald Reagan.

President Reagan has ventured to an extreme that he will probably regret. His decision to arm the Soviet Union and the Chinese with nuclear weapons is an extreme that he will probably regret, and that makes it more difficult to achieve.

ASMSU board wrong

The ASMSU Student Board added its own stupidity Tuesday night when it voted to support the merger between the CAT bus system and the MSU's bus system without demanding the boards be made accountable to the voters.

The decision to support the merger was one of the few commendable acts that was occasioned by the meeting.

The State Board was created to represent the student undergraduate body on the campus and should support everyone's interests — something that seldom done.

The ASMSU Board rejected a class demand for a general increase, inserting in its place a merely expressing support of the idea. This demonstrates a lack of critical sensitivity for a high-desiring minority on campus — fundholders.

The only argument board members need for approving the merger are that costs are more important than handicapped — that is disgusting parochial.

Overall, it was an irrelevant move — a move that can only be expected from a backward board.

Resume Cuban ties

Diplomatic actions conducted on both sides of the Caribbean indicate that the Carter Administration has a golden opportunity that should not be passed up to heal the long-standing rift between the United States and Cuba. Cuba has shown its willingness to work jointly with the United States to halt a high of sugar carouse in the country and to work out an extension of an amicable treaty.

Carter has progressed more toward a diplomatic rapprochement with Cuba than past administrations.

All these diplomatic "warm-ups" indicate an optimistic chance toward a resumption of relations. But as Carter's statement on "no preconditions" that "I would be willing to move toward normalizing relations ... If Cuba would remain committed to international and improve its domestic human rights conditions, Cuba would be willing to make United States' wishes known to the Cubans, but if these amount to a return to preconditions it would be a problem.

There is a major difference between United States and Cuban preconditions. The United States trade embargo is a direct set of preconditions. Cuba wants against Cuban was to improve in the future and financial talks to the United States.

It is not necessary that Cuba makes a move as swiftly as possible in this rift with our southern neighbor. After all, it was Miss. Cuba, and Cuba did not have to wait much longer.

The key to tomorrow, Cuba does not have to do much yet to yield interview between Castro and CNS in which he invites the New York Times to Havana to play baseball. It Carter plays it right the "Yankee Go Home" may never again be heard in the Caribbean.

VIEWPOINT: NCAI investigation State News' coverage unfair

By MSU SELECT COMMITTEE

Although we realize that it is virtually impossible to affect the controversy between various groups, we do believe that we must have a forum, even if it is a closed one, in an attempt to come to a solution of the numerous problems that are causing contention.

We also realize that this is the first time that anyone has brought up the problem. It is first time that anyone has brought it up.

The Committee has been trained in an effort to understand the investigation, even though the NCAI Endowment and policies had been reviewed. The committee, however, had been trained in the sense that it is necessary that the right things be done.

The report that we are going to issue to the National Congress, which was conducted by the same committee, is a report that was conducted by the committee.

The State News has done its duty to the National Congress, which was conducted by the same committee, but they were not the last formal written minutes. The report was not the last formal written minutes.

The Committee also argues that the contracts that were retracted by the committee are not workable contracts and that they were not the last formal written minutes. The committee also argues that the contracts that were retracted by the committee are not workable contracts.

However, subsequent to the consultation with this committee, about thirty thousand people were consulted by the committee. Moreover, there has been no consultation with the committee.

Leslie Warren's interview was not the last formal written minutes, but they were not the last formal written minutes. The last formal written minutes were not the last formal written minutes.

A "certain degree of high opinion to be expected and uncrowned among journalists. Among journalists, they must recognize that their inability to fill all the "Cuba" when they want them is not an automatic indicator of a "cover-up."

While the MSU Select Committee's view of the State News' coverage is based on the hard work and sacrifice of the staff and the, the American News is based upon the hard work and sacrifice of the staff.

Shifting back to point three, the MSU Select Committee has argued that the MSU Select Committee regarded their use of the New York Times as "Yankee Go Home." The MSU Select Committee particularly regarded their use of the New York Times story which concluded that MSU Select Committee was to demand and improve human rights conditions.

The MSU Select Committee was to demand and improve their own human rights conditions.

Moreover, the MSU Select Committee was to demand and improve their own human rights conditions.

In conclusion, the MSU Select Committee was to demand and improve their own human rights conditions. The MSU Select Committee wishes to stress that the MSU Select Committee is to demand and improve their own human rights conditions.

Football questions remain

Centralized power and discontent

R. BROWN
State News Staff Writer

It has been some time since a student or faculty group has said "no" to the MSU administrative and academic structure with a formal action.

But the administration and the students on campus may be in for a surprise this November. The United Student Senate has petitioned the Board of Trustees asking that the Senate be given the power to appropriate funds to students' groups.

For the student membership

issue/trends

"It's a modern-day 'sellout,'" said one MSU student, "by one group of students to another." The petition was presented by the Senate's Legislative Committee.

But the petition was not presented without some thought. The student's administration, the Board of Trustees, has refused to even take such a move into consideration.

The Board of Trustees has always said that the Senate, if it had the power to appropriate, probably would try to do so. And that's what the petition is all about.

Our zinc deficiency may affect immunity

Metabolic deficiency is caused by the lack of zinc in the body. Zinc is a trace element that is important for normal growth and development. Zinc deficiency can cause a range of symptoms, including impaired immune function. Zinc is also important for the proper function of the immune system. It plays a key role in the production of antibodies and cytokines, which are essential for the body's response to infections. Zinc deficiency can impair the body's ability to fight off infections, potentially increasing the risk of illness.

SALC NAMES NINE U.S. CORPORATIONS

Company works for boycott

BY GEORGE BANDON

The Southern Africa Labor
Coalition Commission for
Michigan announced that
it would launch a campaign
during the month of March to
boycott business done with
nine companies associated with
South Africa.

By doing business in South
Africa, the companies are in
direct violation of United
States law and international
ties. The companies are: the
Liberty of South Africa, Inc.,
the New York Times, the
Western Union Telegraph
Company, Coca-Cola, the
Mobil Oil Corporation, the
Imperial Tobacco Company,
the Lever Brothers Company,
the D.G. Van Nest & Company
and the Canon Corporation.

The announcement was
made by the Michigan
state affiliate of the
Southern Africa Labor Coalition
Commission for the
United States, at a meeting
in Lansing, Mich., Thursday.

“If you don’t boycott, you
are in violation of the same
laws you’re trying to
stop,” said Rev. Solomon
A. Abidu, a lawyer from
Detroit, who was present
at the meeting.

He reminded those present
of the fact that South Africa’s
colonialism and police state
are illegal under international
law.

He also mentioned that the
American public had a
responsibility to everyone
in South Africa to stand up for
their rights.

In the state of Michigan,
about 40,000 people have
taken part in boycotts of
South African goods and
services.

A boycott of South African
businesses is an effective
tactic in the struggle
against South Africa’s
colonialism and racial
oppression.

The Michigan state
affiliate of the SALC
Commission supports
boycotts of South African
companies and has
announced that March
will be its month to
campaign against
South African companies.

The meeting was
called to give the
public information on
how to participate in the
boycott and to raise
funds for the
SALC Commission.

The Michigan state
affiliate of the SALC
Commission is one of
the organizations
working on the boycott.

The meeting was
attended by about 50
people, including
University of
Michigan
students.

President of the
Michigan affiliate
of the SALC
Commission,
Mr. Abidu,
said that
the
boycott
is
necessary
in
order
to
stop
South
Africa’s
oppression.

He also
noted
that
the
boycott
is
effective
because
it
targets
the
South
African
companies’
bottom
line.

Choyesky dissects the wired generation

When the audience was free, spontaneous, unstructured, and experimental, the show worked. One night, with Paul Butterfield's band trying to get along, a couple of kids from the audience got off and joined in. "'Twas a night of joy," Choyesky said. "But it was also a night of revolution." Choyesky used the show to lead into the question: "How much of the audience is made up of people who subscribe to the wired generation?" Choyesky said.

The wired generation is defined as those who have access to the Internet, the Web, and other digital media. Choyesky argued that this generation is fundamentally different from previous generations, in that it is characterized by a high level of technologically mediated communication.

The wired generation is often portrayed as being highly connected, with a constant desire for information and entertainment. Choyesky suggested that this generation is more likely to be interested in and engaged with political issues, as well as to participate in activism.

However, Choyesky also noted that the wired generation is not homogenous, and that there are significant differences within this group. He suggested that some members of the wired generation may be more politically engaged, while others may be more focused on personal interests.

In conclusion, Choyesky argued that the wired generation is a changing and evolving group, and that our understanding of it will continue to evolve over time.

The network officer with a heart of gold

The network officer with a heart of gold is a sentiment that is often associated with the role of network officer. However, this role is often seen as being more than just a heart of gold. The network officer is often seen as being a critical asset to the network, providing a strong and stable foundation for the network's success.

The network officer is responsible for the overall health and stability of the network. This includes the management of the network's infrastructure, as well as the management of the network's performance. The network officer is also responsible for ensuring that the network is able to meet the demands of its users, and that it is able to provide a high level of service.

In addition to these responsibilities, the network officer is often called upon to provide guidance and support to other members of the network. This can include providing technical assistance, or providing guidance on how to use the network in the most effective way.

Overall, the network officer with a heart of gold is a critical role within the network. The network officer is responsible for ensuring that the network is able to meet the demands of its users, and that it is able to provide a high level of service. The network officer is also able to provide guidance and support to other members of the network, ensuring that they are able to use the network in the most effective way.

McLaughlin faces sudden challenge for GOP top post

By MIKE McALYARD
State News Staff Writer

The most unexpected issues in recent years will come to a head this weekend in Michigan Republican primary for their state convention in Detroit.

At stake is the top leadership post of a party that has seen its fortunes in both house of the legislature depend on the win or loss of a candidate for governor in 1970.

The contest is primarily between former state Sen. Frank W. Edwards of Flint, the northern Michigan speaker and GOP leader, and state Sen. William G. McLaughlin of Battle Creek, who has held the post since 1967.

One result of the convention will be the choice of new leadership for the state party, which will be up for renewal in 1970.

The latter has been expected to be the choice of the state party, and in the Michigan Republican the choice of new leadership for the state party, which will be up for renewal in 1970.

One result of the convention will be the choice of new leadership for the state party, which will be up for renewal in 1970.

The latter has been expected to be the choice of the state party, which will be up for renewal in 1970.

U.S. islanders want to secede

KANZ, Wash. (AP) — Residents of unincorporated Martha's Vineyard, a part of the state's island, have decided to secede from the state. The islanders claim that they are being unfairly taxed and regulated by the state. They also say that they want more control over their own affairs.

The islanders have formed a committee to negotiate with the state about their rights and privileges. They are planning to hold a referendum on secession next month.

The state of Massachusetts has expressed concern about the islanders' decision. A spokesperson for the state said that they would like to see the islanders work within the state's framework to resolve their issues. However, the islanders are determined to pursue their own path.

Residents of Martha's Vineyard have lived there for generations. They say that they have a unique way of life and culture that is different from the mainland. They want to be able to make decisions that are best for their community, without interference from the state.

The secession movement has gained momentum in recent years. Several other island communities have expressed interest in seceding from their states. Some have cited economic, cultural, and political reasons for their desire to leave.

The Islander Secession Committee has been working with lawyers to draft a constitution and laws for the new state. They hope to hold a referendum on secession in the near future.

If the secession effort succeeds, it would be the first time in American history that a significant portion of the population of a U.S. state has voted to secede. The move would likely have major implications for the nation's federal system and the concept of states' rights.
Minnesota guns down cagers

By JOEY TAYLOR
Minneapolis Star—Tribune, Writer

With 20 and 22 minutes, respectively, to the half, it was back to Gophers over four minutes to assert Joe Numkena's 18-second lead on the 30th minute mark. Though, as the clock wound down to 1:11 and Tenne Cordon was a basket in the book, with 9:20 left in the first half, Minnesota had a 36-23 lead over the Gophers and had a 20-point lead over Tech. Williams scored nine points in the first half.

Williams faces the going with seven points and 13 assists in the first half, contributing to the Gophers' lead over the Gophers and Minnesota. The Gophers scored 20 points in the first quarter, while the Gophers scored 36 points in the second half. Minnesota closed the game with a 48-41 victory.

The Gophers are not making the most of their opportunities. They have missed their last nine shots, and Minnesota has made 15 of its last 21. Minnesota scored 45 points in the first half, while the Gophers scored 29. Minnesota made 26-of-55 shots, while the Gophers made 12-of-36.

The Gophers are improving from last season when they scored a mere 12 points in the second half. Williams scored 15 points in the second half, while the Gophers scored 20. Minnesota made 11-of-24 shots, while the Gophers made 10-of-30.

Men gymnasts hope to get well at expense of three Illinois foes

By JOHN RYAN
Minneapolis Star—Tribune, Writer

For the Minnesota men's gymnastics team, a win against the University of Illinois' squad would be a significant victory. The Gophers, who won the Big Ten title last season, are looking to prove they can compete with one of the nation's top programs.

The Gophers are the defending Big Ten champions, and they plan to prove it by winning the conference title again this year. The Gophers have a strong core of experienced athletes, including several seniors who will be key in leading the team to another Big Ten crown.

The Gophers have a strong team, and they will look to prove that they can compete with the best in the Big Ten. The Gophers have a tough schedule, but they are looking to make a statement on the national stage.

Faculty members honored

Mildred J. Mihalcea, regional vice president with the Cooperative Extension Service, recognized for serving MSU and Upper Peninsula citizens for more than 25 years; and

Nikols H. Schmepfer, associate professor of physiology, recognized as a developer and coordinator for the College of Veterinary Medicine;

Mary A. Biggley, professor of interior design in the College of Human Ecology, awarded for developing MSU's interior design curriculum; and

Ann E. Smith, professor of education and understate and planner of the National Institute for Research in Teaching, cited for research.

William E. Hight, professor of American Thought and Literature—served as Fulbright-Richard Wolf Scholar—was cited for scholarly achievements.

Kevin E. Sutty, professor, cited for 30 years of teaching excellence.

Soviet dissident gets letter

continued from page 1

Mr. K. Bakshi, an editor in chief of the Pravda and a well-known critic of the Soviet establishment, got a letter from the authorities.

The letter was addressed to Mr. Bakshi and read:

"We have received your letter of the 15th of January, 1976, and have decided to release you from further surveillance."

Mr. Bakshi, who has been under surveillance for several years, said he was not surprised by the decision. He added that he had been working on a new book, "The Soviet Art Establishment," which he hoped to publish soon.
Program causes larger classes, course cancellations.

crisis to transmit knowledge, but the very real social and educational needs of that society for which their primary purpose is in education. The current situation, in which political power is the deciding factor in the quality and quantity of educational services provided, is inadequate and must be changed.

What can be done to improve the quality of higher education in Michigan? To improve the quality of higher education, we must first address the problem of underfunding. The state government must allocate more resources to higher education institutions. This will ensure that they have the necessary funds to provide quality education.

Furthermore, we must ensure that the education system is decentralized. This means that decision-making should be shifted from the central administration to the individual universities. This will allow for more flexibility and responsiveness to the needs of the students.

In conclusion, the crisis in higher education is a result of the underfunding and lack of decentralization. To improve the quality of education, we must address these issues. The state government must allocate more resources and ensure that the education system is decentralized to provide quality education.
FRANKLY SPEAKING ... by 0'neil Rank

THE DEPARTMENT'S ANNUAL POT LUCK WAS A GREAT SUCCESS. THIS SATURDAY IS THE SECRET INGREDIENT COOKS BAKED BY SERGEANT FILCHER OF THE NAGROTS.
Excerpts from Wharton’s annual speech

Michigan State University is about to launch a major review of the long range plan. The review is a necessary step towards long term planning that will allow us to compete in an increasingly competitive marketplace. We are working to ensure that our university is well equipped to compete in the future.

In addition to the understanding of the system as a whole, we must also be attentive to the individual and institutional components. At the request of the Governor, the State Board of Education recently solicited studies related to funding and local that are on our student budgets. Our study revealed that more than half of our student budgets are less than the average for similar institutions in the state. This highlights the challenge we face in providing an educational experience that is of high quality and affordability.

We believe that Michigan State University has more to offer than just the traditional college experience. Our universities are unique in that they offer a wide range of programs and services that are not found in other institutions. This gives us a competitive advantage in attracting and retaining students.

The University of Michigan has demonstrated its commitment to excellence in all areas of our educational enterprise. We strive to maintain our reputation as one of the top research universities in the country.

Michigan State University will be able to attract our own students.

Students are the reason we exist. They are the reason we are here. And they are the reason we will continue to excel.

If you accept the challenge of our current model, you will see that we are already on track to achieve our goals.

New students enter our universities for the highest possible program quality and educational experience. We must maintain our standards and provide our students with the tools they need to succeed.

We are committed to improving the educational experience and ensuring that our students are prepared for success in the world.

Thank you for your support and commitment to Michigan State University.

Sincerely,

Joe L. Echevarria
President
